"The Global Spatial Data Infrastructure Association - Advancing a Location Enabled World"

The GSDI Association is an inclusive organization of academic and research institutions, government agencies, commercial firms, NGOs and individuals from around the world.

The purpose of the organization is to promote international cooperation and collaboration in support of local, national and international ***Spatial Data Infrastructure*** research, education, capacity building and implementation challenges, issues and good practice from around the globe that will allow nations to better address social, economic, and environmental issues of pressing importance.

Our Vision is a world where everyone can readily discover, access and apply geographic information to improve their daily lives.

Our Purpose is to encourage international cooperation that stimulates the implementation and development of national, regional and local spatial data infrastructures.

Our Mission is to advance geo-information best practices, knowledge sharing and capacity building for the improved sharing and application of geographic information.

Welcome to the SDI Cookbook

The following contains the text of the book, broken down by chapter.

Each chapter is then broken into subsections.

Chapter 1: The Cookbook Approach

Chapter 2: Geospatial Data Development: Building data for multiple uses

Chapter 3: Metadata: Describing geospatial data

Chapter 4: Geospatial Data Catalogue: Making data discoverable

Chapter 5: Geospatial Data Visualization: Online Mapping

Chapter 6: Geospatial Data Access and Delivery: Open access to data

Chapter 7: Other Services

Chapter 8: Legal Issues and Economic Policy

Chapter 9: Outreach and Capacity Building: Creating a community

Chapter 10: Standards Suites for Spatial Data Infrastructure

Chapter 11: Case Studies

Chapter 12: Terminology
