Task 7

1. If / when I get home tonight, I'll cook dinner. A: probability; if would mean you are not sure (for example, your flight home is delayed).

2. If / when I was a child, I once stole some candy. A: simple past activity; not conditional.

3. If / when I win the lottery, I'll buy you a coffee. A: If is a remote possibility; you're not sure, you're doubtful. When indicates that you are more optimistic and really expect to win.

4. If / when I reach the age of 60, I'll retire and move to Costa Rica. A: either: if = pessimistic, when = optimistic; both express attitude.

5. If / when I don't see you, have a nice journey. A: possibility; you are not sure about the future.

6. If / when I get out of prison, I'm going to go to college. A: either: if = pessimistic (for example, life imprisonment), when = optimistic; both express attitude.

- 7. If/when you put ice in a glass of hot water, it melts. Zero conditional
- 8. If/When it rains this afternoon, I'll stay at home. Probability

9. If/When I get old, I'll probably have grey hair. A: either: if= pessimistic, when= optimistic

If and when can reflect attitude.

If = possibility; when = probability in conditional sentences.

Task 9

Burglary is one of the most common crimes *which people commit*. Some figures show that up to one in six crimes *which are reported* is a burglary. Therefore, many people will be burgled at some point in their life. Some of those *who are burgled* will find it devastating, even if none of their possessions are actually taken. People *who commit burglary* should realize the effect they may have on someone else's life. In my opinion, if someone *who has already been convicted of burglary* offends again, they should receive a stiffer sentence.
