

Some possible themes for the required paper

Note that the themes suggested below must be further developed to be approved as themes for the paper, but they may hopefully give you some ideas!

1. Describe central aspects of environmental psychology, and provide examples of how environmental psychology may have practical implications.
2. What is environmental perception? Describe at least two theoretical approaches to environmental perception.
3. What is environmental cognition?
4. How can research into environmental perception be contrasted with traditional perception research?
5. List and define Lynch's elements of city legibility.
6. How can applied behaviour analysis be used in practical environmental efforts?
7. What is known about relations between environmental attitudes and behaviour?
8. Discuss some physical factors of importance in the workplace.
9. Discuss Kaplan & Kaplan's attention restoration theory and Ulrich's theory of psycho-physiologic recovery from stress. Point out differences and similarities.
10. Describe the concept of the tragedy of the commons. Discuss how the tragedy of the commons may be avoided, and how to obtain responsible management of common resources.
11. A few recycling campaigns have reached compliance rates of 90% or better. Describe how it was done.
