Annotation

Diploma thesis „Textile little plays at lower primary school” is divided into the theoretical and practical parts. The theoretical part is also divided into two separate chapters. It deals firstly with practical education, teacher’s preparation for the lesson, methods and principles used by the teacher in the lesson. Further it covers the chapter about hygiene and work safety. Secondly it speaks about textile materials, their differences, qualities and ways how to work with them. The practical part consists of several lessons on the topic how to use textile in practical education. There are suggestions for articles and also articles proved and tried in practice.
