

Current support options for text translation at the Faculty of Arts MU

Addendum to FA MU Instruction No. 2/2021, Article 4 Implementation of the Instruction, point 2

Updated on 16. 03. 2022

1. Translation of formal texts/information

For the translation of formal texts/information (e.g. internal regulations) an external supplier can be used. For the period 2022, the selected supplier is Aspena, s.r.o. Translation order procedure: contact person is [Mgr. Lenka Sobotková](#), lawyer of the FA MU, contact: 549 49 7849, sobotkova@phil.muni.cz

2. Translation of common news/information

A language translator can be used to translate common news/information; we recommend DeepL.

You can download the DeepL app at the link <https://www.deepl.com/en/app/>:

TIP: The application makes your work easier by automatically launching and translating the selected text when you press Ctrl+C+C.

If you do not want to use the DeepL application, you can use the DeepL language translator available on the website: <https://www.deepl.com/translator>.

TIP: If you are not sure of the terminology in English after using the translator, you can check the English terms in the MU terminology dictionary at the link: <https://portal.muni.cz/slovník>.
