Endorsement of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (Charter and Code)

The Faculty of Economics and Administration, represented by the Dean, Professor Antonín Slaný, as part of Masaryk University, represented by the Rector, Professor Martin Bareš, welcomes and fully supports the initiative of the European Commission and the recommendations given in the Charter and Code.

Having endorsed the 40 principles of the Charter and Code, we would like to notify you of our commitment to implement these principles in our institution via the Human Resources Strategy (HRS4R).

For us, the principles and recommendations of the Charter and Code are the basic rules for supporting the work of researchers and maintaining the high quality of research. The continuous improvement of working conditions and the development of career opportunities are some of the top priorities at our faculty. We, therefore, welcome the opportunity for an internal analysis within the framework of the HRS4R and we aim to implement this process within a wide array of our institution's current activities in human resources policy.

By adopting the Charter and Code, we also hope to attract the most outstanding researchers within the European Research Area and beyond.

Professor Antonín Slaný
Dean
