

Macroeconomics

Lecturer: Anna Donina

Dates: 18.02.2022 – 13.05.2022

Lectures/Seminars: Friday 09:00 – 12:50 (classroom S305)

Office hours: by appointment

Course Objectives

The course is devoted to applications and policy. The major objective of the course is to help students to understand recent developments in Macroeconomics. Over the semester, students will learn stylized facts of business cycle fluctuations, economic growth, inflation, and unemployment. Students will become familiar with macroeconomic data and will learn how to construct and use major macroeconomic statistics. We will analyse the issues of the open economy such as gains from trade and implications of different exchange rate regimes. Finally, students will be familiarized with a scope of policies used to improve macroeconomic performance.

The main textbook:

- Mankiw, N.G. *Principles of Economics*. 4th ed. Mason: Thomson Higher Education, 2007. 896 s. ISBN 9780324224726.
- Mankiw, N.G. *Principles of Macroeconomics*.

Pre-requisites

BKE_MAE1, BPE_MAE1.

Grading

Midterm exam: 40 %

The midterm exam will take during regular class on **April 8** (tentative date). You are not allowed to use any textbook, any notes or electronic devices. There will be no make-up for the midterm exam.

Project presentation: 20 %

You will be asked to write an essay where you will pick a country and describe its current state of the economy using indicators that we have learned during the classes and what was the response of authorities to cope with the pandemic-induced shock. Once the report is finished, you will prepare presentation and will present it during class (more details on that to be provided later during the course).

Final Exam: 40 %

Final exam will take place on **May 20th** (tentative date). There will be two make-up exams for the final exam (dates TBA).

Grade distribution:

A: 85 – 100

B: 70 - 84

C: 60 – 69

D: 50 – 59

F: 0 – 49

NOTE: The maximum latter grade in make-up exam is **B**.
