Welcome to the School

David Walker

Director

The core mission of the European School of Administration is to provide **training and development** opportunities to the following groups of **staff in the EU institutions** at various crucial stages of their career development:

Recent recruits

People who exercise management responsibilities or who may be called on to do so

Assistant-grade staff selected as having the potential to become administrators

All our programmes focus on skills, attitudes and behaviours since these are qualities that are needed irrespective of the institution to which our participants belong. The programmes are also very practical in their approach in order to favour effective learning transfer to the workplace and they draw heavily on participants' own experience.

In addition, we can provide tailor-made programmes for an individual institution/EU agency.

The School is also an active member of the network of Directors of Institutes and Schools of Public Administration (DISPA) and its innovative approach to training and development has provoked much interest among them.

Although our programmes are reserved for staff of the institutions and agencies, we hope you will find the content and methodology interesting. Please do not hesitate to get in touch with us if you have any [comments/questions](#).

We hope you enjoy your visit to our website!
