

CEITEC – EMBL research cooperation workshop

Dates: 21st October 2011

Location: Rectorate of Brno University of Technology, Antonínská 1, Brno

Workshop objectives:

1. To strengthen existing cooperation
2. To establish new links between CEITEC and EMBL researchers
3. To lay down foundations of long-term co-operation

Programme

8:40 Registration

8:50 Ondřej Hradil, *CEITEC in a nutshell*, CEITEC Deputy Director

9:05 Silke Schumacher, *Introduction of EMBL and ELIXIR*, EMBL Director of International Relations

9:20 Zlataše Novotná, *SYLICA project – a tool for fostering CEITEC-EMBL cooperation*, Head of Grant Office & International Relations, CEITEC-MU

9:30 Radim Chmelík, *CEITEC Research Programme Advanced Nano- and Microtechnologies*, Research Group Leader, CEITEC-BUT

9:45 Michaela Wimmerova, *Structure-function studies of sacharide recognition proteins from pathogens*, Research Group Leader, CEITEC-MU

10:00 Richard Stefl, *Recruitment of RNA processing factors by the C-terminal domain of RNA polymerase II*, Research Group Leader, CEITEC-MU

10:15 Vladimír Beneš, *Unlocking genomes with GeneCore*, Head of Genomics Core Facility, EMBL

10:30 Hüseyin Besir, *Introduction to the EMBL Protein Expression & Purification Core Facility*, Head of Protein Expression and Purification Core Facility, EMBL

10:45 Coffee break

11:15 Jiří Friml/Eva Benková, *Hormonal interplay in regulation of plant development*, Research Group Leader, CEITEC-MU

11:30 Jan Paleček, *Characterization of (Structure Maintenance of Chromosome) SMC5-6 complex and its subunits*, Researcher, CEITEC-MU

11:45 Nick Goldman, *Mind the gap! Adventures in multiple sequence alignment*, Group Leader Bioinformatics, EMBL

12:00 Cornelius Gross, *A good brain requires a good vacuum cleaner*, Group Leader, Developmental Biology Unit, EMBL

12:15 Christian Häring, *Organising chromosomes for cell divisions*, Group Leader, Structural and Computational Unit, EMBL

12:30 Victor Lamzin, *Structures at different scales and resolution*, Group Leader, EMBL

12:45 Stand-up lunch and networking

14:00 Šárka Pospíšilová, *Research in CEITEC Programme Molecular Medicine*, Research Programme Coordinator, CEITEC-MU

14:05 Marek Mráz, *Importance of microRNAs in p53-pathway regulation in leukemic cells and embryonic stem cells*, Researcher, CEITEC-MU

14:20 Dalibor Blažek, *Transcriptional regulation of DNA damage response by new CTD kinases*, Research Group Leader, CEITEC-MU

14:30 Rainer Pepperkok, *High throughput/content microscopy to study organelle biogenesis and membrane traffic*, Head of Advanced Light Microscopy Facility, EMBL

14:45 Ramesh Pillai, *Genome defence by small RNAs*, Group Leader, EMBL

15:00 Martin Anger, *Getting older from oocyte perspective*, Research Group Leader, CEITEC-VRI

15:15 Coffee break and one to one meetings and discussions

16:15 Wrap-up

Participants

See attached Excel file with list of EMBL and CEITEC participants.
