To analyze the current status of McDonald’s corporation, we chose to use the PEST method to evaluate the following categories:

- P  Political
- E  Economic
- S  Social
- T  Technological
Political Challenges

• Health and Safety Guidelines

✓ The director of the obesity program for the Children's Hospital Boston, David Ludwig, claims that "fast food consumption has been shown to increase calorie intake, promote weight gain, and elevate risk for diabetes"
✓ Center for Science in the Public Interest, a long-time fast food critic over issues such as caloric content, trans fats and portion sizes
Political Challenges

• Ecological/environmental issue
  – Fast food industry giants such as Wendy's, Pizza Hut, and McDonalds are some of the largest consumers of paper products in the US. "Every year millions of pounds of food packaging waste litter our roadways, clog our landfills and spoil our quality of life.

• Home market pressure-groups

• International pressure-groups
  – Pushing for increased regulations to make companies more responsible
Political Challenges

- Wars and conflicts
  - war between countries where the company operates.
  - They have also become a symbol of capitalism and Americanism meaning that they have now become the target of terrorist group and attack.
Economic Challenges

• McDonald’s must consider economic challenges when expanding internationally.

Low set up costs = rapid expansion

One of the challenges for fast food industry is to keep the prices low for the customer.

Franchising facilitates set ups

» McDonald’s corporation provides financing assistance and training for new franchise owners to manage cash flow and keep businesses profitable.
Social Challenges

The main reason is the consumers’ worries had greatly increased with

- health fears
  so customers now opt for more healthier options like subway which offers more of a variety for health conscious customers.
Social Considerations

• To ease customers concern about health issues, McDonald’s has made changes to the following;

  • McDonalds changed its image vastly by evaluating the current menu and making changes to it from using organic products to revising the whole menu entirely by offering salads and vegetarian burgers.

  • McDonalds serve a range of high-quality foods that can fit into a balanced diet. The accurate and accessible nutrition information help guests make informed menu choices.
Social Considerations

• Emphasis on food safety:

Mcdonald’s suppliers have food safety management systems in place, including Good Manufacturing Practices (GMP), a verified Hazard Analysis Critical Control Point (HACCP) plan and crisis management, food security and other applicable programs.
Technological Advantages

• McDonald’s has taken advantage of technology to streamline their processes and improve efficiency.

Through technology enhancements such as FPI's Help Desk Service, network and application consolidation, and other technology implementations, operations of the company are greatly improved.
Technological Advantages

• Touch Order Allows You To Place Order At McDonald’s Via Handset
Technological Advantages

- The customers can place their order directly from their tables, dubbed as “Touch Order”. It’s the first self-ordering system in the world to use RFID.*

Technology Spotlight:
McDonald's tests Speed pass cashless payment system
Technological Advantages

• McDonald’s has also implemented technology to improve supply chain management, and allows customers to access this information to make more informed decisions about what they eat.
STRATEGY RECOMMENDATIONS
McDonald’s Strategies

- McDonald’s real goal as a corporation is to make money for the stockholders. Their stated goal is Long term sustainable growth for all stakeholders.
- McDonalds has realized that they are reaching a big maturation stage in the business cycle, based on its profits slowing down more and more every year. It is going to be time to reinvent or re-image this corporation to try to start the business cycle over again.
McDonald’s Strategies

Business Life cycle

Start  Growth  Peak  Decline
Recommendations for McDonald’s

• More Healthy Choices
  • McDonalds should develop menu choices that are healthy and socially acceptable.
    – It is possible to develop a menu that people will enjoy and that also fits into the original “Speedy Service” model the company introduced in the 1950’s.
    – Use local food sources where possible.
      » Using local sources decreases the time to market, and also decreases the use of fuel to transport goods.
Recommendations

• Locally focused menu choices
  
  – McDonald’s in India has specific menu items
    – For the vegetarian market;
Recommendations

- Increase presence in Asian countries
  - McDonald's has most certainly had a profound effect on China.
  - When the first McDonalds opened in Beijing more than a dozen years ago, 40,000 people lined up to observe a Big Mac and get their picture taken with the infamous Ronald McDonald.
  - McDonald's is growing faster in China than in the United States.
  - McDonalds owns & operates more than 600 stores across 105 cities in China.
  - More than 100 more McDonald's stores will be added annually to Chinese cities within the coming years.
Recommendations

• While offering the basic burger and fries, McDonald’s in China also offers:
  – Szechwan-style spicy chicken wings
  – Seafood Soup
  – Rice
  – Oriental Sauces
  – Taro and Red Bean Dessert
Thank You!
