MASARYK UNIVERSITY FACULTY OF LAW INSTITUTE OF LAW AND TECHNOLOGY

cordially invites you to attend a workshop:

Applying Artificial Intelligence to Law:

Lessons Learned and Future Directions

Researchers in Artificial Intelligence and Law build computational models of legal reasoning to assist in legal theory, problem-solving, and pedagogy. The challenge has been to connect these models to the texts and arguments attorneys, judges, and law students actually use. This talk explores some implications of recent developments, particularly the "Jeopardy" game-winning Watson program.

Lecture presented by:

Kevin D. Ashley, J.D., Ph.D.

- Professor of Law and Intelligent Systems, University of Pittsburgh
- Senior Scientist, Learning Research and Development Center
- Fellow, American Association of Artificial Intelligence
- Buchanan, Ingersoll & Rooney Faculty Scholar
- Senior Visiting Fellow, Institute for Advanced Studies, University of Bologna

Date and time: 6th October 2011, 14:00

Venue: Room n. 109, Faculty of Law, Masaryk University

Entrance: Free

Registration at: www.cyber.law.muni.cz

Tento projekt je spolufinancován Evropským sociálním fondem a státním rozpočtem České republiky.
