

## LETTER OF INTEREST

**Name of the candidate:**

**PhD study programme:**

**Topic of the PhD project:**

### **Part 1 - Accomplished research project**

*Write about a previous research project you have completed (diploma thesis or equivalent). Indicate the project's title, outline its aims, and specify your contribution.*

### **Part 2 - Motivation for PhD studies**

*Explain your motivation for pursuing PhD studies and specifically why you are interested in the chosen topic of the PhD project.*

### **Part 3 - Contact on referees**

*Please list below the names of 1-2 referees who are familiar with your academic background.*

*Note that the number of required recommendation letters varies according to the programme requirements: 2 for Experimental plant biology, Genomics and Proteomics and Plant Anatomy and Physiology, and 1 for all other programmes.*
