

# Adjektiva 3. dekl - cvičení

# Stejně zakončená substantiva gramaticky určete a přeložte:

- |                    |          |                  |
|--------------------|----------|------------------|
| • <b>gramma</b>    | <b>X</b> | <b>mamma</b>     |
| • <b>pectus</b>    | <b>X</b> | <b>humerus</b>   |
| • <b>vena</b>      | <b>X</b> | <b>venena</b>    |
| • <b>cochleari</b> | <b>X</b> | <b>pueri</b>     |
| • <b>nephrosis</b> | <b>X</b> | <b>digitis</b>   |
| • <b>diabetes</b>  | <b>X</b> | <b>cavitates</b> |
| • <b>hernia</b>    | <b>X</b> | <b>animalia</b>  |
| • <b>loco</b>      | <b>X</b> | <b>pulmo</b>     |

K substantivům přiřaďte vhodná adjektiva, přeložte, a kde je to možné, vytvořte nom. a gen. pl.:

- **systema** (corrigens, ntis)
- **medulla** (acer, acris, acre)
- **remedium** (praemolaris, e)
- **margo** (nervosus, a, um)
- **dolor** (occipitalis, e)
- **dens** (spinalis, e)

# Vyberte ablativy singuláru:

- ▶ **traumate**
- ▶ **cubiti**
- ▶ **dorsali**
- ▶ **columnae**
- ▶ **zinco**
- ▶ **capitale**
- ▶ **uretere**
- ▶ **intercostalia**
- ▶ **cellulā**
- ▶ **bicipitibus**
- ▶ **tuberculosim**
- ▶ **cavitate**
- ▶ **tussi**
- ▶ **rheumatici**
- ▶ **distali**
- ▶ **molle**
- ▶ **systolē**
- ▶ **margo**
- ▶ **vulnera**
- ▶ **systema**

# Vyberte genitivu plurálu:

- ▶ suppositorium
- ▶ praecocium
- ▶ carcinomatum
- ▶ palatum
- ▶ ostium
- ▶ arteriarum
- ▶ retium
- ▶ collum
- ▶ mollium
- ▶ auxilium
- ▶ pelvium
- ▶ emplastrum
- ▶ ureterum
- ▶ nephrorum
- ▶ lacerum
- ▶ basium

# Doplňte tvary adjektiv k substantivům:

- |                       |                      |                       |
|-----------------------|----------------------|-----------------------|
| • <b>medici</b>       | (bonus, a, um)       | (sapiens, ntis)       |
| • <b>dentis</b>       | (lacteus, a, um)     | (molaris, e)          |
| • <b>columnae</b>     | (parvus, a, um)      | (vertebralis, e)      |
| • <b>ossium</b>       | (sacer, cra, crum)   | (nasalis, e)          |
| • <b>veneno</b>       | (validus, a, um)     | (fortis, e)           |
| • <b>febrim</b>       | (continuus, a, um)   | (incipiens, entis)    |
| • <b>bronchitides</b> | (acutus, a, um)      | (gravis, e)           |
| • <b>dosi</b>         | (magnus, a, um)      | (letalis, e)          |
| • <b>parte</b>        | (pelvinus, a, um)    | (cervicalis, e)       |
| • <b>musculo</b>      | (rectus, a, um)      | (quadriceps, cipitis) |
| • <b>vasa</b>         | (lymphaticus, a, um) | (afferens, entis)     |
| • <b>sclerosim</b>    | (diffusus, a, um)    | (multiplex, icis)     |

# Přeložte. Pokud to bude možné, převed'te do opačného čísla:

- ▶ dolores femorum
- ▶ partis proximalis
- ▶ partem proximalem
- ▶ systema nervorum
- ▶ systema nervosum
- ▶ nervi pectoralis
- ▶ calculus renalis
- ▶ tussis acuta
- ▶ tussis acutae
- ▶ propter trauma recens
- ▶ aures mediae
- ▶ aures medias
- ▶ auris mediae
- ▶ ossa cranii
- ▶ ossa cranialia
- ▶ causa luxationis
- ▶ propter tumorem
- ▶ partium distalium
- ▶ medicamenta sedativa
- ▶ radices dentium incisivorum

# Vyberte správný tvar / správné tvary:

- ▶ laesio cum (perforationis, perforatione, perforationem, perforationes)
- ▶ dosis pro (adultos, adultis, adultibus)
- ▶ in (solutionem, solutionis, solutiones, solutionum, solutionibus, solutione)
- ▶ sine (tuberculosi, tuberculose, tuberculosim, tuberculosis)
- ▶ post (morbum, mortium, dosin, nephrosi, resectionem radicis dentis, encephalitide, carcinoma, crisim)

Doplňte tabulku tak, aby každý řádek obsahoval jeden výraz v různých pádech a každý sloupec různé výrazy v jednom pádě:

	dosim letalem			
		vase efferenti		
				icterorum gravium
			nervi abducentes	
ulcus hepatogenes
