

University Repository:

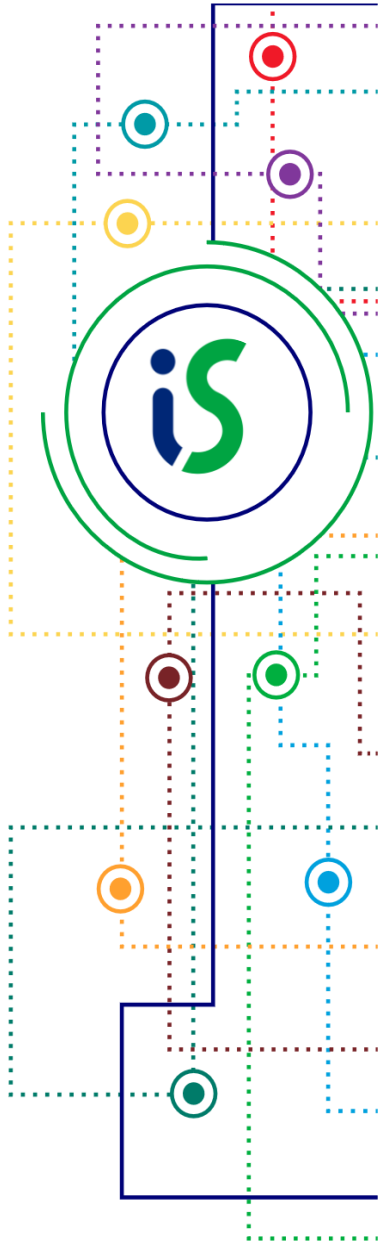

Way to Open Access at Masaryk University

Anna Jedličková

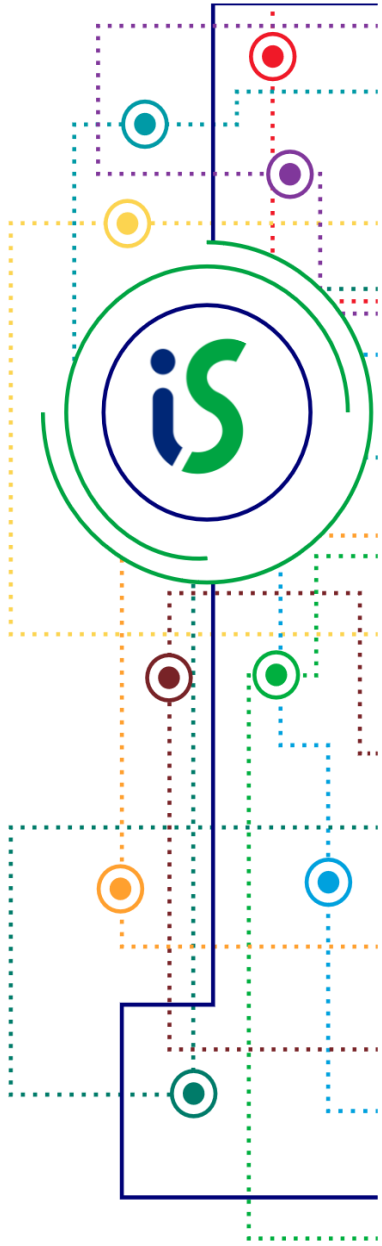

History

- 2004 – Archiv of Theses in IS MU
- 2006 – Publication of theses on the internet
- 2006 – Plagiarism detection system
- 2008 – Theses.cz (interuniversity project)
- 2009 – Odevzdej.cz (interuniversity project)
- 2010 – Plagiarism detection accross the internet
- 2011 – University repository
- 2012 – Interuniversity repository (Repozitar.cz)

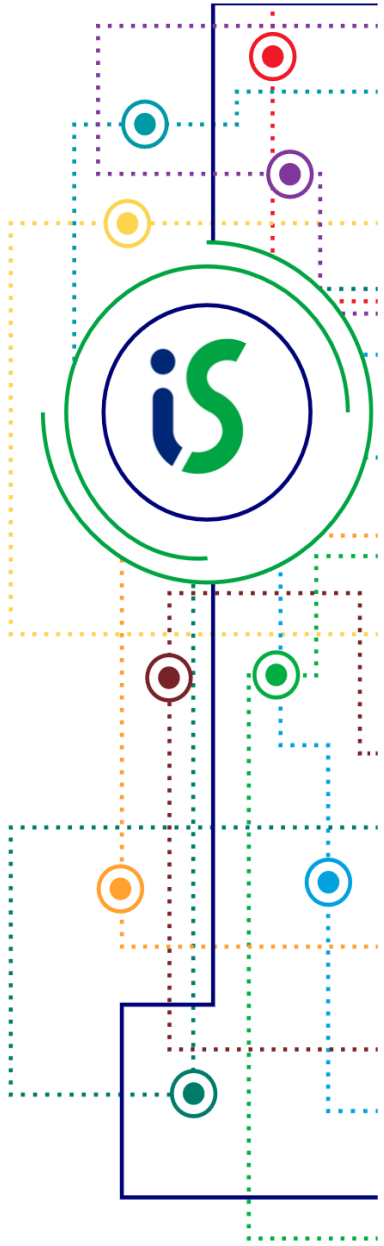

Goals of university's repository

- Presentation under Open access licence (<https://is.muni.cz/repozitar/>, <https://is.muni.cz/elportal/>)
- Evidence and long-term archiving of scientific publications
- Submitting to RIV (registry of results of research and development)
- Plagiarism detection in scientific outcomes
- Looking for similar documents among theses, seminar works and further resources

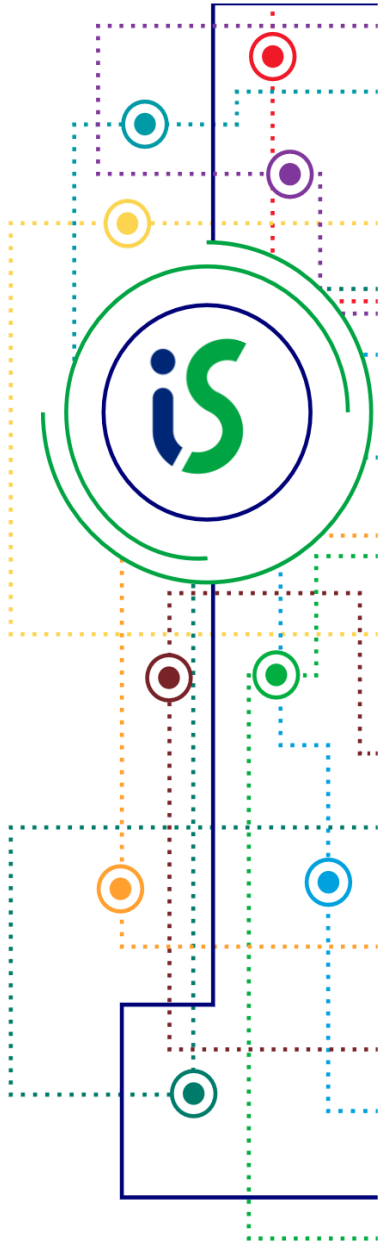

Evidence of publication records

- Integrated modul of IS MU “Publications”
- For evidence of “metadata”
- Users (authors) upload their publication records
- Submitting to registry of R&D (RIV)

Full text submissions

- Type (job-related / private)
- Version (draft / submitted version / accepted version / published version / updated version)
- Creative Commons licence
- Access rights and date of availability

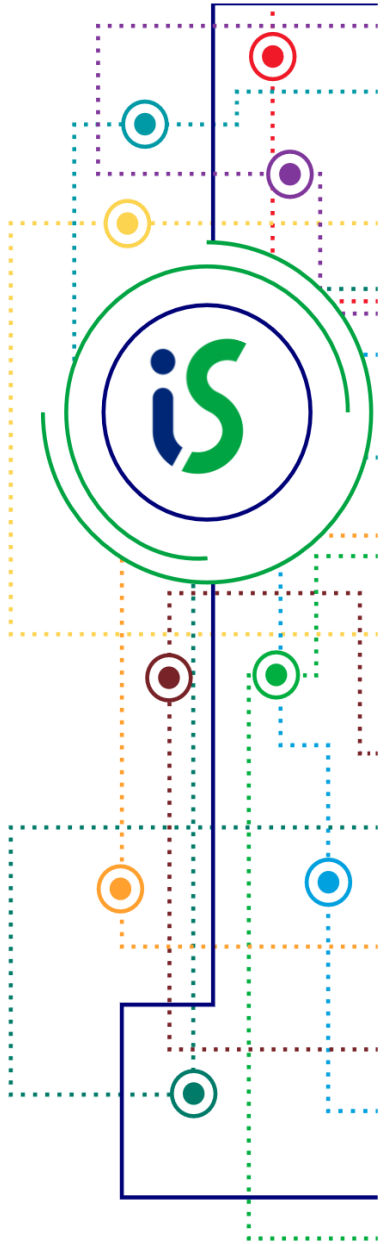

University repository in numbers

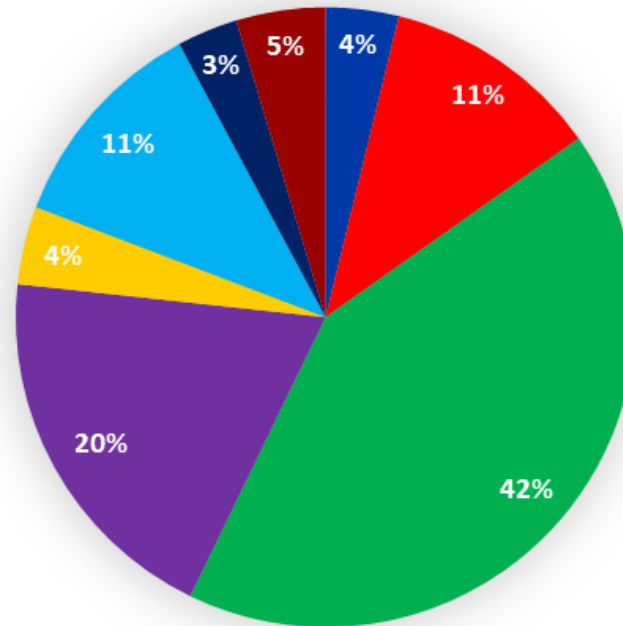

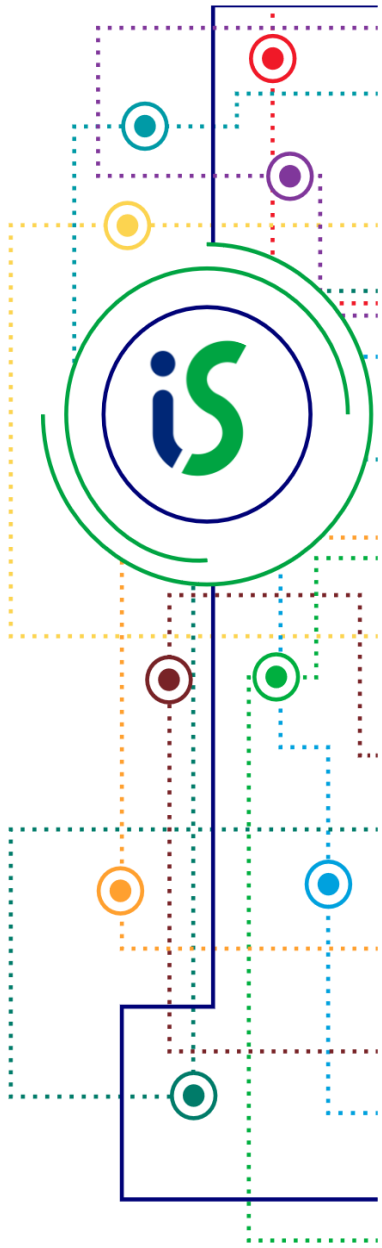

- 8149 Publications
- 3938 Publications with some rights to read

Specifically:

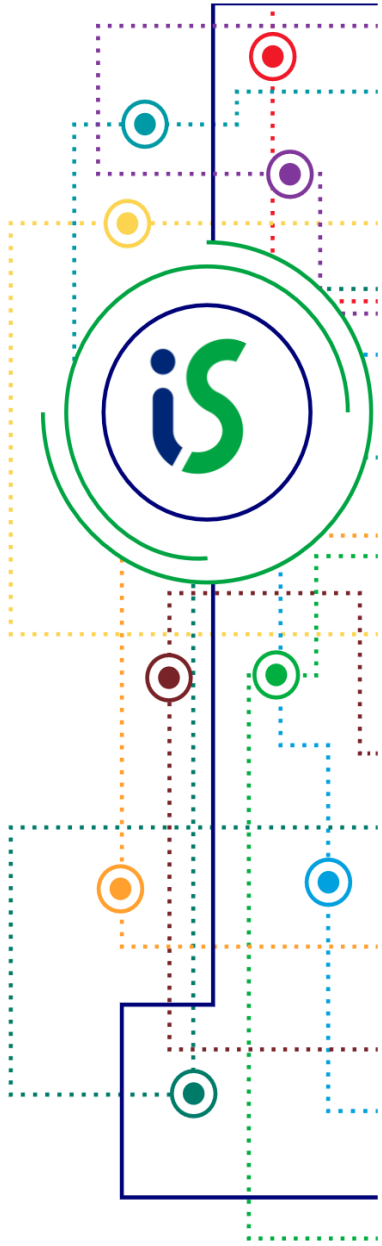

- 310 Books on a specialized topic
- 930 Chapter(s) of a specialized book
- 3421 Articles in a journal
- 1590 Articles in a proceedings
- 332 Textbooks (including individual chapters), Overviews and educational texts, Popularizing texts, etc.
- 928 Presentations at conferences and conference abstracts
- 258 Requested lectures
- 350 Others

University repository in numbers

- Books on a specialized topic
- Chapter(s) of a specialized book
- Article in a journal
- Article in a proceedings
- Textbooks (including individual chapters), Overviews and educational texts, Poluparizing texts, etc.
- Presentations at conferences and conference abstracts
- Requested lectures
- Others

Fighting plagiarism

- Protection of scientific outcomes against plagiarism
- Educating of academic society
- Plagiarism detection modul is part of IS MU, Theses.cz, Odevzdej.cz, Repozitar.cz
- Plagiarism detection outputs

Theses.cz, Odevzdej.cz, Repozitar.cz in numbers

Theses.cz

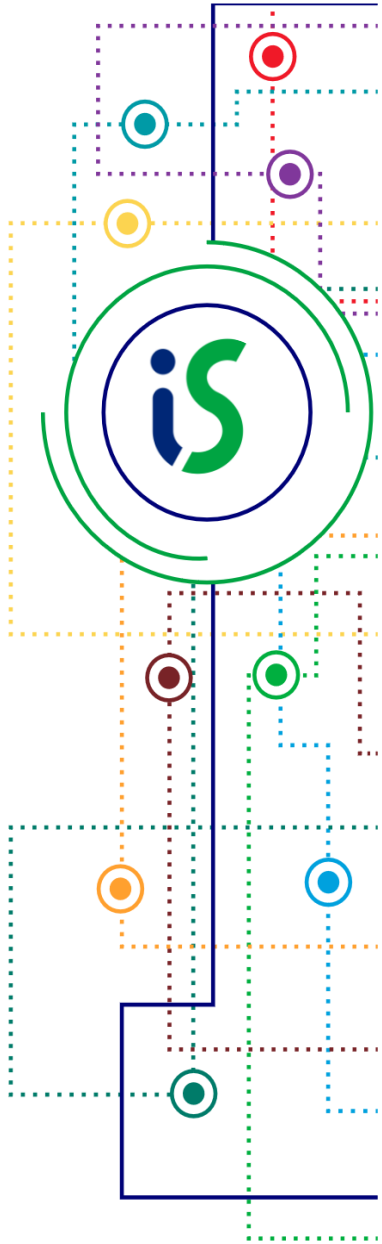

Number of institutions	56
Colleges	44
Faculties	5
Higher vocational schools	7

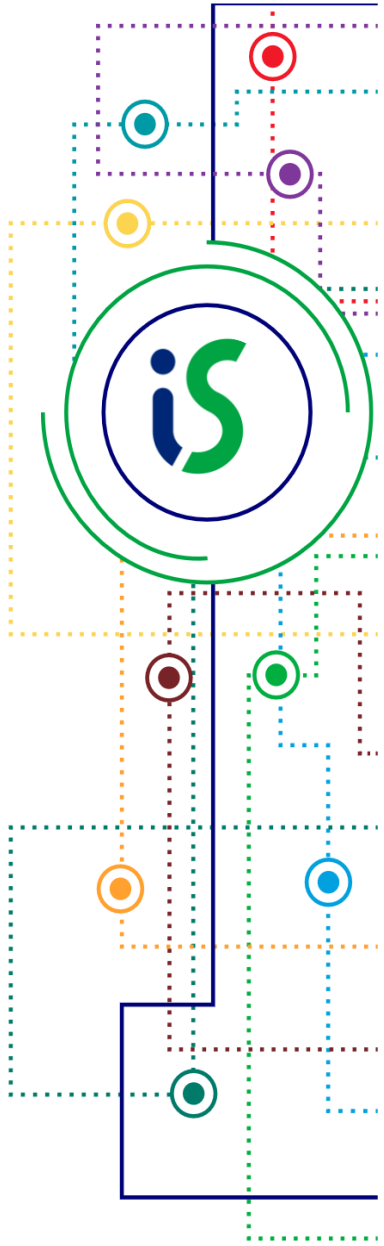

Odevzdej.cz

Number of institutions	50
Colleges	31
Faculties	5
Higher vocational schools	3
High schools	9
Public institutions	2

Repozitar.cz

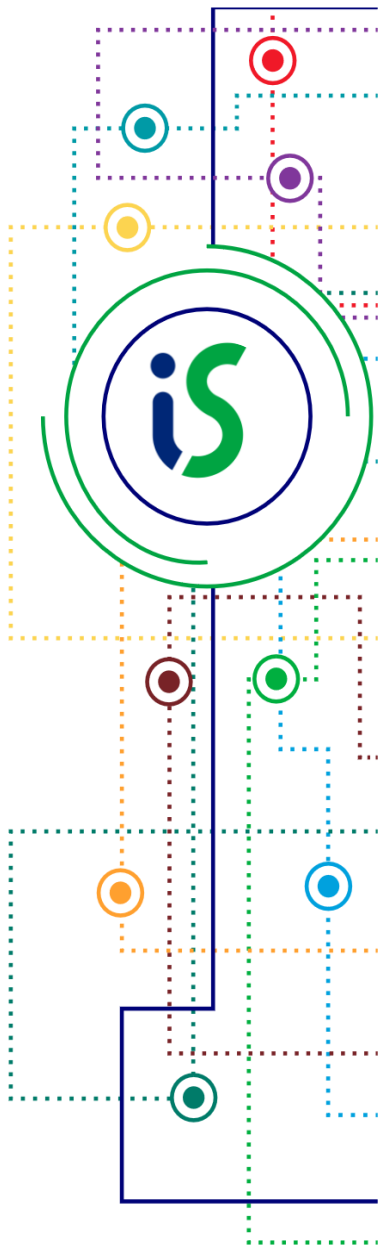

Number of institutions	29
Colleges	29

We are close to OA, but...

- Technical solution
- Established internal procedures
- Directive on intellectual property
- Legal aspects
- Job-related vs. Private publications
- Motivations

Discussion

Thank you.
