1 Explain what the redundancy effect is. It is the fact that regular speech offers more cues for understanding than necessary. In other words, certain features are redundant and it doesn't matter if they are absent in limited input (such as the noise of traffic).

2a Spell the transcribed expression: $[\cup \rho \Box \kappa \leftrightarrow \nu \cup \rho \leftrightarrow Y \Re]$ **rock 'n' roll 2b** Spell the transcribed expression, tick the correct and cross the incorrect transcription: [$Ivt \leftrightarrow \cup veI \Sigma v \leftrightarrow \Re \cup \tau \rho eI \delta] X$ or [$Ivt \leftrightarrow \cup v\Theta \Sigma v \leftrightarrow \Re \cup \tau \rho eI \delta] \sqrt{international}$ trade

2c Transcribe the spelt expression: an impressive personality

$$[\longleftrightarrow vI\mu \cup \pi\rho\epsilon\sigma \longleftrightarrow \varpi\pi \in \neg\sigma \longleftrightarrow \cup v\Theta\lambda \longleftrightarrow \tau\iota]$$
 2d Transcribe the expression K. Tomkova will read:

$$[\lambda Y \kappa \cup \phi \Box]\omega \longleftrightarrow \delta \tau \longleftrightarrow \Delta \iota] [\gamma \cup \zeta \Theta \mu]$$

3 Mark main stresses in the following words: un\u2264known, well\u2264\u2264known, a\u2264do, Ufemale, imUportant, Uappetite, proUjectile, to preUsent a Upresent, to reUbel a∪gainst the ∪law, pho∪tography, photo∪graphic, ac∪climatize, aquama\(\text{rine}\),

∪educated, ∪constipated, objec∪tivity, apothe∪osis, ine∪xactitude, ad ministrative, cannibalism, ari stocracy, inferi ority, electrifi cation, meteoro logical, cere moniously, indi stinguishable, intelligi bility, uni\(\)lateralism, industriali\(\)zation, internationali\(\)zation, \(\)grasshopper, Ufire-extinguisher, easy-Ugoing, postUgraduate, second-Uhand, arch∪bishop,

down Ustairs, black Ucurrant.

4 Give a phonetic description of all the sounds of the word determined. Transcribe the word. Do not forget about its main stress. $[\delta I \cup \tau \in \mu I \nu \delta]$

Vowels	diphthongs	Monophthongs

- **5** Explain these expressions and give a fitting example in English:
 - phonologically relevant stress means that the stress alone may change the meaning of a word and/or its part of speech, e.g. to present a present; a career x a carrier.
 - articulatory difference between consonants and vowels: **obstructions to produce consonants, no obstructions to produce vowels.**
 - affricate: a combination of a plosive and fricative, e.g. $/\tau\Sigma$ /, $/\delta Z$ /
 - juncture: where one word finishes and another begins; in English, smooth liaison is preferred to a glottal stop; frequent use of linking and intrusive r's.
