- 'Europeanisation' of social policy
  - E.U. 'single social policy areas'?
  - E.U. policies affect:
    - policy style (formulation and implementation);
    - general problem solving approach;
    - policy instruments employed;
    - policy standards set (based on E.U values and principles)

- Europeanisation of:
  - pressure groups
  - interest groups
  - policy networks

- 4 processes of 'Europeanisation' of policy:
- a) 'bottom-up' (national state E.U.)
- b) 'top-down' (E.U. national state)
- c) 'horizontal' (State State)
- d) 'round-about' (national state E.U. national state)

- 'Europeanisation' based on underlying E.U. principles and 'core values':
  - social progress;
  - the aim of high levels of employment;
  - social protection;
  - the aim of raising living standards and quality of life;
  - promotion of social cohesion and social justice

#### 'Europeanisation'

= overarching E.U. core values and principles, within which individual policies are shaped and formulated, and diversity and 'mutual recognition' acknowledged, particularly in implementation to meet policy aims
