

CARDIOVASCULAR SYSTEM

- Heart
- Vessels
 - arteries
 - veins
 - capillaries
 - continuous
 - fenestrated
 - sinusoids

Continuous capillary

Fenestrated capillary

Sinusoid

General structure of blood vessels

capillaries, arterioles, venules [endothelium], ducts [epithelium]

arteriole and venule

muscular artery and vein - HE

muscular artery and vein - orcein

muscular artery

HE

orcein

membrana elastica interna

vein (1-intima, 2-media, 3-adventitia)

HE

orcein

aorta

HE

orcein

aorta – intima *

HE

orcein

aorta (orcein) – adventitia, vasa vasorum, nervi vasorum

vena cava (HE)

myocardium

HE

Heidenhain

cardiomyocyte (TEM)

Fetal blood circulation

CARDIOVASCULAR SYSTEM

Slides

Muscular artery and vein (59 – HE, 60 - orcein)

Aorta (61 – HE, 62 - orcein)

Vena cava (63 - HE)

Myocardium (64 – HE, 65 - Heidenhain)

Atlas EM:

Arteriole (59)

Continuous capillary (55)

Fenestrated capillary (56, 57)

Sinusoid capillary (58)

Cardiomyocyte (44-46)

Development of heart, embryonic and fetal blood circulation (91-93)
