Group Project Parameters.

- 1) Read the readings
- 2) Do some personal research on how Brexit will SPECIFICALLY affect your home country/you as a citizen of that country/you personally
- 3) Get together with your group for a discussion (I would say 60-90 minutes) about this topic; you must meet and discuss this face-to-face (virtual discussions are not sufficient)
- 4) Specifically address the following questions (along with any others you bring to the conversation)
 - a. Is the idea of the Nation-State dead? (from the readings)
 - b. How is Brexit related to the idea of changing current conceptions of global governance?
 - c. What is the broader impact of Brexit regarding the politics of globalization (i.e. from the readings)
 - d. How does Brexit affect you, your home country, and that of your groupmates (get a sense of the impact on everyone in your group)?
- 5) Write a 2-page response paper that answers/addresses the 4 questions above, in light of your conversation, and hand it in to the Homework dropbox in our class by April 1
