

## RECOMMENDED STUDY PLAN – INSTRUCTIONS

(for bachelor's studies)

The Recommended Study Plan (RSP) contains a list of courses that the student must complete during the studies.

The plan is called "recommended", so there is no obligation to enrol a course in the semester in which it is stated in the RSP.

Each student can arrange the courses according to his/her needs and wishes. However, when composing the plan, the student needs to **pay attention to the following**:

- Most courses are offered only **once** per academic year, i.e. only in the autumn or only in the spring semester. Therefore, if a course is offered in the autumn semester, the next option to enrol in it will be in a year time.
- The student must obtain at least **180 ECTS to complete the bachelor's degree programme**. If the student plans to complete the studies during the standard study period of 6 semesters, they must obtain an average of **30 ECTS per semester**. At the same time, it is necessary to **pay attention to the Study and Examination Regulations**, which say that:
  - To enrol in the next semester, the student is obliged to obtain at least 20 ECTS per semester or 45 ECTS in two previous semesters together.
  - At the same time, the student is obliged to complete all repeated courses enrolled in the current semester successfully.

The Recommended Study Plan is compiled so that the first semester in the table corresponds to the autumn semester. Therefore, **if a student starts the studies in spring (spring intake students), it will not be possible to enrol in most of the courses that are in the RSP in the first semester (autumn courses)**. In this case, the student switches the semesters in the RSP. In the first semester (spring), the student enrolls in courses that are listed in the RSP as courses for the second semester and in his/her second semester enrolls in courses from the first semester in the RSP.
