Cilantro

cilantro, coriander (*Coriandrum sativum*)	cilantro, soapy, waxy, melon, hay	dodecenal, decenals, decanal (seed mainly linalool)

Soapy
Waxy
Melon
Hay
Bubbles froth, light blue notes, overtly clean
light beige/green sticks

Tomato

Fruit	Component smells	Molecules
tomato (*Lycopersicon*)	green, cooked apple, metallic, coconut, mushroom, floral, malty, caramel	hexenal & hexanal, damascenone, epoxy decenal, wine lactone, octenone, linalool, methylbutanal, furaneol

The **tomato** is marked by fresh, green-vegetal, mushroom, floral, cooked apple, and malty notes, and the sweet caramel of furaneol. It's a unique and complex, non-estery mix, one that leans toward the savory more than the fruity-sweet.

Green
Cooked apple
Mushroom
Coconut
Malty

Mango

mango (*Mangifera indica*)	fruity, pineapple, caramel, resin-turpentine, tropical/passion fruit, sulfurous, peach, coconut	esters (ethyl butyrate & methylbutyrate), undecatriene, furaneol, myrcene, ocimene, sulfur volatiles (methyl sulfanyl pentanone, methyl butenethiol), g-deca- & d-octa-lactones

Peach
Coconut
Caramel
Sulfurous (catty)
Fruity
Resin-turpentine
Slow, flowing animation, distortion dark brown notes
Yellow, rocky

Avocado

Fruit	Component smells	Molecules
avocado (*Persea americana*)	grassy, nutty, fatty, sweet, resinous	hexenal, hexanal, pentanal, nonanal, methyl acetate, myrcene

Grassy
Nutty
Fatty
Sweet
Resinuous
Light, not too flashy, like amber

Literal imagery

Soapy

Laundry detergent

Stink-bug
