# MQ Matrix explanation

- **Leaders** execute well against their current vision and are well positioned for tomorrow (**make money now and in the future- TOC statement**).
- **Visionaries** understand where the market is going or have a vision for changing market rules, but do not yet execute well.
- **Niche Players** focus successfully on a small segment, or are unfocused and do not out-innovate or outperform others
- **Challengers** execute well today or may dominate a large segment, but do not demonstrate an understanding of market direction.

# Front runners

FrontRunners has four sub-quadrants:

- **Upper Right = Leaders:** Leaders are all-around strong products. They offer a wide range of functionality to a wide range of customers. These products are considered highly valuable by customers.
- **Upper Left = Masters:** Masters may focus more heavily on certain key features or market segments than Leaders do. If you need a more specialized set of functionality without bells and whistles, then a product in the Masters quadrant might be right for you.
- **Lower Right = Pacesetters:** Pacesetters may offer... only on value. For example, a Pacesetter might offer greater... priced at a their
- **Lower Left = Contenders:** Contenders may focus... higher point. This makes them ideal for companies... their unique needs.

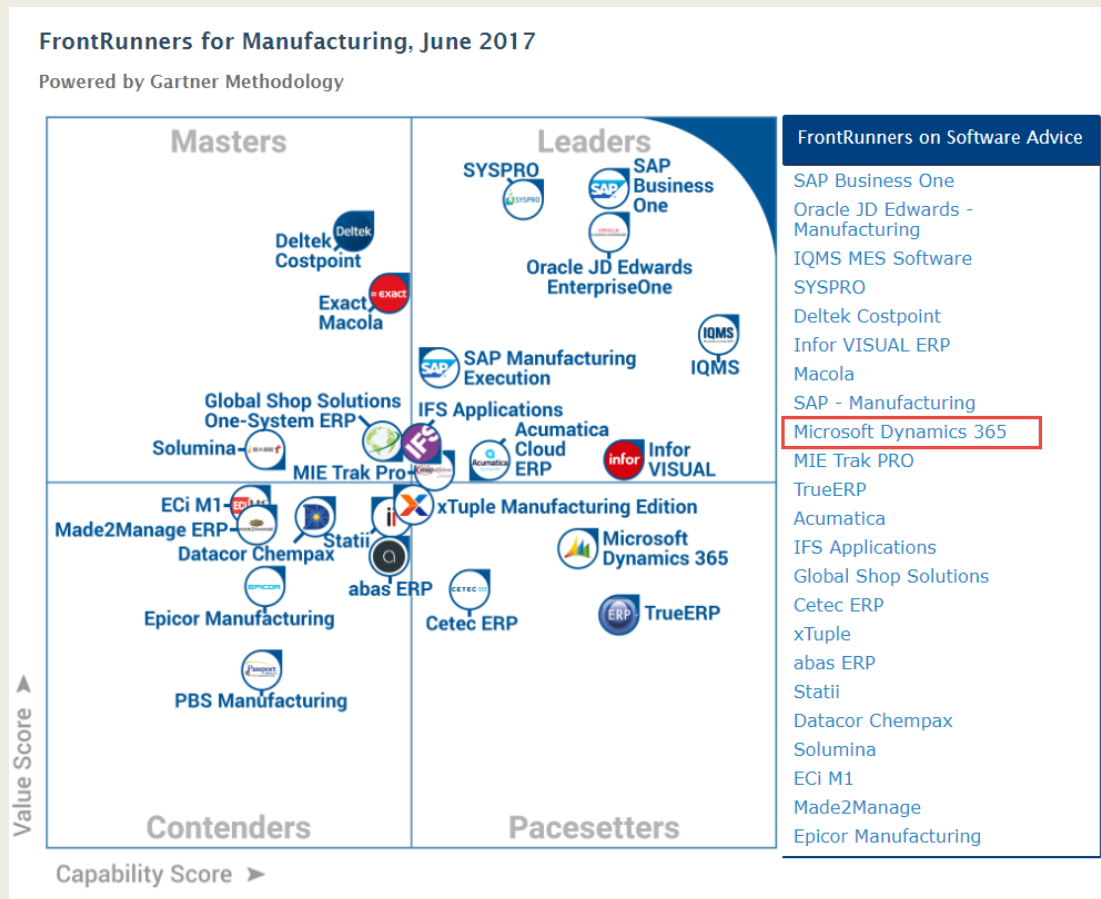

Contender- uchazeč, protivník

Pacesetter= tahoun, společnost udávající směr vývoje
