Years of experience :
Company description :
EUROCONTROL, the European Organisation for the Safety of Air Navigation, is an intergovernmental Organisation with 41 Member States, committed to building, together with its partners, a Single European Sky that will deliver the air traffic management performance required for the 21st century and beyond. We help our Member States to run safe, efficient and environmentally-friendly air traffic operations.

Job description :
Support in eliciting the business needs, by discussing with BCE line managers; Contribute to examine the existing data relevant for performance analysis; Participate in the study of the existing tools (available within CRCO or more widely, within EUROCONTROL) and verify whether they can address the needs. If not, possibility to propose new tools (preferably open-source software); and assist in the delivery of a "first release" of the solution (interactive dashboard, or set of static reports).---

Required profile :
Background in IT, preferably at the Master level or equivalent; Knowledge of HTTP, Excel, VBA, SQL, Windows and/or Linux, possibly Java; Knowledge of statistical analysis and being familiar with statistical packages and/or business intelligence applications.
