

# Join us as we transform the future of wealth.

## Kick off your career with FNZ in the Czech Republic!

Are you passionate about coding and developing world-class products that are used every day by people across the globe?

We are currently looking for multiple university graduates to join our talented teams across Europe. You do not require any previous commercial experience to join our **Technology Solutions Graduate Programme**.

Our Graduate Programme is specially designed for graduate and early career candidates who are looking to take their first steps into a full-time job for a major FinTech. Over a period of approximately 32 weeks, you will gain experience in FNZ's Analyst Tester and Analyst Developer functions, combining both practical work experience and training & development. Upon completion of the programme, candidates will be assigned to their new Tester or Developer role within the team, as part of a long-term unlimited employment contract.

## FNZ Graduate Programmes - Software Development and Testing

Our graduate programme commences twice a year, with our next cohort intakes in July and October 2024.

If you are interested in applying, please scan the below QR code to upload your CV and our recruitment team will contact you.
