

Progress test 1 structure

1) Give adjectives related to the given nouns. Then fill them in the phrases in the right column in the same order. (5 + 5 points)

e.g.

costa**costalis**..... facies**costalis**..... scapulae

2) Use prefixes in the first column to derive new words with the given meaning; then give a parallel Latin/ Greek prefix. Follow the example. (10 points)

PREFIX	ENGLISH EQUIVALENT OR DESCRIPTION	DERIVED WORD	PARALLEL LATIN/GREEK PREFIX
<i>e. g. intra-</i>	located inside skull	<i>intracranialis</i>	<i>endo-</i>

3) Change into plural and write down the opposite (also in Plural!). (15 points)

Pars anterior**partes anteriores**..... **partes posteriores**.....

4) Translate (15 points) from English to Latin – comprises comparison of adjectives, numerals...

5) Analyse the following terms by describing their root, prefix and/or suffix, or parts of compound words. Translate the expressions. Follow the example. (7 + 3 points)

Example:	Analysis:	Translation:
<i>aquosus</i>	<i>root aqu- = water, suffix -osus = full of</i>	<i>full of water</i>
<i>monoplegia</i>	<i>part 1: mono= one, part 2: pleg- = paralysis/hit, suffix: -ia= disease</i>	<i>total paralysis of 1 limb</i>
