

TASK 1/28

Unguentum,i, N septum; dens, ntis, M pelvis; pulmo,onis, M dolor; gargarisma, atis, N corpus;
processus,us,M ductus; tempus,oris,N corpus; morsus,us,M ductus; serpens,entis, M pelvis;
arcus,us,M ductus; ligamentum,i,N septum; dolor,oris,M vzor; scabies,ei,F facies; thorax,cis,M dolor;
lamina,ae,F vena; color,oris,M dolor; labium,ii,N septum; rima,ae,F vena; scatula,ae,F vena;
neurosis,osis, F dosis; pleuritis, itidis, F dolor; dyspnoe,es,F systole; encephalon,i,N – colon;
nephros,i,M vzor

TASK 2/28

Caries,F- facies; exitus,M- ductus; obstructio,F – dolor; manus,F- ductus; genu,N – genu; visus,M-
ductus; calvities,F-facies; articulatio,F – dolor; foramen,N-corporis; corpus,N-corporis; concha,F – vena;
morbus, M – nervus; cochlear,N – rete; trauma,N – corpus; vulnus,N – corpus; nukleus,M – nervus;
visus,M – ductus; tempus,N-corporis; psychosis,F – dosis

KLASIFIKACE DO DEKLINACÍ

Vycházíme z genitivu!!!

-ae = 1. dekl. Vena (diabetes)

-i = 2. dekl. Nervus, septum

-is = 3. dekl. M+F dolor, pelvis; F dosis; N corpus, rete+ calcar, cochlear

-us = 4.dekl. ductus, genu+cornu

-ei = 5. dekl. Facies

TASK 4/29

Tractus + systema; bilis, fel + chole; oculus + ophthalmos, ops/opos; vulnus + trauma; cerebrum +
encephalon; ventriculus + stomachos, gaster; ren + nephros

TASK 5/ 29

Arcus vertebrarum thoracicarum

Causa obstructionis venae

Ligamenta manus sinistrae

Effectus gargarismatis novi

Sanatio decubitus profundi

Collapsus systematis circulatorii

Status canitiei praematurae

TASK 6 /29

Post infarctum acutum

Propter partum praematurum

Sub plexum venosum/plexu venoso

In decursu morbi

Ad usum internum

Ante processum spinosum

Pro decubitibus dolorosis

Sine effectu malo
