- By use of the filter, the engine goes to the Item 1932 – Berlin chair. How to do so? In the upper part of the list, you have filter pane where you can choose what kind of filter you would like to use. In our case we know, that item number is 1932, but we do not know if there is any other character of the number after 1932, so you put there * to saying to filter engine, that it could be any character or number after it. Character * represents a wildcard.
