

Phrase/diagnosis	
1. Divide in part..... aequal.....	
2. Causa abort..... imminent.....	
3. Laesio traumatic..... capit.....muscul..... tricip..... brachi.....	
4. Vulnus sciss..... digit..... man..... dextr.....	
5. Status neonat..... post icter..... physiologic..... grav.....	
6. Collapsus circulation..... sanguin..... major..... et minor.....	
7. Amputatio lob..... pulmon..... later..... sinistr..... propter tuberculos.....	
8. In (position, location) foramin..... process..... transvers.....	
9. Ruptura ligament..... collateral..... carp..... ulnar.....	
10. Fractura apert..... tibi..... later..... dextr..... cum contusion..... muscul..... (pl.) crur..... dextr.....	
11. Cum dermatitid..... grad..... minor.....	
12. Post laceration..... muscul..... brachi.....	
13. Exitus letal..... propter seps..... post vuln..... punct..... in region..... pectoral.....	
14. Propter luxation..... capit..... radi.....	
15. Oss..... (pl.) membr..... superior..... liber.....	
16. Status post coxarthros..... bilateral..... in stadi..... sanation.....	
17. Abscessus purulent.....extra dur..... matr.....	
18. Sulcus tendin..... muscul..... flexor..... halluc..... long.....	
19. Fractura bas..... oss..... sacr..... complicat.....	
20. Symptoma..... (pl.) metastas..... (pl.) carcinomat..... malign..... uter.....	
21. Ulcusdur..... organ..... (pl.) genital..... extern..... feminin.....	
22. Status post collaps..... intra part..... praematur.....	
23. Contusion..... (pl.) cerebr..... multiplic..... traumatic.....	
24. Foramin..... (pl.) oss..... sacral..... major..... et minor.....	
25. Segment..... (pl.) mediali..... medull..... spinal.....	
26. Propter graviditat..... extrauterin..... ovaric.....	
27. Functio laes..... hepat..... propter cirrhos.....	
28. Extractio dent..... canin..... et dent..... (pl.) praemolar..... cum dolor..... magn.....	

29. Deformitas congenit..... cox..... sine
luxation.....

30. Infarctus pariet..... anterior..... ventricul.....
cord..... sinistr.....

Key

divide in partes aequales

causa abortus imminenti

laesio traumatica capitis musculi tricipitis brachii

vulnus scissum digitorum manus dextrae

status neonati post icterum physiologicum
gravem

collapsus circulationis sanguinis majoris et
minoris

amputatio lobi pulmonis lateris sinistri propter
tuberculosim

in foramine processus transversi

ruptura ligamenti collateralis carpi ulnaris

fractura aperta tibiae lateris dextri cum
contusione musculorum cruris dextri

cum dermatitide gradus minoris

post lacerationem musculi brachii

exitus letalis propter sepsim post vulnus punctum
in regione pectorali

propter luxationem capitis radii

ossa membri superioris liberi

status post coxarthrosim bilateralem in stadio
sanationis

abscessus purulentus extra duram matrem

sulcus tendinis musculi flexoris hallucis longi

fractura basis/baseos ossis sacri complicata

symptomata metastasium carcinomatis maligni
uteri

ulcus durum organorum genitalium externorum
femininorum

status post collapsum intra partum praematurum

contusiones cerebri multiplices traumaticae

foramina ossis sacralis majora ete minora

segmenta medialia medullae spinalis

propter graviditatem extrauterinam ovaricam

functio laesa hepatis propter cirrhosim

extractio dentis canini et dentium praemolarium
cum dolore magno

Deformitas congenita coxae sine luxatione

Infarctus parietis anterioris ventriculi cordis
sinistri
