2024 Fox News Voter Analysis

Uncover the 2024 Fox News Voter Analysis. View the results and see how different demographics voted in the 2024 General Elections. The Fox News Voter Analysis overcomes the limitations of in-person exit polls and captures the views of all Americans.

About

The Fox News Voter Analysis, conducted in partnership with the Associated Press, provides a comprehensive look at voting behavior, opinions, and preferences as America votes. It is based on surveys of the U.S. electorate conducted by NORC at the University of Chicago with voting results from The Associated Press. For the 2024 General Election, the FNVA results are based on a probability sample of registered voters drawn from state voter files, samples of self-identified registered voters from a probability-based national panel, and samples of self-identified registered voters from opt-in online panels. The FNVA survey of the American electorate was conducted in all 50 states, October 28 to November 5, concluding at the end of voting on Election Day.
