

**Internet: vyhledávací nástroje,
neviditelný web**

Digitální knihovny

Osnova

- **vyhledávací stroje**
 - Další vyhledávací stroje kromě Googlu
 - Metarešeršní systémy
- **neviditelný web**
- **Digitální knihovny**
 - Projekty, charakteristika

Vyhledávací nástroje

Dříve (před Googlem) bylo důležité zjistit o vyhledávacím nástroji:

- jaké způsoby vyhledávání umožňuje
- jakou část, službu Internetu prohledává (www, ftp...)
- jakým způsobem zpracovává (indexuje) www stránky
- rozsah, velikost databáze vyhledávacího stroje -

žádný vyhledávací nástroj neumí prohledávat celý Internet!

Obr. 1. Architektura vyhledávacích strojů

Vyhledávací nástroje jak fungují

1. Sběr dat (roboti, crawlers)

- robot průběžně prochází internet většinou na principu sledování odkazu (může odhalit pouze takovou stránku, na kterou vede odkaz), struktury dokumentu, náhodného nebo souběžného získávání dokumentů
- ruční přidání (přidej odkaz, add a link, submit site, add site) <http://www.google.com/addurl/?continue=/addurl>
<http://jyxo.cz/d/submit>

Vyhledávací nástroje jak fungují

2. Indexace - zpracování do vlastní databáze

- výpočet váhy slov z určité www v relaci s URL (sledování názvu, popisu, kw, nadpisy 1.úrovně příp. další, URL, odkaz z jiných stránek, čistý text)
- **zpracování meta tagu description na určité stránce**
- popis obsahu stránky
např.: `<meta name="description" content="Popis tvorby a publikování WWW stránek pro začátečníky i odborníky">`.
- **zpracování meta tagu klíčová slova na určité stránce (některé vyhledávače zcela ignorují)**
např.: `<meta name="keywords" content="profesionální design,úprava textu,úprava obrázků,reklama,tvorba www">`.

Vyhledávací nástroje jak fungují

3. Vyhledávání a řazení výsledků

- Řazení podle vztahu mezi dotazem a dokumentem (míra relevance, blízkost slov)
 - prolinkovaný text v tagu title, systém dále vypíše obsah meta tagu description, nebo prvních několik slov ze začátku stránky, nebo kusy textu kolem hledaného výrazu
- Řazení podle postavení dokumentu v hypertextové struktuře webu (page rank (PR)=řazení dle relevance, věrohodnosti na principu počtu odkazů na určitou stránku (čím více odkazů na stránku, tím je PR vyšší), odkazy ze stránek s vyšším PR mají větší váhu

Kde brát informace o existenci vyhledavačů?

- **SearchengineWatch** - <http://searchenginewatch.com>
- **SearchengineShowDown** - <http://searchengineshowdown.com/>

Public Relation

Online Guide to **Public Relation** Different types of **Public Relation**

Relation.BusinessCamber.com

Britannica

[Directory](#) > [Reference](#) > [Britannica Concise](#)

public relations (PR)

Aspect of communications that involves promoting a desirable image for a person or group seeking public attention. It originated in the U.S. in the early 20th century with pioneers such as [Edward L. Bernays](#) and [Ivy Ledbetter Lee](#). Government agencies in Britain and the U.S. soon began hiring publicists to engineer support for their policies and programs, and the public-relations business boomed after World War II. Clients may include individuals such as politicians, performers, and authors, and groups such as business corporations, government agencies, charities, and religious bodies. The audience addressed may be as narrow as male alternative-music fans between the ages of 21 and 30 or as broad as the world at large. A publicist's functions include generating favourable publicity and knowing what kind of story is likely to be printed or broadcast. The task is complicated by the variety of existing media: besides newspapers, magazines, radio, and television, there are publications of professional associations, direct-mail lists, on-site promotional events, and so on. It consists largely of optimizing good news and forestalling bad news; if disaster strikes, the publicist must assess the situation, organize the client's response so as to minimize damage, and marshal and present information to the media.

For more information on [public relations \(PR\)](#), visit [Britannica.com](#).

Nové trendy - Web 2.0

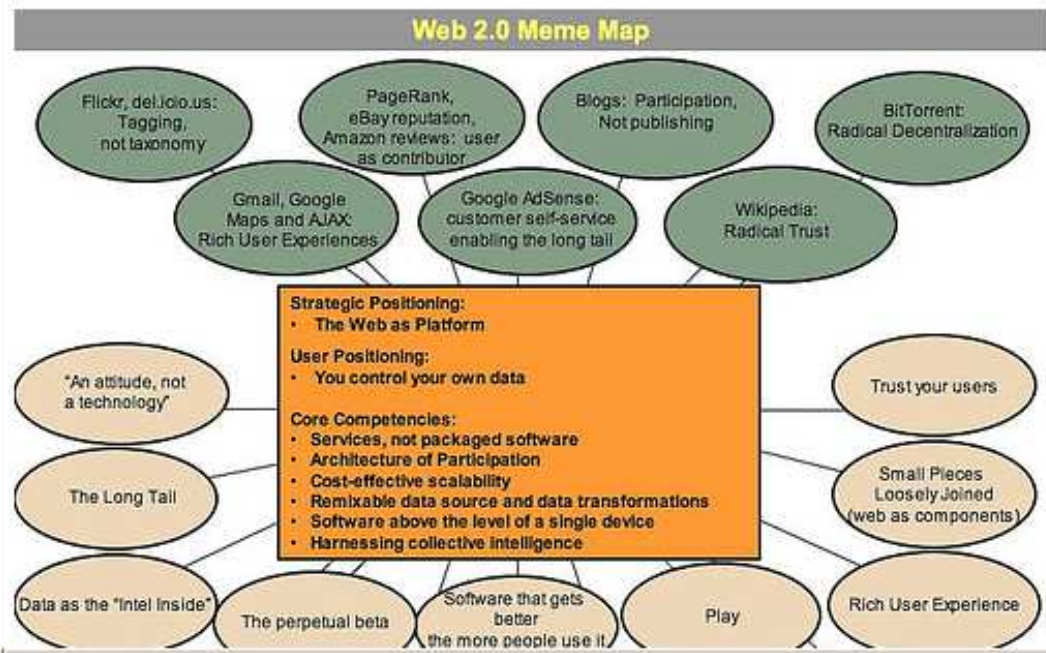

- buzzword? - reflexe změn
- Decentralizované služby, kooperace, agregace zdrojů (kdo vlastní data-klíčová hodnota?) – mashup nadstavby (GoogleMaps)
- Folksonomie x taxonomie – aktivní účast uživatelů na kategorizaci, slovním popisu (tagging) stránek
[\(http://del.icio.us/tag/\)](http://del.icio.us/tag/)
- Sociální vztahy, komunitní weby – blogy, wiki RSS
- del.icio.us, Flickr, [Quintura](#), [KWMap](#), MySpace, FaceBook, YouTube...

Web 1.0	Web 2.0
DoubleClick	--> Google AdSense
Ofoto	--> Flickr
Akamai	--> BitTorrent
mp3.com	--> Napster
Britannica Online	--> Wikipedia
personal websites	--> blogging
evite	--> upcoming.org and EVDB
domain name speculation	--> search engine optimization
page views	--> cost per click
screen scraping	--> web services
publishing	--> participation
content management systems	--> wikis
directories (taxonomy)	--> tagging ("folksonomy")
stickiness	--> syndication

The list went on and on. But what was it that made us identify one application or approach as "Web 1.0" and another as "Web 2.0"? (The question is particularly urgent because the Web 2.0 meme has become so widespread that companies are now pasting it on as a marketing buzzword, with no real understanding of just what it means. The question is particularly difficult because many of those buzzword-addicted startups are definitely *not* Web 2.0, while some of the applications we identified as Web 2.0, like Napster and BitTorrent, are not even properly web applications!) We began trying to tease out the principles that are demonstrated in one way or another by the success stories of web 1.0 and by the most interesting of the new applications.

1. The Web As Platform

Like many important concepts, Web 2.0 doesn't have a hard boundary, but rather, a gravitational core. You can visualize Web 2.0 as a set of principles and practices that tie together a veritable solar system of sites that demonstrate some or all of those principles, at a varying distance from that core.

Tags

A tag is simply a word you use to describe a bookmark. Unlike folders, you make up tags when you need them and you can use as many as you like. The result is a better way to organize your bookmarks and a great way to discover interesting things on the Web.

user notes

Nov '06

Schools only teach us confusion, class position, indifference, emotional and intellectual dependency, conditional self-esteem, and surveillance, says John Taylor Gatto.

- [sillygwailo](#)

Some form of free-market system in public schooling is the likeliest place to look for answers, a free market where family schools and small entrepreneurial schools and religious schools and crafts schools and farm schools exist in profusion to compete with

- [chrisyeh](#)

Overall, I've got some serious problems with this article.

- [stevekinney](#)

A long description by a schoolteacher about what he really teaches. And what US education is really about.

- [AMusingFool](#)

an heir to foucolt

- [phibre](#)

This perfectly illustrates what is wrong with the American school system...

- [burn_process](#)

Great essay on the shittiness of the school system.

- [xcaliginous](#)

The following is a brilliant essay by John Taylor Gatto entitled, "The Seven Lesson Schoolteacher" -- one of several such essays found in Gatto's book, "Dumbing Us Down."

- [pmcbride](#)

pichi academia naca

- [Absorto](#)

the seven lessons of schoolteaching: confusion, class position, indifference, emotional and intellectual dependency, conditional self-esteem, surveillance -- all of these things are prime training for permanent underclasses, people deprived forever of fin

Nové trendy ve vyhledávání

- Současné vyhledávání zaměřeno na úplnost rešerše – důraz na kvantitu indexace www prostoru vyhledávacími nástroji ALE problém KVANTITY ztěžuje hledání KVALITY
 - metody dobývání znalostí **web mining=klasifikace, shlukování predikce v nestrukturovaných textech** x data mining dobývání znalostí z databází především strukturovaných informací typu tabulek (- web intelligence kombinace interakce lidského myšlení, umělé inteligence se sítěmi a technologiemi)
 - **desktopy, toolbary** - integrace vyhledávání na www s vyhledáváním v lokálních, souborech (doc, ppt, xls, pdf+další metadatové formáty), e-mailu ...

Nové trendy ve vyhledávání

- Vize – sémantický web aneb na přímou otázku – přímou odpověď i komplexního charakteru (jaké je hlavní město ČR? Jaká je současná politická situace v ČR?)
 - Předpoklad – zachycení struktury dat, problém zejména textových dokumentů
 - značkovací jazyk **html** (dobrý pro zprostředkování inf. o vzhledu stránky) X **xml** (novými značkami umožňuje vymezit obsah pro pokročilé vyhledávací služby, specifikuje VÝZNAM tagů)
 - ontologie - nejvyspělejší forma metadat = člověku srozumitelné a zároveň strojově zpracovatelné, - definování rozsáhlých konceptů, tématických oblastí, termínů včetně vyjádření vztahů mezi termíny x tezauru přesnější, robustnější (škála vztahů pro vyjádření blízkost, nadtřída, podtřída - (projekt ontologie WordNet cca 100 tis. termínů)

PageRank is Google's measure of the importance of this page (4/10)

Aktuality

14.11.2005: (P. Skyrik)

V Brně bydlíme, pracujeme, studujeme, bavíme se. Takže určitě neuškodí si o něm občas něco přečíst :-)

- [Encyklopedie města Brna](#)
- [Moderní Brno](#)

04.11.2005: (P. Skyrik)

Do Rozcestníku (menu) byl přidán nový odkaz **Diplomové práce**. Jedná se bibliografickou databázi obhájených diplomových prací kabinetu knihovnictví.

24.10.2005: (Dusova)

Seznam aktuálních okruhů k diplomovým bakalářským pracím

Dr. Kadlece, PhDr. Lorence a Mgr. Presové najdete na níže uvedených adresách.

http://www.phil.muni.cz/vik/data/dusova/tema_kadlec.doc

http://www.phil.muni.cz/vik/data/dusova/tema_lorenz.doc

http://www.phil.muni.cz/vik/data/dusova/tema_presova.doc

18.10.2005: (P. Skyrik)

Pokud budete hledat me nebo Mgr. Jurmanovou Volemanovou, tak už nesedíme tam, kde jsme sedeli, ale sedíme tam, kde dříve seděla dr. Bocková. Stejně patro, kousek od kabinetu, první kancelář za dveřmi od schodiště.

12.10.2005: (P. Skyrik)

Ústřední knihovna Filozofické fakulty MU **hledá pomocníka** z řad studentů VIK. Jednalo by se o práci u referenčního pultu na patrech v době pondělí až čtvrtek 9 - 12 (13) hod.

Své žádosti pošlete nejpozději do pondělí 17.10. na adresu dr. Škuřilové skurik@phil.muni.cz

Critical sociolinguistics in the adult English for Speakers of Other Languages classroom

[Radical Teacher](#), [Winter, 2003](#) by [Erik Jacobson](#)

For the last ten years I have taught English to adult immigrants in a variety of community based settings. My students' educational backgrounds have ranged from little or no formal schooling to postgraduate work. Those students with limited formal education often come to class with negative self-images, and at times suggest that they don't know anything of value. This essay aims to highlight ways that teachers can counter this perception, by helping students to see their sociolinguistic knowledge of their native language as an important tool in the learning of English. Rather than waiting for full fluency in English before introducing a critical analysis of language and class relations in the United States, a critical sociolinguistic stance can promote students' acquisition of English while helping them articulate their sometimes unspoken class critiques. While I believe that this approach can work with any immigrant group, this essay will focus on my work in the Haitian community, and on several key aspects of Haitian sociolinguistics.

TEACHING ESOL

ADVERTISEMENT

Most adult immigrants who enroll in classes to learn English do so for the same reason--a shared recognition that limited English skills will prevent them from getting a better job. They believe that if they have any hope of escaping piece work in factories or hourly wages as housekeepers, they must improve their ability to speak English. As with generations of immigrants before them, their dreams of "making it" in the United States are directly tied to their level of English. When I ask new students what kind of work they do, many of them say, "Ahh, my English is no good," even before they tell me where they are working. In doing so, students display a sharp sociolinguistic awareness that language use will play a role in any judgments made about their work and social class status.

Unfortunately, most ESOL (English for Speakers of Other Languages) classes and textbooks seem to be lacking this sort of sociolinguistic awareness. There is no discussion in ESOL textbooks of how language use is affected by power relations between speakers, or by salient social characteristics (such as gender, age or level of education). This creates a dangerous situation where language is presented context free. For example, here is an explanation of the imperative from a widely used textbook: "Imperative sentences ask someone to do something in a very direct way. Keep in mind

Digitální knihovny

Charakteristika

- **terminologie**
 - matoucí - dáno neustálým průběžným vývojem (není historický odstup), s digi. kni. pracují různé profesní komunity
 - organizované sbírky digitálních dokumentů, objektů a služeb
 - systematická správa, popis, vyhledávání různorodých (heterogenních) zdrojů
 - jednotný přístup pro uživatele bez ohledu na druh a formu zdroje v digi. kni.(hudba, text, video..) prostřednictvím sítí
- počátky 60. Léta USA, ale rozvoj dovolil především stav techniky a internet od 90. let

Digitální x tradiční knihovny

- **řada společných vlastností stejná jako v tradiční knihovně**
 - zaměření na kvalitu, systematické budování , „jmenné a věcné“ zpracování
 - spojuje výhody automatizace (nonstop přístup ke sbírkám, efektivní vyhledávání, sdílení dat...)
- **řada odlišností od tradiční knihovny**
 - problémy se společenskou nepřipraveností na mezinárodní úrovni=technologie předchází společenské procesy - etika, legislativa, ekonomika (ohrožení tradičních schémat - autorské právo, ochrana osobnosti, daně, národní bezpečnost...)

Digitální knihovny

- **Problematika sběru, zpracování, popisu, uložení vyhledávání dat**
- **technická infrastruktura pro digitální knihovny - standardy pro komunikaci mezi jednotlivými archívy, heterogenními zdroji (Z39.50, OAI, DOI)**
- **infrastruktura pro popis zdrojů v digitální knihovně - metadata (formát DC)**
 - **popis z hlediska obsahu (název, předmět, popis, pokrytí, typ, zdroj, vztah)**
 - **popis z hlediska vlastnictví (tvůrce, přispěvatel, vydavatel, nositel práva)**
 - **popis z hlediska lokace zdroje na síti (identifikátor, datum, jazyk, formát)**

Open Archive Initiative OAI

- **podpora elektronického publikování X tradiční publikační proces (dlouhý interval od napsání příspěvku po jeho publikování, růst ceny vědeckých časopisů)**
- **Standard, který usnadňuje vzájemnou komunikaci, součinnost mezi digitálními archívy (interoperabilitu)**
- **implementace technických a organizačních nástrojů do jednotlivých systémů, archivů („otevřená“ architektura archivů)**
 - **jednotný metadatový standard, identifikační schéma, protokol pro sklizení metadat**

Digitální knihovny - standards, identifikátory

- **neexistuje jednotná globální infrastruktura, mechanismus na propojení jednotliv. digi. kni., ale základ tvoří standardy (Z39.50, OAI, Dublin Core, DOI)**
- **neexistuje univerzálně přijatelný identifikační systém informačních objektů na internetu (neměnné jméno a lokace objektu „na pořád“, systém URL nevyhovuje)**
 - **Příklad koncept URN**
 - **Příklad koncept DOI**

Digitální knihovny - identifikátory

- **URN [Uniform Resource Name] systém (s obsahem směrovacího mechanismu)**
 - identifikace obsahu konkrétního objektu bez ohledu na jeho lokaci
 - globálně nepodporují www prohlížeče
 - systém není rozšířený na celém internetu, směrovací služby jsou za úplatu
- **DOI [Digital Object Identifier]**
 - iniciativa komerčních vydavatelů, snaha o vybudování komplexního systému na správu a řízení vlastnických a autorských práv
 - centralizovaný, placený systém
 - Systém CrossRef využívá DOI pro vytváření citačních vazeb v oblasti vědeckých publikací (citation-linking) a zpřístupňování plných textů

Identifikátory - syntax

- URN [Uniform Resource Name]

- URN:**nid:nss**

Namespace Identifier- identifikátor určitého identifikačního systému (např. DOI), Namespace-specific String je konkrétní identifikátor v daném systému

- DOI [Digital Object Identifier]

- doi:**10.1006/123456**

konstanta 10 pro označení systému DOI, numerický identifikační kód registrující organizace, vydavatele, jednoznačný identifikátor digitálního objektu v rámci dané registrující organizace

- klasické identifikátory (ISBN, ISSN ...)

- ISBN **80-00-01987-6**

identifikátor skupiny, identifikátor nakladatele, identifikátor titulu, kontrolní číslice

Z39.50

- **mezinárodním standard pro komunikaci mezi počítači, který umožňuje jednomu počítači (klient) vyhledávat a získávat informace na jiném počítači (databázový server), a to v heterogenním prostředí, nezávisle na operačních systémech, databázích a dotazovacích jazycích**
- **hlavní oblastí nasazení protokolu jsou bibliografické knihovní databáze – jako dotazovací protokol**
- **Má-li knihovnický systém zabudován Z-klienta, protokol Z39.50 zprostředkuje vyhledávání následujícím způsobem: uživatel zformuluje dotaz v jazyce svého knihovního systému a vybere pro vyhledávání cizí vzdálený katalog se Z-serverem. Dotaz je přeformulován do Z39.50 a zaslán Z-serveru cizího katalogu; ten přeloží dotaz do vyhledávacího jazyka cílové databáze a přijme výsledek vyhledávání. Výsledek pošle Z-klientovi, který ho předá knihovnímu systému pro zobrazení v jeho standardním uživatelském rozhraní.**
- **rozvoj protokolu řídí mezinárodní skupina Z39.50 Implementors Group (ZIG) pod patronací Kongresové knihovny**

Open URL a nadstavba SFX [Special Effects]

- „otevřené“ propojování různorodých zdrojů (*open and context-sensitive linking*)
- propojování online katalogu, licencovaných bibliografických nebo plnotextových databází, digitalizovaných sbírek... s inteligentním „citlivým“ rozlišováním práv konkrétního uživatele (u licencovaných zdrojů nabídne místnímu uživateli např. plný text licencovaného zdroje, externímu uživateli pouze metadata)

Metadata

- **Formát = souhrn údajů podle kterých se popisují dokumenty, zdroje**
- **Bibliografické klasické formáty - MARC nevhodné pro www „strojem čitelné“ X metadata „stroji srozumitelné informace“ (struktura, obsah, význam) o webovských zdrojích nebo dalších věcech**
- **MARC formáty spolu s jejich pravidly pro popis (katal. pravidla např. AACR2) - příliš složité pro laiky**
- **Formát Dublinské jádro (Dublin Core Metadata Initiative, DCMI) americký Dublin v r. 1995 dohoda základní množiny údajů (prvků) k popisu e-zdrojů=soubor prvků metadat Dublinského jádra**

Metadata

- **Data o datech, informace o informacích**
- **Popis digitálních zdrojů (souvisí s budováním digi. kni. a jejich zpříst. Na www cca od 90. let)**
- **výraz nevnese knižníci (katalogizátoři), ale počítačníci zabýv. se www**
- **možná typologie metadat:**
 - **metadata popisná (slouží k obecnému popisu zdroje za účelem jeho vyhledání, identifikace a selekce)**
 - **strukturální (zachycují formát a strukturu zdroje za účelem jeho správného uložení a zobrazování)**
 - **administrativní (slouží ke správě zdroje, včetně řízeného přístupu a archivace)**

Metadata x bibliografický (katalogizační) záznam

- **metadata tvoří autoři, vydavatelé nikoli nutně knihovníci**
- **každá wwv obsahuje minimum „popisných“ specializov. údajů o sobě bez ohledu na umístění „popisných údajů“ a „pravidel popisu“ a aniž by je uživatel zřetelně zaregistroval (datum poslední manipulace se souborem, majitel zdroje...) x kniha v katalogu- snaha o detailní popis**
- **metadata jsou primárně určena wwv robotům, agentům za účelem vyhledatelnosti wwv nikoli koncovým uživ. X katalog. záznam**
- **nezávislost, samostatnost jednotl. metadatových položek (výroků) (autor zdroje, pracoviště autora, kontaktní údaje na autora) x katal. záznamu**

XML/RDF - Rámec pro popis zdrojů

- **Snaží se řešit vysoký výskyt navzájem nekompatibilních norem či směrnic pro syntax metadat i jazyky definic schémat**
- **Specifikuje na obecné úrovni model syntaxe a specifikaci schématu metadat jakéhokoliv zaměření a charakteru prostřednictvím XML**
- **cílem je zajistit vzájemnou součinnost (**interoperabilitu**) jednotlivých implementací metadat na mezinárodní úrovni**
 - **sladit popis webovských digitálních zdrojů (tvorbu metadat)**
 - **sladit nástroje na výměnu, užití metadat**

IN CONGRESS, JULY 4, 1776.

THE UNANIMOUS DECLARATION OF THE THIRTEEN UNITED STATES OF AMERICA.

WHEN, in the Course of former Events, it became necessary for one People to dissolve the political Bands which had connected them with another, and to assume, among the Powers of the Earth, the separate and equal Station to which the Laws of Nature and of Nature's GOD entitled them, a solemn Appeal to the Supreme Judge of the World, for the Decision of their Disputes, is the only Method which has ever been found, that will secure the Rights of the People, and will best conduce to the Honor and Interest of the World.

and acknowledged by our Laws; giving the Assent to their Acts of pretended Legislation:

- He has refused his Assent to Laws, the most wholesome and necessary for the public Good.
- He has forbidden his Governors to pass Laws of immediate and just Importance, unless he has previously assented to them.
- He has refused to pass other Laws for the Accommodation of large Districts of People, unless they were assented to by the Legislature.
- He has refused to assent to Laws, the most wholesome and necessary for the public Good.
- He has refused to assent to Laws, the most wholesome and necessary for the public Good.

- For imposing Taxes on us without our Consent.
- For depriving us, in many Cases, of the Benefit of Trial by Jury.
- For transporting us beyond Seas to be tried for pretended Offences.
- For abolishing the free System of English Laws in a neighbouring Province, establishing an arbitrary Government, and enlarging its Boundaries, so as to extend it over a large Part of the said Province.
- For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Government.
- For suspending our own Legislatures, and declaring themselves invested with Power to legislate for us in all Cases whatsoever.

John Hancock.

Sound Recordings of Theodore Roosevelt's Voice

When running as the third-party Progressive (Bull Moose) candidate for president of the United States in 1912, Theodore Roosevelt recorded a number of campaign speeches. Represented here are all of the cylinder recordings he made for the Edison Company in August of 1912. (The next month he recorded five 78 r.p.m. disc sides for the Victor Talking Machine Company.) Rival presidential candidates Woodrow Wilson and then-President William Howard Taft also recorded 1912 campaign speeches, but only for Victor. Theodore Roosevelt's recorded 1912 campaign speeches are the only sound recordings he made that were intended for commercial release.

[Add Book Search to your site](#)

Search the full text of Books

Find the perfect book for your purposes and discover new ones that interest you.

Search

Book Search works just like web search. Try a search on [Google Book Search](#) or on [Google.com](#). When we find a book with content that contains a match for your search terms, we'll link to it in your search results.

Browse books online

If the book is out of copyright, or the publisher has given us permission, you'll be able to see a preview of the book, and in some cases the entire text. If it's in the public domain, you're free to download a PDF copy. [Learn more about the different views.](#)

Learn more -- fast

We've created reference pages for every book so you can quickly find all kinds of relevant information: book reviews, web references, maps and more. [See an example.](#)

Buy the book ... or borrow it from the library

If you find a book you like, click on the "Buy this book" and "Borrow this book" links to see where you can buy or borrow it.

Where do the books come from?

Currently, we are connecting readers with books in two ways: the [Partner Program](#) and the [Library Project](#).

New! Create your own library with Google Book Search. [Find out how »](#)

Are you a publisher or author? [Find out how you can promote your books on Google for free.](#)

Want more information?

Check out the [News & Views](#) site for a history of the project, facts and fiction, media coverage, user stories and more.

Gulliver's Travels By Jonathan (Swift**Summary**

By Jonathan (Swift

Contributor Robert DeMaria, Jr.

Published 2003
Penguin Classics[Voyages, Imaginary](#)
[/ Early works to 1800](#)

336 pages

ISBN 0141439491

[Preview this book](#)[Add to my library](#)[Write review](#)

Shipwrecked castaway Lemuel Gulliver's encounters with the petty, diminutive Lilliputians, the crude giants of Brobdingnag, the abstracted scientists of Laputa, the philosophical Houyhnhnms, and the brutish Yahoos give him new, bitter insights into human behavior. Swift's fantastic and subversive book remains supremely relevant in our own age of distortion, hypocrisy, and irony. Edited with an Introduction by Robert DeMaria, Jr.

Popular passages

Ignorance or Corruption contradicted the Rules of common Justice and the general Reason of Mankind. These, under the Name of Precedents, they produce as Authorities, and thereby endeavour to justify the most iniquitous Opinions; and they are so lucky in this Practice, that it rarely fails of Decrees answerable to their Intent and Expectation. - [Page 304](#)

[Appears in 132 books from 1795-2006](#)

by doing anything unbecoming their Nature or their office. It is a Maxim among these Lawyers, that whatever hath been done before, may legally be done again: And therefore they take special Care to record all the Decisions formerly made against common Justice, and the general Reason of Mankind. These, under the Name of Precedents they produce as Authorities to - [Page 230](#)

The Vincent Van Gogh Information Gallery

A comprehensive site that aims to cover all Van Gogh's paintings, giving an A-Z listing with over 1000 images of paintings and sketches, and details of who currently owns them. It includes sections on portraits, self-portraits, sketches, watercolours, early works, FAQs, a mouse sensitive world map showing where paintings can be seen, a short biography, bibliography, and links to other resources.

 Impact on Art

Great Resources

August 2, 2005: Impact on Art!
 I've began working on the **Impact on Artwork** section. I hope to continue adding to this section (with the help of the visitors) to create a great interpretation of Van Gogh's Impact on Artwork.

Visit this section and then visit the **Contact Section** to offer your feedback and opinions.

Thank you for visiting!

July 28, 2005: Affiliation Open!
 The **Affiliation Program** is now open. If you are interested in affiliating with this website, please visit the affiliation program and follow the steps to get accepted!

Thank you for visiting!

July 25, 2005: More New Content!
 I have added some of the content:
