

Workshop

“Experimental Environmental Science for Primary teachers”

Katja Hietaoja, Merja Maukonen, Pauli Moilanen, Tuula Räsänen & Tuula Asunta

University of Jyväskylä, Department of Teacher Education

Abstract: This workshop is dealing with experiential and experimental science and is all based on students active learning. Through their own observation and hands on activities the participating students will examine different phenomena and through discussion within their small groups first make decision what they learned and later share their experiences with all International participants and the workshop leaders. Participants will also make their own presentations on some problems presented. The whole workshop is concentrating on sharing knowledge and learning to pay attention on environmental issues.
