Prof John Anchor

Associate Dean (International), Huddersfield Business School

My name is John Anchor and I am Professor of International Strategy in the University of Huddersfield. My research is focused on emerging markets, especially in Central and Eastern Europe and the Middle East. Studies have been undertaken of students' earnings expectations in Central Europe and political risk assessment and strategic planning use in the Middle East. The main research question which I am seeking to answer is "do emerging markets make a difference to organisational conduct and performance and/or individual behaviour?".

Jevgenia Tomina - Hospitality Business Management BA(Hons)

Jevgenia completed a placement year at the hotel chain Jurys Inn and went on to their graduate programme after completing her studies.

“The reason I decided to study at the University of Huddersfield was because the course looked very interesting and exciting, as well as it’s ranked as one of the highest courses across the UK. Another reason is because of the community and social life. As an international student I was pleased to know how warm and welcoming the University of Huddersfield was.”
