Protein Data Bank

Introduction

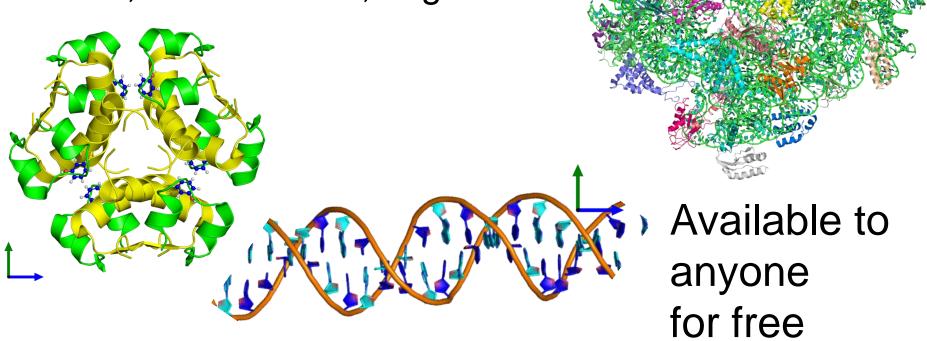

Radka Svobodová CEITEC Masaryk University

What is the Protein Data Bank (PDB)?

An archive of *experimentally determined* 3-dimensional structures of biological macromolecules

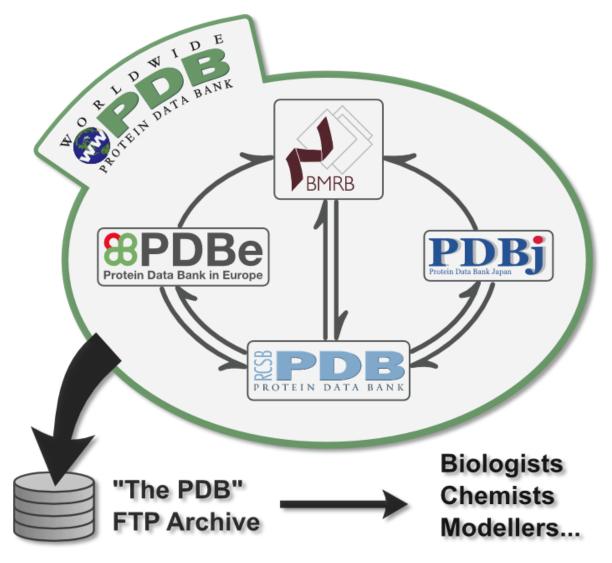

Protein, nucleic acids, sugars

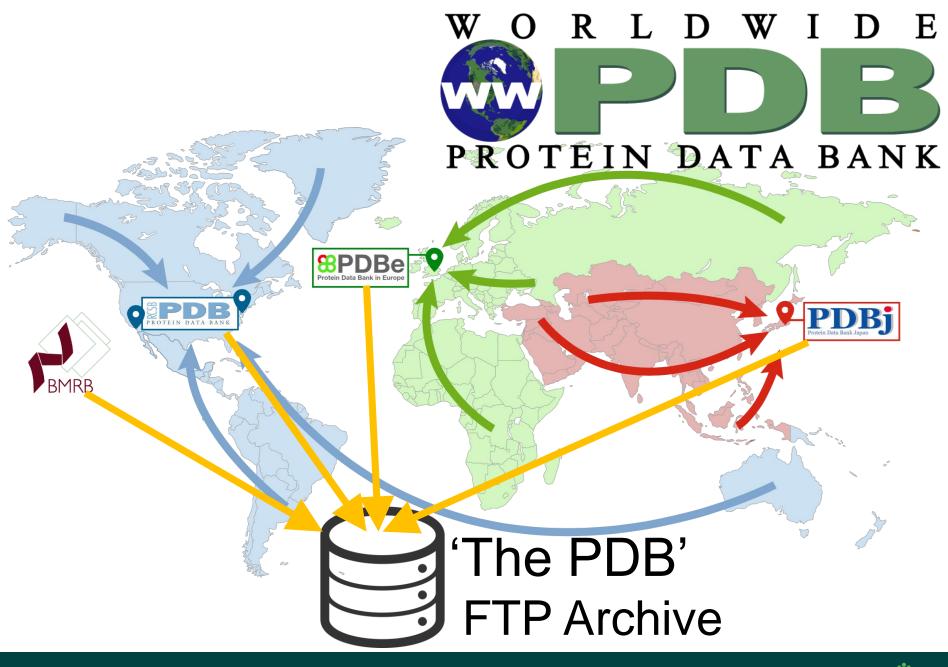

PDBe.org

Worldwide Protein Data Bank - wwPDB

wwpdb.org

wwPDB.org

Methods of solving the structures

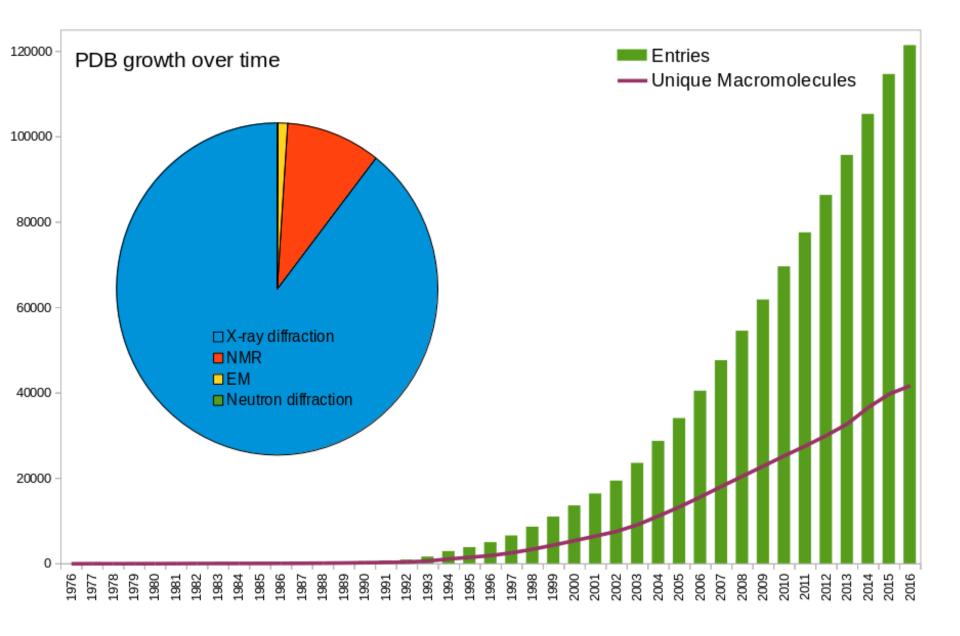

88% X-ray crystallography

10% solution NMR Spectroscopy 1% Electron microscopy

Other': Fibre diffraction Neutron Crystallography Solid state NMR

EMBL-EBI

PDBe.org
