

Phrase	Key
1. contusiones articulationum manus	contusiones articulationum manus
2. resectio pulmonis dextrae propter carcinoma	resectio pulmonis dextrae propter carcinoma
3. ulcus perforatus duodeni	ulcus perforatum duodeni
4. bursa tendini musculi extensoris longi	bursa tendinis musculi extensoris longi
5. sutura labii inferioris oris	sutura labii inferioris oris
6. in vestibule oris	in vestibulo oris
7. pars laryngeum pharyngis	pars laryngea pharyngis
8. arcus dentale mandibularis	arcus dentalis mandibularis
9. status post comam hepaticum	status post coma hepaticum
10. decubitus profundi in regione dorsale	decubitus profundi in regione dorsali
11. status post extractionem dentis lacteis	status post extractionem dentis lactei
12. anomalia heparis congenita	anomalia hepatis congenita
13. status post transplantationis renis	status post transplantationem renis
14. vulnera lacera mani dextrae	vulnera lacera manus dextrae
15. operatio colonis descendens	operatio coli descendens
16. mors subitus neonati	mors subita neonati
17. lobectomia pulmonalis propter tuberculosem chronicam	lobectomia pulmonalis propter tuberculosisim chronicam
18. partus incipiens in statu febrile	partus incipiens in statu febrili
19. tumor inoperabile intestini tenuis	tumor inoperabilis intestini tenuis
20. musculi intercostales externi thoracis	musculi intercostales externi thoracis
21. fractura trium ossium pedis	fractura trium ossium pedis
22. luxatio capitis ossis femori	luxatio capitis ossis femoris
23. hepatitis cum pancreatitis	hepatitis cum pancreatitide
24. anomalia congenita coris	anomalia congenita cordis
25. ligamentum coronarius hepatis	ligamentum coronarium hepatis
26. paries externa ductus	paries externus ductus
27. pars cephalica et cervicale systematis autonomici	pars cephalica et cervicalis systematis autonomici
28. appendices vesiculosi	appendices vesiculosae
29. regionis membri inferioris	regiones membri inferioris
30. neoplasma benigna meningis cerebri	neoplasma benignum meningis cerebri
31. vas lymphatica centralis	vas lymphaticum centralis
32. thrombosis arteriae carotidis internis	thrombosis arteriae carotidis internae
33. pars duodeni ascendens	pars duodeni ascendens
34. dosis letale	dosis letalis
35. stenosis musculi sphincteris ani	stenosis musculi sphincteris ani
36. lobulus simplices	lobulus simplex
37. ligamentum teretis uteri	ligamentum teres uteri
38. rete venosae dorsale pedis	rete venosum dorsale pedis
39. plexus nervorum spinalium	plexus nervorum spinalium
40. status post infarctus myocardii	status post infarctum myocardii

41. operatio ulcus ventriculi	operatio ulceris ventriculi
42. luxatio cartilaginis genuis	luxatio cartilaginis genus
43. deformitas congenitus thoracis	deformitas congenita thoracis
44. lobus media pulmonis dextri	lobus medius pulmonis dextri
45. articulatio tarsi transversi	articulatio tarsi transversa

Key

contusiones articulationum manus

resectio pulmonis dextri propter carcinoma

ulcus perforatum duodeni

bursa tendinis musculi extensoris longi

sutura labii inferioris oris

in vestibulo oris

pars laryngea pharyngis

arcus dentalis mandibularis

status post coma hepaticum

decubitus profundi in regione dorsali

status post extractionem dentis lactei

anomaliam hepatis congenitam

status post transplantationem renis

vulnera lacera manus dextrae

operatio coli descendantis

mors subita neonati

lobectomia pulmonalis propter tuberculosim
chronicam

partus incipiens in statu febrili

tumor inoperabilis intestini tenuis

musculi intercostales externi thoracis

fractura trium ossium pedis

luxatio capitis ossis femoris

hepatitis cum pancreatitide

anomaliam congenitam cordis

ligamentum coronarium hepatis

paries externus ductus

pars cephalica et cervicalis systematis
autonomici

appendices vesiculosae

regiones membri inferioris

neoplasma benignum meningis cerebri

vas lymphaticum centrale

thrombosis arteriae carotidis interna

pars duodeni ascendens

dosis letalis

stenosis musculi sphincteris ani

lobulus simplex

ligamentum teres uteri

rete venosum dorsale pedis

plexus nervorum spinalium

status post infarctum myocardii

operatio ulceris ventriculi

luxatio cartilaginis genus

deformitas congenita thoracis

lobus medius pulmonis dextri

articulatio tarsi transversa
