

Daniela Kuruczova

## PA196 - Course project proposal

### • Topic

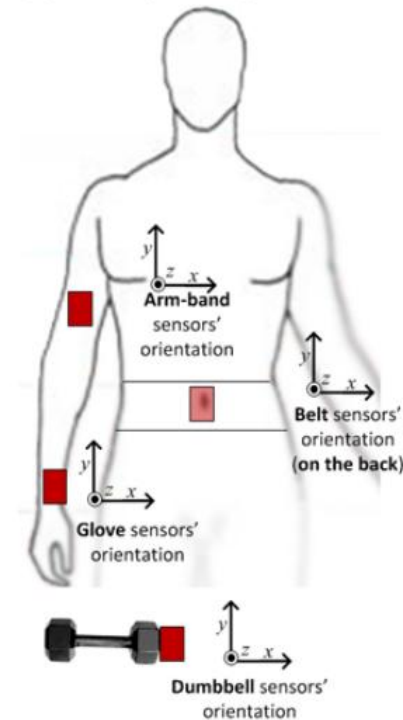

- Automatic weightlifting exercise mistake recognition
- Data from study by Velloso et al. [1]
  - raw data - 152 features, 19622 entries
  - 5 categories (1 correct, 4 common mistakes)
  - lot of N/A values

### • Question

- Can we automatically recognize correct movement based on accelerometer data?

### • Planned approach

- Data cleaning and feature selection
- Comparison of performance for selected algorithms

The following symbol "■" designates one of IMUs described in the text
