

Proportio dupla

C2, C, O2

$C \underset{1\frac{1}{2}}{\diamond} \underset{1\frac{1}{2}}{\diamond} \xrightarrow{\frac{2}{1}} \underset{1\frac{1}{2}}{\diamond} \underset{1\frac{1}{2}}{\diamond} \underset{1\frac{1}{2}}{\diamond} \underset{1\frac{1}{2}}{\diamond} \rightarrow \frac{2}{4} \downarrow \downarrow \rightarrow \frac{2}{4} \uparrow \uparrow$

Pozn.
Semibrevis v proportio dupla má poloviční metrickou hodnotu semibrevis v integer valor.

Proportio tripla

C3 O3

$C \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \xrightarrow{\frac{3}{1}} \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \rightarrow \frac{2}{4} \downarrow \downarrow \rightarrow \frac{2}{4} \uparrow \uparrow \rightarrow \frac{6}{8} \uparrow \uparrow$
 $O \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \xrightarrow{\frac{3}{1}} \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \underset{1\frac{1}{3}}{\diamond} \rightarrow \frac{3}{4} \downarrow \downarrow \downarrow \rightarrow \uparrow \uparrow \uparrow \rightarrow \frac{9}{8}$

Pozn.:
1) Semibrevis v proportio tripla má třetinovou metrickou hodnotu semibrevis v integer valor
2) Na rozdíl od proportio dupla dochází v proportio tripla ke změně taktu.

Proportio quadrupla

4, 4, C4, O4, ♯2, ♯2, C2, C4, ♯

Pozn.:
Proportio quadrilla je vlastně „proportio dupla proportia dupla“ a je to proporce „a la longa“.

Proportio sesquitertia

$O \underset{3}{\diamond} \underset{3}{\diamond} \underset{3}{\diamond} \xrightarrow{\frac{4}{3}} \underset{3}{\diamond} \underset{3}{\diamond} \underset{3}{\diamond} \rightarrow \frac{3}{4} \downarrow \downarrow \downarrow \rightarrow \uparrow \uparrow \uparrow$

Pozn.:
Semibrevis v proportio sesquitertia má ¾ hodnotu semibrevis v integer valor
