My sincere thanks go to my supervisor PhDr. Jaromír Volek, Ph.D. for his confidence in my abilities and his illuminating comments. In the last phases of writing I found a safe haven at Dublin City University and received much appreciated support from Professor Paschal Preston. I would also like to thank Professor Marsha Siefert for her continued support, encouragement and friendship.

My thanks are also due to fellow PhD students with whom I shared the "old" office for a number of years – thanks for the constant supply of music and great company. My family and friends had to put up with the ups and downs that I experienced during my PhD studies, thank you for standing by me.
