CJV_AP1 Academic Writing in English

PhD, ground-breaking research, international conferences, time zones, life on Venus, innovations, publications, nanotech, Post-doc, international collaboration, zoom, proposals, coffee...

The scientific life of the PhD and the Post-doc, the international life of the PhD and the Post-doc, the private life of the PhD and the Post-doc; it takes a special kind of English to weave them all together and make them all work, and especially to power up the scientific life of the PhD and the Post-doc, starting with confident writing.

CJV_AP1 Academic Writing in English is a new course specially designed for PhDs and Post-docs by Dr Anjuli Pandavar, an experienced British teacher of English for academics and researchers who connect with the world from a position of strength and openness. Head over to the iS to see how [this innovative course](#) works. If you would like to talk to Anjuli, email anjuli.pandavar@sci.muni.cz. Otherwise, just sign up.
