'Europeanisation' of social policy

- E.U. 'single social policy areas'?
- E.U. policies affect:
  - policy style (formulation and implementation);
  - general problem solving approach;
  - policy instruments employed;

- policy standards set (based on E.U values and principles)

### - Europeanisation of :

- pressure groups
- interest groups
- epistemic communities and policy networks

4 processes of 'Europeanisation' of policy: a) 'bottom-up' (national state – E.U.) b) 'top-down' (E.U. – national state) c) 'horizontal' (State – State) 'round-about' (national state – E.U. – d) national state)

'Europeanisation' based on underlying E.U. principles and 'core values':

- social progress;
- the aim of high levels of employment;
- social protection;
- the aim of raising living standards and quality of life;
- promotion of social cohesion and social justice

### 'Europeanisation'

= overarching E.U. core values and principles, within which individual policies are shaped and formulated, and diversity and 'mutual recognition' acknowledged, particularly in implementation to meet policy aims
