

Match the correct triples (drug - MoA – indication)

pilocarpine

indirect
cholinolytic

premedication
before general
anaesthesia

neostigmine

parasympatholytic
with tertiary
ammonium

antiglaucoma
agent

botulinum toxin

M receptor
STIMULATION

axillary
hyperhidrosis,
OAB

atropine

reversible AChE
inhibition

myasthenia
gravis

Match the correct triples (drug - MoA - indication)

physostigmine

M₃
ANTAGONIST

antiglaucoma
agent

scopolamine
(hyoscine)

parasympatholytic
with tertiary
ammonium

urinary
antispasmodic

ipratropium

parasympatholytic
with quarternary
ammonium

travel sickness

solifenacin

reversible AChE
inhibition

antispasmodic
for inhalation
