

Activity Diagram Activity

Martin Macák

Fakulty of Informatics, Masaryk University, Brno

Setup

- Climber puts on a harness.
- Climber puts on climbing shoes.
- Climber puts a chalk bag on the harness.
- Climber plans the climbing.
- Climber sets up a rope.
- Belayer takes the second end of the rope and puts it into the harness.
- They check with each other to make sure everything is properly prepared

Climbing

- Climber signals: *Climbing!*
- Belayer signals: *Climb on!*
- Climber starts to climb.
- If the climber wants to take a rest, climber signals: *Take!*
- If the climber wants to continue, climber signals: *Climbing!*
- Climber signals: *Ready to lower!*
- Climber waits until they reach the ground.
- Climber unties themselves.
- Climber takes of their gear and packs up their stuff.

Good luck with the modelling!
