

## Student Course Assessment

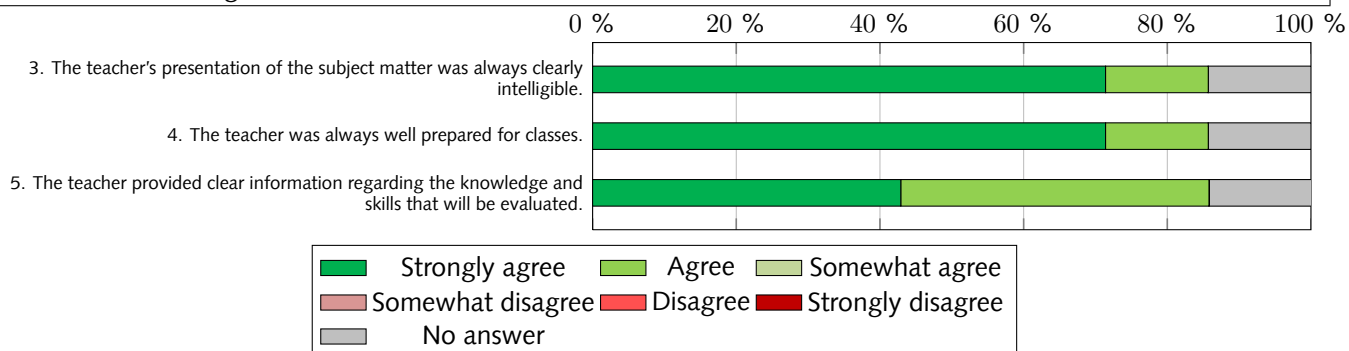

### ESF:MPE\_ACMI Seminar in microeconomics - doc. Ing. Ondřej Krčál, Ph.D.

Enrolled in: 45, Completed by: 6, Participation rate: 13.3 %

	Answered (total)	Average rating of the courses at the faculty	Average rating of the teacher of the course
Teaching and final assessment in this course were implemented at an appropriate level even during the emergency measures.	28	1.6	1.6
1. The course is of educational value to me; it enriches me.	28	2	1.8

In order to calculate the mean value, please use the following values: strongly agree = 1, agree = 2, somewhat agree = 3, somewhat disagree = 4, disagree = 5, strongly disagree = 6. In case "no answer" is provided, the answer is not included in calculating the mean.

	Answered (total)	Average rating of the courses at the faculty	Average rating of the teacher of the course
3. The teacher's presentation of the subject matter was always clearly intelligible.	7	1.8	1.2
4. The teacher was always well prepared for classes.	7	1.5	1.2
5. The teacher provided clear information regarding the knowledge and skills that will be evaluated.	7	1.7	1.5

In order to calculate the mean value, please use the following values: strongly agree = 1, agree = 2, somewhat agree = 3, somewhat disagree = 4, disagree = 5, strongly disagree = 6. In case "no answer" is provided, the answer is not included in calculating the mean.

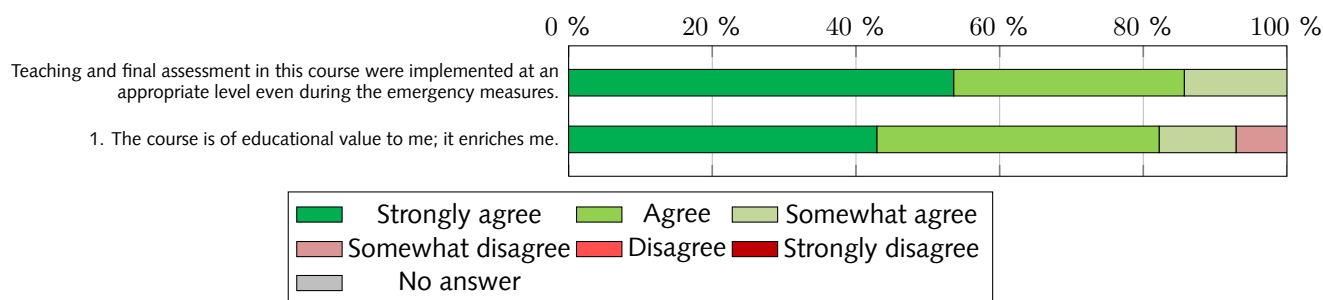

2. Provide an estimated number of hours you spent on this course (including lecture/seminar attendance + work on essays and assignments + homework + studying for tests/examinations).	
max	600
min	5
median	95
average	135.7
faculty median	60
faculty median of the classes with the same credit value	65
the number of credits of this course	5

A list of all the individual answers to this question can be displayed in the application Survey Results in the IS.

<b>6. In your opinion, what does the teacher excel in? What do you value most in their course or in their approach to teaching? Do you have any recommendations regarding the teacher's lessons or approach to teaching?</b>
<i>The professor was calm and answered every question during the class, also he is really motivative and supportive towards the students</i>
<i>no idea</i>
<i>Luca was giving our seminar classes</i>
<i>Good</i>
<i>practical exams from industry</i>
<i>No recommendations</i>

**6. In your opinion, what does the teacher excel in? What do you value most in their course or in their approach to teaching? Do you have any recommendations regarding the teacher's lessons or approach to teaching?**

*Mr. Luca Fumarco was well prepared for his students. We clearly understood his lectures and we had no problems with this course. I believe that his methodology will create new paths in education.*

*Nice personality*

*Good*

*The overall course structure was okay and the information in IS was also well structured and clear, however, professor's speech and teaching skills have to be improved because sometimes it seems that professor scares students and scare to answer questions in the class (via email all was okay). Also the way how the material is delivered has to be improved because it was very complicated to hear for 2 hours such monotonous speech and poor explanation, but i think it is because professor has to improve his public presentation skills and be more confident and strict with students. However, i appreciated the manner how the professor communicates with students via emails and interesting extra tasks (economic experiments and surveys) where students can participate.*

*He's a really good professor*

*Communication with students and guiding students to solve problems. Teaching is also student centered approach as all students are involved in lessons.*

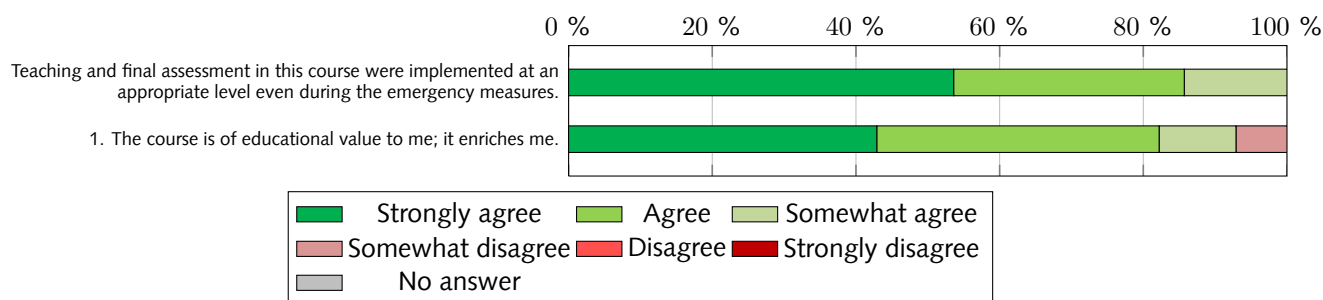

*It is clear that teacher has knowledge, but it was also clear during the lessons that he is new. In my opinion he should be a little bit more strict to the students.*

*He needs an assistant to be able to perform better in the class. Trying to teach online and in the class at the same time is challenging.*

*The Teacher excels in breaking things down to our level of understanding and demonstrates exceptional knowledge of the course.*

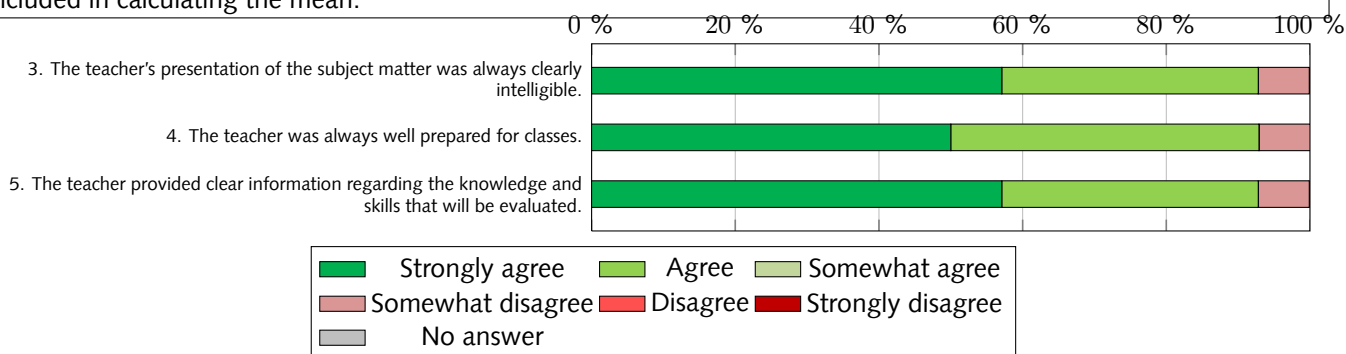

# ESF:MPE\_ACMI/02 Seminar in microeconomics - Luca Fumarco, PhD

Enrolled in: 18, Completed by: 12, Participation rate: 66.7 %

**6. In your opinion, what does the teacher excel in? What do you value most in their course or in their approach to teaching? Do you have any recommendations regarding the teacher's lessons or approach to teaching?**

*nothing*

*good person*

*Well, I enjoyed his class and also his method of engaging us in class was great*

*was attentive to student needs and always corresponded when students I needed help with the course.*

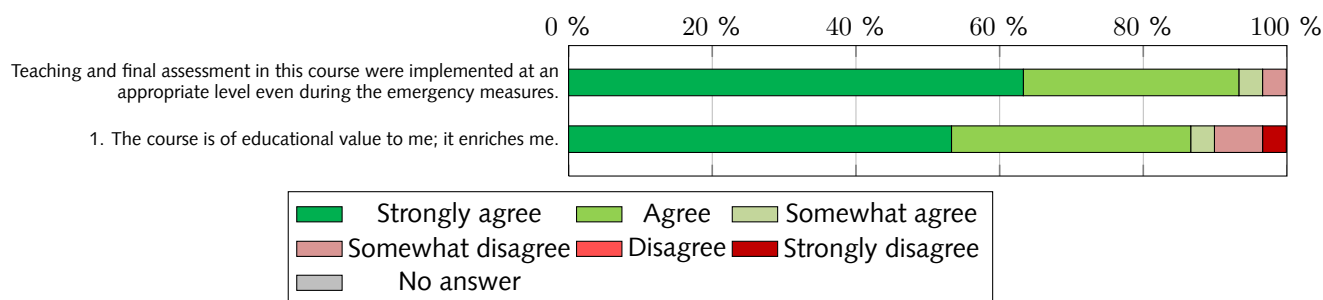

*Time keeping. Excellent in management of time*

*The teacher excels in explaining the basic concept of the subject and was always responsive to any problem faced by the students. The most valued part of the course was the basic concept of microeconomics which will help students to implement in their real life.*

**6. In your opinion, what does the teacher excel in? What do you value most in their course or in their approach to teaching? Do you have any recommendations regarding the teacher's lessons or approach to teaching?**

*nothing*

*The teacher exhibited deep understanding of the course and taught and put in effort to break things down to our level. He is exceptionally excellent with the course!*

*The teacher's way of presenting the lesson was pretty good. An aspect to be improved would be to solve some of the exercises on the board instead of reading them.*

*I like how he taught the classes, he's a good professor*

*He's very good in he's communication with students and has control over the subject matter*

*He needs an assistant to be able to perform better in the class. Trying to teach online and in the class at the same time is challenging.*

*Does well to provide materials for students with no economics background to aid understanding and that's very commendable*

*Good*

*He is good with engaging with students*

*Good communication skills*

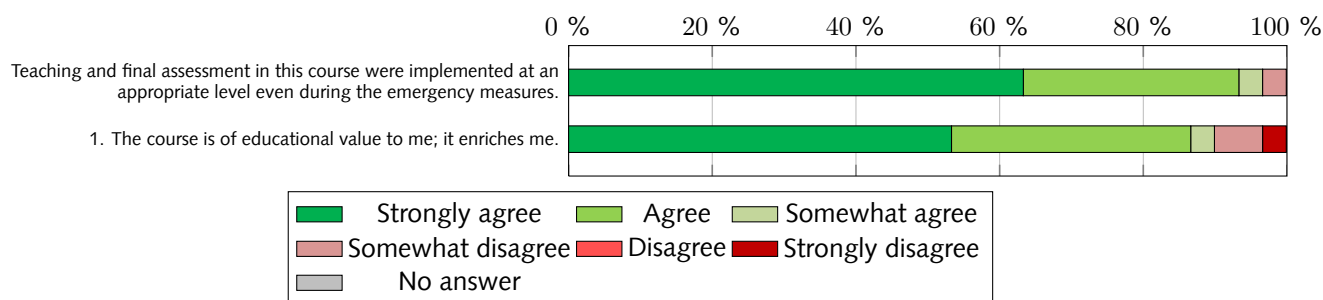

*Mr. Luca Fumarco was well prepared for his students. We clearly understood his lectures and we had no problems with this course. I believe that his methodology will create new paths in education.*

*Nice personality*

*The teacher excels in explaining the basic concept of the subject to students and was very helpful to students in clearing there doubt about microeconomics.*

**6. In your opinion, what does the teacher excel in? What do you value most in their course or in their approach to teaching? Do you have any recommendations regarding the teacher's lessons or approach to teaching?**

*good*

*It is good to have groups discussions about the projects and other teams' ideas and analyses about the project. The suggestion is Maybe the professor could give few case study discussions to develop students' ability to analyze and problem-solving skills.*

*The lecturer and lectures were overall good.*

*Amazing teacher. The best one.*

*He is patience and assist student to get results*

*everything*

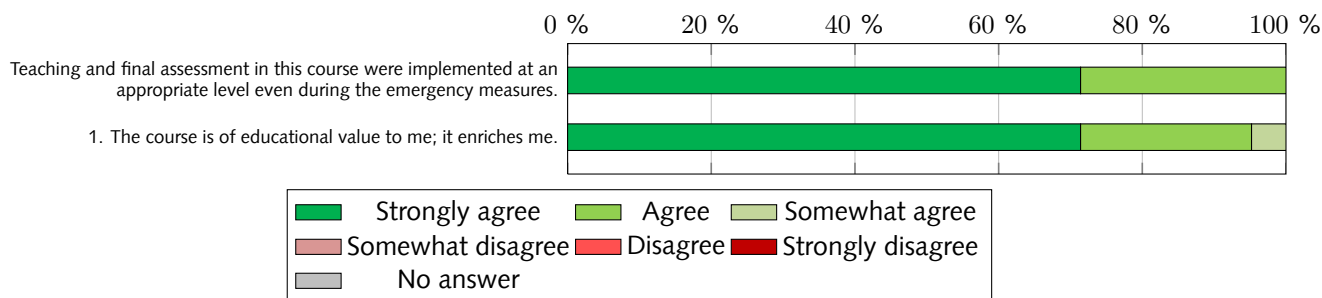

*Professor Tuck is the most practical person which I have ever met and that is big advantage when it come to this lecture because through whole duration of subject you are working on practical business plan and each week you have discussion with other students about points that are part of business plan.*

*Very knowledgeable and always make time for students to explain concepts and what's expected of them. The approach to teaching was a very lively and interactive class which was difficult to miss.*

**6. In your opinion, what does the teacher excel in? What do you value most in their course or in their approach to teaching? Do you have any recommendations regarding the teacher's lessons or approach to teaching?**

*very interactive class and uses students worked on tasks in groups which made the class more interesting to be. Always ready to listen and guide students on what to work on in their projects.*

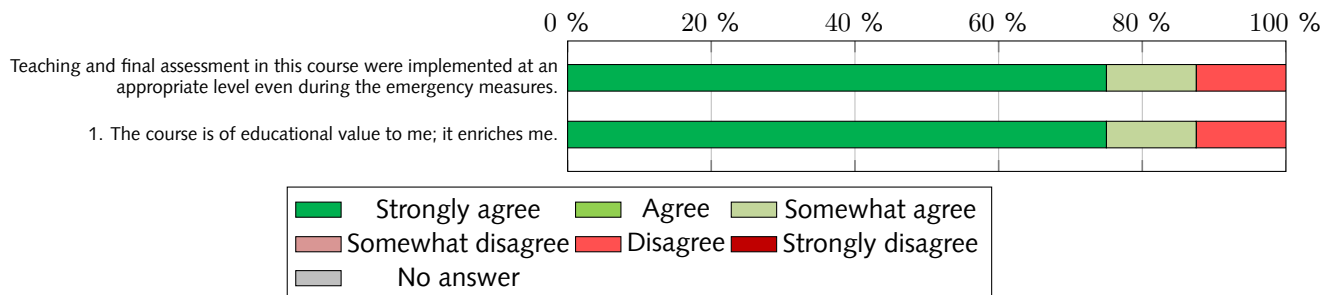

*Teacher put a lot of effort to make this subject as interesting as it can be (through practical exercises, through a lot of group presentations and through final project). With this approach it is much easier to acquire knowledge and to get as much as you can from one subject.*

**6. In your opinion, what does the teacher excel in? What do you value most in their course or in their approach to teaching? Do you have any recommendations regarding the teacher's lessons or approach to teaching?**

*The teacher excels in explaining the main purpose of the subject and the evaluation of every case was very helpful in understanding the concept of social responsibilities that an individual has to keep in mind while working in corporate sector.*

*The teacher was excel in giving mentally pressure to the students. I would only suggest that online class should be void and some physical professor available in the Masaryk University should teach this course so students can attend the class.*

*good communication skills and has command over the course*

*The worst teacher. Doesn't teach anything. The whole course is a scam. He does whatever he wants in this course. He scores people according to his mood.*

*Despite the course was fully online, there were no any problems regarding structure of the course and overall course completion because all information in IS was well structured and teacher was always available for questions. However, sometimes it was quite complicated to understand what is expected for the tasks.*

*Good*

*The course was really engaging and very practical. I also really appreciate how well he engaged us.*

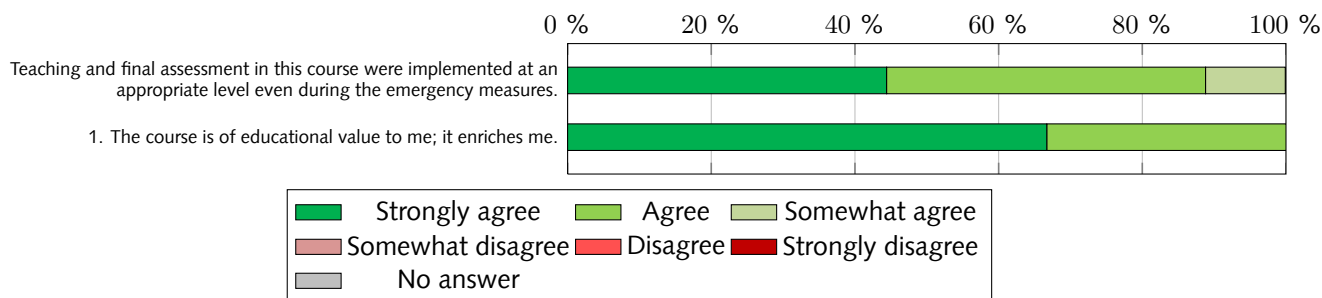

*He's very demanding with his expectations and makes it clear to students. Also reads students case analysis and provides timely feedback for all students. The knowledge gained from this course is what schooling should be about. it prepared us for a real-life working experience out there and how to solve organisational problems when presented with a situation. I will recommend students are able to meet the lecturer more often since its an online course for questions and clarifications. The models and the cases should be constanly reviewed with different examples for the technical part for students to undertstand whats required of them. The course structure is the best and i think should be kept.*

*His unique style of teaching through case analysis is very commendable!*

**6. In your opinion, what does the teacher excel in? What do you value most in their course or in their approach to teaching? Do you have any recommendations regarding the teacher's lessons or approach to teaching?**

*One of the best courses in terms of its organization and structure. All was clear structured in Syllabus, Professor was easy to reached for questions and overall was clear understood. However, it will be better to replace case analysis task for something else because sometimes they were not clear what is expected and how they were evaluated.*

*He pushed us really hard and we learned a lot. However, he could have announce according t what he is grading our presentations because I was the one who made the first presentation and my grade is lower than my classmates because of this issue.*

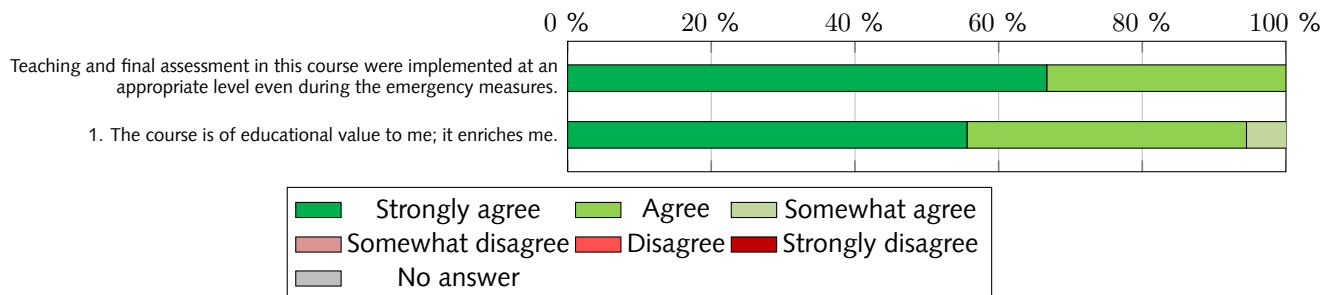

*I liked the class its really interesting*

*He's very good in delivering the course content and involves student in the lesson. Instructions on what is expected in exams could be improved as it wasn't clear and students were confused during the exam.*

**6. In your opinion, what does the teacher excel in? What do you value most in their course or in their approach to teaching? Do you have any recommendations regarding the teacher's lessons or approach to teaching?**

*The lecturer and lectures were overall good.*

*Very structured course and well-prepared professor for every class. Moreover, professor treated to speak more and express opinion which is very useful for this course.*

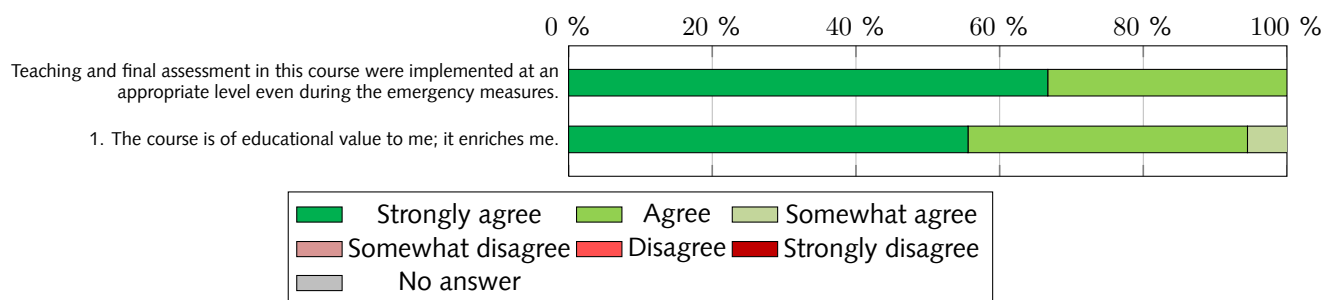

*one of my best lecturers, very accommodating and cooperative when it comes to classroom activities.*

*This course is one of the best I have ever had, it is just amazing how little we usually know about presentation skills.*

*I learned a lot from her.*
