OP Vzdělávání pro konkurenceschopnost

#### INVESTICE DO ROZVOJE VZDĚLÁVÁNÍ

#### **Content of this presentation**

- Conditions to pass the course
- Role of project management
- Project plan
- Project controlling and reporting
- Estimations
- Project management supporting tools
- Project management qualifications
- Next lesson

## Conditions to pass the course (1/2)

- Story for a customer
  - Prepare an original story for a customer
    - Original
    - Two pages
    - Do not forget that you have to attract customer
      - Arguments
      - Calculation
    - Ideally from area presented by Dalibor (retail)

#### OR

#### 

0 0 0 0 0 0 0 0 0 0

#### Conditions to pass the course (2/2)

- Document on a given topic
  - At least three pages of text, pictures, tables, ...
  - Areas of homework will be e.g. from

Management of projects

Analysis and architecture

Testing

- At the latest in the half of the course (beginning of April 2012) homework assignment will be known
  - You will be informed

#### **Project process**

#### MASARYKOVA UNIVERZITA

#### After winning a project

- Handover to project execution
- Setup project organization
- Project clarifications
- Project execution plans
- Kick off

...

www.muni.cz

## Project

- What is a project?
- What are its characteristics?

## Project

A project is a temporary endeavor undertaken to create a unique product, service, or result.

## Role of project management

Establish & maintain the project environment and monitor and assure that the project objectives are realized

AN

AC

CHECK

- Define, allocate & manage work packages
- Establish and manage operational schedule
- Initialize & re-estimate the budget
- Project Meeting Schedules & Agenda
- Realizing
  - Project Start-Up
  - Constitute and facilitate the project team
  - Manage stakeholders & expectations
  - Process Change Requests & Defects
  - Contribute to support activities (CM, QM, RM)
  - Deliver final products to Customer
- Controlling
  - Monitor the project progress, deviations and reporting

#### 

## Project plan

Defines and documents the structure and sequence of the entire project

## Project plan content

- Key project data
- Project organization
- Component planning
- Planning the project volume
- Planning the course of the project
- Risk management
- Project checks and control

## **Effort estimations**

- Team, possibly estimation experts
- Decomposition based on structured objects (requirements, features, stories ...)
- Include "load" factors (effort for review, travels, communication, ...)
- Usage of alternative estimation methods/different teams
- It is just an estimation

# 0 1 1 1 1

#### MASARYKOVA UNIVERZITA

#### **Expert estimations**

- Most often used
- Intuition and judgment of a group of experts

## Planning poker

- Based on Delphi/Wideband Delphi method
- Principle

- Estimated package is discussed
- Each team member selects a card which is not shown
- The cards are shown simultaneously
- Differences in estimations are discussed
- If a consensus is not reached, start next iteration

## Affinity estimation

- Principle
  - Estimated packages are discussed
  - Team silently sorts stories (big to small)
  - Packages with similar effort are clustered
  - Team assigns estimations to clusters

## Function point analysis

- Formal estimation model
- Based on comparison with past projects
- Requires experience
- Data Functions
  - Internal Logical Files
  - External Interface Files
- Transactional Functions
  - External Inputs
  - External Outputs
  - External Inquiries

#### **Estimations - example**

- Task to estimate:
  - Write an essay about your favorite weekend

#### Project controlling, reporting and escalations

- Company internal
  - Different levels and paths
    - Local management
    - Business unit
    - Quality management
  - Supported by software tools
- Reporting to customer
  - Regular reports (e.g. weekly, sprint)
  - Prototyping
  - Tests on customer site
    - Change requests in early stage (documented!)
    - Saves analysis costs

## Project management supporting tools

- Areas
  - Planning and resource allocation
  - Estimations
  - Defect, CR and task tracking
  - Controlling
  - Collaboration and communication

## 🖻 Туре

- Web/Desktop
- Single/Multiuser

#### Project management levels

- Several possible certifications
  - PMI (Project Management Institute)
  - IPMA (International Project Management Association)
  - Internal certifications
    - PM Small Project
    - Project manager
    - Senior project manager
    - Project director
  - Scrum
