Lecture 7

March 2010 E.U. Commission launched its 'Women's Charter'

- "This Charter represents the commitment of the Commission to making gender equality a reality in the EU. Women and men still face widespread inequalities, with serious repercussions for economic and social cohesion, sustainable growth and competitiveness, and the ageing of Europe's population. It is therefore important to include a strong gender dimension in the future Europe 2020 strategy that the Commission will develop in the next five years. Especially in times of crisis, we need to incorporate the gender dimension in all of our policies, for the benefit of both women and men," (President José Manuel Barroso, 05.03.2010).

Lecture 7

The Charter presents a series of commitments based on agreed principles of equality between women and men. It aims to promote:

- equality in the labour market and equal economic independence for women and men, namely through the Europe 2020 strategy;
- equal pay for equal work and work of equal value by working with Member States to reduce significantly the gender pay gap over the next five years;
- equality in decision-making through EU incentive measures;
- dignity, integrity and an end to gender-based violence through a comprehensive policy framework;
- gender equality beyond the EU by pursuing the issue in external relations and with international organisations.
