Did you know that many slimming pills require nearly a whole year before you see noticeable weight loss? Even some prescription diet pills are often TOO WEAK to provide fast results. Luckily you have 72 Hour Slimming Pill - a slimming pill designed to deliver fast, safe, and undeniable weight loss that you can’t miss in ONLY 72 Hours!

How Does It Work?

The all-natural formula of 72 Hour Slimming Pill can help you drop weight fast because it is made up of the top fat burning and detoxifying ingredients found anywhere! These ingredients act fast to detoxify your system, transforming your body from sluggish and slow to invigorated and energized! 72 Hour Slimming Pill can change your life in just a few days, making you feel lighter, happier, and healthier.

Does It Provide Real Results?

72 Hour Slimming Pill is designed with the most powerful and effective natural detox and slimming ingredients, and – it’s safe! There is nothing more powerful or effective as 72 Hour Slimming Pill.

- Drop weight fast by eliminating harmful toxins
- Accelerate your metabolism with proven fat burners
- Get an advanced, proven formula UNDER $20
- Achieve 100% natural and safe results with 90 Day Money Back Guarantee

Can I blame my body fat on toxins?

Yes! In fact, scientific experts agree that more than 70% of the population is suffering from obesity and weight gain because of harmful toxic buildup...

Toxins are harmful chemicals or pollutants that enter your body. They can accumulate from foods you eat, water you drink, the air you breathe, and any products you come in contact with. It all adds up to toxic buildup in your system, which experts slow down your metabolism.

Luckily, 72 Hour Slimming Pill targets this harmful accumulation of toxins and flushes them out - Fast! The results are a jump-start to dramatic weight loss and to feeling healthier and slimmer.

72 Hour Slimming Pill Ingredients

- **Dandelion Root** - Usually considered no more than a pesky weed, Dandelion Root is actually rich in vitamins A, B, C, and D as well as iron, potassium, and zinc. It was used for centuries by Native populations to treat kidney disease, swelling, skin problems, heartburn, and upset stomach. As a supplement, it eliminates toxins from the liver and kidney.

- **Uva Ursi** - A common treatment for urinary tract infections, it has strong antibacterial properties that can fight infections and toxins. It has tannins, which have a strong astringent effect, and it has been used to alleviate the buildup of toxins in the liver and kidneys.

- **Buchu** - This herb has been used as a traditional remedy for gastrointestinal and urinary tract infections. It works as a natural diuretic and antiseptic, and it
has been used in internal detoxes to flush out harmful toxins while eliminating bacteria.

**Juniper Berry** - This ingredient is used to medicinally treat stomach and digestive problems such as kidney and bladder conditions. It also alleviates many different health conditions, infections, and stomach cramps. It is a strong detoxifying agent when combined with the other ingredients.

**Cornsilk** - Cornsilk has been known to have a detoxifying, relaxing, and diuretic effect. It is used to treat infections of the urinary tract and genital systems, and it can relieve problems with frequent urination. It may also help treat toxic issues such as oedema and jaundice.

**Couch Grass** - This herb was used in Classical Greek periods to treat a number of health conditions. It alleviates inflamed bladders, painful urination, and water retention while your system is undergoing detoxification. Couch Grass is also a strong antiseptic.

**Parsley** - It’s not just for spicing food anymore! Parsley can act as a natural enema, it can control high blood pressure, it strengthens the bladder, and it may improve diuretic effects. It may also reduce the itching of mosquito bites by drawing out the poison, and it is believed to reduce bad breath.

**Stinging Nettle** - This plant has a long history of traditional medicine use, and it is also a food source. It is used as a natural diuretic in patients with congestive heart failure, and it has been used as a galactagogue in clinical trials. Experts have used it to treat arthritis, anemia, hay fever, kidney problems, and other localized pain.

**Cranberry** - This berry is commonly called a superfruit for good reason. Cranberry is rich in essential vitamins, minerals, and natural antioxidants. It also provides high ORAC value as a natural detoxifier and diuretic that can treat problems such as urinary tract infections. It also provides phytochemicals, and is an abundant source of health benefits.

**Ginger** - Used to calm an upset stomach and stop diarrhea, Ginger has proven itself valuable in optimizing the overall function of the digestive tract.

**Milk Thistle** - This has been recognized as a liver tonic, and it has been used for many medical functions. Milk Thistle remedies liver cirrhosis, chronic hepatitis, toxin-induced liver damage, death cap mushroom poisoning, and gallbladder disorders; all by removing potentially harmful toxins from the body.

**Vitamin B6** - This essential vitamin to the body helps aid neurotransmitter synthesis along with amino acid metabolism, histamine synthesis, gene expression, and hemoglobin synthesis and function. It is also a popular nutrient for fighting fatigue or malaise, anemia, skin disorders such as eczema or seborrheic dermatitis, and convulsions or skin seizures.

**Magnesium** - An all-natural essential nutrient in the body, Magnesium emphasizes a number of health benefits. It is essential to many of the body’s biological processes, such as the formation of bones and teeth and for maintaining a healthy heart. With magnesium, you can stabilize the rhythms of the heart.

**Potassium Citrate** - This substance from acidic fruit reduces the pain and frequency of urination. It is also used for pet dogs and cats, and it is chiefly employed as a natural diuretic. Potassium Citrate can also manage gout and arrhythmias, and eliminate kidney stones.

**Frequently Asked Questions**

**Q: How long does 1 bottle of 72 Hour Slimming Pill last?**
A: Each 72 Hour Slimming Pill bottle is designed to last 3 days when you consume the proper servings as directed. It contains 30 pills, or 6 servings.

**Q: What are the side effects of 72 Hour Slimming Pill?**
A: 72 Hour Slimming Pill contains potent detoxifying ingredients, which may result in more frequent bowel movements. It should be kept away from children and it is not recommended for pregnant or nursing women. If you experience adverse side effects, you should stop taking it and contact your doctor. You may also want to ask your doctor before starting 72 Hour Slimming Pill if
Q: What are the directions for using 72 Hour Slimming Pill?
A: You should consume one serving - 5 capsules - with 12-16 ounces of water. You should take 2 servings a day – at morning and afternoon meals. Don’t continue taking the supplement longer than 3 consecutive days, and wait 30 days before starting another detox cycle.

Q: How much weight will 72 Hour Slimming Pill help me lose?
A: A typical amount of weight loss in customers is between 5-7 pounds during the detox process. However, some users have reported a loss of 10 pounds in just 72 hours! Everyone’s body and circumstance is different, so results will vary.

Q: Should I continue to diet and exercise while taking 72 Hour Slimming Pill?
A: We always recommend a health diet and exercise routine while taking a weight loss supplement. They are 2 additional ingredients that you can add to achieve your weight loss goals. Diet and exercise are proven to give you more dramatic results and help sustain your weight loss for the long term. While 72 Hour Slimming Pill is effective on its own, it is only one valuable component of a healthy and successful weight-loss regime.

Q: Does 72 Hour Slimming Pill contain any harmful or experimental ingredients?
A: Never. 72 Hour Slimming Pill is formulated with only all-natural ingredients and the development team is dedicated to producing effective supplements that are safe for a wide variety of consumers.

Q: How long does it take to ship 72 Hour Slimming Pill?
A: We will process and then ship your order within 1 business day to ensure prompt delivery. U.S. orders are sent via FedEx Home Delivery (1-5 days), FedEx 2 Day Air, FedEx Standard Overnight, USPS First Class (2-5 days) and USPS Priority (2-3 days). Product orders requested outside the U.S. are shipped via FedEx International Mail (10-14 days) and FedEx International Priority (3-5 days, highly recommended).

Q: How much does 72 Hour Slimming Pill Cost?
A: 72 Hour Slimming Pill retails for $29.99. We offer 1 bottle at a drastically reduced price, and even steeper discounts the more bottles you buy! Buy today and save up to $67.98 (That’s more than 2 bottles worth!)

Q: Do you offer a money back guarantee?
A: YES! We offer an unbeatable 90 day money back guarantee. We're that confident you'll be amazed by the results. In the unlikely event that you’re not, you'll get a full refund (less s/h). All you have to do is contact customer service and they'll give you instructions on how to return your order. This offer is good for one fully used bottle and all unused bottles in resalable condition. To obtain an RMA number please contact us directly at support@72hourslimmingpill.com.

What Are People Saying?

Read what users are saying about the Best Slimming Pills . . .

"I have already lost 14 pounds in two weeks. I lost all that weight and my energy levels were still through the roof. I feel great and look even better. Thank you!"

Jessica Wellington

"I have been using 72 Hour Slimming Pill for the last 4 months. After the first three days, I lost 12 pounds in the last 4 months, and I have been able to keep it off. Every other diet that I have been on, I have always gained back the weight that I lost within a month, but the 72 Hour Slimming Pill has helped me keep it off."

David Benter

"As soon as I started taking the 72 Hour Slimming Pill, I noticed the effects immediately. I could feel the toxins leaving my system right away. I didn’t feel sluggish and weighed down anymore. I had more energy and felt healthier. The best part is I lost 8 pounds within the first week."

Steve Melton

"Within the first 3 days, I’ve already lost 5 pounds! I look and feel great! All thanks to you."

Samantha Sanchez

"I had some amazing results with the best slimming pills I’ve ever seen. I couldn’t believe it, but after using it just 3 days, I found I already lost 7 pounds. It was perfect for me and my needs."

Tabitha Welch

"I had to prepare for my 20 year high school reunion and only had 5 days to do it. 72 Hour Slimming Pill helped me lose 9 lbs right away. I went to my reunion and impressed all my friends. It is truly a miracle!"

Holly Stringer

- Or are you just looking to get as fit as possible as soon as possible?

Your ultimate fast weight loss pill solution for whatever reason you're looking to burn fat and lose weight as fast as possible! There's never been quick weight loss pills before this powerful that work this fast!

How 7-Day Weight Loss Pill Helps You Lose
7-Day Weight Loss Pill's exclusive formula has been revolutionarily engineered to help you safely lose as much as 10 pounds in just 7 days by naturally working with the body as the best fast weight loss pills you'll ever find in three revolutionary ways:

**Step 1: FAT BURNING**

**Burns Fat** – The precise blend of natural fat-burning ingredients has been perfectly formulated to strip away body fat as fast as possible. The powerful fat burners in 7-Day Weight Loss Pill are proven to increase the fat-burning process by as much as 85% so your body has no choice but to burn stored fat fast.

**Step 2: APPETITE SUPPRESSANT**

**Limits the Appetite** – By including one of the most recognized, all-natural appetite suppressants in this powerful formula along with several clinically-proven appetite suppressants, you're guaranteed to stay full longer so you eat less. By consuming fewer calories, you'll force your body to burn the excess calories stored in your body fat so you strip away fat in just days.

**Step 3: ALL-NATURAL DETOX**

**Cleanses the Body** – 7-Day Weight Loss Pill is the world's only diet pill formulated with the best all-natural detoxifying and cleansing ingredients to flush away stored waste and unwanted toxins currently disrupting your metabolism and digestive system. These powerful cleansing ingredients immediately help you lose weight by eliminating up to 20 pounds of waste in just days while enhancing the metabolic process and digestive system. You'll notice faster results that last long-term as 7-Day Weight Loss Pill helps eliminate the stubborn waste and all other obstacles preventing your body from losing weight.

**7-Day Weight Loss Pill’s Powerful Key Ingredients**

**Chromium** – Chromium is a necessity in any quality detoxification process. This 100% natural mineral maximizes the uptake of sugar from the blood for energy production, preventing excess carbohydrates from being converted into fat. With Chromium, you will experience a boost in energy and the many benefits of balanced blood sugars.

**Senna Leaf** – Senna Leaf, an herb extract from the Senna fruit plant, is an FDA-approved nonprescription mild laxative used to soothe constipation and cleanse the digestive tract. Senna Leaf does not cause diarrhea, but instead promotes healthy bowel movements as it cleanses the bowel lining and removes trapped toxins from the body.

**Lactobacillus Acidophilus** – Lactobacillus Acidophilus is a healthy bacteria proven to provide several benefits to both the digestive tract and circulatory systems. L. Acidophilus encourages the proper digestion of foods and prevents infections from developing in the colon. In addition, this friendly bacteria has been shown to prevent constipation, diarrhea, and high blood sugars.

**Dandelion Root** – Dandelion Root is one of the few natural herbs that have been proven in clinical trials to successfully detoxify the liver of harmful pollutants and toxins. In addition, Dandelion Root improves the function of the urinary tract, promoting water balance throughout the body.

**Uva Ursi** – Uva Ursi, leaves extracted from the "bear's grape" plant, is used primarily for urinary tract disorders and kidney infections. As a cleansing agent, Uva Ursi kills bacteria in the urine to reduce swelling and discomfort while encouraging the excretion of excess water weight from the body.

**Buchu Leaves** – Buchu Leaves is dried and harvested to provide you with the support your body needs for
a healthy gastrointestinal and urinary tract. As an effective diuretic, this ingredient is antimicrobial and a great anti-inflammatory. With soothing properties, it is able to help treat kidney and prostate infections.

### Just Read What Customers Have Already Said

**I have been overweight for about a dozen years. I have always found it difficult to curb my appetite. Using the 7 day weight loss pill, I have been able to curb my appetite and resist the late evening cravings or the boredom cravings. I have been rotating the week on week off and it has done miracles for me. My co workers are marveled at my weight loss. I started out at close to 230 lbs and have dropped down to 193 pounds. I recommend this product to everyone because it does what it claims to do!!!**

**Brian F.**

**I have tried every diet pill it was. I even went so far as to try prescription weight loss pills. They gave me minimal results with maximum side effects... After the first 2 weeks I had so much energy, I had lost 8 pounds and u could tell!!! I have been on it for 4 weeks now and the energy level, the appetite suppressant is still enduring and everything I try on fits better. This is one Diet pill that delivered.**

**Malissa Dorsey**

**I've used 15-20 different products before and never had the results I've experienced with yours! I made it through the week with no problems. I also managed to lose 10 pounds! I wasn't as hungry or eating mindlessly while using the product. Seeing those pounds drop really motivated me. It sounds so cliche to say that it changed my life, but it really did. Thank you for offering a product that is affordable and doesn't have embarrassing side effects!**

**Chrystal Williams**

**I lost almost 20 pounds with 7 day weight loss pill. Thank you!**

**K. Jackson**
I've been taking this product for a couple months,...this stuff is great,,it aids with fat loss when following a good diet and exercise. training for a half marathon and this stuff helps

Gwen Spindler

I seen many reviews on the product also at the time I was starting my cutting diet so I bought 2 bottles & it came with another free diet supplement! Let me tell you for first 3 days I lost 2lbs by the 7th day I was down 9lbs and that was only the first bottle!! I started the 2nd bottle 2 days after the first bottle and at the end of the 2nd bottle I lost a total of 19lbs I have to say this is a very good product it works wonders and is cheap too I will be buying more....

Brandon Markham

*Results in Testimonials are atypical and individual results may vary. All testimonials achieved results with a healthy diet and exercise.

**Frequently Asked Questions**

Q. How does 7-Day Weight Loss Pill Work so Fast?
A. 7-Day Weight Loss Pill is an all-natural blend of powerful fat burning, appetite suppressing and detoxifying ingredients to help work with your body. 7-Day Weight Loss Pill works by flushing the body of toxins, burning fat and suppressing the appetite. It helps you maintain long-term weight loss success by setting up the body to function optimally without the obstacles that make weight loss so difficult.

Q. How do I use 7-Day Weight Loss Pill?
A. To use 7-Day Weight Loss Pill take 4 capsules approximately 30 minutes before breakfast and lunch with at least 6 ounces of water. Take 7-Day Weight Loss Pill for 7 consecutive days, followed by 7 days without taking any pills and then use as directed for another 7 days.

Q. What can I do to get the best results possible?
A. To get the best results possible, eat a healthy diet and exercise regularly.

Q. How long will a single bottle last?
A. A single bottle of 7-Day Weight Loss Pill includes 56 capsules and is designed to last a full 7 days when used as directed.

Q. Are there any side effects?
A. The powerful detoxifying and cleansing ingredients in 7-Day Weight Loss Pill may lead to more frequent bowel movements as they flush away pounds of waste and toxins.

Q. When will I receive my order?
A. To ensure prompt delivery, we ship each order within one business day. Domestic orders are shipped via FedEx Home Delivery (1-5 days), FedEx 2 Day Air, FedEx Standard Overnight, USPS First Class (2-5 days) and USPS Priority (2-3 days). International orders are shipped via FedEx International Mail (10-14 days) and FedEx International Priority (3-5 days, highly recommended).

Q. How much does shipping and handling cost?
A. Shipping and handling is always one low flat rate no matter how many bottles you order. You have the option to select your desired shipping method during checkout. We ship all orders using USPS First Class Mail, Priority Mail or Express Mail.

Q. Do you offer a money back guarantee?
A. YES! We offer an unbeatable 90 day money back guarantee. We're that confident you'll be amazed by the results. In the
unlikely event that you're not, you'll get a full refund (less s/h). All you have to do is contact customer service and they'll give you instructions on how to return your order. This offer is good for one fully used bottle and all unused bottles in resalable condition. To obtain an RMA number please contact us directly at 1-877-641-9564 or email us at Support@7DayWeightLossPill.com

Q. Want to Contact Us?
A. If you have any other questions about 7-Day Weight Loss Pill, don't hesitate to contact our friendly customer support staff for any further questions by filling out the form on our contact page or simply clicking on our Live Chat link on the left.

90 Day Money Back Guarantee

We are so confident about 7-Day Weight loss Pill and it’s results! Each order comes with a 90 Day Money Back Guarantee. Can You Really Lose Weight In ONLY 7 Days?

At first we were skeptical too! But, after 5 years of clinical research, the R & D Team behind 7-DFBX worked around the clock to create the World's Fastest Acting Fat Burner that Works!

The result? 7-DFBX - The ONLY Fat Burners that work designed specifically to Detoxify, Burn Fat & Suppress Your Appetite to help lose weight in JUST 7 Days!

Don’t Take Our Word For It...

Read what a few THOUSANDS of 7-DFBX users have to say about their experiences

The weight just dropped off!

"I am a 33 year old mother of two I just had had my son last Jan and I was about 40lbs over weight I had started working out and eating right and got my weight loss started but after a month or so everything stopped. I was reading on line and came across 7-DFBX I started with two bottles and the weight just dropped off I was back to my pre size in two months I am starting another cycle to get these last 10lbs off... I love this diet aid."

– T. Duplessis
Within a month I dropped fifteen pounds! Awesome awesome product!

"I first tried 7dfbx a few weeks ago and am blown away from my results. Within a month I dropped fifteen pounds! Awesome awesome product!"

– Addie Courtney

I'm back down to my pre-pregnancy weight!

"I was so freaked out after having my son that I was never going to lose the 40+ pounds I had gained while I was pregnant... I noticed results the first week and now less than 3 months... I'm back down to my pre-pregnancy weight and have plenty of energy to keep up with my extremely demanding little boy. 7-DFBX helped me get my confidence back and I feel great!"

– Lindsay White

I lost 10lbs with one bottle...

"I am very satisfied with this product. I have tried so many supplements and expensive ones and none have given me the results like with this one. I lost 10lbs with one bottle... Plus you feel great with no headaches or nausea like with supplements. And the price is not expensive. Planning on buying more. Thanks"

– Raul Contero

I lost 9lbs in a week!

"I just finished my first bottle and I lost 9 lbs in a week! I'm about to order my second bottle. I can already see a difference in my stomach. I'm excited to finally reach my results!"

– Jatsue Marroquin

*Results in Testimonials are atypical and individual results may vary. All testimonials achieved results with a healthy diet and exercise.

100% Money Back Guarantee!

You’re protected by our 90-Day 100% Money Back Guarantee! If you are unsatisfied - IN ANY WAY - simply contact a friendly customer support representative within 90 days for a full refund (less S&H). We wouldn’t offer a guarantee like this unless we

### Ingredients

- **Dandelion Root** - Dandelion Root is a gentle detoxifying agent that purifies the liver of toxins and restores electrolyte balance. It also benefits the kidney, cleansing the kidney walls and encouraging elimination of excess water weight. Dandelion Root also provides nutrients and antioxidants that work throughout the body to promote balance and health.

- **Senna Leaf** - Senna Leaf is a plant and herbal laxative used to treat constipation and clear the digestive system. Senna Leaf essentially resets the digestive tract so your small intestine and colon be restored to maximum performance and cleansed from pounds of waste.

- **Uva Ursi** - Uva Ursi is commonly used to soothe and heal disorders of the urinary tract system. It's antibacterial and anti-inflammatory components remove bacteria in the urine and reduce swelling, improving urination and soothing the urinary tract.

- **Lactobacillus Acidophilus** - Lactobacillus Acidophilus is a "friendly" bacterium that promotes proper digestion and prevents infections that can originate in the colon. Intake of Lactobacillus Acidophilus can eliminate constipation, diarrhea, and unnecessary bloating.

- **Cissus Quadrangularis** - Cissus Quadrangularis is a vine with potent weight loss potential. Several clinical trials have revealed that intake of...
Cissus Quadrangularis can increase metabolism, promote fat burning, and decrease appetite, helping subjects lose significantly more weight than diet and exercise alone.

**Caffeine Anhydrous** - This dehydrated form of caffeine binds to fatigue-causing adenosine receptors in the brain, increasing your mental clarity and giving you a surge of energy. Caffeine also stimulates adrenaline and dopamine production, providing motivation you need to maximize your workout.

Buy Abidexin Direct & Save!

With no middle man, you can get Abidexin for as little as $36.65 a bottle. Plus you’ll get our famous 90 day money back guarantee.

And for a limited time, we’ll throw in Abidexin 72 Hour Cleanse FREE when you order 2 or more bottles of Abidexin.

The Benefits of Abidexin

- Reduces Unwanted Body Fat by boosting your metabolism
- Curbs Hunger Cravings to make eating less easier
- Increases Energy and Focus without the jitters
- Each order is backed by our 90 Day Money Back Guarantee
- Free Shipping (within US) when you order 2 or more bottles
The Science Behind Abidexin

**GreenSelect® Phytosome® Green Tea** –
This patented ingredient has impressed many in the weight loss industry. In a recent placebo-controlled study, the average subject lost over 30 pounds in just 90 days! That’s 20 more pounds than the placebo group. Obviously, this isn’t your average green tea. It’s a standardized extract with high levels of active ingredients: 60% polyphenols and 40% EGCG. The bottom line: this potent ingredient will help you lose MORE weight, FASTER.

**Caffeine Anhydrous** –
Caffeine anhydrous is good for more than just a quick energy boost. It also stimulates thermogenesis and promotes mental focus.

**Coenzyme Q10** –
Coenzyme Q10 functions as a powerful anti-oxidant. It’s a naturally occurring compound found in every cell of your body. It plays an important role in energy production by converting your food into energy. In addition to being a promising weight loss ingredient, it’s also beneficial for heart health.

**Green Coffee Bean Extract** –
Green Coffee Bean Extract is receiving a lot of media attention because it was featured on a popular Doctor’s daytime TV show. But does it live up to the hype? A recent study reveals how powerful it really is: in just 22 weeks, subjects lost an average of 17 pounds. That’s 15.8% of their total body fat! Researchers suggest green coffee beans fight fat because they’re rich in the phytochemical chlorogenic acid. So we included the most powerful extract we could find, which contains 50% chlorogenic acid.

Real People, Real Results

*Results in Testimonials are atypical and individual results may vary. All testimonials achieved results with a healthy diet and regular exercise.

★★★★★ 40 pounds in 2 months! - December 27
*Results are atypical and individual results will vary.

"My name is Jessica and I am so glad that I tried Abidexin. It really works. I took it 3x a day before a meal and I lost 40 lbs in 2 months! I went from 165 to 122. Went from a size 12 in pants to a size 2. I only worked out a couple times a week, going on a walk with the dog, nothing major because I work so much I had no desire to go work out after a long day of work. After taking Abidexin, Not only did I start to feel great about myself other people noticed and keep telling me I looked great and that they could tell I was doing something different. I got my confidence back!! It’s worth a try if you are stuck feeling like nothing is working, that’s what I did and I am so glad that I did!!"  

– Jessica (Billings, Montana)

★★★★★ 10 pounds in 2 weeks! - April 19
*Results are atypical and individual results will vary.

"I was horrified the day I weighed myself and I saw that i was at a whopping 140 pounds! I am only 19 and 5 foot! That was the day I decided I needed a change, so I came across Abidexin and decided to give it a try. Then i started taking Abidexin daily everyday after the detox, and now 2 weeks into it, I am at 130 and still watching pounds just fall off. I couldn’t be happier. Thank you so much Abidexin, I will forever recommend friends, and family to this product. I can finally wear a two piece! Thanks again!!!!!"
Dropped 15 pounds in one month! - November 17

*Results are atypical and individual results will vary.

"I started this in March of 2011. I was 275lbs, 32 but felt like I was 52. After making the firm decision that I would be in much better shape... I decided to take a 3 prong approach... Diet, exercise and supplementation.

I had tried other weightless supplements before, with mixed results. The reviews I read gave high recommends to abidexin for both, so I gave it a try. After one month of taking it, I dropped 15 lbs. after 3 months I was down 45lbs. It seemed to supercharge my other efforts which, the more I've read about Irvingia Gabonensis and the raspberry key tones that exactly what they are supposed to do."

- Richard Moye (Jamestown, Indiana)

Results within the first two weeks!

*Results are atypical and individual results will vary.

"I was constantly putting on weight and wasn't able to shed it off even with cardio. I usually weighed around 115 lbs.- 120 lbs. But I gained so much weight (36 lbs.). I found Abidexin and felt confident about the safety reviews so I tried it. I have been using Abidexin since January of 2012 and am now at 118 lbs.! There is a great suppression in my appetite, I have energy yet I do not feel ill after taking the tab. I felt results within the first two weeks and they were evident after roughly four weeks. I'm very happy to be back to me! Thank you!"

- Kay Charoenwong

Frequently Asked Questions

Does Abidexin work for everyone?
No... While almost everyone LOVES Abidexin, a few people (less than 2% of customers) may not be satisfied. (We really can't please everyone) There's really only one way for you to find out if it works for you...try it! And if you don't love it... You Get All Your Money Back (minus s/h). Abidexin is backed by a No Nonsense Satisfaction Guarantee! Read below for details.

Do I have to exercise to see results?
Abidexin was designed to be taken in conjunction with a healthy diet and exercise. That is the best way to burn fat and lose weight. Some users lose weight without changing their diets or exercising, but exercise and healthy eating are recommended for optimal results.

How long does each bottle last?
It varies. Each bottle will last between 10-30 days, depending on your dosage. Never exceed the recommended dosage of 1-3 Capsules 30 minutes before Breakfast and Lunch. Abidexin is extremely potent and increasing the dosage will cause you to lose an unhealthy amount of weight. Please start out with one capsule and assess your tolerance to the caffeine from there.

What is Abidexin 72 Hour Cleanse?
Abidexin 72 Hour Cleanse is a detox diet pill. While Abidexin will burn fat and suppress your appetite, Abidexin 72 Hour Cleanse will improve metabolism by cleansing your body of toxins, making weight loss even easier. We include it for FREE when you order 2 or more bottles of Abidexin.

How do I take Abidexin 72 Hour Cleanse with Abidexin?
You can start Abidexin and Abidexin 72 Hour Cleanse at the same time. For Abidexin take 1 capsule 30 minutes before meals and/or exercise. Always take with at least 12-16 oz of water. Do not exceed 3 capsules daily. Do not take your last dose within 7 hours of going to sleep. With Abidexin 72 Hour Cleanse 5 capsules every morning and afternoon with your meals. Take with 16-24 ounces of water. Never take more than 3 consecutive days. Wait 30 days before starting your next cycle.

When will my order arrive?
All orders are shipped within one business day. Shipping time depends on your location and method. For US customers, we offer FedEx Home Delivery (1-5 days), FedEx 2 Day Air, FedEx Overnight, USPS First Class (2-5 days), and USPS Priority (2-3 days). International orders are shipped FedEx International Mail (10-14 days) and FedEx International Priority (3-5 days, fully trackable).

How do I order?
We have a Simple 1-step Verisign Secure, Authorize.net Verified, Hacker Safe checkout that accepts Visa, MasterCard, American Express, Discover card, and PayPal. Your email address is ALWAYS kept private. We hate unwanted spam as much as you do and will never be a part of it.

Does Abidexin come with a Money Back Guarantee?
YES! Your success in using Abidexin is completely guaranteed. In fact, here's our Guarantee: If you aren't satisfied- we don't expect... or want... to keep your money. You can use up to one full bottle on us. If you don't see the results you were expecting, simply contact us for a return authorization number and instructions on how to return the product. After receipt,
refunds are processed within 7-10 business days.

Award Winning ABREXIN™ is Canada’s Product of The Year for Weight loss, and Consumers Choice For Best New Supplement.

Just 1 clinically proven ABREXIN™ before you go to bed stimulates calorie burning while you sleep!

ABREXIN™ IS AVAILABLE AT THESE RETAIL STORES ACROSS CANADA. GET STARTED ON ABREXIN™ TODAY!

CLINICALLY PROVEN TO SAFELY REDUCE BODY FAT

- Naturally stimulates the fat burning process known as thermogenesis while you sleep
- Is completely safe to use and has no harmful side-effects
- Does NOT contain any stimulants and actually enhances deep, restful sleep
- Works with just 1 tablet taken each night before bed with a glass of water

Finally there’s a clinically proven way for you to safely reduce body fat levels without the use of harsh stimulants, appetite suppressants, or other unproven and ineffective ingredients.

ABREXIN™ represents an entirely new way to target and eliminate stubborn, hard to lose fat that’s clinically proven to burn fat while you sleep!
“Just a quick note to say that I am on my second month of your product and I LOVE it! I sleep better, my body is lighter and I won’t ever go a month without it again. I was skeptical when I bought my first bottle, but it works and I am hooked!

Even if I have a nice ‘cheat’ dinner with my husband, I don’t gain weight the next day. I am not a fitness model or anything. I am a normal person trying to get in better shape and your product is crucial to my transformation. Thanks so much and I will always be a fan and customer :)

Lora - Hawaii

How ABREXIN™ Works?

When you eat food, a natural process called thermogenesis starts in your body that results in a slight increase in body temperature which requires calories to be used, also known as calorie burning.

When you take an ABREXIN™ before bedtime, you trick your body into thinking you just had a meal which starts the natural thermogenic process while you are asleep.

This tiny and completely unnoticeable increase in body temperature forces calories to be used throughout the night which results in fat loss while you sleep.

-Mike Murphy
Fat Burning Secret #1
The Science of Thermofercin, Only in ABREXIN™

The secret to ABREXIN™'s incredible clinically proven calorie burning results comes from a unique ingredient called Thermofercin which provides the proper clinical study dosage of 300 mg of Lactoferrin.

Lactoferrin is a very unique and special element found in milk known as a protein fraction. It contains only the unique characteristics of the protein fraction and does not contain the properties of whole milk like lactose, fat etc.

It's this unique protein fraction found in Thermofercin that activates the natural thermogenic response while sleeping. When you take just 1 ABREXIN™ before you go to sleep, which provides the proper 300 mg of Lactoferrin, your brain thinks you just ate a small meal even though the only thing you've eaten is an ABREXIN™.

This triggers the natural thermogenic digestive response which happens each and every time you eat a meal, except this time, there's no food to digest. What's left is that oh so tiny byproduct of heat production which consumes calories while you sleep.

Remember the heat production is completely unnoticeable, but it is enough to trigger calorie burning. There are no stimulants in ABREXIN™, in fact as you'll soon see, ABREXIN™ actually enhances deep restful sleep.

Actual Study Results Showing Thermogenic Activity

"I was just telling my husband how great this stuff is, now he'll get to try it! BTW, I haven't seen him in almost 2 months and he just came back home, and noticed a difference!! Thank you ABREXIN™!"

-Amanda McDonald

Amanda Got Results in Just 2 MONTHS
Fat Burning Secret #2
Not Sleeping Well Could be Making You Fat!

Ground breaking research has connected poor sleep with fat gain. If you’re not getting deep, restful sleep for at least 6-8 hours a night you could be setting yourself up for massive fat gains in the months and years ahead.

One of the theories behind this startling discovery is based on a hormone called cortisol. Cortisol is a powerful stress hormone that normally lies dormant except during periods of stress, emergencies, etc.

One of the unfortunate roles of cortisol is to actively store and accumulate body fat. As a result you want to minimize this hormone’s release as much as possible to avoid adding more and more fat to your body.

Unfortunately bad sleeping habits cause just enough stress for your body to release cortisol. The more cortisol released, the fatter you become almost automatically.

ABREXIN™ Enhances Deep and Restful Sleep Naturally!

Just 1 tablet of ABREXIN™ before bedtime was shown to enhance sleep patterns. Deeper more restful sleep was a wonderful and surprising benefit no one was expecting.

To make things even better, there was no gogginess the next morning! ABREXIN™ users reported feeling well-rested and refreshed when they woke up.

Who couldn’t use deeper more restful sleeps, especially with the amount of stress and anxiety we face each and every day of our lives.

With ABREXIN™ not only will you start burning fat while you sleep, but you’ll also sleep better!

Fat Burning Secret #3
How GP SHEILD Technology Targets ABREXIN™

Thermoferrin, ABREXIN’s™ unique form of the protein fraction lactoferrin, is only half the fat burning story. Anytime food or supplements enter your stomach, they are subjected to a harsh acidic environment meant to breakdown and destroy everything that enters.

If this were to happen to ABREXIN™, its thermogenic effectiveness would be destroyed. That is why we developed GP SHEILD. This gastro-protective barrier shields ABREXIN™ from the destructive effects of your stomach acid, and allows ABREXIN™ to pass through the stomach unharmed and into your intestines where it can exert its thermogenic, calorie burning activity.
Stop Thinking About it and Start Using ABREXIN™
Voted Canada’s Product of The Year for Weight Loss and Winner of Gold for Consumers Choice Best New Product

A panel of 20 industry professionals and over 6000 Canadians just like you voted, and ABREXIN™ was voted best weight loss innovation above all other products. Here you can see the awards ceremony where the team at ABREXIN™ received this top honour.

Not only did ABREXIN™ win product of the year for weight loss, but it was also just awarded the consumers choice gold medal by prestigious natural product magazine Alive for best new product in Canada. Again Canadians just like you voted, and ABREXIN™ was the product they chose.

What’s Holding You Back?
ABREXIN™ is a Safe, Clinically Proven Tool to Help Support a Leaner Healthier You.

- ABREXIN™ naturally stimulates the fat burning process while you sleep.
- ABREXIN™ targets your most stubborn fat loss spots
- ABREXIN™ does NOT contain any stimulants
- ABREXIN™ actually enhances deep, restful sleeps
- ABREXIN™ is completely safe to use and has no harmful side-effects.
- ABREXIN™ works with just 1 tablet taken each night before bed.
- ABREXIN™ is the winner of 2 Prestigious Canadian product awards.

How does ABREXIN™ work?
The active ingredient in ABREXIN™ is a milk protein fraction called Lactoferrin. When taken before bedtime ABREXIN™ tricks your brain into thinking you just ate a small meal. Normally this stimulates a natural process called thermogenesis which is a normal part of food digestion. Thermogenesis causes a tiny increase in body temperature which requires the use of calories while you are sleeping. Over time, night after night, this use of extra calories can lead to safe natural weight loss.

Can anyone use ABREXIN™?
YES! ABREXIN™ is safe for anyone to use. The main ingredient lactoferrin, is derived solely from milk protein. There is no lactose present in lactoferrin, so it should be fine for those lactose intolerant individuals. If however you are avoiding any products made with milk, you should not use ABREXIN™. If you are pregnant or breast feeding, do not use ABREXIN™. If you are under the age of 18, do not use ABREXIN™.

Are there any safety concerns?
NO. ABREXIN™ is an extremely safe product. Multiple human trials have been conducted on lactoferrin and its safety in human beings is well supported.

What is ABREXIN™ made from?
The main ingredient in ABREXIN™ is lactoferrin. Lactoferrin is a part of cow’s milk. It is what’s known as a protein fraction. This part of the milk protein is isolated and removed for use in ABREXIN™.

How do I use ABREXIN™?
ABREXIN™ is extremely easy to use. Simply take 1 tablet before bedtime with some water. Use ABREXIN™ each night before you go to bed.

How long can I use ABREXIN™?
You can use ABREXIN™ for as long as you like. There is no problem with long-term use.

Should I take time off from ABREXIN™?
Not at all. You can use ABREXIN™ for as long as you like. Remember, ABREXIN™ can also enhance deep restful sleep. This effect is continued for as long as you are using ABREXIN™.

Can I use ABREXIN™ with other fat burning products?
YES! If you have a favorite fat burning product you use during the day, feel free to keep using it. ABREXIN™ will only enhance your results by enhancing calorie burning while you sleep.

Do I need to exercise while using ABREXIN™?
No you do not, but your results will be much better when you combine ABREXIN™ with regular exercise.

Do I need to change my diet while using ABREXIN™?
No you do not, but your results will be much better when you combine ABREXIN™ with a healthy nutrition plan.
Here is what Accuslim will not do:

- Rip fat off your body
- Help you lose weight with out exercising
- Allow you to eat anything you want and lose weight while taking it. *You already know that does not work!*

However it was designed for you the customer who needs a little extra edge to go along with your diet and exercise program. We believe Accuslim is different then other products. Not just with our ingredients because we know other companies use them. It is more of our philosophy. Click here to learn more.

Accuslim Advanced Chromium Complex
Accuslim Advanced Fat Blocker
Accuslim Advanced Carb Blocker

These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, prevent, mitigate or cure any disease. Regular exercise and proper nutrition are essential for achieving your weight loss goals.
Accuslim® Chromium Complex

Let's face it most products on the market today over promote and under deliver. Here is what Accuslim will not do! "Rip fat off your body, help you lose weight with out exercising, allow you to eat anything you want and lose weight while taking it." You already know that does not work! However it was designed for you the customer who needs a little extra edge to go along with your diet and exercise program. We believe Accuslim is different then other products. Not just with our ingredients because we know other companies use them. It is more of our philosophy. That philosophy is simple. Live a healthier lifestyle. This includes eating healthier, exercising both the body and the mind and proper nutrition.

You see Accuslim is not just a product you will find on the internet. It was originally formulated and sold at the nations largest weight deduction seminar company to fill a need, the need was to provide high quality nutrients at an affordable price. Over the last 5 years we have had thousands of satisfied clients.

Oh by the way incase you search around online you will notice may so called information sites reviewing our product. We invited you to read them however take note if they truly giving you a honest review or do they have another purpose in mind. You will find all of them have there own agenda...that is to sell there own products.

Chromium Nicotinate Glycinate Chelate™
The "master" nutrient for regulating blood sugar, it helps you overcome severe sugar and carbohydrate cravings that sabotage even the most strong-willed weight loss efforts. A lack of Chromium Nicotinate can impair insulin function, thereby inhibiting protein synthesis and energy production. It also helps the body’s insulin metabolize fat, convert protein into sexy muscle, and turn sugar into energy.

Vanadium
A trace mineral like chromium, this nutrient is essential for efficient cellular activity. It works remarkably well as a powerful insulin mimic, and has been shown to maintain blood sugar levels that are in the normal range. Vanadium is also a naturally occurring appetite suppressant assisting in portion control. It also assists the metabolism in converting carbohydrates into energy.

Citrus aurantium
Recent studies Citrus aurantium to be as effective as Ephedra, but without the side effects on the nervous system. It raises your metabolic rate, it also increases the rate at which stored fat is released from the body (a process known as lipolysis), so the removal of unwanted ugly fat is accelerated. Its also been shown to increase physical performance by making fat available for energy and by maintaining or building lean muscle mass during the weight loss process.

Rhodiola Rosea (Artic Root)
This “Feel Good” nutrient is derived from the artic regions of Eastern Siberia. It is one of the more fascinating plant species in the world. This herb is responsible for lipase activation, or the release of fatty acids. It also enhances physical performance and increases endurance by accelerating recovery from fatigue. It also helps raise the levels of serotonin to the brain, warding off mood swings that can be brought on by low carbohydrate or low fat dieting.

Garcinia Cambogia
Also known as Hydroxy Citric Acid seem to help carbohydrates convert to glycogen rather than fat, ensuring more efficient energy reserves, stamina and weight control. This increased production of glycogen stimulates the glucoreceptors in the liver and sends satiety or "feel full" signals to the brain, thus appetite and food craving are suppressed.

Green Tea Powder
Among the most promising weight reduction agents to come along in a long time. Recent studies have shown that green tea leaf can increase calorie burning, thermogenesis and fat oxidation. This boost in metabolism can help you burn calories which can decrease the number of calories that become stored as fat. It can lead to some major fat burning!

Panax Ginseng
It is best known as an "adaptogen" -- a substance that may help individuals cope with physical and emotional stress. Panax ginseng has a regulating effect on the immune system.

American Ginseng
In general, ginsengs are considered to be adaptogens, or substances that may help individuals adjust to physical and emotional stress.

Siberian Ginseng
Siberian ginseng is also considered to be a substance that may help individuals cope with physical and emotional stress thus reducing Cortisol the "stress hormone" which is known for increasing the storage of ugly belly fat.

Other Ingredients: gelatin, magnesium stearate, Dicalcium phosphate, terra alba, whey, stearic acid.

Accuslim Testimonials

I lost 24 lbs. in 6 weeks while taking Accuslim and it gave me a lot more energy. Louis T. Bridgewater NJ.

Accuslim along with changing my lifestyle helped me lose over 73 lbs! Ted R. West Virginia.

I purchase Accuslim at a weight loss seminar I went to. I used it and along with walking more and eating healthier I lost over 90 lbs! James S. Laconia New Hampshire.

I lost over 35 lbs. taking Accuslim. I was very pleased with the product. Mike K. New Jersey
How is Accuslim different from the other weight loss products out there?

Accuslim has an ingredient in it (Citrus Aurantium) that is considered as effective as Ephedra, but without the potential side effects on the nervous system. This ingredient is not new to us, but the research on its weight loss capabilities is relatively new. This ingredient raises your metabolic rate, it also increases the rate at which stored fat is released from the body (a process known as lipolysis), so the removal of unwanted ugly fat is accelerated.

How fast will I see results? How many pounds will I lose per week?

Accuslim works differently in all people. Bodies and metabolisms are like people. Some are stubborn, while others are easy going. Each person has different body chemistry. For example, if you are a tall, big-boned person, you will probably lose more weight than someone who is short and small-boned. We have spoken to people who first noticed their results after a full 60 days of using Accuslim, if you don't notice immediate results, please be patient. The Accuslim formula is so unique that we are confident you can achieve significant fat reduction. Generally, weight loss of 1 to 2 pounds per week is considered safe, and such levels of weight loss have been demonstrated with the ingredients in Accuslim.

How do I use the Accuslim Advanced Chromium Complex?

As a dietary supplement, take 1-3 tablets 30 minutes prior to each meal. Use as part of a low fat diet and exercise program. For best results, combine ACCUSLIM® with a calorie-reduced diet and a regular exercise program. Do not snack after dinner. Consume ten 8 fl. oz. glasses of water per day. Read the entire label before use and follow directions.

Can I increase the serving size for faster results?

The simple answer is NO! The key ingredients for ACCUSLIM® have been scientifically researched and combined to work optimally as indicated on the label. ACCUSLIM contains the latest ingredients in precise amounts to help you achieve your weight-loss goals when you combine it with a diet and exercise plan. For these reasons, you should only consume ACCUSLIM in accordance with label directions. You should always carefully read the label in its entirety before using a dietary supplement and follow the labeled directions.

These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, prevent, mitigate or cure any disease. Regular exercise and proper nutrition are essential for achieving your weight loss goals.
What Is The Big Deal With ADAPEXIN™?

It works!

Appetite suppressants are a " dime a dozen" these days. Every company claims to be " the best " or promises an absurd amount of weight loss. The fact is no one has delivered. Until now...

ADAPEXIN contains CLINICALLY PROVEN INGREDIENTS that will help suppress your appetite, making weight loss faster and easier. We’re so confident we GUARANTEE results or your money back. If you’re unsatisfied with ADAPEXIN for any reason at all, take advantage of our 90 Day Money Back Guarantee.

The Science Behind ADAPEXIN™?

ADAPEXIN combines 8 powerful, proven ingredients that work together to suppress appetite (reducing caloric intake) and burn fat (increase calories your body uses throughout the day).

With the help of ADAPEXIN, you’re on your way to creating a caloric deficit and dropping body fat in a matter of days:

**Benefits of Glucomannan:**
- Reduces hunger and cravings between meals
- Helps you eat less food

**Benefits of Chromax®:**
- Reduces caloric intake by suppressing appetite
- Lowers body fat and increases lean muscle mass

**Benefits of Phenylethylamine:**
- REDUCES hunger and suppresses appetite
- Regulates mood, reduces stress and increases energy

**Benefits of Raspberry Ketones:**
- Increases metabolism

The Science Behind ADAPEXIN™?

**Benefits of Raspberry Ketones:**
- Increases metabolism
Thermodiamine (98% Evodiamine)
Thermodiamine has been used for centuries in China as a weight loss supplement. It’s recently been “discovered” in the US and Europe and is quickly becoming a popular weight loss aid (by itself). Studies suggest Thermodiamine may help you slim up in two ways. One, it increases body heat and raises your core temperature, which leads to calorie burning. Two, it reduces the body’s uptake of fat and even burns it! Although studies are still confirming Thermodiamine’s effectiveness, the preliminary results are excellent.

Benefits of Thermodiamine:
- Reduces fat uptake
- Burns fat

Ginger Root (50mg)
Recognized for its medicinal purposes and overall health benefits for thousands of years, Ginger has helped protect the gastric system by increasing the pH of stomach acid, reducing its acidity and increasing digestive enzyme activity. Ginger has also been known to suppress appetite and regulate metabolism, which accelerates the fat burning process.

Benefits of Ginger Root:
- Suppresses appetite

Caffeine Anhydrous (199mg)
Caffeine has been used for centuries because of its natural stimulating effects. It's recently been discovered that caffeine metabolizes fat for energy, which is ideal for anyone wanting to lose weight. The 199mg in Adapexin is powerful enough to burn fat and energize your body and mind. Because caffeine is a stimulant, we don't recommend taking it within 7 hours of bedtime.

Benefits of Caffeine Anhydrous:
- INCREASES metabolism
- Promotes fat break down
- Increases energy, focus and athletic performance

Vitamin B12 (500mcg)
Vitamin B12 is essential for maintaining good health. It plays a key role in the normal functioning of the brain and nervous system.

Benefits of Vitamin B12:
- Increases energy levels
- Increases serotonin levels, reducing appetite

Frequently Asked Questions

Q. Can you lose weight too quickly?
If you are losing more than one pound a day, decrease the dosage. Losing too much weight so quickly may be unhealthy.

Q. Is Adapexin safe to use?
Absolutely. Adapexin is an all natural formula designed to decrease appetite, increase lean muscle, and decrease weight. There have been no reports of any adverse effects. Like all diet pills, you should consult your physician if you have any allergies or other health conditions before taking any supplements.

Q. Do you have to diet and exercise when I use Adapexin?
It’s recommended. Exercise and diet will not only help you lose weight faster, but they will also help you become healthier.

Q. How old do I have to be to use Adapexin?
You must be 18 to order and use Adapexin.

Q. Is Adapexin approved by the FDA?
The Food and Drug Administration does not provide approval for all dietary supplements. Only prescription drugs go through the process of approval; hence, Adapexin is not FDA approved. This product is not intended to diagnose, treat, cure, or prevent any diseases.

Q. When will my order arrive?
All orders are shipped within one business day. Shipping time depends on your location and method. For US customers, we offer FedEx Home Delivery (1-5 days), FedEx 2 Day Air, FedEx Overnight, USPS First Class (2-5 days), and USPS Priority (2-3 days); International orders are shipped FedEx International Mail (10-14 days) and FedEx International Priority (3-5 days).

90 Day Money Back Guarantee
Your satisfaction is completely guaranteed. If you aren't satisfied — we don't expect...or want...to keep your money. You can use up to one full bottle on us. If you don't see the results you were expecting, simply contact us and we'll refund you the purchase price (minus S&H). The refund is good for one used bottle and any other unused bottles. We couldn't afford to do this if Adapexin didn't work. Join the 1000's of satisfied customers and try Adapexin today!

Purchase ADAPEXIN™

GetSlimmerQuickly With 12 Of The Most Powerful Fat Fighters . . .

All In 1 Formula, We Guarantee Adiphene Works!

Once you discover what's in it, it's not difficult to see why Adiphene delivers such a knockout blow to your unwanted fat.

For a start, it includes 12 of the most powerful natural fat fighters, known to science and that alone is heavyweight stuff, but these 12 specially selected ingredients help you tackle fat in FIVE DIFFERENT ways . . . because in every dosage of Adiphene you get:

- **3 Fat Burning Metabolizers – Vitamin B6, L-Carnitine HCL & Ginger Root**
  You'll speed up your metabolism and rapidly burn off excess fat with this all-natural blend that has no side effects

- **1 Fat Binder - Chitosan**
  You'll have far less food stored as fat because Chitosan binds to fats in your stomach allowing it to pass throughout your body!

- **1 Appetite Reducer - Glucomannan**
  You'll feel less hungry from this 100% natural ingredient so you consume fewer calories which guarantees you'll lose weight fast!

- **2 Thermogenic Boosters – Cinnamon Extract & Cayenne Capsicum**
  You'll burn off an extra 270 calories per day from the combination of these two powerful natural ingredients – without having to diet or exercise!

- **5 Natural Stimulants – Bitter Orange, Chromium Picolinate, Guarana Extract, Ginseng Panax Root Extract & Cacao Extract**
  Your body will be able to efficiently metabolize food into energy from the combination of these incredible ingredients, allowing you to burn maximum fat!

Many fat reducing formula's only have one or two of the above, but we've gone much further to create what we believe to be... The most powerful fat loss formula available. Now you don't have to take your chance with just one solution, which might not be as effective on you as it is on other people.
I wanted to try something stronger and knew I could trust Adiphene compared to other natural diet pills. I have tried a lot and got too many side effects or nothing worked.

I only wanted to lose body fat not so much the weight and after a month I was shocked my stomach went down. Body fat did come off even though my weight dropped a little but as long as I lost the fat that's what I wanted, I didn't have too much to lose.

I also felt full and had less cravings through the day. After breaking my foot I really couldn't exercise so this pill helped a lot. On this pill I didn't do any diet or exercise while on it for a month or have side effects.

Thanks guys!

Lauren C.

Your stubborn fat really can be a thing of the past with Adiphene... Click Here to ORDER right now.

We all eat differently. We all respond differently. So we hand selected Adiphene's ingredients to ensure we gives you the most diverse and powerful five way strategy. A little fat loss here, a little there, more from here, it all adds up very quickly and because it works in so many different ways... it will work for everyone.

Adiphene Gives You 5 Times More Fat Busting Power!

Firstly, the maximum strength, finest quality clinically proven ingredients, make Adiphene the appetite suppressant equivalent of the prescription only, Adipex P. But that's just one of the ways Adiphene will help you lose the pounds, as it tackles your unwanted fat in 5 different, powerful ways...

So you'll soon be smiling every time you step on the scales.

Because of Adiphene's multiple target approach, your results from each will soon add up, resulting in even more fat loss.

11 pounds lighter in 23 days exactly and I haven't done any exercise. Wendy B.

For example, some of the fat you eat is prevented from entering your system (inhibitor and binder) and your appetite will be under control (appetite reducer), so no nasty, nagging cravings making you head for the fridge.

These alone will help you reach your goals without the pain usually associated with losing weight.

But they are nothing compared to the power of Adiphene's number one benefit... turbo charging your metabolism, until it burns calories like a forest fire burns dry timber.

Your Metabolism Can Be Your Secret Fat Busting Weapon..
As a mother of 3 and a very busy wife, I'm finding Adiphene really useful. I haven't really got the time for exercise or preparing a special diet, so the fact I have lost 8 pounds in the last 3 weeks is fantastic. More! Linda T.
So Why Is Adiphene The Most Powerful Fat Burner?

Adiphene contains 5 natural stimulants and most importantly, 2 very powerful thermogenic boosters, to fire up your metabolism and force your body to burn more fat.

Because Adiphene not only turns your body into a fat eating machine, it also allows your body to reject some of the fat you eat and keeps your hunger at bay. That's the 'eat less' part helped along nicely.

And when you add all this up, it's the perfect combination to keep you on target and easily hit your weight loss goals...

To read more click here to see the Adiphene Ingredients page

Let's Have a Closer Look At Adiphene's Specially Selected Ingredients?

The 5 Stimulants

Bitter Orange, which many dieters turned to as a powerful alternative, when the Food and Drug Administration banned the herbal supplement ephedra. Chromium picolinate works to increase the efficiency of insulin, which is incredibly important, as insulin controls how much fat your body stores.

Then we have Guarana extract which helps to efficiently metabolize food into energy, burn excess stored fat and speed up metabolism to burn even more fat. Ginseng panax root extract 10% is thought to help modulate carbohydrate metabolism, which means it's potentially useful for managing blood sugar. And the theobromine in Cacao extract inhibits fat storage and the cocoa polyphenols increase fat metabolism.

Put 12 powerful ingredients to work for you to reduce your waistline... Click Here to ORDER right now.

The 2 Thermogenics

Research has shown that Cinnamon extract 4 %, may help reduce abdominal fat. Several studies have shown cinnamon reduces insulin resistance and fasting blood glucose levels, both of which are associated with unwanted abdominal fat.

Thanks to its twelve to one concentration, Cayenne capsicum 40M HU/G, is the purest pharmacologically refined currently available. By increasing blood flow in the smaller or restricted flow blood vessels found in fatty tissue, it can carry the other active ingredients in Adiphene straight to where they're needed and help them be absorbed.
Another exciting finding of Cayenne, is that it also allows you to burn up to 270 extra calories a day by increasing your core temperature. Called ‘thermogenic burn’, this temperature increase requires more energy, which helps to effortlessly burn extra fat.

**The Hunger Reducer**

**Glucomannan** (kanjac root) is a very effective appetite suppressor. A study of twenty overweight people who took a set dose of glucomannan for just eight weeks, lost an average of five and a half pounds without a special diet plan.

Reducing your hunger, even by a little, can really take the stress out of losing weight.

**The Fat Binder**

**Chitosan** extract binds to fats in the stomach and shuttles them straight through the digestive system, so they can’t be absorbed. **Less fat absorbed, means less fat stored where you don’t want it!**

**The Fat Metabolizers**

**Vitamin B6** is a powerful metabolism booster which also helps the body to metabolize food into energy and burn excess fat. **L-carnitine HCL** helps to mobilize fat stored in the tissues, helps long-chained fatty acids to be burned for energy and increases the amount of fat burnt during strength or aerobic workouts. **Ginger root** speeds up your metabolism to allow you to burn fat away more quickly. It also helps to reduce muscle pain caused by exercise.

Adiphene Offers Real Help With Your Battle Against Unwanted Fat

As you can see, Adiphene’s thoroughly researched, extremely powerful and effective ingredients will help decrease the amount of fat your body stores and increase the amount of unwanted stored fat it burns.

**Thanks to its 5 paths to attack fat, you WILL lose weight.**

**Click here to order Adiphene right now.**

You obviously know that eating a healthy, balanced diet and getting regular exercise can make your weight loss goals much more achievable AND improve your health. But as you’re painfully aware, it can be difficult finding the time and fit it all in!

**Adiphene makes it so much easier to lose weight.** It’s powerful, proven ingredients work in harmony together, ensuring you absorb less fat, your hunger is kept in check and your body becomes a fat melting furnace . . . even without diet or exercise.

---

“I wanted to lose a stone (14 pounds) ready for my holiday and I ordered your pills 5 weeks ago. It’s another 4 weeks till the holiday and I have lost almost 9 pounds as I write this. I’m going to need smaller trunks. LOL

Jason N.”
I'm an amateur bodybuilder so my diet is good and I obviously 'exercise'. I have been using Adiphene as a fat burner and I have to say I personally have had really good results. I'm looking more ripped than ever and can't wait for the next comp. I understand nutrition so I know the ingredients help more than weight loss too. **Billy S.**

With **12 scientifically cutting edge powerhouses, working against your unwanted fat, 24 hours a day, 7 days a week**, you'll soon be experiencing the kind of effortless fat loss you've only ever dreamed about.

**It's Time To Start Feeling Really Great About Yourself...**

**Make a start right now, right here . . . today.** Let Adiphene put the 3rd fat loss secret to work for you quickly, easily and painlessly.

The medical research shows that the metabolism takes around 90 days to fully adapt for 90-95% of people. For some slightly less, for some a slightly more, but 90 days is the good rule of thumb. Remember your metabolism will be fired up before then, but at around 3 months, it'll be at it's fat melting peak.

**So right now you have 2 choices**

**1: Spend the next few months:**

- **Researching** the latest findings on natural fat burners
- **Filtering** the information for what's directly relevant to raising your metabolism
- **Finding** out which of them work in synergy together
- **Sourcing** the correct nutrients, in the right quantities to be effective
- **Ensuring** you get the highest quality nutrients available or you could be wasting your money

**2: Order Adiphene right now and spend the next few months with a big smile on your face as you watch your unwanted fat melt away.**

**CLICK HERE TO ORDER ADIPHENE NOW!**

"I'm an amateur bodybuilder so my diet is good and I obviously 'exercise'. I have been using Adiphene as a fat burner and I have to say I personally have had really good results. I'm looking more ripped than ever and can't wait for the next comp. I understand nutrition so I know the ingredients help more than weight loss too. **Billy S.**"

"Just take Adiphene before breakfast and lunch, boost your metabolism quickly and lose your unwanted fat.

**And you're buying Adiphene risk free thanks to our 30 Day Guarantee**
Order Right Now To **Avoid Disappointment**...

**Please Note:** We recommend the 3 months supply simply due to the science showing that 3 months is the optimum timeframe to force your metabolism into overdrive. (You'll obviously lose weight before then, but don't fall for products promising massive weight loss in the first few weeks.) Trust the science, set your sights on a 12 week plan and watch that unwanted fat melt away.

1 MONTH only $65.95
2 MONTHS only $129.95
3 MONTHS +1 FREE only $197.95

What Makes Adiphene So Powerful And Effective?

Adiphene’s power lies in its multi ingredient formula and its metabolism boosting power.

Many weight loss and fat burning supplements rely on just one or two ingredients, which usually tackle your fat from just one direction. There are many different kinds of weight loss supplements, but they usually fall into one of 4 primary categories:

- **Fat metabolizers.** Helps your body to burn its stored fat. In other words, the fat you can see under your skin.
- **Fat binders.** These have chemicals which bind to the fat from a meal, in your stomach and carry it straight through the digestive system without it being absorbed.
- **Appetite reducers.** Does exactly what the name suggests . . . reduces your appetite by controlling certain chemicals or by making you feel full for longer.
- **Thermogenic boosters and Stimulants.** The most powerful for fat loss because they fire up your metabolism, turning it into a fat melting furnace. Your own body becomes much more efficient at burning calories, including fat and when your metabolism is fired up, you’ll also burn unwanted stored fat.

Adiphene is nothing like other weight loss supplements as it contains 12 different fat loss ingredients in the convenience of one formula. You simply take 2 capsules a day and let the power of the 12 specially selected and researched ingredients get to work on your unwanted fat.

Click Here to order Adiphene and finally be able to slip into the clothes you love

It's ingredients work in harmony together and as it works in so many different ways the results soon stack up on the scales.
Adiphene's number one benefit is **turbo charging your metabolism**!

You may not know it, but *Metabolism really is the 3rd but missing secret to fast, painless fat loss*. 

**Obviously the first 2 are:**

- **Eat less:** Lowers your calorie intake. Less food to be stored as fat. But can be painful and hard to stick to for any period of time, due to your body being used to a certain level of calories.

- **Exercise more:** Burns more calories. And if you exercise on an empty stomach it can force your body to burn fat. But with an empty stomach, you have nothing to fuel your exercise, which makes it so much harder to stick to.

Of course these have been the mainstay of losing weight for many years and if you have any willpower, they'll work for you. But if you're looking for an easier, less stressful way to lose the pounds, you need to know about the 3rd missing secret to fat loss..

---

**Adiphene turns up your metabolism so it can burn more of the fat you eat, along with your stored fat, much more effectively . . .**

---

Speed up your Metabolism: The 'missing secret'

Your 'basal' or resting metabolism, uses around 60% of the calories you need each day, with around 30% of the calories used when you move (known as your activity metabolism). The other 10% are used for digesting food, which is known as your thermic metabolism.

**Turn up your metabolism and those figures rise, meaning you'll be burning more calories, without diet or exercise.**

People fall into one of two metabolic types:

- **Fast metabolisers.** These people have no problem burning calories and seem to be able to eat what they like, without storing much fat.

- **Slow metabolisers.** These people have a problem burning calories and will store fat easily and unfortunately, very quickly.

Many people will complain and say "I wish I had your fast metabolism so I didn't put on weight so easily." **Well you can speed up your metabolism and become one of 'them', much easier than you think.** If you turn up your metabolic dial, you'll burn more calories NATURALLY. Your body's calorie furnace will be turned up to maximum power, forcing it to not only burn the calories you eat at every meal, but also your stored fat!

---

**Remember, it's your metabolism which ultimately controls your weight loss or gain,** because it's responsible for how much fat your body burns rather than stores.

Adiphene turns up your metabolism so it can burn more of the fat you eat, along with your stored fat, much more effectively . . .
Turn up your 'Metabolic Dial' and you'll lose weight without dieting or exercise

Your metabolic rate is simply the rate at which your body burns calories. Speed up your calorie burning (metabolism) and you can lose weight even if you eat the same amount of food! Just turn the dial with Adiphene.

Can you see why it makes so much sense to concentrate your weight loss efforts on speeding your metabolism up?

Don’t worry, you can speed up your metabolism without changing your diet and without exercise.

And this is not Hocus Pocus. It's simply switching your metabolism naturally using specially selected nutrients, proven to force up your metabolic rate, forcing your body to burn more calories and more of your stored fat.

But be warned... despite what you've heard in the past, when you diet and exercise alone, without turning up your metabolism, you are throwing water on your metabolic fire...

Did you know that low calorie diet + exercise = lower metabolism?

When you 'starve' your body with less calories than it is used to, it adapts and reduces the amount of food it needs... by lowering your metabolism. So it uses less fuel.

Less fuel means less energy, which in turn means it's harder to exercise. So... you end up feeling worn out and turn to stimulants like coffee, and more sugary snacks to keep you on your feet.

But it gets worse. You would think that fewer calories meant less storage of fat. However, when the body is in even mild starvation response, it stores extra calories as fat to protect itself from the perceived famine!

It takes around 90 days on average, for your body to adjust to the new program. But it's hard work getting there.

Put 12 powerful ingredients to work for you to reduce your waistline... Click Here to ORDER right now.

However, there is another way to burn your fat without the stress and pain...

Adiphene Turns Up Your Metabolic Dial For You

Adiphene contains 5 natural stimulants and most importantly, 2 very powerful thermogenic boosters, to turn up your metabolism and force your body to burn more fat.

And Adiphene not only turns your body into a fat eating machine, it also includes nutrients which forces your body to reject some of the fat you eat at meal times, before it's digested AND to keep your hunger under control.

These 12 scientifically cutting edge powerhouses, work in harmony together against your unwanted fat, 24 hours a day, 7 days a week, you'll soon be experiencing the kind of effortless fat loss you've only ever dreamed about.

Don't forget your purchase is risk free too... Thanks to our 30 day guarantee, so order right now and start turning your metabolism into a fat burning furnace.
Adiphene's Specially Selected Ingredients Will Turn Your Body Into A Fat Destroying Machine

With 5 of the most powerful natural stimulants and 2 incredible thermogenic boosters, Adiphene will fire up your metabolism, which will force your body to burn calories AND your unwanted fat.

But it also helps your body to bind to some of the fats you eat and shuttle them out of your body. If the fat isn't digested, it can't find its way to your hips, thighs, stomach or anywhere else you don't want to see added weight.

And to help you find it even easier to lose your unwanted weight, Adiphene also includes an effective appetite reducer. As hunger is the number one enemy of weight loss, if you can keep it under control, you'll obviously find it far easier to stick to your weight loss goals.

Click Here to order Adiphene with FAST SHIPPING right now!

All the ingredients in Adiphene have been fully researched and specially selected to work as a synergistic formula. You get the powerful benefits of each individual ingredient, working hard to tackle your fat from 5 separate directions, along with the synergy of the formula naturally boosting your metabolism.

Because your metabolism controls your weight loss or gain, when Adiphene turns up your metabolism, it can burn more of your unwanted fat much more effectively.

It's not difficult to understand that when you reduce the amount of fat your body digests AND force your body to burn more of the stored fat in your body . . . you are going to be slimmer.

Let's break down the formula and look at exactly why Adiphene is so powerful:

The 5 Stimulants

Bitter Orange

In several small studies, participants have experienced an increase in metabolic rates when consuming bitter orange products. A highly regarded governmental agency called the "German Commission E" actually approves of bitter orange to suppress appetite, dyspepsia and a number of other stomach complaints.

And a clinical trial from the Journal of Medicine 2002, concluded that bitter orange was "the best thermogenic substitute for ephedra". That's why many dieters turned to Bitter range as a powerful alternative to ephedra, when the Food and Drug Administration banned it.

Chromium picolinate
Chromium works to increase the efficiency of insulin, which is incredibly important, as insulin controls how much fat your body stores. After eating, your body secretes the hormone insulin, whose main function is transporting glucose to cells, providing energy for the cell to function. It is thought that chromium picolinate works by stimulating the activity of insulin, thus significantly aiding the body's glucose and fat metabolism, managing the breakdown of glucose and fat.

How chromium improves insulin efficiency is currently unclear, but it has been suggested (Krzanowski, 1996) that chromium works to increase the sensitivity of the body's insulin receptors.

American diets are generally very low in chromium because as foods are processed, they are stripped of natural chromium. And combining chromium with picolinic acid, helps chromium to be absorbed much more effectively.

Guaranna extract

Guarana is a small bean which grows mainly in South America, and predominantly in the Amazon jungle. The seeds are rich in caffeine and Guarana has a powerful effect on increasing the body's metabolic rate, works as an excellent appetite suppressant and enhances both physical and mental performance.

It works a bit like caffeine by stimulating the release of the hormones epinephrine, adrenaline and dopamine from the adrenal glands which force your body to burn more stored fat. Guarana extract also aids weight loss by suppressing appetite, so Adiphene helps to control your hunger in more than one way.

Guarana Extract can also increase mental alertness, fight fatigue, increase stamina and physical endurance. Because Guarana is absorbed slowly it gives a more sustained supply of energy than caffeine's quick burst buzz.

Put 12 powerful ingredients to work for you to reduce your waistline… Click Here to ORDER right now.

Chitosan extract binds to fats in the stomach and shuttles them straight through the digestive system, so they can't be absorbed. Less fat absorbed, means less fat stored where you don't want it!

Ginseng panax root extract 10%

Panax ginseng is thought to help modulate carbohydrate metabolism, which means it's potentially useful for managing blood sugar. Panax ginseng is also renowned for improving concentration, memory and thinking, along with physical stamina. A great help if you're adding exercise to your plan!

Reported in the Phytotherapy Research Journal, an investigation into ginsenoside Rg3, which is found in ginseng, researched its ability to inhibit differentiation in the cells which store energy as fat. The research showed that ginsenoside Rg3 was effective at inhibiting this differentiation, making it much more difficult for these cells to complete the fat storage process.

And a small 12 week 2008 study consisting of 19 people with well controlled type 2 diabetes, sought to find out if Panax ginseng can help the management of diabetes. Those given the panax experienced a greater improvements in glycemic control over those given a placebo.

Cacao extract

The theobromine in Cacao extract inhibits fat storage and the cocoa polyphenols increase fat metabolism. And according
to a new study in the Journal of Agriculture and Food Chemistry, research at the Pennsylvania State University found properties in cocoa could inhibit carbohydrate and fat digestion, stopping the body from absorbing them.

The authors in the new report concluded "The present study provides the first evidence that cocoa extracts and cocoa procyanidins are potent inhibitors of key enzymes in the digestion of carbohydrates and lipids in vitro, and these inhibitory activities are related to polyphenol content in cocoa extract."

Compounds in the cocoa bean seem able to disrupt the activity of enzymes normally used to digest fats and some carbohydrates, causing some of the fats and carbs to not be digested, say the authors in the new report.

**Hershey: Cocoa polyphenols show weight management potential**

Extracts from cocoa may block carbohydrate and lipid breakdown in the gut, and aid weight management, says a new study from Hershey.

A few more studies on the anti-obesity and anti-diabetic potential of cocoa have been conducted in animal models.

- Matsui et al. showed that cocoa supplementation for 3 weeks significantly decreased weight gain in high fat-fed rats comparing to high fat-fed controls. [Link](http://www.ncbi.nlm.nih.gov/pubmed/15850966)

- Another study by Ruzaidi et al. also showed that dietary cocoa extract (1-3% w/w) dose-dependently reduced body weight gain, serum glucose levels and total triglycerides in diabetic rats compared to control-fed animals. [Link](http://www.ncbi.nlm.nih.gov/pubmed/15763363)

- Tomaru et al. reported that a diet containing 0.5% or 1.0% cocoa procyanidins decreased the levels of blood glucose and fructosamine in diabetic obese mice compared with the control treatment. [Link](http://www.ncbi.nlm.nih.gov/pubmed/17350804)

- Jalil et al. found that short-term (acute) supplementation of cocoa extracts significantly reduced the plasma glucose level in obese-diabetic rats at 60 min and 90 min compared with untreated. [Link](http://www.ncbi.nlm.nih.gov/pubmed/18702467)

---

**The 2 Thermogenics**

**Cinnamon extract 4 %**

Several studies have shown cinnamon reduces insulin resistance and fasting blood glucose levels, both of which are associated with unwanted abdominal fat, so it may help reduce abdominal fat.

Cinnamon can lower a meal's glycemic effect, meaning the foods you consume will boost your blood sugar more slowly. This is beneficial as too fast a spike in blood sugar will cause more fat to be stored in the body. This is because high blood-sugar levels make your body release more insulin, transporting any extra glucose into fat storage.

**Your stubborn fat really can be a thing of the past with Adiphene... Click Here to ORDER right now.**

And your insulin resistance becomes worse, the more overweight you are. A chemical called flavon-3-ol seems to be responsible for cinnamon's levelling effect on your blood sugar.

**Cayenne capsicum 40M HU/G**

Thanks to its twelve to one concentration, this is the purest pharmaceutically refined currently available. By increasing blood flow in the smaller or restricted flow blood vessels found in fatty tissue, it can carry the other active ingredients in Adiphene straight to where they're needed and help them be absorbed.

[Adiphene logo]
**Capsicum** is the hot spice found in chillies and makes an excellent fat burner because the heat forces the body to work harder to cool itself down, burning calories in the process.

A 2009 Journal of Clinical Nutrition study involving 27 healthy volunteers, found that increasing capsaicin consumption can suppress your appetite. Another 2009 study in the European Journal of Nutrition, found capsaicin can decrease ghrelin in the body, which is the hunger hormone. Further research has found that capsaicin may also help reduce the amount of body fat the body stores.

Yet another interesting study from the Journal of Proteome Research in 2010, showed capsaicin stimulated proteins known to break down fat and inhibited proteins known to produce fat, in rats which were fed a high-fat diet. And according to a new study, capsaicin and green tea, promote the feeling of fullness and keep hunger at bay for longer.

Another exciting finding of Cayenne, is that it also allows you to **burn up to 270 extra calories a day** by increasing your core temperature. Called 'thermogenic burn', this temperature increase requires more energy, which helps to effortlessly burn extra fat.

---

**The Hunger Reducer**

**Glucomannan**

**Glucomannan** (kanjac root) is a very effective appetite suppressor. A study of twenty overweight people who took a set dose of glucomannan for just eight weeks, lost an average of five and a half pounds without a special diet plan.

Reducing your hunger, even by a little, can really take the stress out of losing weight.

Because of its ability to absorb water and swell to many times its usual size, basically glucomannan suppresses the appetite by expanding and filling the stomach to give a feeling of fullness.

In a study, 20 moderately overweight women were divided into 2 groups, a treatment group and a placebo group. The treatment group received 1 gram of glucomannan 3 times a day for 8 weeks and the second group were given a placebo. The results showed **the treatment group lost an average of 5.5 pounds** but the placebo group actually gained an average of 1.5 pounds.

And remember that Adiphene has even more power to keep your hunger at bay, thanks to the Guarana extract (as explained above).

---

**The Fat Binder**

**Chitosan extract**

This extract grabs hold of fats in the stomach and carries them straight through your digestive system, so they can
be eliminated and can't be absorbed, reducing the number of fat calories your body digests. And less fat absorbed, means less fat stored where you don't want it!

In fact studies have shown that **chitosan can attract and hold 6 times its weight in fat for safe elimination**. Chitosan also helps to maintain healthy cholesterol and triglycerides levels.

And all that extra fat is prevented from finding a home on your body, where it can force you into larger clothes!

**The 3 Fat Metabolizers**

**Vitamin B6**

A powerful metabolism booster which also helps the body to metabolize food into energy and burn excess fat. It also enhances the absorption and bioavailability of nutrients including Zinc and Magnesium, which is important because zinc is necessary for the creation of the pancreatic enzymes which help your body to digest food, while burning excess fat and speeding up the metabolism.

B6 also helps to regulate blood glucose by converting stored nutrients into energy the body can use, thereby boosting metabolism. Vitamin B-6 also increases thyroid activity, which increases your resting metabolic rate, further boosting your metabolism.

*If your body can process food more efficiently, there's much less chance that fat can collect in the body, causing excess weight along with creating various other health problems.*

**L-carnitine HCL**

helps to mobilize fat stored in the tissues, helps long-chained fatty acids to be burned for energy and increases the amount of fat burnt during strength or aerobic workouts.

It's one of the safest and most effective supplements to increase weight loss and boost energy levels, as one of its primary purposes in the body is metabolizing fat. It also plays an essential role in generating more energy in the body, along with increasing mental energy, mental stability and focus.

*Carnitine* greatly increased weight loss in a 12 week study of 18 overweight subjects, split into two groups of 9. Both groups ate a healthy diet and performed moderate exercise. The first group was given 2000 mg of carnitine, the second group a placebo. After 12 weeks the placebo group averaged one pound of weight loss, while the carnitine group averaged 11 pounds.

*So there was an eleven-fold increase in weight loss, in those taking the carnitine and what's more, the body fat levels also dropped substantially in the group given carnitine.*

**Ginger Root Extract**

The third of Adiphene's powerful fat metabolizers is an extract of ginger root which has a wide range of reported health benefits, not least the ability to improve digestion and help detoxify your body.

However we have included it in our formula for its amazing ability to speed
up your metabolism which allows you to **burn fat away much more quickly**. A slow metabolism is one of the most common reasons for weight gain but now Adiphene makes it easy for you to take back control and accelerate the speed at which you burn away those excess calories.

As an added bonus, a study in 2010 found that ginger root can help to reduce muscle pain caused by exercise by as much as 25%. This means if you want to exercise you can do so with **much more comfort and confidence**.

---

**Now You Can See Why Adiphene Is The Most Powerful Fat Burner**

Any of the above ingredients can help your weight loss efforts, whether it's by burning more fat, blocking a percentage of the fat you eat and helping you to keep your hunger under control.

**So just imagine the effects when you take Adiphene . . . which is the perfect fat loss supplement, as it contains them ALL!**

You'll see results fast with **Adiphene** as these 5 natural stimulants and most importantly, **2 very powerful thermogenic boosters**, begin forcing your body to burn more fat.

This is where he real power lies, as once you tune up your metabolism to it's highest fat burning setting, your body will not be storing extra fat and it will be burning stubborn stores of unwanted fat too.

Combine this with the fact it also allows your body to reject some of the fat you eat and keeps your hunger at bay and you'll agree that the potential help this can give your weight loss goals is off the scale.

How Does Adiphene Compare to Other Weight Loss Methods?

When you're looking for an effective aid to losing your unwanted weight, it can be hard to decide the best route to take. Obviously it's a good idea to eat healthily (not starve yourself on a highly restrictive calorie controlled diet, as that can work against your weight loss and that's covered in more detail below) and do some moderate exercise, to boost your results. But of course you know that.

Your results can depend on how overweight you are currently and how much weight you want to lose, along with your current level of activity and diet. Exercise, although very effective when done right, but can be very difficult to stick to and eating healthy every day can be just as difficult.

However, you also know there are supplement formula's which can give you the edge and drastically increase the amount of weight you lose, without any extra effort.

But which one is the best?

Which one is the most powerful so you are guaranteed excellent results, and can any of them offer weight loss, without dieting or exercising?

The answer is yes. And as you're about to discover, there is an easy way to burn fat without exercise or diet.

But finding a supplement which can help you lose weight on its own isn't just for those who want to avoid any effort or adjustment to their daily routine. It's especially useful if you are particularly overweight, or have some other health problem which prevents you from exercising, so it would be good to know you have effective options.

So what can you expect from each method, what's the best way to combine them for maximum results?

Let's Take A Look At The Weight Loss Options And Find Out...

Unless you are overweight enough to consider extreme measures such as gastric bypass or surgery, you have a number of self-led options to help your weight loss efforts. But which is the most effective?
A Recognised Diet

We all know this one. Unfortunately, the first problem is there are so many diets on the market now, deciding which one is best for you, can put your head in a spin. Atkins, South Beach, Grapefruit, Jenny Craig, WeightWatchers... the list goes on.

There are a number of problems with dieting, starting with finding the one that suits you.

However, whichever one you choose, you will need some willpower despite what they may tell you. If you are used to eating what you want, including pastries, biscuits, cakes and very heavy fatty foods, you may find it a huge shock, changing to a restricted diet.

Not only that, but it can be inconvenient too. You’ll go from quickly knocking meals together, from whatever yummie foods you have available, to having to stop and think, count calories, weigh your food etc, before any of it passes your lips.

And if you have a family, it makes it even more inconvenient and time consuming, thanks to the fact you have to prepare different meals for you and your family. It certainly doesn’t help either, when you are forced to sit with your diet meal, while watching your family tucking into their 1000+ calorie meals!

Many diets also leave you hungry, especially when you are going straight from a ‘normal’ diet, to a calorie controlled one. And we all know the pain of even mild hunger and how it can destroy your diet plans, before they even begin.

But it’s not all bad. If you can find a healthy diet you enjoy and can stick to without starving yourself, you’ll certainly begin to lose weight, as long as you also turn up your metabolic dial. (More on that in a moment).

Exercise

Of course structured exercise will help you lose weight, simply because if you go from a sedentary life, watching tv etc to an exercise routine, then the added exercise will burn more calories. But the amount of exercise needed for real results on the scales, varies from person to person.

It can also seem like really hard work, especially if it’s been a while since you engaged in exercise. And it calls for real motivation and willpower to get up and head for the gym, go jogging or down to the local sports centre. You also have to be prepared to commit time to your exercise and set it into your schedule.

The good thing is that exercise can take so many forms, you can usually find something to suit you and your current level of health. For instance cycling, tennis, badminton, swimming and even walking are enjoyable activities, which you can blend into your exercise schedule without too much effort.

Click Here to order Adiphene with FAST SHIPPING right now!

You must remember though that your body will not be shocked into weight loss if you go swimming or playing tennis once a month. Exercise needs to be regular and tax your body, to be an effective weight loss aid.

But it can be just as worthless if you throw yourself into a hugely taxing exercise routine every single day. In fact it can be equally as bad for your health as not exercising, because too much stress can be bad for your health too. And exercise is stressful to the body. You need to start slowly but deliberately and build up gradually, as your body adapts and becomes fitter.
For really effective weight loss, a weight training routine can work wonders, as when you tone or build your muscles your body will burn more calories to fuel them. But it definitely takes will power to keep heading for the gym, even though the results can be seen very quickly when you train correctly.

Exercise can also improve your health in many other ways, in addition to the weight loss benefits. That’s if you can manage the physical demand of exercise, as obviously some people have other health problems affecting their ability to jog, run, or lift weights.

So exercise can help you shed the pounds if it’s structured, regular and taxing enough on the body to force it to burn extra calories.

Obviously if you combine a healthy diet with exercise, you’ll dramatically improve your results, as you’ll be consuming less calories but burning extra calories through exercise and it’s this calorie deficit which helps you to lose weight. It forces your body to burn your fat stores for the extra energy it needs.

But only when you turn up your metabolism at the same time, as a low calorie diet and exercise alone, can actually have the opposite effect to the one you want...

**Low calorie diet + exercise = lower metabolism**

If you ‘starve’ yourself with less calories than you normally consume, your body has to find a way to adapt to less fuel so it simply reduces the amount of food it needs... by lowering your metabolism.

And you end up feeling worn out and turn to stimulants like coffee, and more sugary snacks to keep you on your feet.

What’s even worse is the fact that fewer calories meant less storage of fat; in this case, is a myth. Because when your body is in even mild starvation response, it will store extra calories as fat deposits on your body to protect itself from the perceived famine!

So you need something else. Something that will turbo charge your efforts, or offer a solution without diet and exercise...

**Diet Supplements**

Over the last few years, diet supplements have flooded the market place offering a shortcut to weight loss. Do they work? Well, it depends on the formula.

There are different kinds of weight loss supplements, which fall roughly into 4 categories:

- **Fat metabolizers.** Helps your body to burn its stored fat. In other words, the fat you can see under your skin.

- **Fat binders.** These have chemicals which bind to the fat from a meal, in your stomach and carry it straight through the digestive system without it being absorbed.

- **Appetite reducers.** Does exactly what the name suggests... Reduces your appetite by controlling certain chemicals or by making you feel full for longer.
Thermogenic boosters and Stimulants. The most powerful for fat loss because they fire up your metabolism, turning it into a fat melting furnace. Your own body becomes much more efficient at burning calories, including fat and when your metabolism is fired up, you’ll also burn unwanted stored fat.

They all work to help you lose your unwanted fat, but as you can see, in slightly different ways. The problem is, there are so many different kinds of all the above available in the marketplace, it’s hard to know which ones will give you the best results.

The ultimate results come from combining them to boost your results, as you’ll experience weight loss from each different one. So combine 2 of them and you could potentially see your results double. Use 3... Triple your results etc.

But which ones? At what dosage? And what about quality?

Well thanks to Adiphene, you haven't got to worry about that

We’ve done all the up to date research to determine which nutrients work best together, to create the most powerful fat burner and weight loss supplement available today.

It will turn your body into a fat burning machine. And as the Adiphene formula includes ingredients from ALL the categories, your results will be boosted by each of them. In fact it includes 3 SEPARATE fat metabolizers, 2 SEPARATE metabolism boosters and 5 SEPARATE stimulants. But here’s the burning question...

Will Adiphene work to burn your fat WITHOUT diet or exercise? Yes it will.

That’s because it works inside your body, in multiple ways to reduce your levels of stored fat, block some of the fat you eat so it can’t be digested and also keeps your appetite in check, so you don’t feel hungry all the time and raid the cookie jar.

Think about it logically... How can you not lose weight when all these nutrients are working away like a little fat destroying army inside your body? And because most of them work by turning up your metabolism, they are working around the clock, whether you are sat at your desk, watching TV, or sleeping, their powerful effects are still there.

Diet and exercise alone can cause problems if your metabolism is sluggish. But Adiphene turns up your metabolic dial so when you take it WHILE dieting and exercising, you won’t be wasting your efforts. In other words, the problems we mentioned before won’t apply to you.

Take Adiphene alone and you’ll be forcing your body to burn fat, blocking some fat from the meals you eat and keeping your appetite under control.

Adiphene formula includes ingredients from ALL the categories, your results will be boosted by each of them.
So if you are looking for the 'easy way' to weight loss, Adiphene can help you to lose weight, without you having to diet or exercise.

Want to boost your results **even further**?

Add some more intense exercise so you’re burning even more calories, while taking Adiphene. But we’re not talking about training like you’re preparing for the olympics...

- Just go for a brisk walk each day, add some swimming or cycling, maybe find an active sport you can enjoy. Just so long as you are burning extra calories through added activity each day. You can scale it up as you go along if you like.

Need your results boosting even further? Also cut back on the nasty snacks and start eating healthier. It’s not difficult, and you don’t have to eat like a rabbit! It’s all about moderation.

- Why not just cut back on the cookies, cakes, ice cream and simple carbs a little? It’s not too difficult and you can even do it gradually. The best way forward is to eat 5 or 6 small meals per day, made up from healthy foods and including protein, complex carbs and healthy fats. This kind of diet will help you lose weight, as 5 or 6 meals per day will help to raise your metabolism. If you’re eating healthily you’ll find you have more energy too, so you can cope with more exercise.

Another great tip: Drink lots of water. Keeping your body fully hydrated has lots of benefits including more physical energy, flushing out your liver and helping your nutrients to be absorbed more effectively.

Order Adiphene right now & watch your unwanted fat melt away

If you want to fight your fat without having to change your diet or engage in exercise, Adiphene is the answer. It fights fat on many different levels without any help from you! Just take it daily and Adiphene’s multi power formula will do the rest.

If you do want to change to a healthier diet and take up an exercise regime, that’s great too. Adiphene will multiply your efforts and make your weight loss goals much more achievable, much faster and obviously stress free. **All thanks to it’s ability to turn your metabolic dial to FULL!**
**Please Note:** We recommend the 3 months supply simply due to the science showing that 3 months is the optimum timeframe to force your metabolism into overdrive. (You'll obviously lose weight before then, but don't fall for products promising massive weight loss in the first few weeks.) Trust the science, set your sights on a 12 week plan and watch that unwanted fat melt away.

© 2004-2014 Adiphene. All Rights Reserved Shippitsa Ltd. Private Company Limited By Shares Registered Office: The Fountain Business Centre, Ellis Street, Coatbridge, ML5 3AA, Scotland. This product is a dietary supplement and statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
I'm a big fan of this company since Phen375, but I wanted to try something stronger and knew I could trust Adiphene compared to other natural diet pills. I have tried a lot and got too many side effects or nothing worked.

I only wanted to lose body fat not so much the weight and after a month I was shocked my stomach went down. Body fat did come off even though my weight dropped a little but as long as I lost the fat that's what I wanted, I didn't have too much to lose.

I also felt full and had less cravings through the day. After breaking my foot I really couldn't exercise so this pill helped a lot. On this pill I didn't do any diet or exercise while on it for a month or have side effects.

Thanks guys!

Lauren C.
As a mother of 3 and a very busy wife, I'm finding Adiphene really useful. I haven't really got the time for exercise or preparing a special diet, so the fact I have lost 8 pounds in the last 3 weeks is fantastic. More! Linda T.

After trying a few other fairly well known 'fat busters', I haven't been that impressed. Your product is working excellently for me. I do eat well, but I did before taking Adiphene so I know it's your stuff that's helped me to drop 9 pounds in the last 3 and a half weeks. They don't upset my stomach either, like one of the other brands did. Daniel P.

I wanted to lose a stone (14 pounds) ready for my holiday and I ordered your pills 5 weeks ago. It's another 4 weeks till the holiday and I have lost almost 9 pounds as I write this. I'm going to need smaller trunks. LOL Jason N.

I had remembered something I saw on TV about peppers and weight loss. When I saw your site it made sense to use them in slimming pills, so I ordered. Early days, but I am 16 pounds lighter after 9 weeks. I'm slimmer and I feel great. Going to try and reach 126 pounds, which is what I was before the kids, then I'll cut back. 8 pounds to go! Vivien B.

11 pounds lighter in 23 days exactly and I haven't done any exercise.. Wendy B.

Having seen my sister lose weight with your Adiphene I thought I'd try it for myself. It's excellent stuff and I've finally lost the last stubborn 10 pounds. I had tried adjusting my diet and it helped to stop me putting any more weight on, but I couldn't lose any real weight before this. Angie D.

I tried Alli towards the end of last year, and it was awful. I didn't like using it at all. So it put me off dieting pills for a while. I am getting married in August so I decide to try something else. A friend at work sent me your website and I've been taking it for 4 months now. I have lost 26 pounds. I'm so happy I'm going to look the way I dreamed of in my wedding dress. Karen J.

I know it's working because in just a week I am one hole tighter on my belt. I haven't even started back at the gym yet. Brilliant. Phil P.

I'm an amateur bodybuilder so my diet is good and I obviously 'exercise'. I have been using Adiphene as a fat burner and I have to say I personally have had really good results. I'm looking more ripped than ever and can't wait for the next comp. I understand nutrition so I know the ingredients help more than weight loss too. Billy S.
We love the fact that people take the time to feedback so positively to us

It doesn't surprise us though. There are many inferior supplements out there and when someone finds something as legitimate as Adiphene, they want to shout about it.

Remember that Adiphene contains 5 natural stimulants and most importantly, 2 very powerful thermogenic boosters, to fire up your metabolism and force your body to burn more fat.

It also allows your body to reject some of the fat you eat and keeps your hunger at bay, so it's the perfect combination to keep you on target and easily hit your weight loss goals...

No wonder then that so many people are finally reaching their goals thanks to Adiphene.

Order YOUR Adiphene right now... We look forward to hearing about your success

1 MONTH only $65.95
2 MONTHS only $129.95

Questions About Adiphene? Find The Answers Right Here.

Obviously you can now see that Adiphene can offer you serious help towards reaching your weight loss goals. However, we realise you might have a few questions before you order so you'll find the most frequently asked questions on this page.

Click Here to order Adiphene and start moving towards your goals.

Q: What is Adiphene

A: Adiphene is a multi approach fat loss supplement. Instead of focusing on one approach and limiting its power, it includes 12 of the most powerful natural fat fighters known to science and helps you tackle fat in FIVE DIFFERENT ways:

- 3 fat metabolizers
- 1 fat binder
- 1 appetite reducer
- 2 thermogenic boosters
- 5 stimulants

This multi approach formula is thoroughly researched and hand picked to ensure maximum synergy and effectiveness to ensure you'll see the results stacking up very quickly.

Q: What are the ingredients?

A: Adiphene contains 5 natural stimulants, Bitter Orange, Chromium picolinate, Guaranna extract, Ginseng panax root extract 10%, Cocoa Extract 98%.

The 2 very powerful thermogenic boosters Cinnamon extract 4%, Cayenne capsicum 40M HU/G, known to fire up your metabolism, forcing your body to burn more fat.

Glucomannan (kanjac root) is also included as it's a powerful hunger reducer, along with Chitosan extract, a well known fat inhibitor.

Finally the fat metabolizers Vitamin B6, L-carnitine HCL and Ginger Root Extract round off this incredible formula, to ensure your fat is tackled for a variety of different angles.

Read more on our Ingredients page here
Q: How does it work?

A: Adiphene works to help your weight loss in multiple ways, mainly by turning up your metabolic dial, forcing your body to become a calorie burning furnace. By turning up your metabolism, it means you'll burn more calories, without diet or exercise.

It's specially chosen, highly powerful natural ingredients, help your body to burn more of it's unwanted stored fat, prevent some of the fat you eat from being digested and it helps to keep your hunger under control.

As you can imagine, with this much power, Adiphene can be a stress free solution to fast yet long term fat loss.

Q: Will it work for me?

A: Yes it will.

The problem with many weightloss formula's on the market, is that they only contain one or two ingredients. They also usually fight your fat from a single direction.

Adiphene includes 12 ingredients, working from 5 different directions to ensure you benefit from more fat burned, less fat absorbed and a huge boost to your metabolism ensuring you keep burning fat, even when resting.

Thanks to your metabolism being turned up you'll burn more calories even when resting and it also means you're less likely to store extra fat in the first place.

Q: How long do I need to take Adiphene for?

A: We recommend 3 months supply due the the science showing that 3 months is the optimum time frame to force your metabolism into overdrive. (You'll obviously lose weight before then, but don't fall for products promising massive weight loss in the first few weeks.) That's why we offer a very special deal on the 3 months package. 

Click here to order it right now.

Q: Do I still need to diet and exercise while taking Adiphene?

A: No you don't. Adiphene works completely separately to your diet or exercise routine. It's scientifically proven ingredients work in harmony with one another to fight fat by firing up your metabolism, without any added help from you.

However, if you exercise or are on any kind of weight loss diet, Adiphene will massively boost your results.

Q: Who is advised NOT to take Adiphene?

A:
Q: How long does delivery take and how much is shipping?

A: Typically orders are sent to shipping for dispatch at 11 a.m. each business day. If your order does not ship the same day you placed it, this is due to USPS's pick-up cut-off times; your package will ship the next business day. (For example, if you order at 1:30 p.m. on a Friday, and the following Monday is a holiday, then the next shipping day would be Tuesday.) All international orders are shipped using www.usps.com priority international mail. All shipments have tracking numbers, delivery, signature confirmation and postal insurance included in the shipping cost. Set standard international fees are shown in the shopping cart at the time of purchase, depending on the country your package is shipping to. For current pricing, simply place an order; you do not have to complete your order, but you can set up your shipping destination and that will reflect the current international pricing for your specific destination.

Adiphene can help you reach your weight loss goals quickly and easily.

Order Adiphene today and you’ll be heading towards your ideal weight within days. The sooner you get started, the faster you’ll be looking in the mirror or at the scales with a smile on your face.

How good will that feel?

Q: How often do I take Adiphene?

A: You simply take one capsule with 8oz water 20 minutes before breakfast and one capsule with 8oz water 20 minutes before lunch. That’s it!
Discover a **THINNER**, Happier You!

- **Eat Less Food**
- **Reduce Body Fat**
- **Boost Metabolism**

Can You Imagine Burning Fat and Eating Less Food Effortlessly?

We thought it was impossible too! The Apidexin Research & Development team set out to create the world’s strongest fat burner. In order to accomplish this tremendous feat we had to use ingredients that were:

1. Clinically Proven Ingredients
2. Patented or Patent-Pending
3. And Produce Visible Results Fast!

**Were We Successful?**

Look at what a few recent customers have to say...†
★★★★★ 88 pounds in 4 months!

"After having my twins I was at 218, then only after taking Apidexin for about 4 months I was down to 130. Thanks goes out to the makers of this great stuff. For giving me my life back."

- Elizabeth Gomez

★★★★★ Apidexin Helped Me Lose Over 70 lbs - December 12

"After my sister in law passed away from obesity, I saw an add for Apidexin. I started taking it and got immediate results with no side affects. I have stayed on my diet and lost over 70 lbs!!"

- Brenda Yager (Crescent City, California)

★★★★★ I Could Always Rely on Apidexin
"I could always rely on Apidexin to push me past every eventual plateau that you will encounter during weight loss. Whenever my weight loss would hit a brick wall and not move no matter what, I could always pick up a bottle and get right back on track!"

- Brandon Neal

★★★★★ I started losing 2-4 lbs a week

"I'm 23 years old, I started out at 183 lbs about a year ago sweat clothes were about the only clothes I would wear because they hid my fat. I did some research online because I wanted to lose weight faster. I wanted to feel good, look good and people actually notice. After reading through several reviews I saw that Apidexin was number one on the weight loss diet pills and now I know why. I started losing 2-4 lbs a week and I had more energy and I felt great. Prior to using Apidexin my weight was 180 lbs. I am proud to say that I currently weigh 130 lbs. I know Apidexin works!"

- Danielle Sadler

*Results in Testimonials are atypical and individual results may vary. All testimonials achieved results with a healthy diet and exercise.

Compare Apidexin With The Competition:
The Scientific Studies Behind Apidexin's Powerful Fat Fighting Ingredients:

Irvingia Gabonensis - this ingredient alone helped subjects in one university study lose an average of 28.1 pounds! That's 26.6 more pounds than the placebo group. Irvingia Gabonensis works through breaking down fat and reducing appetite.
**Green Select Phytosome Green Tea** - This patented ingredient is even more impressive than the last. In a recent placebo-controlled study, the average subject lost over 30 pounds in just 90 days! That's 20 more pounds than the placebo group. Obviously, this isn't your average green tea. It's a standardized extract with high levels of active ingredients: 60% polyphenols and 40% EGCG. The bottom line: this potent ingredient will help you lose MORE weight, FASTER.

![Phytosome Green Tea vs Placebo](chart)

**Green Coffee Bean Extract** - is receiving a lot of media attention because it was featured on a popular Doctor's daytime TV show. But does it live up to the hype? A recent study reveals how powerful it really is: in just 22 weeks, subjects lost an average of 17 pounds. That's 15.8% of their total body fat! Researchers suggest green coffee beans fight fight because they're rich in the phytochemical chlorogenic acid. So we included the most powerful extract we could find, which contains 50% chlorogenic acid.

![Green Coffee Bean vs Placebo](chart)
Caffeine anhydrous - is good for more than just a quick energy boost. It also stimulates thermogenesis and promotes mental focus.

Coenzyme Q10 - functions as a powerful anti-oxidant. It's a naturally occurring compound found in every cell of your body. It plays an important role in energy production by converting your food into energy. In addition to being a promising weight loss ingredient, it's also beneficial for heart health.

Frequently Asked Questions

Does Apidexin work for everyone? No... While almost everyone LOVES Apidexin, a few people (less than 2% of customers) may not be satisfied. (We really can't please everyone) There's really only one way for you to find out if it work for you...try it! And if you don't love it... You Get All Your Money Back. Apidexin is backed by a No Nonsense Satisfaction Guarantee! Read below for details.

Do I have to exercise to see results? Apidexin was designed to be taken in conjunction with a healthy diet and exercise. That is the best way to burn fat and lose weight. Some users lose weight without changing their diets or exercising, but exercise and healthy eating are recommended for optimal results.

How Long Does Each Bottle Last? It varies. Each bottle will last between 10-30 days, depending on your dosage. Never exceed the recommended dosage of 1-3 Capsules 30 minutes before Breakfast and Lunch.
Apidexin is extremely potent and increasing the dosage will cause you to lose an unhealthy amount of weight. Please start out with one capsule and assess your tolerance to the caffeine from there.

What is Apidexin 72 Hour Cleanse? Apidexin 72 Hour Cleanse is a detox pill. While Apidexin will burn fat and suppress your appetite, Apidexin 72 Hour Cleanse will cleanse your body of toxins, making weight loss even easier. We include it for FREE when you order 2 or more bottles of Apidexin.

How Do I take Apidexin 72 Hour Cleanse with Apidexin? You can start Apidexin and Apidexin 72 Hour Cleanse at the same time. For Apidexin take 1 capsule 30 minutes before meals and/or exercise. Always take with at least 12-16 oz of water. Do not exceed 3 capsules daily. Do not take your last dose within 7 hours of going to sleep. With Apidexin 72 Hour Cleanse take 3 capsules 30 min before breakfast and lunch with 12 oz of water. Do not take for more than 3 consecutive days. Do not use detox supplements for another 30 days.

When will my order arrive? All orders are shipped within one business day. Shipping time depends on your location and method. For US customers, we offer FedEx Home Delivery (1-5 days), FedEx 2 Day Air, FedEx Overnight, USPS First Class (2-5 days), and USPS Priority (2-3 days). International orders are shipped FedEx International Mail (10-14 days) and FedEx International Priority (3-5 days, fully trackable).

How do I order? We have a Simple 1-step Verisign Secure, Authorize.net Verified, Hacker Safe checkout that accepts Visa, MasterCard, American Express, Discover card, and PayPal. Your email address is ALWAYS kept private. We hate unwanted spam as much as you do and will never be a part of it.

Does Apidexin Come with a Money Back Guarantee? YES! Your success in using Apidexin is completely guaranteed. In fact, here's our Guarantee: If you aren't satisfied- we don't expect... or want... to keep your money. You can use up to one full bottle on us. If you don't see the results you were expecting, simply contact us for a return authorization number and instructions on how to return the product. After receipt, refunds are processed within 7-10 business days.

† While many customers have lost 20 or more pounds, the testimonials above should be considered anecdotal. You, "the consumer," may not experience the same results as set forth in the testimonials.
I'm Jeanine, age 48 and never really had to worry about my weight most of my life. I'm 5'8 and have never been a small or slim person but worked outside with horses all my life and was active enough to be able to eat more than I should have without gaining too much, but then 11 years ago I changed careers and though I work outside fairly hard, my activity level changed but my portions and eating habits didn't and within 18 months or so I put on over 40 lbs. I did a few over the counter diet pills, a few strict "diet" ideas and plans but never had the will power to follow through.

Jeanine K.

I'm a 67 year old man, 5'-10" that has let his weight grow to 225 pounds by eating what I like and not being too concerned about my sedentary retirement lifestyle. However, annoyed by the fact that my closet of clothes was growing every month because it was just too easy to buy new clothes that fit rather than lose the weight to fit the clothes that I owned. So, after being frustrated for months, I decided to diet without help, only to discover that I couldn't make it happen with my own will power. My diet started on April 20, 2009, weighing 225.

Jim E., Arlington, Texas
To the Makers of Avesil, I would like to send this letter of thanks for your product. I have been trying to lose weight for 2 years now with not much success. I had so much fat around my mid section that the workouts I was doing did not show any results... When I started taking the Avesil pills in the beginning of January 2009 my weight was 212lbs and after 30 days my weight was 190lbs, now on the 8th of February I'm at 184lbs. This is very good for me being that I'm diabetic. I have been diabetic for 26 years & have always needed huge amounts of insulin, but with this weight loss product I have cut down.

* Your results will vary. Most people do not lose as much weight.

Sally, Southern California

FAQ / Ingredients

Q: What is Avesil?
A: Avesil is a premium weight-loss supplement that combines unique patented ingredients, including Meratrim and ChromeMate®. These research-driven ingredients help increase energy levels, boost metabolism and burning of calories, helping you to lose weight when combined with a healthy diet and exercise. With Avesil, you may lose more weight than from diet and exercise alone. Subjects in studies using the primary ingredients in Avesil lost, on average, significantly more weight than subjects using a placebo.

Q: How does Avesil work?
A: By using thermogenic and lipolysis-inducing agents, Avesil provides an effective, safe way to assist your body in releasing stored fat and increasing metabolic rate in order to burn fat.

Q: What are the ingredients in Avesil?
A: ChromeMate®, Meratrim, Decaffeinated Green Tea Extract, and Caffeine.

Q: Will Avesil make me feel jittery?
A: The amount of caffeine used in Avesil has been shown to act as a mild stimulant increasing your energy and enhancing mental alertness, without producing a jittery effect.

Q: Does Avesil contain ephedra, ephedrine or any related compounds?
A: No, Avesil does not contain Ephedra or any related compounds.

Q: How will I feel while I’m taking Avesil?
A: Generally speaking, most people feel great - energized with more mental clarity. A few individuals notice very mild headaches or increased heart rate. If so, you should discontinue using Avesil. You should consult with a physician or licensed, qualified health-care professional before starting any weight loss regimen.

Q: How much does Avesil cost?
Avesil costs $89.95 for 60 capsules, a one-month supply.

Q: Do I have to go on a special diet to see results with Avesil?
A: No, but for best results we recommend that you:

- Eat a healthy whole-foods diet, including lots of fresh fruits and vegetables, lean meats and fish, and low-fat dairy products
- Drink at least 8 glasses of water each day
- Eliminate empty calorie junk foods from your diet, including sugar-free soft drinks

Q: Is it necessary to exercise with Avesil?
A: Although studies indicate that sedentary people will lost weight while taking Avesil, it is recommended as a general rule for overall good health that you exercise at least three times a week, and preferably 30 minutes every day.

Q: How long will it take to start seeing results?
A: Many people report seeing a difference within 10 days.

Q: If I miss a serving of Avesil, should I double my next serving?
A: No. You should never take a double serving of Avesil. If you do miss a serving, simply take a regular serving at your next scheduled time. Always carefully read the label in its entirety before taking Avesil or any other dietary supplement.

Q: Do you offer a free sample?
A: We offer a free trial of Avesil for 14 days, and just charge you for shipping and handling. If you're happy with the results, after the trial period you'll be billed $89.95. At any time during the trial if you decide Avesil isn't for you then you can cancel your order, send back the unused portion, and you won't be charged any additional fees.

Q: Where can I buy Avesil?
A: Avesil is available through its official website at www.avesil.com.

Q: What is the dosage?
A: Just 1 pill, twice a day, 30 minutes prior to a meal.

Q: Can I increase the dosage for faster results?
A: No. We can only predict safe results if you follow the instructions on the label.

Q: Is it okay to use Avesil along with other weight control products, such as a meal replacement shake?
A: We don't recommend it. Avesil is a highly effective weight loss formula that supports safe and effective weight control when used according to the directions.

Q: Is Avesil safe for everyone?
A: Women who are pregnant or nursing should not take Avesil. Do not take Avesil if you are under 18 years of age. Individuals with pre-existing health conditions should consult with a physician or licensed, qualified health-care professional prior to using Avesil or starting any weight loss regimen.

Q: Is it okay to take Avesil with prescription (or pharmaceutical) drugs?
A: Please consult with your health care practitioner before taking Avesil.
Q: Is it OK to take Avesil if you are being treated for or if you have been diagnosed with any of the following:

- high blood pressure
- cardiovascular disease
- liver disease
- thyroid disease
- psychiatric disease
- diabetes
- anemia
- anxiety
- depression
- seizure disorder
- stroke
- difficulty in urination due to prostate enlargement

A: Please consult with your health care practitioner before taking Avesil.
Lose Weight & Burn Fat
With Only 1 Pill A Day

See What EX-Soap Star Roxanne Pallett Has To Say About Her Experience With Capsiplex

As You Can See, She's Thrilled With The Results...
And Doesn't She Look Great?

And as Capsiplex isn't some out of reach expensive secret of the rich and famous, You can experience the same kind of results, starting THIS WEEK.

How exciting is that?

All you have to do is read the proof, testimonials and our list of celebrity endorsements and fans to know how effective Capsiplex is at speeding up your metabolism and burning extra calories.

278 more calories burned before, during and after exercise for instance.

That's why it's so incredibly popular AND why it sold out so quickly last time. Harrods, renowned for its celebrity shoppers - sold out within days of our launch. Over 50,000 packs - SOLD!

Well you'll be glad to hear Capsiplex is back in stock and ready to ship so...

You Can Order Capsiplex RIGHT NOW While Stocks Are Still Available

It was great to see, but we should have realised that you'd know the real thing when you saw it.

That's why it's so incredibly popular AND why it sold out so quickly last time.
Many Stars Of The Big Screen And TV Love Capsiplex...

It's simple really... they know that Capsiplex is proven to deliver the results they need.

Because they need fast, consistent results in their "image is everything" world, they keep their finger on the weight loss pulse and are always the first to use the latest slimming technology.

Imagine a diet without any restrictions... every other day

As a leading Professor of Medicine Dr Alfred has developed a reputation for his vast medical knowledge, clinical expertise and dedication to helping individuals maximize their health.

His most recent research has been on how the body responds to alternative-day calorie restriction by triggering the SIRT1 gene, otherwise known as the 'rescue gene'. Based on his scientific research on alternative-day calorie restriction this has led him to the conclusion that this lifestyle change can offer many benefits, such as weight loss, increased lifespan and lowered risk of disease.

Today with your order you will receive Dr. Alfred's Fast Track Formula that will teach you how to make these lifestyle changes so that you can lose weight and enjoy the many other health benefits, ABSOLUTLY FREE!

Also along with this Fast Track Formula you will also receive information from Dr. Alfred and his team giving you weight loss tips and advice. You will also be able to contact his team for any help and advice you may need!

Some of the benefits of Dr. Alfred's Fast Track Formula are:

- Lose excess weight
- Enjoy the foods you would like... without the guilt!
- Gain energy
- Increase endurance
- Sharpen your mind
Finally, After 30 Years Of Studies...

Weight Loss Made Easy!

So let’s take a closer look at why Capsiplex is SO effective shall we?

Capsicum, which is a red hot pepper, has been used in cooking for over 500 years. Capsaicinoids are a group of compounds which actually cause the heat found in hot peppers.

Over the past 30 years studies including animal and human subjects have proven the enormous potential of red hot peppers and Capsicum as a safe and effective nutritional ingredient to support weight management.

Studies have established that consumption of capsicum as red pepper or capsaicinoids:

**Capsiplex™ Clinical Study Results**

Upon baseline adjustment, statistical analysis indicated that when the subjects took Capsiplex™ Plus, they burned:

- **3 times more calories** before exercise
- **3% more calories** during exercise
- **12 times more calories** for up to one hour after exercise compared to when they took placebo

This resulted in an average cumulative total of **278 more calories burned before, during and after exercise** compared to placebo.

Capsiplex Brings You The...

Breakthrough You’ve Been Looking For!

To experience the benefits of Capsicum (one of the ingredients in Capsiplex), previously you would have to consume 10 grams of red hot peppers every day, day after day for several weeks.

**Or you could take a concentrated form of red hot peppers.** But capsaicin extract is unbelievably hot and the levels you’d need to take for effectiveness are highly irritating to the stomach.

It is also difficult to manufacture. Airborne capsaicin extract can be extremely uncomfortable when inhaled or even in contact with the skin. Major precautions are taken to combat the intensity of capsaicin extract for consumption have resulted in diluted and ineffective formulations...

That is until now.

Using a Proprietary Patented Matrix of excipients and coatings, Capsiplex gives you the maximum effectiveness of Capsaicinoids without any oral or gastric irritation.
Capsiplex's process loads a high-strength capsicum extract into an inert central core. The unique outer coating is designed to withstand the low PH level of the stomach so it stays intact until the Capsicum extract is released in the higher PH levels of the intestine, where no discomfort is felt.

And you'll be glad to hear that Capsiplex breaks down completely in the Intestine, which means no discomfort upon voiding.

**Capsiplex™ Clinical Study Results**

"278 more calories burned before, during and after exercise"

What is 278 calories worth?

- 1 hour and 20 minutes of walking at a moderate pace (2mph)**
- 25 minutes of jogging (10 minute mile, 6 mph)**
- 1 hamburger
- 1 slice of cheese pizza
- 2 chocolate chip cookies
- 1/2 bagel with 1T cream cheese

Consuming 278 extra calories per day results in a weight gain of over 25 pounds a year!

Click Here To Order Capsiplex RIGHT NOW And Avoid Disappointment
“Started taking capsiplex a week and a half ago. After my first week I lost 7lb!! Not weighed yet this week, hopefully a few lbs off again. Really good product, I have changed my diet as well but would never have lost 7lb on dieting alone in 1 week. Want to lose a stone by the end of Feb. Fingers crossed! Will be buying again. Really impressed with the quick delivery as well.”

ARTICLES & ADVICE

Can Thoughts Affect Weight Loss
Does Capsicium Help Lose Weight
Red Pepper & Capsaicinoids
What is 278 Calories Worth
Your Weight Loss Goals

This product is not intended to diagnose, treat, cure, or prevent any diseases.
All of the testimonial results on www.capsiplex.com are based on individual accounts and results may vary.
So Why Choose Capsiplex? Because You Want A Proven And Effective Weightloss Solution

We know what it's like. You decide it's time to lose some weight, could be a few pounds, could be a lot of pounds, it doesn't matter.

You plan your approach, maybe a revised meal plan, some exercise, along with walking to work. Then you make a start with your plan.

Before long you are struggling with it all. It becomes an annoying drag as you have to prepare your meals in a certain way and make time for the gym in your already busy schedule.

But you want to lose weight. You may have put it on through child birth, good living, a sedentary lifestyle or just far too many chocolate biscuits, but the results are the same.

If you consider yourself to be overweight, you'll feel the effects of it in your confidence and self esteem.

You won't like how you look in your clothes, you hate seeing your own body, you feel unconfident in the bedroom, avoid things like swimming, beach holidays and having your photo taken...

(Change This Now - Order Capsiplex While Stocks Last).

It's just so frustrating how a few extra pounds can multiply so quickly, right

Maybe you have experienced this for yourself. You looked in the mirror one day and noticed you looked larger in certain areas or perhaps you have been struggling to fasten that button on your trousers or skirts.

“As I hate exercise I am always on the lookout for things to help me keep my figure. I am a Mum of 2 boys so I’m always on the go, but Capsiplex has worked great for me. The flabby bits on my side at the top of my hips have all but disappeared. Oh yes . . . love handles, I forgot what they are called, silly me!”

Click Here to read more testimonials

It could be that you are way past that and now you are buying clothes 2 or 3 sizes larger than you used to. It can be soul destroying to realise you have let your weight slide. But let’s face it, most of us have a very busy life and haven’t always got the time, energy or focus to plan, arrange and stick to complicated diets/

We have some good news...

Capsiplex is perfect for you!
It’s proven to work, incredibly cost effective and extremely convenient. Just one tablet per day and it will go to work for you, while you get on with your life.

Another great thing about Capsiplex is its all natural ingredients. There are no pharmaceutical nasties to worry about.

In this day and age it’s difficult to know exactly what you are ingesting as there are so many chemicals around. Even though we are supposed to be in a time where everyone checks the labels on what they eat.

So you’ll find it reassuring to know that Capsiplex doesn’t have any hidden surprises. And the powerful ingredients are known for their other benefits too, not just weight loss.

They will help to increase your energy, make you more alert, lower your cholesterol and many more great benefits.

Niacin helps your body to make certain sex and stress related hormones in your adrenal glands and other parts of your body. It’s also effective in improving your circulation and reducing bad cholesterol levels in the blood.

"Fiery hot peppers . . . now that’s a man’s way to loose weight! I love the fact I only need one pill per day, that I can’t even notice I’ve taken it, meaning no heartburn, indigestion etc. I didn’t see much of a difference straight away, but it kicked in on the second week for me.

I’m on my 3rd bottle now and I actually feel better in myself as well as losing 15lb’s. Thing is I haven’t altered my diet in any way and I’ve still lost the weight."

Stan V.

According to the Mayo Clinic Niacin can raise your HDL or “good” cholesterol, by as much as 15 to 35 percent. In other words niacin is the most effective drug available for raising HDL cholesterol.

Of course this is very interesting and of obvious importance, but what’s also interesting is that niacin also decreases your LDL and triglyceride levels. This is important because high levels of LDL and triglycerides are large risk factors for heart disease.

Rated #1 Weight Loss Product By Our Customers!

The good cholesterol, or HDL, grabs the excess bad cholesterol in your blood and carries it back to your liver, where it’s disposed of. Therefore, the higher your HDL cholesterol levels, the less bad cholesterol you’ll have in your blood.

The Piperine in Capsiplex is used to make sure your body uses as much of the formula as possible. It has the rather unique property of helping your body to absorb more of the nutrients you consume.

Piperine also helps to increase thermogenesis, which is the process of generating energy in your cells. It also enhances the flavours in food and alcohol and improves the bioavailability of many other nutritive substances including amino acids, glucose, beta carotene, curcumin, selenium and pyroxidine (Vitamin B6).

Piperine may also be helpful in reducing inflammation, improving digestion, and relieving pain and asthma. Also said to improve the production of serotonin, a mood-enhancing and pain
importing neurotransmitter, it may relieve stomach ulcerations.

**IMPORTANT: Your body MUST absorb our weight loss ingredients!**

Obviously how much you absorb is the most important thing when taking nutrients. Something could be ultra powerful and great at curing some kind of problem, but if your body doesn’t absorb enough of it, it’s a complete waste of time.

"This has given me a great excuse to eat the spicy foods that I so love. Never realised they were so healthy. The pills are working great. I didn't really notice a difference for a week or so, then the weight started coming off. Only having to take one pill a day is really good too. I never forget!"

Click Here to read more testimonials

This is often overlooked and can be the reason why something might not be working for you. And why so much of some nutrients will be wasted, it makes what you thought was a bargain deal, very expensive.

Capsiplex will work for you because Capsicum Extract is already absorbed well by the body, but we add Piperine to make sure you really benefit from full absorption of ALL the nutrients in the formula.

So you can be sure you are getting the full power of Capsiplex!

The fact that some of Hollywood’s ‘royalty’ have become fans of Capsiplex comes as no surprise to us. They really do need to look their very best at all times. And they need fast results when they have to drop the extra pounds.

Maybe for a new role or a prestigious award ceremony, where they’ll be in the full glare of the world’s media spotlight.

And they really don't just jump onto every new product. It’s only ever a handful that make it past their scrutiny. But doesn't it make you feel secure knowing you are using the same weight loss product as some of the most famous people in the world?

Place Your Order Right Now!

“If I have lost the weight much faster than the first time round so I'm REALLY pleased. My confidence is sky high again now and I'm ready to take on new projects.”

Nicola McClean - Celebrity and Model in The UK

If it works for them, it’s going to work for you. Before you know it you will be loving YOUR new ‘Hollywood’ body!

Read About Just A Small Selection Of Our Celebrity Fans!

**Don’t wait grab your supply of Capsiplex before we sell out again!**

Obviously, after seeing the demand last time, we have made sure we have lots more stock in.

BUT Capsiplex is now more widely known, so we are expecting the usual huge demand for the product.

There’s no time for indecision you need to order right now.
If you come back later and we have sold out again, please don’t tell us we didn’t warn you.

We are due to be featured in more media publications in just a few weeks time. This includes MASSIVE UK, USA and worldwide publications.

Why are we telling you this? We don’t want you to miss out, we strongly suggest you order today before stock runs out again.
One of the most powerful defence mechanisms, this amazing chemical will help you lose weight quickly!

It's easy to find your head spinning when you see the number of different weight loss products available today.

Problem is, it can be difficult making a decision on which one to trust. They all make amazing claims, but the important thing is, can they back those claims up?

Are they as effective at getting rid of your unwanted pounds as they say they are? What are the active ingredients?

Here's what usually happens:

- Research finds that a certain nutrient has weight loss properties
- Companies jump on the bandwagon releasing a flurry of under powered formulas based on this certain nutrient
- What they fail to tell you is that the nutrient needs to be a certain type and in the correct quantities to be effective
- You buy the weak formula, it doesn't work for you and you presume the nutrient itself doesn't work
- You then tar all weight loss aids with the same brush and declare that none of them work

It really does happen all the time. The worse thing is that because of this, you are missing out on the quality, proven products.

Your body will lose weight for any number of reasons. It's all about chemistry. When you eat certain foods, chemical reactions take place in your body. Scientists are discovering more and more about this as there is a massive amount of research going on all the time.

Various foods, nutrients and herbs are being found to have properties that can help you control your weight. Some of these are new findings but some are based on years of use and have only recently been tested to see WHY they work.

One such powerful ingredient is called Capsicum (found in Capsiplex!)
Capsicum also called chilli pepper, red pepper, sweet pepper or bell pepper, contains Capsaicinoids, which are the group of compounds that cause the heat found in hot peppers.

Did you know that peppers are hot to stop mammals from eating them? It’s a defence mechanism. Isn’t that bizarre? The taste we so enjoy was actually designed as a defence mechanism, so we WOULDN’T enjoy eating them.

“I bought Capsiplex when I read about Britney Spears. Yeah, I’m sad like that, but I thought if she’s using them, they must be good. Anyway, I’m really pleased with the results as I’m down 2 dress sizes in around 6 weeks. Yeah!” Amy G.

Over the past 30 years studies including animal and human subjects have proven the enormous potential of red hot peppers and Capsicum, as a safe and effective nutritional ingredient to support weight management. Capsicum Extract reduces appetite, increases metabolism, burns calories, reduces body mass and reduces body fat.

Capsicum extract is a very effective weight loss aid but the problem has always been delivery... However his is now no longer a problem!

Want to know more about our celebrity fans? Click here to see celebrity fans of Capsiplex!

We’ve solved a major problem . . .

If you really want to experience the benefits of Capsicum, the problem is you would have to consume around 10 Grams of red hot peppers every day, for several weeks.

Mmmmmm . . . that’s not going to work, is it?

Of course you could take the concentrated form of red hot peppers, but as capsicum extract is unbelievably hot and the levels you’d need are highly irritating to the stomach, you can cross this technique off your list too.

And it’s difficult to manufacture because airborne capsicum extract can be extremely uncomfortable when inhaled or even in contact with the skin. Because of these factors, it has resulted in diluted and ineffective formulations flooding the market . . . that is until now!

The Unique Capsiplex Beadlet Design

Makes Weight Loss With Capsicum Possible & Easy!

Capsiplex Capsicum Extract uses a proprietary patented matrix of excipients and coatings, to give you the maximum effectiveness of capsaicinoids without any oral or gastric irritation. In other words, no burning sensation.

This is achieved by loading a high-strength capsicum extract into an inert central core. And there’s a very good reason for this.

The unique outer coating is designed to withstand the low PH level of the stomach and then release the capsicum extract in higher PH levels of the intestine. This way, no discomfort is felt as Capsiplex breaks down completely in the intestine, which also means no discomfort upon voiding.
“Started taking capsiplex a week and a half ago, after my first week I lost 7lb!! Not weighed yet this week, hopefully a few lbs off again. Really good product, I have changed my diet as well but would never have lost 7lb on dieting alone in 1 week. Want to lose a stone by the end of Feb. Fingers crossed! Will be buying again. Really impressed with the quick delivery as well.”

M Brown

And Capsiplex Works:

“In a double blind, randomised, placebo controlled cross-over study undertaken at the University of Oklahoma in the USA, 25 subjects exercised on a treadmill on two occasions. On one occasion, subjects took Capsiplex 60-minutes before exercise and the second occasion they took a placebo. When the subjects took Capsiplex, they burned an average cumulative total of 278 more calories before, during and after exercise compared to placebo.”

So what’s actually in Capsiplex?

Capsiplex is a proprietary blend containing patent pending Capsicum Extract, Caffeine, Piperine (Black pepper Extract) and Niacin.

The clinically proven, proprietary thermogenic Capsiplex helps increase metabolism before, during and after exercise, helping burn up to 278 more calories cumulatively.

In addition, just one capsule of Capsiplex contains ingredients to support improved endurance and performance.

Let’s have a closer look at the ingredients:

Capsicum Extract

As we’ve already explained, this is the powerhouse of the formula. Capsicum Extract reduces appetite, increases metabolism, burns calories, reduces body mass and reduces body fat. Capsicum will also increase the conversion of calories into heat rather than fat. Thanks to our Beadlet design, the contents of the tablets are released where they need to be for maximum effectiveness and also to ensure your comfort. No burning sensation!

“I was a little wary when I ordered Capsiplex, as I don’t like spicy foods. That’s probably why I’m overweight, LOL. I still can’t believe that I never taste a thing when I take these. Not even when I burp. I expected heartburn at least. As for my weight, well I’ve lost 8 pounds in the last 3 weeks so I’m happy.”

Click Here to read more testimonials

Frank L.

Caffeine

We’ve included this for its ability to increase resting energy expenditure, while also increasing lipolysis and fat oxidation. It is also able to increase your energy, alertness and concentration.

Piperine

Adding this to the formula is like adding a turbo charger to a car. It squeezes more power out of it. Let me explain.

One of the most important things about nutrients is their absorption rate, meaning how much of it is actually used by your body. Typically this amount is low in comparison to the amount of the nutrient you actually ingest.

Piperine raises the level at which nutrients are absorbed. It does this by inhibiting certain enzymes responsible for metabolizing and using nutritional substances.

For instance it stimulates the amino acid transporters in the lining of the intestine, it inhibits p-glycoprotein, which is the protein that removes substances from cells and it lowers the production of something called glucuronic acid, (which hinders absorption), so allowing more of the substances to enter and stay in the body in their active form.
"A few days ago I was getting dressed and I noticed I am now 2 holes on my belt thinner. I haven't been this thin for AT LEAST 20 years."

Click Here to read more testimonials

Jamie M.

Because of this many nutrients and substances are able to reach, enter and remain within the cells for longer periods of time than they would without the use of Piperine.

Piperine supplementation can turn a substance from marginally effective into a highly effective one simply because it increases its bioavailability and keeps it in the cells for longer.

Niacin

Niacin which is another name for Vitamin B3, helps in releasing energy from carbohydrates, proteins and fats, making your body utilise them more efficiently. Niacin also works to decrease the level of cholesterol and fat in the bloodstream.

- Lower levels of triglycerides and triglyceride-containing particles like VLDL and IDL.
- Lower the level of fibrinogen, which is a clotting protein linked to heart disease.
- Reduces inflammatory responses.

If you are deficient in niacin your metabolism may slow down, thereby increasing the potential for weight gain. When you have a healthy metabolism it can increase the percentage of fat your body burns as energy.

**Capsiplex is a powerful synergistic formula for QUICK weight loss**

These are all powerful weight loss nutrients and the addition of Piperine makes the formula even stronger. It ensures that more of the nutrients are absorbed.

If you are serious about losing weight click here to order Capsiplex right now. With our fast delivery, you’ll be benefiting from the wonders of capsicum within days.

"11 pounds lighter in 23 days exactly and I haven’t done any exercise . . ."

Click Here to read more testimonials

Wendy B.

The great thing is that it works around the clock, by raising your metabolism so you burn more calories throughout the day.

And if you add exercise to your program, then obviously you’ll experience even faster results.

Imagine next time you go shopping for a new outfit, you’ll be able to grab the clothes you want to wear, rather than the clothes you have to wear.

Whether you have a few stubborn pounds to get rid of or you’re aiming for a complete transformation . . . make us your secret make over partner!

It’s not just our customers telling us this works Capsiplex is backed by medical studies!

There are so many weight loss products on the market it’s bewildering. The trouble is, very few of them have any kind of proof that their ingredients actually work.

You’ll find a lot of products hyped up without a single piece of evidence backing the claims of the manufacturer.

Capsiplex is backed by our own studies and the studies of others specifically regarding Capsicum Extract. When you purchase Capsiplex, you can be sure it’s proven to work.

It’s a powerful blend of Capsicum Extract, along with Niacin, Caffeine and most importantly, Piperine.

This amazing nutrient helps you to absorb more of the rest of the nutrients in the formula. Which makes Capsiplex both more effective AND more cost effective!

The unique Capsiplex formula is backed by 30+ years of research, studies and human trials. The aim was simple, to bring a product to the market which would work and be loved by our customer base.

We didn't quite realise how popular it would be, you must be suprised that celebrities are using Capsiplex - because it took us by suprise too! But why not? The formula works and people are losing weight.

ATTENTION: Discount Pricing Available THIS WEEK ONLY - Order Today

"I can see why so many celebrities are jumping on this stuff. It's really good stuff. I have only been using it for 3 weeks and I've lost 8 pounds so far. I haven't changed anything else so I'd say that's good."

AdamJ.

Then there’s the delivery technology. We use a beadlet design to ensure the ingredients are released where they need to be for maximum effectiveness and to ensure there’s zero discomfort.

Before we get into the actual clinical studies, let’s get straight to the important part.
This is very important, because the only way to deliver Capsicum Extract without causing you serious injury is through our Capsiplex Beadlet Design. It protects you from side effects AND just allows you to see the benefits - quick, easy weight loss.

What do the clinical study results actually mean for your weight loss?

First and most importantly, the results show that Capsiplex works. That’s why we can proudly say Capsiplex is celebrity endorsed and used.

You can rely on our formula to help you quickly and easily reach your weight loss goals.

If you look at the studies, when the subjects in the tests took Capsiplex, they:

- Burned 3-times more calories before exercise
- Burned 3% more calories during exercise
- Burned 12 times more calories for up to one hour after exercise compared to when they took placebo.

This resulted in an average cumulative total of 278 more calories burned before, during and after exercise compared to placebo.

Capsiplex™ Clinical Study Results

Upon baseline adjustment, statistical analysis indicated that when the subjects took Capsiplex™ Plus, they burned:

- 3 times more calories before exercise
- 3% more calories during exercise
- 12 times more calories for up to one hour after exercise compared to when they took placebo.

This resulted in an average cumulative total of 278 more calories burned before, during and after exercise compared to placebo.

But that’s not all

- They also had a 7.5% greater oxygen uptake during the exercise period and greater air flow through the lungs during the post-exercise period than those taking a placebo.
- Despite the fact that Capsiplex™ takers were expending more energy than placebo takers, they did not perceive they were exerting themselves more.

You can understand why we got excited when we saw the results that Capsiplex could deliver? You can understand why celebrities are using Capsiplex... You can probably also understand why you should be also taking Capsiplex to help you lose weight.

So when YOU take Capsiplex, you will lose weight it’s THAT simple
If you take it and don’t change anything else you are doing, you will lose weight because Capsiplex increases your metabolism, making you burn more calories.

🌟 If you take it and exercise, especially just before exercise, you will lose even more weight.

🌟 It will improve your stamina by raising your oxygen uptake, so exercise will be less effort.

🌟 Also, when you’ve finished exercising, you’ll recover faster

🌟 Like what you see in the mirror, feel sexy, feel better - feel how you want to.

You have read about real men and women losing weight with Capsiplex, you have read and saw celebrity before and after photos of them on Capsiplex.

The clinical study data shown below should reassure you further... but with Capsiplex we do things properly. We got a well known doctor to examine our formula.

Dr. Karen Viera examines Capsiplex...

"Capsiplex is a clinically proven weight loss supplement that contains a proprietary blend of Capsimax capsicum extract (from hot peppers), caffeine, piperine (from black pepper) and niacin (vitamin B3). In a clinical study conducted at the University of Oklahoma, Capsiplex was shown to help participants burn an average of 278 more calories before, during and after exercising on a treadmill for one hour.

This is because the Capsimax Plus Blend works to increase resting metabolic rate and energy expenditure, as well as burn carbohydrates and fat.

Studies on Capsiplex and the individual components of the Capsimax Plus Blend have shown that it has antioxidant effects; lowers blood cholesterol levels, blood triglycerides and glucose levels; and reduces fat accumulation in the liver. It also improves exercise endurance and performance, so you can exercise more without feeling extra exertion. In addition, the Capsimax Plus Blend boosts oxygen uptake after exercise to make recovery faster.

Capsiplex’s patented blending system and pH-sensitive outer coating gives users the maximum effectiveness of a highly concentrated capsicum extract without any irritation to the mouth or stomach.

The coating only releases the Capsimax Plus Blend in the high pH environment of the intestines where it is completely broken down and absorbed, ensuring there is no burning during bowel movements. This is a different system used than most hot pepper supplements, many of which tend to cause pain or discomfort with little effectiveness.

Overall, Capsiplex has all the qualities of a high quality weight loss supplement. It contains safe and natural ingredients that are from foods and drinks that have been consumed for centuries. The formulation provides proven weight loss when taken alone or in addition to exercise. The patented system of producing it ensures that it is concentrated, yet causes no pain or discomfort."

DOCTOR ENDORSED: The Doctor Examined Capsiplex Is Available To Buy Today

You will feel great when you have reached your weight loss goals!

Wearing the coolest, trendiest clothes instead of clothes that just cover up what you don’t want others to see.

Never having to be camera shy again, or worrying how you look, judging yourself or knowing others are judging you. And you’ll be in great company as we have so many celebrity fans!

If you want a Hollywood celebrity body, use what the Hollywood celebrities use Capsiplex.

It’s easy to lose weight with Capsiplex and you’ll finally be able to enjoy “the skin you’re in”.

DOCTOR ENDORSED: The Doctor Examined Capsiplex Is Available To Buy Today
“Having been into bodybuilding for the last 10 years, I've seen more than my fair share of weight loss and fat burner products. I was already aware of the potential of things like capsicum in fat loss as I know it raises metabolic rate. However I had never actually tried it before. In the lead up to a local competition I decided to try it. Amazing. It worked brilliantly and I'll definitely be using it again. Must be pretty good as I placed second in my category.”

Martin P.

OK, let’s get into the study results, shall we?

Clinical Studies on Capsiplex!

- Study 1: 100 mg Capsiplex (2 mg Capsaicinoids) x 8 days x 8 subjects
- Study 2: 100 mg x 14 subjects x 14 days
- Study 3: 500 mg x 6 subjects x 8 days
- Study 4: 1000 mg x 6 subjects x 8 days

Key Findings of Clinical Studies on Capsiplex™ Capsicum Extract

Capsiplex Pilot Clinical Clearly Establishes:

- Tolerated well
- Positive Impact on Resting Metabolic Rate—the primary indicator of thermogenesis
- Positive Indicators on Body Mass Index

Composition.

Capsimax™ Consists of:

- Capsicum Fruit Extract
- Caffeine Anhydrous
- Piperine
- Niacin

Capsiplex™ Clinical Study Design

- Double-blind
- Randomized
- Placebo controlled
- Cross-over
- 25 subjects
- Study conducted at the University Oklahoma

Adam J.

- Vital signs and weight
- Blood samples for laboratory analyses
Visits 2 and 3

Subjects took either Capsiplex™ or a placebo
Served as their own control group, as half the group took Capsiplex™ on one day and then a placebo on a subsequent visit and the other half took! the placebo first, then Capsiplex™
One week washout period between the two session

Visits 2 and 3

Subjects were monitored during four periods as follows:
- a resting baseline period of 30 minutes prior to dosing
- a resting pre-exercise period of 60 minutes prior to exercise
- a 60 minute exercise period of moderate intensity (walking on treadmill)
- a resting 50 minute post-exercise period.

Visit 4

- Adverse events were recorded.
- Vital signs and weight were taken, and
- Blood samples for laboratory tests.

Background Variable

- height (cm)
- weight (kg)
- heart rate (bpm)
- systolic blood pressure (mmHg)
- diastolic blood pressure (mmHg)

Outcome Variables

- energy expenditure (Kcal/day)
- oxygen consumption (ml/kg/min)
- ventilation (L/Min)
- respiratory quotient
- rating of perceived exertion
- heart rate (bpm)
- systolic blood pressure (mmHg)
- diastolic blood pressure (mmHg)

Capsiplex™... Clinical Study Results

Upon baseline adjustment, statistical analysis indicated that when the subjects took Capsiplex™, they burned 3-times more calories before exercise 3% more calories during, and 12 times more calories for up to one hour after exercise compared to when they took placebo.

This resulted in an average cumulative total of 278 more calories burned before, during and after exercise compared to placebo.

Other effects
Given the notable increase in energy expenditure following treatment with Capsiplex™, it is not surprising that other metabolic parameters related to energy expenditure also rose.

For instance, subjects taking Capsiplex™ also experienced 7.5% greater oxygen uptake during the exercise period and greater air flow through the lungs during the post-exercise period than those taking placebo.

Despite the fact that Capsiplex™ takers were expending more energy than placebo takers, they did not perceive they were exerting themselves more.

**Key findings from Human Studies...**

As you’ll see below, many other studies have been completed on Capsicum and the findings are all positive. It does exactly want you need it to do, which is **to make weight loss EASY**.

- Enhances energy expenditure by stimulating beta adrenergic receptors
- Reduces energy intake and enhances energy expenditure, with caffeine Synergistically
- Enhances energy expenditure with catechins, caffeine, tyrosine
- Reduces the body weight and increase resting metabolic rate
- Increases satiety
- Inhibits serum lipoprotein oxidation

Studies have established that consumption of capsicum as red pepper or capsaicinoids can facilitate:

- diet-induced thermogenesis (i.e., an increase in energy expenditure in the body)
- reduction in appetite levels (shown by decreased cumulative food intake)
- beneficial reduction in body mass, % body fat, waist circumference
- desirable reduction in levels of critical markers of weight maintenance such as blood glucose, insulin and triacylglycerol

**Capsiplex™ Clinical Study Results**

Upon baseline adjustment, statistical analysis indicated that when the subjects took Capsiplex™ Plus, they burned:

- 3 times more calories before exercise
- 3% more calories during exercise
- 12 times more calories for up-to one hour after exercise compared to when they took placebo

---

**What is 278 calories worth?**

- 1 hour and 20 minutes of walking at a moderate pace (2 mph)**
- 25 minutes of jogging (10 minute mile, 6 mph)**
- 1 hamburger
- 1 slice of cheese pizza
- 2 chocolate chip cookies
- 1/2 bagel with 1 T cream cheese
Red Pepper and Capsaicinoids Clinically Proven.
- Capsaicinoids **enhance thermogenesis**
- Capsaicinoids **increase energy expenditure**
- Capsaicinoids **enhance loss of calories**
- Capsaicinoids **help reduce caloric intake**

Int J Obes Relat Metab Disord 2004; 28(Suppl. 1):S35

What are you waiting for?

As you can see, Capsiplex is well proven and will work for you. In literally weeks from now you will be stood in front of the mirror with a huge smile on your face as your weight loss dreams finally become reality.

We want you try us, because we know you will be happy - our customer return rate is through the roof. You can ACTUALLY FEEL CAPSIPLEX working from the first pill!

It is simple, if you want weight loss - order Capsiplex today.
Read what other people, just like you, are saying about the powerful Capsiplex!

Ok, so you know that many celebrities have been using Capsiplex, but what about the normal man and woman in the street? You'd be interested in hearing what they have to say about their experiences wouldn't you.

It's always good to hear about other people's experiences as it can help you come to a decision whether you want to try it for yourself.

You already know that Hollywood is embracing it. When you have the celebrity elite using your product, it's VERY flattering. But to be honest, we KNOW it works, so it's not that surprising that they found that out too.

We've designed Capsiplex based on over 30 years of research. And you have to remember that Capsicum has been used for over 1000 years in one form or another.

It's all natural, safe and won't cause you stomach upset. The capsicum is sealed in to the capsule using the most cutting edge technology. No problems.

So let's see what people are saying about their experience with Capsiplex..

“I bought Capsiplex when I read that Britney Spears was using them. Yeah, I'm sad like that, but I thought if she's using them, they must be good. Anyways, I'm really pleased with the results as I'm down 2 dress sizes in around 6 weeks. Yeah!”

Amy J.

“I was a little wary when I ordered Capsiplex, as I don't like spicy foods. That's probably why I'm over weight. LOL. I still can't believe that I never taste a thing when I take these. Not even when I burp. I expected heartburn at least. As for my weight, well I've lost 8 pounds in the last 3 weeks so I'm happy.”

Frank L.

“A few days ago I was getting dressed and I noticed I am now 2 holes on my belt thinner. I haven't been this thin for at LEAST 20 years.”

"278 more calories burned before, during and after exercise"

What is 278 calories worth?

- 1 hour and 20 minutes of walking at a moderate pace (2mph)**
- 25 minutes of jogging (10 minute mile, 6 mph)**
- 1 hamburger
- 1 slice of cheese pizza
- 2 chocolate chip cookies
- 1/2 bagel with 1 T cream cheese

Lose weight quickly with the proven Capsiplex formula - Order today!

"Genuinely pleased with your product. Tried stuff in the past with very mixed results, but with Capsiplex I have lost 18lb over the last 2 months. I've since read up on Capsicum and it's all true . . . a great way to loose weight and healthy too."
Don P.

"This has given me a great excuse to eat the spicy foods that I so love. Never realised they were so healthy. The pills are working great. I didn't really notice a difference for a week or so, then the weight started coming off. Only having to take one pill a day is really good too. I never forget!"
Joanne Y.
Got Questions? Read Our FAQ section Right Now

“Fiery hot peppers... now that’s a man’s way to lose weight! I love the fact I only need one pill per day, that I can’t even notice I’ve taken it, meaning no heartburn, indigestion etc. I didn’t see much of a difference straight away, but it kicked in on the second week for me. I’m on my 3rd bottle now and I actually feel better in myself as well as losing 15lbs. Thing is I haven’t altered my diet in any way and I’ve still lost the weight.”

Stan V.

“My sister tried your product and I told her she was mad. How come people who eat lots of spicy foods aren’t all skinny then? Obviously now I’ve looked a little deeper, I know it’s the strength of your formula that makes the difference. Jen (my sister) lost weight and kept it off, so I bought some. Love it. So easy, 3 weeks and 7 pounds lighter.”

Lyn D.

“I wish I’d have discovered this before now. It’s wonderful stuff. I’ve tried other weight loss pills but they either didn’t work or had mad side effects. Alli was the worst for me. I like Capsiplex, and it obviously suits me. Last night I went out in my old jeans. They are 2 sizes smaller than the ones I currently wore. I kept them coz they are SO sexy and I promised myself that one day I’d diet and get back into them. Great night last night thanks to Capsiplex.”

Cat B.

“I was convinced that anything the Hollywood stars use MUST work, so I tried your weight loss tablets. They do work. I have lost 11 pounds since I started just under a month ago.”

Alan T.
Capsiplex™ Clinical Study Results

Upon baseline adjustment, statistical analysis indicated that when the subjects took Capsiplex™ Plus, they burned:

- 3 times more calories before exercise
- 3% more calories during exercise
- 12 times more calories for up to one hour after exercise compared to when they took placebo
- This resulted in an average cumulative total of 278 more calories burned before, during, and after exercise compared to placebo.

"After splitting up with my wife of 10 years I was pretty low and obviously fed up. I looked in the mirror and knew I had to drop the flab. I researched for hours online and decided to try capsiplex. I combined them with a little exercise (and I do mean a LITTLE) and I now weigh a stone less (14pounds) after 11 weeks. I love how much more confident I feel and have started dating again."

James D.

"I actually remember seeing the headline about your product in the newspaper that you have on your homepage. It's hard to not be curious when you see things like that. So when I decided I wanted to lose weight for my holiday I bought Capsiplex. I had around 9 weeks to use them before the holiday and I took them everyday without missing a single one. By the time we flew out I was 13 pounds lighter. Looked great in my shorts! Thanks."

Jess T.

"Being a huge Brad Pitt fan, if he thinks your product is good enough to use, then so do I. People say I do actually look a little bit like him. Actually I don’t know why he needs to lose weight as he seems to always look in shape. Ok so I’ll just say that I am pleased with the results guys. I set a target of 10 pounds to lose as I’m not too overweight, mainly Christmas fat! 10 pounds gone in 7 weeks. Excellent."

"Used since the 16th Century

For Quick Weight Loss!

"Thanks for making my wedding so enjoyable. I didn't have too much to lose but it was driving me insane thinking about it. The wedding was almost spoiled before it even took place. I bought Capsiplex in time thankfully because I reached my target weight in time for my wedding. I'm ordering some more though as I love how I look now. Thanks again."

Deborah A.

Losing weight CAN be easy... Simply Order For Quick Delivery!

"After a work colleague lost almost a stone (14 pounds) in what seemed like a ridiculously small amount of time, I asked her how and she told me about your product. Obviously I bought some and I have lost 16 pounds now. 2 other staff in our office are also using it now!" Amy P.

Amy P.

"How great is this! I love how quickly and easily I have lost weight since my pregnancy. You've made it so easy. Thanks so much."

Elizabeth T.

"Having been into bodybuilding for the last 10 years, I've seen more than my fair share of weight loss and fat burner products. I was already aware of the potential of things like capsicum in fat loss as I know it raises metabolic rate. However I had never actually tried it before. In the lead up to a local competition I decided to try it. Amazing. It worked brilliantly and I'll definitely be using it again. Must be pretty good as I placed second in my category."

Martin P.

"I can see why so many celebrities are jumping on this stuff. It's really good stuff. I have only been using it for 3 weeks and I've lost 8 pounds so far, I haven't changed anything else so I'd say that's good."

Adam J.

"Had these bought me for my birthday. Thought it was a little weird but my family never cease to amaze me. Tried them anyway and I'm glad I did. I am now in a size 10 (UK) for the first time in 15 years."

Tracy W.

You can soon be adding your success story to this page!

Obviously we’d love YOU to be our next success story we’d like you to tell us how it feels to have finally reached your weight loss goals. How it feels to get into those sexy jeans, look great for your wedding or completely enjoy your first beach holiday in years.
Unsure? Order just one bottle, you will be back within days to order our larger packages (great discounts) - because Capsiplex works.
Although we have tried to cover as many details as possible across the site, if you do have any unanswered questions, you’ll probably find the answers here.

The main question on your mind is obviously... will Capsiplex work for you. Yes it will.

It’s a proven weight loss solution, based on over 30 years of research.

One of the main problems we had to overcome was keeping the Capsicum intact through your digestive system, so it can be released in the right place for maximum absorption and zero discomfort.

We finally solved this by developing the beadlet design capsule. Now you get the nutrients delivered right where you need them and with the addition of Piperine, you’ll also absorb far more than usual.

You should read our clinical trials and our customers testimonials.

Q: What is Capsiplex Plus?

A: Capsiplex Plus is a combination of both regular Capsiplex and 5-hydroxytryptophan (5-HTP). Combined together they work extremely well to be used as a dietary supplement. Capsiplex helps to naturally increase the metabolism before, during and after exercise and studies have shown that using Capsiplex in conjunction with 5-HTP is highly beneficial for weight management due to 5-HTP raising serotonin levels in the brain. As serotonin helps regulate mood and behaviour, 5-HTP may have a positive effect on sleep, mood, anxiety, and appetite.

Q: When will my Capsiplex order be shipped?

A: For UK & International destinations, delivery is 2-4 working days. Orders placed outside the European Union can be subject to clearance delays which is beyond our control. All orders can be tracked and information will be emailed to you after your order has been despatched.
Q: Do you deliver worldwide?
A: Yes, we deliver worldwide, prices for delivery are UK: £3.95, Europe: £7.95, Rest of World: £9.95

Q: I do not have a credit card, is there any other way I can pay?
A: Yes, we appreciate that not everyone has a credit card. We can accept a British Bank cheque in UK Pounds Sterling made payable to Advanced Health Ltd. Please send this with a covering letter to: Newstel House, PO BOX 27058, Glasgow, Scotland, G4 7DF, please remember to right your name and address on the back of the cheque. Once the cheque has cleared we will despatch your order. For payment queries outside of the UK, please contact our support team for further help and assistance.

Q: Is Capsiplex suitable for vegetarians and vegans?
A: No, there is gelatin in the capsule gel.

“Being a huge Brad Pitt fan, if he thinks your product is good enough to use, then so do I. People say I do actually look a little bit like him. Actually I don't know why he needs to lose weight as he seems to always look in shape. Ok so I'll just say that I am pleased with the results guys. I set a target of 10 pounds to lose as I'm not too overweight, mainly Christmas fat! 10 pounds gone in 7 weeks. Excellent.”

Q: Does Capsiplex contain stimulants commonly contained in any other slimming aids?
A: No. Sadly many slimming tablets contain amphetimins and guarana. These stimulants have extremely bad side effects which include anxiety, irritability and being unable to sleep. Capsiplex is adamantly against any artificial ingredients and prides itself on being 100% natural.

The Celebrity Proven Diet Pill: Order Today For Super Quick Delivery!

Q: How often do I take Capsiplex?
A: You should take Capsiplex once a day, in the morning on non-exercise days. On days when you are exercising, for best results take Capsiplex with water 30-60 minutes before commencing exercise. Do not exceed 1 capsule per day.

Q: How often do I take Capsiplex Plus?
A: You should take the 5-HTP supplement (blue capsule) in the morning. You should take Capsiplex (red capsule) once a day, in the morning on non-exercise days. On days when you are exercising, for best results take Capsiplex (red capsule) with water 30-60 minutes before commencing exercise. Do not exceed 1 of each (Blue + Red) capsules per day.

Q: How often do I take Capsiplex Appetite Suppressor?
A: You should take 2 Capsiplex Appetite Suppressor supplements 30 minutes prior to each main meal. Do not exceed 6 supplements per day.
Capsiplex™ Clinical Study Results
Upon baseline adjustment, statistical analysis indicated that when the subjects took Capsiplex™ Plus, they burned:

- 3 times more calories before exercise
- 3% more calories during exercise
- 12 times more calories for up to one hour after exercise compared to when they took placebo

This resulted in an average cumulative total of 278 more calories burned before, during and after exercise compared to placebo.

Q: How many capsules are in one months supply?
A: There are 30 capsules, one a day

Q: How much weight will I lose?
A: That depends on your starting weight, if you have more than 14lbs to lose you can expect to lose up to 4lbs in the first week, reducing to 1-2lbs a week thereafter.

Q: What’s worth 278 Calories?
- 1 hour and 20 minutes of walking at a moderate pace (2 mph)
- 25 Minutes of jogging (10 minute mile, 6 mph)
- 1 hamburger
- 1 slice of pizza
- 2 chocolate chip cookies

Consuming an extra 278 calories per day can result in weight gain of over 25 pounds in one year!

Why Wait? Order Today!

Q: Can I take Capsiplex when I’m pregnant?
A: We advise you consult your GP before taking any supplements.

Q: Can I take Capsiplex when I’m breastfeeding?
A: We do not advise it, although there are no side effects it is better to wait until you have stopped breastfeeding.

Q: Can I take Capsiplex if I have a heart condition?
A: We advise you consult your GP before taking any supplements.
Q: Can children take Capsiplex?
A: We would advise you to consult your GP before giving anyone under 16yrs Capsiplex.

Q: Will Capsiplex disturb my sleeping pattern?
A: No, Capsiplex contains a very small amount of caffeine.

Q: Should I follow a strict calorie controlled diet?
A: There is no need to deprive yourself of anything as long as you are sensible and eat in moderation, the less food you consume the more weight you will lose but there is no need to starve yourself. You will feel satisfied with a small portion of food.

Q: Can I take Capsiplex if I am diabetic?
A: Yes. Capsiplex is safe for diabetics.

Q: Will Capsiplex interfere with the contraceptive pill?
A: No. Capsiplex will not interfere with any other medication.

Q: I have thyroid problems. Is Capsiplex safe if I am taking Thyroxin?
A: Yes, Capsiplex will not interfere with any thyroid medication.

Q: Are there any side effects from using Capsiplex?
A: Capsiplex is 100% natural and contains Chilli extract which naturally increases your body temperature to burn fat. This process can sometimes give the feeling of hot flushes and this has been reported by a small percentage of customers.

Q: What ingredients are in Capsiplex?
A: Capsiplex contains Capsiasin, Caffeine, Niacin, Piperine.

Q: Do you have any stockist in the US or Canada?
A: We ship worldwide.

*I actually remember seeing the headline about your product in the newspaper that you
have on your homepage. It's hard to not be curious when you see things like that. So when I decided I wanted to lose weight for my holiday I bought Capsiplex. I had around 9 weeks to use them before the holiday and I took them everyday without missing a single one. By the time we flew out I was 13 pounds lighter. Looked great in my shorts! Thanks.”

Order today and finally get on the road to your ideal weight

Don’t forget Capsiplex is proven to work and not only that but it works quickly.

It’s amazingly convenient, easy to use and cost effective. And it uses natural ingredients with no pharmaceutical nasties in it!

Capsicum has been studied for the past 30 years, in animal and human subjects and has proven that red hot peppers and Capsicum are safe and effective nutritional ingredients to support weight management.

Using the Capsiplex Beadlet Design, ensures the ingredients get to where they need to be in order to be effective and also ensures no discomfort or burning sensation.

It’s a great feeling when you start to see the weight coming off and it makes it even more special when you don’t have to spend half your life at the gym to achieve it. Remember that Capsiplex raises your metabolism so you’ll even be losing weight while you sleep.

If you want to learn for yourself why Capsiplex is celebrity endorsed and used, just place your order today - guaranteed quick delivery.

Our customer support team are available for 24 hours per day to answer your questions. We know how important good customer support is and we know that you want support on your weight loss journey.

Our committed to providing you with 24/7 access to our support team, further shows our dedication to ensuring you lose weight quickly.

The #1 Rated Capsiplex . . . The Celebrity Choice!

To be honest, the attention Capsiplex has received in recent months has been nothing short of overwhelming.

Selling out our entire stock of 50,000 bottles in 3 days obviously took us by surprise.

When the story was featured in so many newspapers, magazines and websites, we were inundated with enquires from the public, asking when we'd have more stock for them to buy!

We felt bad that we couldn't help even more people to reach their weight loss goals quickly and easily, but there's just no way we could have anticipated THAT level of interest.

What was even more impressive is the fact that Capsiplex has so many celebrity fans.

They obviously know a great product when they see one and just like everyone else, they've been keen to get their hands on our powerful proven formula.

Used By British Celebrities & Worldwide Celebrity Fans - Order Capsiplex Today

Celebrities face the demands of life in the media glare

Whether they're film stars or pop stars, the need to look their very best is essential. They are "the beautiful people" who we look up to, admire and want to be like.

One way YOU can be like them is to use the same weight loss supplement! Simply order right now and be on your way to your very own Hollywood body.

Maybe it's wrong that we are all judged on how we look, but it seems to be true.

And no where more so than in the world of celebrities.

If Brad Pitt becomes the victim of "middle age spread", the media will have a field day!

He will be expected to remain slim, toned and handsome till his dying day. Any variation from that and he'll face torments from both the media and us, the public.

And famous females are treated the same. Where we can add a few pounds here and there due to childbirth or as we age, without it being frowned on, it's simply NOT the same for the J-Lo's, Britney's and Angelina's of the world.

A few ounces of fat caught on camera, maybe while they relax round the pool or while working on set, and it's front page news . . .

“Shock! Horror! Celebrity Is NOT Perfect!”
Can you imagine living like that? With THAT much pressure? Under so much daily scrutiny? Luckily, you don’t have to. (Unless of course you are a celebrity. They obviously visit our site after all!).

But it’s something that they HAVE to deal with to remain at the top of their game. They obviously have to stay in shape and keep the extra pounds at bay.

So when they resort to weight loss solutions like Capsiplex they need the very best.

They need to ensure it’s:

- Proven to work
- Extremely effective
- Totally natural, with no side effects

As you now know, Capsiplex meets these requirements and more. (You can see the Clinical Study results and find out more about How Capsiplex Works!)

If it didn’t, there’s no way that celebs would continue to buy it! And they do continue to buy it simply because it’s so powerful, convenient and effective.

You now have insider celebrity diet secrets!

You’ve probably asked yourself before...

“What do the celebrities REALLY use to lose weight?”

Well now you know. And the great thing is, it’s not something that YOU can’t get hold of and use yourself.

YOU can use exactly the same powerful, proven product that so many celebs are using. You haven’t got to go searching or pay ridiculous amounts of money to copy them.

You can order it right now, from this site and be on your way to the body of your dreams literally days from now.

Celebrities are renowned for their love of natural products. And that’s another reason they love Capsiplex. No nasty pharmaceuticals, just all natural, effective ingredients, to melt away your unwanted fat.

The problem with many slimming products is that they can cause more problems than they solve. Many of the ingredients have various side effects and you hear so many stories of supposedly safe, pharmaceutically based diet pills, being pulled off the shelves due to complaints.

Because Capsiplex only contains specially chosen, high quality natural ingredients, it’s not only powerful and effective... it’s also completely safe.

Another reason for Capsiplex’s success is thanks to the Beadlet design of the tablets.

Our unique Beadlet Design means you can have a powerful formula WITHOUT side effects. Which the celebrities are loving...

Although it’s been known for many years that Capsicum has weight loss benefits, it’s been a problem getting enough of it into your system.

This stuff is HOT remember!
But thanks to our beadlet design, that is no longer a problem. The main ingredients are locked in and thanks to some clever chemistry, only released where they need to be. So this guarantees perfect delivery every time. For REAL results.

So if you are ready to lose weight quickly and easily and you want a proven product as used by some of the biggest celebrities on the planet . . . click here right now and receive your Capsiplex quickly!

The celebrities choice.
Can You Imagine Losing 10 lbs in 10 Days?

As hard as losing 10 pounds in 10 days might sound, DecaSlim makes it possible as the BEST WEIGHT LOSS PILLS THAT WORK ever created. By utilizing the 10 most powerful, patented and trademarked weight loss ingredients in the industry, you'll be guaranteed to lose weight! DecaSlim's 10 powerful, clinically-proven ingredients are the perfect weight loss combination no matter how little or how much weight you would like to lose!

How can you know if this formula actually works? It's Science! DecaSlim is the only weight loss pills that work on the market created with:

- Proven Weight Loss Ingredients
- 100% Safe & 100% All Natural
- And Produce Visible Weight Loss Results!

**THE SCIENCE BEHIND DECASLIM'S 10 PATENTED & TRADEMARKED INGREDIENTS:**

**ThermoDiamine**

The quinozole alkaloid isolated from the unripe fruit of Evoedia Rutaecarpine Thermodiamine™ is also known as Evodiamine.

Recent Japanese studies found that Thermodiamine™ supplemented in a high-fat diet for 3 weeks, can significantly help reduce body weight, overall fat percentages and epididymal fat...
**Thermodiamine™** works by increasing the output of catecholamines, vital to the fat oxidation. By increasing the lipolytic (fat burning) activity through its effect on vanilloid receptors, Thermodiamine™ significantly helps with weight loss. These receptors help adjust the regulation of body temperature.

 Razberi K™ - Razberi-K™ is the major aromatic compound of red raspberry and commonly known as Raspberry ketone. Razberi K™ enhances the anti-obese mechanisms by altering the way fat is metabolized. Rasberi K is proven to increase the critical fat-burning hormone norepinephrine to increase lipid metabolism, which prevents obesity and enhances weight loss efforts by allowing the body to burn more fat. Razberi K™'s structure is similar to the popular fat burning compounds known for fighting fat for their ability to alter the lipid metabolism levels. Implementing its fat metabolizing properties into your diet will help you lose fat even without making changes to your dieting habits. Its effects are potent and have been backed by several clinical studies.

Raspberry ketone

Sympathine

Capsaicin

A 2005 study found raspberry ketones significantly improved body weight and body fat composition when supplemented in a high-fat diet compared to control groups. Additionally, Raspberry ketone decreased the weight of the liver and visceral adipose tissues (epididymal, retroperitoneal, mesenteric) by removing fat around the organs.

Fazberi-K™

The Patented Wakame Seaweed Standardized to 10% Fucoxanthin, FucoPure™ is the proven weight loss ingredient made from Japanese Wakame seaweed. Research in Japan found that Fucoopure can provide oxidation to fat cells and release energy by adaptive thermogenesis within fat cells of white adipose tissue and the abdominal fat of adult humans. The carotenoid found in FucoPure may be directly linked to decreasing abdominal fat. Its unique ability to stimulate the expression of UCP 1 protein in white adipose tissue causing fat oxidation and conversion of energy to heat can lead to increased metabolic rate and leading to the right weight loss. FucoPure's unique and potent thus truly makes it an incredible weapon against fat in DecaSlim's expansive arsenal.

Guggul EZ 100™ is a special dark brown, 100% pure synthetic E and Z Guggulsterone extract. Guggul EZ 100™ has cholesterol lowering properties because it helps maintain normal blood lipids.
levels by enhancing thyroid gland function to promote weight loss. Guggul EZ 100™ was designed to strip away fat while leaving your muscles intact.

**Bioperine®** Bioperine® is the most potent black pepper extract form used primarily to increase nutrient transportation. Bioperine is crucial to help you to absorb the expansive ingredients in DecaSlim faster and more efficiently. By allowing you to taken in the other powerful compounds contained in this supplement so quickly, Bioperine allows you to start experiencing the comprehensive benefit almost immediately. Its rapid delivery also ensures that every ingredient is put to use before it is lost in the digestion process. By providing the body the key nutrients it needs to lose weight, you'll see rapid weight loss results only available in Lipofuze because of it's powerful formula.

**Green Tea** Green Tea has been used for more than 5,000 years in some places for its ability to increase the metabolic rate and accelerate the fat-burning process according to numerous scientific studies (American Journal of Clinical Nutrition, 1999 Dec; 70(6):1040-5). Green Tea extract has also been utilized to inhibit FAS (fatty acid synthase) to suppress the appetite, leading to greater weight loss results. Results of a more recent study published in the American Journal of Clinical Nutrition (Am J Clin Nutr; 81:122-129), indicated Green Tea, which is rich in catechins, lowers body fat and cholesterol levels. Green Tea catechins increase energy expenditure, reduce respiratory quotients and increase carbohydrate oxidization. A 12 week study in males showed Green Tea can aid in the significant reduction in body weight, body fat, and visceral fat area.

**Capsaicin** Capsaicin delivers numerous health benefits and has also been known to be an antioxidant that helps protect the body from harmful free radicals. When it comes to weight loss, Capsaicin's ability to help decrease appetites and subsequent protein and fat intake has been extensively documented. However, Capsaicin's main fat-burning capabilities come from its ability to help break down fat quicker and increase metabolism. In multiple studies, Capsaicin has been proven to produce sustained fat oxidation. Capsaicin has also been shown to stimulate lipid metabolism to increase weight

**Synephrine HCL** Synephrine HCl, a powerful fat burning ingredient derived from a fruit called Citrus aurantium, zhi shi, or bitter orange, is used in several high powered weight loss supplements. Synephrine has become popular for having the strength of popular ingredients without the side effects. Synephrine provides a boost in energy, suppresses the appetite and increases metabolism to help burn fat. Synephrine contains tyramine and octopamine, powerful agents related to the hormones that help suppress appetites. Synephrine has been shown to activate lipolysis activity in several studies. At high concentrations, synephrine was shown to exhibit diverse lipolytic effects.

**DHEA** As one of the most potent thermogenic enhancers, DHEA is known to produce safe, effective fat loss. DHEA increases thermogenic enzyme activity and supports healthy thyroid function to regulate the body's heat production and metabolic rates. By the time we turn 25, our thyroid hormone production is decreased by the thyroid glands. DHEA increases the thermogenic enzyme activity by adjusting the thyroid function to increase hormone production that will increase the body's metabolic rate to promote weight loss without affecting caloric intake. Individuals administered DHEA in a recent study lost significant amounts of weight, reduced body fat and increased triiodothyronine levels.
By increasing triiodothyronine (T3) levels in the body, which are linked to basal (or resting) metabolism, DHEA increases metabolic rates to help burn calories faster.

**FREQUENTLY ASKED QUESTIONS**

**Does DecaSlim Work For Everyone?**
No. We have a 1.5-2% return rate. Most everyone LOVES it. A few Don't. We really can't please everyone. There's really only one way for you to know... Try it! And if you don't Love it... You get All Your Money Back, less shipping. NO QUESTIONS ASKED!

**What Works Better - Whole Foods or Your Concentrates?**
Many customers are shocked to hear me say this, but the whole food meal plan works better. It's True. You would get better results eating these 10 Super Foods everyday than you will from taking my product. The only problem is that the 10 Super Foods are SUPER EXPENSIVE and SUPER INCONVENIENT to eat Everyday. This is simply an Extremely Cost Effective Way to get many of the Health Benefits the Super Foods Give You. The results may not be as good as eating the whole food but you may get More "Bang For Your Buck".

**Do I have to Exercise to See Results?**
This product was designed to be taken in conjunction with a healthy diet and exercise. That is the best way to lose weight. Some users lose weight without changing there diets or exercising, but exercise and healthy eating are recommended for optimal results.

**How Long Does Each Bottle Last?**
A Full 30 Days.

**Does DecaSlim Really Work?**
You will never hear us making any bogus claims about this product. All we can do is tell you our personal results. And you can also read our customers results to see how customers like you feel about it. Some don't like it. More than 98% do. The other 1.5-2% get their money back.

**Is this an Acne Aid or a Weight Loss Aid?**
DecaSlim is both. I actually just wanted to improve my overall health so I began eating these 10 Super Foods hoping to accomplish that. But it had a couple of "Positive Side Effects" I lost weight, my acne almost completely went away, and I have TONS of Energy. These are extraordinary results. Some may not notice these types of results and you may have even better results than me. It's just a wonderful product at a wonderful price.

**When will my order arrive?**
All orders are shipped within one business day. Shipping time depends on your location and method. For US customers, we offer FedEx Home Delivery (1-5 days), FedEx 2 Day Air, FedEx Overnight, USPS First Class (2-5 days), and USPS Priority (2-3 days). International orders are shipped FedEx International Mail (10-14 days) and FedEx International Priority (3-5 days, fully trackable).
Do you offer a money back guarantee?
YES! We offer an unbeatable 90 day money back guarantee. We're that confident you'll be amazed by the results. In the unlikely event that you're not, you'll get a full refund (less s/h). All you have to do is contact customer service and they'll give you instructions on how to return your order. This offer is good for one fully used bottle and all unused bottles in resalable condition.

For a limited time, when you purchase 2 or more bottles of DecaSlim you will receive 1 to 3 FREE 3 Day Detox systems. 3 Day Detox helps to cleanse the body of waste and toxins by flushing them out through the digestive and urinary system. This helps to improve metabolism and the functioning of the digestive system.
* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

† In a 12-week double-blind, placebo-controlled study, subjects taking green tea extract lost, on average, significantly more bodyfat than those taking a placebo (5.07 vs. 1.10 lbs.) (more than 400%)
Years of research reveals two neurohormones that play a key role in weight loss/gain: Leptin and NPY.

If you can control them, you can get that lean, sexy body you’ve always wanted.

**Leptin** - is the good guy. It tells your body to stop eating. More importantly, leptin tells your body to use fat stores for energy (i.e. burn fat).

**NPY** - is the bad guy. It makes you hungry. It makes you desire sweet, starchy foods. Even worse, it tells your body to store calories as fat, making weight loss much more difficult.

Green Coffee Bean – Coffee Beans before being roasted to make coffee contain a natural compound called Chlorogenic Acid, which is destroyed in the roasting process. This compound combined with caffeine has been proven to help users lose weight faster and more effectively.

It promotes the liver to start burning fat and tells your metabolism to speed up. It doesn’t allow as much fat to be absorbed and it releases more glucose into your blood stream.

The two combined make a powerful weight loss supplement that has benefited many users.
Chromax® – A double-blind, placebo-controlled study found that Chromax effectively helped reduce food intake in overweight women by as much as 365 calories. It also reducing cravings and hunger between meals.

High levels of insulin resistance diminish the body’s ability to maintain a normal metabolism, which leads to weight gain. Research suggests Chromium helps you lose weight by enhancing insulin sensitivity, reducing carb cravings and enhancing carb metabolism.

DiCaffeine Malate – Caffeine is a psychoactive stimulant that has numerous benefits. In regards to weight loss, it increases your metabolism and suppresses appetite. Additionally, it increases energy, focus and endurance. In once clinical trial at the University of Copenhagen, the average subject boosted energy metabolism by 6%. Caffeine is bonded with malic acid to make DiCaffeine Malate.

Phenylethylamine (PEA) – PEA is a stimulant that amplifies the activity of neurotransmitters. Research suggests is increases dopamine (for enhanced mood), norepinephrine (for wakefulness), and acetylcholine (for mental acuity). It's responsible for what chocoholics call the “Chocolate High.” Anecdotal evidence suggests it stimulates fat burning and appetite reduction.
I was looking for a fat burner that had the ability to cut down my body fat quickly. I found Fenphedra and was blown away at the results! Preparing for competition, I knew I needed serious help. With Fenphedra, I was able to get down to the weight I needed and cut down my body fat percentage in HALF!

Brooke Burke
March 06

"I tried Fenphedra... It Worked!"

In high school my self esteem was bad. I felt bad all the time. After diet and exercise didn't work as I'd hoped, I tried Fenphedra. It worked. Coupled with my diet and exercise plan, I got healthy, and I got in shape! I'm so happy!

Stef Jameson

"...I lost over 50 lbs and have been able to maintain my weight for over 2 years..."

I have always had a problem trying to keep off the pounds until I found Fenphedra. I lost over 50 lbs and have been able to maintain my weight for over 2 years now and all by

*Results in Testimonials are atypical and individual results may vary. All testimonials achieved results with a healthy diet and regular exercise.
controlling my appetite with Fenphedra. It is the only weight loss solution that has ever worked for me and I will continue to use it as a dietary supplement. Thanks Fenphedra!!!!

Kevin Payne
August 12

"The weight started falling off and I began to feel so much better..."

I have Fibromyalgia and needed to lose weight quickly to keep as much weight off my joints as possible. I can't do much exercise due to the pain so I started using fenphedra. After 3 months, the weight started falling off and I began to feel so much better and was able to be more active and live better. I lost 60 pounds in 7 months and went from a size 8 to a size 2 and have never felt better.

Fibretrim™ easily reduces your hunger and reduces your daily calorie intake...
And We Can PROVE It!

As you read every word of this page, you will realise that at last, you have found the complete solution to your weight loss goals. No more guess work, no more frustration. And certainly no more wasting money.

- ★ 200 fewer calories consumed at lunch
- ★ Significant reduction in pre-lunch hunger and ‘desire to eat’
- ★ 50% reduction in consumption of high fat sweet items
- ★ Slim your waist (after 28 days a group of 56 volunteers were significantly slimmer)

(As demonstrated in our clinical study - Published 34th Feeding & Drinking Meeting Group, March 2012. Dr Halford, Liverpool University).

Based on our successful Zotrim formula, Fibretrim is a convenient weight loss drink mix that can really help you in your dieting efforts (with real proof that it works).

Fibretrim WORKS and we really can PROVE IT.

Pills, patches, potions, diet plans, calorie counters and exercise regimes, there are so many weight loss products out there now and the amazing thing is . . . they are all ‘guaranteed’ to work!

There are so many ruthless product manufacturers making the most ridiculous claims for their wonder products . . . “Lose 20 pounds this week!”

Come on . . . have these people no shame? Who do they think they are trying to fool?

With Fibretrim there is no hype, no miracles, just real results to help you get the body you deserve and . . .

- ★ To feel comfortable in your own skin and love who you see in the mirror.
- ★ To wear the clothes you WANT to wear, instead of the clothes you HAVE to wear.
- ★ To enjoy sports, swimming and holidays on the beach without feeling self conscious.
- ★ To look forward to bumping into old friends and hear the “Wow . . . you look incredible!” compliments.
- ★ To feel energetic, youthful and full of life.
It's not too much too ask for is it?

Of course not. But how can you avoid the frustration and expense of the worthless products?

Luckily that's easy... **DEMAND PROOF**

Proof that the individual ingredients work, but most important of all... proof that the actual product formula itself works, on real people.

And this is where most manufacturers fall flat on their face. They have borrowed the proof for the ingredients, **but they have no way to prove THEIR product is effective.**

But you'll be relieved to hear...

**Fibretrim™ Is Based On Zotrim®... Which Has Been Optimised During Twenty Years of Research and Development**

How many other weight loss products can you say that about?

Although Fibretrim is our newer product, we have been helping people just like you to lose weight easily and effectively with Zotrim for the last 10 years... and we can prove it.

- Helps curb your appetite.
- Helps you to snack less: Before taking Zotrim 65% of a group of 73 healthcare workers agreed with the statement ‘I often feel hungry and end up snacking too much between meals’. When taking Zotrim less than 20% of the group agreed with the statement.
- And slim your waist.

**IMPORTANT:** In the successful Zotrim trials carried out above, the participants were not given any special guidance on what to eat or how much to eat or on exercise. And the results are NOT DUE to the PLACEBO effect. We negated this by doing a control test.

Based On The Ultra Successful Zotrim® - Fibretrim™ Is A Brand New Convenient Weight Loss Drink Mix

We've now made **your weight loss goals even easier to achieve...** with the development of Fibretrim.

A **convenient weight loss drink mix** which is actually made from the same proven, natural and effective ingredients as the Zotrim tablets... but with added Inulin (a natural dietary fibre).

See 'Experimental study to investigate the impact of a patented herb extract formulation Yerba Mate, Guarana and Damiana (YGD; Zotrim) and an inulin based soluble fibre product (Fibresure) on food intake and appetite ratings on women' Dr Halford et al, University of Liverpool, March 2010.
a combination of:

- The Zotrim formulation, containing extract of the plants Yerbe Maté, Guarana and Damiana and which has resulted in each weight loss study we have carried out (see clinical studies page).
- Inulin oligofructose, extracted from chicory, which has been shown to enhance the feeling of satiety.

In the study, led by Dr Jason Halford of University of Liverpool, 58 young women took the Fibretrim formulation or a placebo control before a set breakfast and again before a buffet style lunch. **Their food intake was carefully monitored.**

When taking the Fibretrim formulation they ate less at lunch and, using well validated hunger assessment, they felt significantly less hungry.

**The Fibretrim ingredients resulted in:**

- 200 fewer calories consumed at lunch
- Significant reduction in pre-lunch hunger and ‘desire to eat’
- 50% reduction in consumption of high fat sweet items

The results of this study are obviously very exciting and have been presented at the International Congress on Obesity in Stockholm. British Study conducted by Liverpool university.

**Fibretrim™ Makes You Feel Fuller, Less Hungry and Therefore You'll Want to Eat Less (On Average 200 Calories LESS!)**

And THAT is a **great recipe for weight loss.**

So let's have a closer look at the ingredients shall we?

**Inulin**

Inulin is a form of dietary fibre composed mainly of the sugar fructose and is extracted from chicory roots.

Because it reaches your large intestine almost unchanged, inulin actually works as fertilizer for the bacteria in your colon.

**Your intestine becomes a friendly bacteria mega farm.** Churning out the perfect bacteria your digestive system needs, to ensure it works with the effortless efficiency of a swiss watch.

**Inulin in weight management and in satiety**

The benefits of inulin in weight management and in increasing satiety **(the feeling of fullness) are well established.**

_Parnell and Reimer (2009)_ studied 48 subjects that received either inulin (21 grams daily) or a placebo. Those taking inulin **lost weight over 12 weeks** whereas those taking placebo gained weight.

It was shown that blood levels of ghrelin (which stimulates eating) were suppressed by inulin whereas levels of the hormone PPY (which inhibits eating) were increased.

In a study with 10 subjects who took either inulin (8 grams) or a placebo after breakfast and lunch, when taking inulin there was increase in satiety, reduction in hunger and a reduction in overall calorie intake.

Read enough? Order Fibretrim today - 100% secure ordering.
The benefits of increased soluble dietary fibres in the diet

**Inulin is a soluble dietary fibre.** The benefits of dietary fibre are very well publicised and we are encouraged to eat more high fibre food to reach the 25 grams per day recommended intake. Few of us however, reach this target figure and the fibre in Fibretrim can significantly help us towards this target.

**The benefits include:**

**Gastrointestinal health**
Dietary fibre helps the transit of food as it is digested in the intestine, it increases the bulk and softness of stools and helps keep us regular and prevent constipation. 15g of inulin per day (three Fibretrim servings) has been shown to have a beneficial effect on bowel movements.

*(Den Hond, E., Geypens, B., Ghoos, Y, Nutr Res 20, 731 -736, 2000)*

**Sugar absorption**
Soluble dietary fibre can slow the absorption of sugar from food and lower the blood sugar ‘spike’ that occurs after a meal and may thus be beneficial in preventing and managing metabolic syndrome and diabetes.

**Inulin, calcium absorption and bone health**
A good supply of calcium from the diet is essential to maintain strong bones and to prevent osteoporosis. Inulin has been shown to substantially improve the absorption of calcium. Intake of 8 grams of inulin per day (as in two Fibretrim doses) was shown to increase calcium absorption in adolescents by 20% and to increase bone mineral density.

**Inulin as a prebiotic**
Maintaining a good population of friendly, probiotic bacteria in our intestines is important in stimulating the absorption of nutrients and in fighting off disease-causing bacteria. Lactobacilli and bifidobacterium are particularly important probiotics.

**Inulin has been shown to stimulate their growth** and help to maintain a high intestinal population. Rao (2001) demonstrated that 5g per day of inulin/oligofrucose (as in one serving of Fibretrim) over 11 days leads to a significant increase in bifidobacteria.

*(Rao, V., Nutr. Res. 21, 843-848, 2001)*

---

**Yerba Maté extract**

In South America, particularly in Argentina, Yerba Maté leaves are used to make a stimulating tea-like beverage.

Recent research has shown that Yerba Maté extract has potent antiobesity activity in studies with mice. Overweight mice fed on a high fat diet were shown to lose weight when given Yerba Maté extract. They showed a decrease in body fat and their serum cholesterol levels returned to normal.

The extract also showed that the expression of genes associated with obesity was modulated to more normal levels. *(Arcari et al; Obesity, 10, 1038, 2009)*

Yerba Maté extracts have been shown to contain high levels of antioxidants similar to green tea and have been shown to protect against oxidative damage in mice.

**Guarana extract**

*Used for centuries* by the South American Indians, especially in
Brazil, the seeds of this plant have stimulating effects. It contains significant levels of caffeine and related compounds.

An animal study looked at the effects of 14 days of Guarana supplementation on fat metabolism in sedentary and trained rats and showed that Guarana's fat-burning effect is due to the caffeine content.

Guarana extract has been shown to improve memory and increase alertness and 'content mood' ratings (Haskell et al, 2007).

(Haskell et al, J Pharmacopharmacology, 21, 65-70, 2007)

Damiana extract

The Damiana plant is found throughout Central and South America. Its leaves have a wide range of uses as a herb and it is used as a food flavouring.

It has stimulant effects and has a long standing use as an aphrodisiac for both men and women originating in South American Mayan culture.

It works and you WILL lose weight.

Fibretrim Is Just SO Easy To Implement Into Your Routine.

One sachet a day in the morning 10-15 minutes before breakfast is enough to help conquer your appetite and see real weight loss! Want to speed up your weight loss? Add another sachet later in the day or combine Fibretrim with Zotrim to boost the effects.

It really couldn’t be any easier. Trust a real, media attention grabbing study from Liverpool University (Britain) and order your weight management aid - Fibretrim today.

This is the only weight loss solution you need to melt your unwanted pounds away!

Now we're sure you can see the power of Fibretrim, it’s ALL you need to quickly and easily reach your weight loss goals.

It's a great feeling when you finally find "It", as you have done today. No more battling with your weight. No more endless daydreams of what you'll do when you get the body you've longed for.

Now you'll be living the dreams. Day after day.

- Soaking up the compliments with a big smile on your face.
- Shopping for clothes you look and feel great in. The latest fashions, sexy underwear, tight fitting outfits, pin sharp business suits . . . they'll ALL look amazing on you.
- Watching your self esteem and confidence growing daily. If you've finally beaten your body image gremlins . . . what else can you achieve?
- Feeling healthy, vibrant and full of energy . . . every day. Ready to make the most of life.

Fibretrim will help you finally reach you weight loss goals and it couldn’t be easier to use.

Reach your weight loss goals, look great and feel great by ordering an effective weight loss solution RIGHT NOW!

- Significant reduction in pre-lunch hunger. Less hungry, less food eaten.
- 50% reduction in consumption of high fat sweet items. Sweet tooth? Fibretrim will help to keep it in check.
- Includes the proven Zotrim formula. Proven to work over 20 years.
- High in Fibre (20% of RDA).
• ★★ Packs your digestive system full of Prebiotics (Friendly bacteria!)
• ★★★ A good source of Vitamin C (25% RDA).
• ★★★ Contains antioxidants which mop up free-radicals, an excess of which can wreak havoc on our cellular structures.
• ★★★ Helps your body to absorb calcium. Research suggests that if you don’t get enough calcium in your diet, you’re likely to be overweight.

Questions about Fibretrim? Contact us right now!

Is The Proven Fibretrim™ Cheap To Buy?

Remember, as with any purchase, you get exactly what you pay for. Fibretrim has been developed after the huge success of Zotrim which has 20 years of research, development behind it and is protected by European patent. (Patents are pending on Fibretrim)

You are not buying 'maybe's'... you are buying definite weight loss. In other words, don’t think of this as a purchase because in reality it’s an investment.

Many other weight loss products have no proof backing them up. No data. No trials. The results of our study were presented at the International Congress on Obesity in Stockholm in 2010. How many other weight loss aids can you say THAT about?

If you want to risk your money and effectively become yet another of their disappointed test subjects go ahead.

We’ll see you back here when you’ve been disappointed yet again.

If on the other hand you are ready to lose weight, gain confidence and soak up the endless compliments . . . There is NOT a product like Fibretrim - weight loss can be yours, order today.

order today

P.S. In days from now you can start experiencing real weight loss results. Don’t put it off . . . order right now to avoid disappointment.

P.P.S. Don’t forget your investment is completely risk free thanks to our 30 day feel fuller, less hungry, eat less guarantee . . . or we’ll give you your money back.
How Does Fibretrim™ Work and How Do You Use It?

Fibretrim is our newest product and is based on the ultra successful Zotrim, which has been exhaustively researched over 20 years to ensure its effectiveness.

It's the research and testing that make our products so effective. We don't just put together a bunch of ingredients that we THINK will help you lose weight. What we do is exhaustively research our formulations until we KNOW they work.

A drinkable version of Zotrim but with added Inulin, Fibretrim is an amazingly simple way to lose weight. Just one drink before breakfast and you'll soon start seeing the benefits. If you want to boost your results, you can simply take another drink later in the day or supplement your daily Fibretrim with Zotrim tablets.

You can take your drink before breakfast while you are at home. Then if you are busy running around during the day or at work, you can pop your Zotrim tablets in your pocket and take them with a glass of water.

It's just so convenient and stress free . . . you'll find it easy to stick to the plan and enjoy the benefits of real weight loss:

- ★ To finally be able to wear the stylish and fashionable clothes that you love, instead of the clothes you hate wearing.
- ★ Feeling comfortable with your body and loving the sexy, slim and healthy looking you.
- ★ Enjoying being active. Sports, swimming and holidays on the beach will all feel incredible.
- ★ Soaking up the compliments from friends and family.

Remember, our highly rated Fibretrim weight loss aid is NOT put together by marketers. Over many years the health professional advisory board put together by Zotrim and Fibretrim have created our wonderful and PROVEN product.

10 Million Customers and Counting - UK, USA, Worldwide!

Zotrim has proven incredibly popular with over 10 million customers so far and that’s simply because it’s proven to work. Literally millions of people just like you are seeing real results and are reaching their weight loss goals.

Weight loss doesn't have to be complicated or difficult.

If you can successfully cut down on your calories, you'll start seeing the weight fall off. But the problem is always the same . . . hunger!

And that's where Fibretrim helps the most.
Remember that Fibretrim uses the Zotrim formula, which has been proven to reduce hunger and therefore make it much easier to cut down on calorie intake and give you prebiotic health benefits.

But we've added Inulin to the Fibretrim formula and . . .

Inulin makes Fibretrim™ even more effective at curbing your appetite. . .

In the study led by Dr Jason Halford of University of Liverpool, 58 young women took the Fibretrim formulation or a placebo control before a set breakfast and again before a buffet style lunch. Their food intake was carefully monitored.

When taking the Fibretrim formulation they ate less at lunch and, using well validated hunger assessment, they felt significantly less hungry.

The Fibretrim ingredients resulted in:
- 200 fewer calories consumed at lunch
- Significant reduction in pre-lunch hunger and 'desire to eat'
- 50% reduction in consumption of high fat sweet items

With results like this, PROVEN results - you can understand why many men and women are using Fibretrim to lose weight quickly - order your Fibretrim today.

The Fibretrim™ and Zotrim® Formula Has Been Optimised and Tested During Twenty Years of Research and Development!

This formula has been proven over years of use. It's not something we hurried together, it's been refined and tested over 20 years.

Some of the findings from our studies have been amazing:

- ★ Before taking Zotrim 65% of a group of 73 healthcare workers agreed with the statement ‘I often feel hungry and end up snacking too much between meals’. When taking Zotrim less that 20% of the group agreed with the statement.

- ★ After 28 days taking Zotrim a group of 56 volunteers had slimmer waists after 4 weeks.

IMPORTANT: In all the successful Zotrim weight loss trials, the participants were not given any special guidance on what to eat or how much to eat or on exercise. And the results are NOT DUE to the PLACEBO effect. We negated this by doing a control test.

It's The Ingredients In The Fibretrim™ and Zotrim® Formulas That Make Them So Effective (PROVEN TO WORK)

For centuries Yerba Maté, Guarana and Damiana have been used by tribes to help stimulate their energy levels, yet we were the first to combine these extracts together to form Zotrim, and you can now benefit from that same formula in Fibretrim.

So we've explained why the Inulin in Fibretrim is so important and so powerful, but let's have a look at the other ingredients.

Yerba Maté extract

★ When drunk as a beverage, Yerba Maté leaves may help alleviate fatigue, reduce hunger and
boost metabolism. This is due to the 250 known natural compounds including caffeine, theophylline and theobromine.

- These also help make Yerba Maté an ideal fat fighter, as they may also stimulate the central nervous system and have a diuretic effect which causes the body to shed water.

- Yerba Maté performs thermogenesis and increased diuresis to enhance your ability to reduce weight and keep it off.

- It can help to reduce overall body water weight by suppressing your appetite, increasing the rate you burn calories and increasing urination.

Guarana extract

- The seeds of this plant have a stimulating effect and contain significant levels of caffeine and related compounds.

- A 14 day animal study of Guarana supplementation on fat metabolism in sedentary and trained rats, showed that Guarana’s fat-burning effect is due to the caffeine content.

- The caffeine in Guarana causes your fat cells to release fat into the bloodstream for fuel, through a process called lipolysis.

- Guarana extract has been shown to improve memory and increase alertness and 'content mood' ratings.

Damiana extract

Damiana contains

- Cineole which has anti fatigue activity.

- Alpha-pinene which has anti-inflammatory, sedative and tranquilizing properties.

- Arbutin which acts as a diuretic.

- Thymol, which has muscle-relaxing, antioxidant and anti-inflammatory properties.

The Damiana plant is found throughout Central and South America. Its leaves have a wide range of uses as a herb and it is used as a food flavouring.

So as you can see, Fibretrim™ is your powerful weight loss solution

Don’t forget our formula is proven to work, so the faster you order the faster you’ll start seeing results.

Just click here right now to place your order and see how easy weight loss can really be with the amazingly effective Fibretrim.
Fibretrim™ Makes Losing Weight SO Much Easier Because It Helps Keep Your Hunger Under Control

One of the main problems with dieting and one of the main reasons people fail with dieting is hunger pangs. If you can find a way to keep your hunger under control, you are so much more likely to be successful with your diet.

Fibretrim will help you feel fuller, for longer. You simply won’t want to eat as much, so as your calorie intake drops off, so will your weight.

Fibretrim contains the well-proven Zotrim formulation and includes added Inulin, which you can read about below. Zotrim has been optimised and tested over the last 20 years, including exhaustive research and development.

There are many weight loss supplements available but very few are tested and proven. What you’ll find is that some of the ingredients will have research to back them up, but that doesn’t mean they will work when mixed with other nutrients.

The form which the nutrient is in is also very important. Different forms of a nutrient have varying levels of effectiveness.

Sometimes the root of a plant or herb may be the most powerful, sometimes it will be the leaves and other times you’ll need the whole plant.

Then of course, there’s the amount of the nutrient or herb. Unless the right amount is used, it’s just not going to have the desired affect.

The Fibretrim™ formula is proven, yet it's still incredible value for money!

Effectiveness really does depend on the type and quality of the individual ingredients. But despite this, many manufacturers use the cheapest type and small doses.

Why? Well simply because they can make their product as cheaply as possible. Problem is, they rarely set their prices to reflect the poor quality.

So what is it that makes Fibretrim so effective? Well it's the fact that it uses the Zotrim formula with the addition of Inulin.
Inulin helps you to feel fuller.

The fact that inulin makes you feel fuller, is well established.

Parnell and Reimer (2009) studied 48 subjects that received either inulin (21 grams daily) or a placebo. Those taking inulin lost weight over 12 weeks whereas those taking placebo gained weight.

It was shown that blood levels of ghrelin (which stimulates eating) were suppressed by inulin whereas levels of the hormone PPY (which inhibits eating) were increased.

In a study with 10 subjects who took either inulin (8 grams) or a placebo after breakfast and lunch, when taking inulin there was increase in satiety, reduction in hunger and a reduction in overall calorie intake. (Cani et al, 2006)

Remember that hunger is one of the main enemies of weight loss. If you spend your entire day in a state of hunger, is it any wonder that you end your diet before you see any results? Of course not.

Find a way to control your hunger however, and your chances of weight loss success go through the roof. Read about our study from Liverpool University, UK.

Inulin feeds your friendly bacteria.

Inulin has many benefits, one of which is the fact that it feeds your friendly bacteria (Probiotics). The fact that Inulin does this, means it’s classed as a Prebiotic.

Because it reaches your large intestine almost unchanged, inulin actually works as fertilizer for the bacteria in your colon.

Did you know you actually have more bacteria and other microorganisms living in your digestive tract than you have cells in your whole body? Approximately 100 trillion, which weigh between three to five pounds in the average adult.

And the friendly bacteria in your gut are REALLY busy:

- 🌟 They help you to digest the food you eat.
- 🌟 They help to protect you against harmful microorganisms, including bacteria that causes food poisoning by producing natural antibiotics, acids and hydrogen peroxide.
- 🌟 They strengthen your immune system and capacity to deal with toxins, allergens, harmful microorganisms by stimulating the production of antibodies in your blood.
- 🌟 They produce nutrients like Vitamin B12 and Vitamin K, that are essential to your health.

Lactobacilli and bifidobacterium are particularly important probiotics. Inulin has been shown to stimulate their growth and help to maintain a high intestinal population. Rao (2001) demonstrated that 5g per day of inulin/oligofrucose (as in one serving of Fibretrim) over 11 days leads to a significant increase in bifidobacteria.

(Rao, V., Nutr. Res. 21, 843-848, 2001)

So it makes sense then, to ensure your friendly bacteria are abundant and well fertilised, right? And that’s just one of the benefits of Inulin.

The fibre in Inulin will benefit you in several ways and here is how!

Inulin is a soluble dietary fibre. We are encouraged to eat more high fibre foods as the benefits are very well publicised. The recommended intake is 25 grams per day, but very few people actually reach this level.
But Fibretrim can significantly help you to reach this target.

The benefits of extra fibre include:

**Dietary fibre prevents constipation** by increasing the bulk and softness of stools. And 15g of inulin per day (three Fibretrim servings) has been shown to have a beneficial effect on bowel movements (*Den Hond et al, 2000. Den Hond, E., Geypens, B., Ghoos, Y, Nutr Res 20, 731 - 736, 2000*).

**Slows the absorption of Sugar**

The blood sugar ‘spike’ that occurs after a meal can be prevented by soluble dietary fibre. It can slow the adsorption of sugar from food and **may help to prevent metabolic syndrome and diabetes.**

Inulin can **aid calcium absorption and therefore bone health.**

**If you want to maintain strong bones** and to prevent osteoporosis, you need a good supply of calcium and Inulin has been shown to substantially improve the absorption of calcium.

An intake of **8 grams of inulin per day** (as in two Fibretrim doses) was shown to increase bone mineral density and increase calcium adsorption in adolescents by 20%.

**Yerba Maté extract**

This traditional plant from South America **may just be the next big diet breakthrough.** Yerba Maté is a tree cultivated in Brazil, Paraguay and northern Argentina, where it’s been used for centuries as a traditional tonic and stimulating drink.

Yerba Maté leaves are used to produce a hot or cold beverage which is drunk to alleviate fatigue. Information on our **unique ingredients** can be found here.

*Ilex Paraguariensis* (Yerba Maté) extracts are potent inhibitors of nitrosative stress: **A comparative study with green tea and wines using a protein nitration model and mammalian cell cytotoxicity.**

“...we decided to conduct a comparative study of three commonly used beverages with the highest polyphenol contents and proven antioxidant properties: mate (*Ilex paraguariensis*); green tea (*Camelia sinensis*) extracts and white and red wines of the main varietals.”

“Taken together, our results indicate that when the herbal preparations studied here are prepared the way they are usually drunk, Mate displays the highest inhibition of protein nitration, and the highest promotion of cell survival, whereas green tea or red wines display significant but lesser effects at the same concentrations.”

**Guarana extract**

Used for centuries by the South American Indians, especially in Brazil, **the seeds of this plant have stimulating effects.** It contains significant levels of caffeine and related compounds.

Caffeine **causes additional fat burning through a process called lipolysis,** which basically means that fat cells are encouraged to release fat into the bloodstream for fuel.

An animal study looked at the effects of 14 days of guarana supplementation on fat metabolism in sedentary and trained rats and **showed that guarana’s fat-burning effect is due to the caffeine content.**

Guarana extract has been shown to improve memory and increase alertness and ‘content mood’ ratings.

(*Haskell et al, J Pharmacopharmacology, 21, 65-70, 2007*)

**Damiana extract**

The Damiana plant is found throughout Central and South America. Its leaves **have a wide range of uses** as a herb and it is used as a food flavouring.

It also has stimulant effects and has a long standing use as an aphrodisiac for both men and women originating in South American Mayan culture.
Vitamin C

Each serving of Fibretrim contains 25% of the recommended daily intake of Vitamin C which has excellent health benefits.

Fibretrim™ Makes It So Easy For You To Lose Weight

Based On The Well Proven Zotrim Formula, Fibretrim uses all these amazing, powerful yet natural ingredients.

They're proven to help you lose weight individually, but in combination, this really is a knockout formula.

Zotrim has been proven to work and we have been developing and refining it for more than 20 years. And with the addition of Inulin to this already powerful formula, the results are outstanding.

- The Zotrim formulation, containing extract of the plants Yerbe Maté, Guarana and Damiana, which resulted in weight loss in all of our studies (see clinical studies page).
- Inulin oligofructose, extracted from chicory, which has been shown to enhance the feeling of satiety.

Be Careful When Buying Weight Loss Formulas Online

Fibretrim follows the huge success of Zotrim, a product with 20 years of research, development and proof behind it and is protected by European patent. (Patents are pending on Fibretrim)

Many other weight loss products have no proof backing them up. Don't risk your hard earned cash!

If you're ready to lose weight the proven, painless and effective way, just click here to order.
Another great benefit of Fibretrim is that it contains high levels of antioxidants. In fact it contains about the same levels as in Green Tea, and you have seen the popularity of that at the moment.

This surge in popularity has been fuelled by the fact that Green Tea is a great source of antioxidants. Weight loss, prebiotic effects and you can also cut your calories by 27%.

Similar Levels Of Antioxidants As The Very Popular Green Tea!

Oxidation is the process of your body absorbing oxygen and turning it into energy. This process releases what are known as free radicals. A little like the pollution caused by your car when you drive it.

Free radicals are everywhere. They’re in the air we breathe, the food we eat, even sunlight creates them in our body. Usually they are mopped up by antioxidants before they can do much damage, but as we age however, the process becomes less efficient.

Left unchecked, free radicals can travel around our body damaging our cells and DNA. They cause premature aging, heart disease, strokes, macular degeneration, diabetes and even cancer.

Free radicals even cause wrinkles and skin thinning so they can play havoc with how fast you’re aging. Antioxidants slow down aging and damage to your body by neutralizing these free radicals.

In fact a recent study conducted by researchers from London found that 5 servings of fruits and vegetables reduce the risk of stroke by 25 percent. And fruit and veg are packed with antioxidants. You need antioxidants in your diet but would you also like some prebiotic health benefits? Now you can.

Have You Heard Of The French Paradox?

Maybe you’ve heard of something called the French Paradox....
Basically, it refers to the fact that the **French have a diet full of fattening foods like cheese**, white flour based foods, sugar, foie gras and not forgetting a large helping of artery clogging nicotine.

So you would presume they have a high incidence of heart disease, caused by there clogged arteries wouldn't you?

The truth is surprising though. In fact it's the exact opposite to what you would think. The French actually have a very low rate of heart disease.

And this strange phenomenon is known as the French Paradox.

So how come the French get all the luck?

Scientists have pinpointed two types of antioxidants called **resveratrol and anthocyanins**, large amounts of which are found in certain red wines. Yerba Maté contains polyphenols similar to those found in green tea.

So they believe it's the fact that the French traditionally **consume a lot of wine and this is providing an antioxidant protective effect to their arteries.**

**Yerba Maté**

Yerba Maté has excellent antioxidant properties:

*Ilex Paraguariensis* (Yerba Maté) extracts are potent inhibitors of nitrosative stress: A comparative study with green tea and wines using a protein nitration model and mammalian cell cytotoxicity.

"...we decided to conduct a comparative study of three commonly used beverages with the highest polyphenol contents and proven antioxidant properties: Maté (*Ilex paraguariensis*); green tea (*Camelia sinensis*) extracts and white and red wines of the main varietals."

"Taken together, our results indicate that when the herbal preparations studied here are prepared the way they are usually drunk, Maté displays the highest inhibition of protein nitration, and the highest promotion of cell survival, whereas green tea or red wines display significant but lesser effects at the same concentrations."

**Guarana**

A toxicology study with animals in 1998, showed that Guarana is nontoxic at even high dosages of up to 2 grams per kilogram of body weight.

The study also demonstrated Guarana’s antioxidant properties saying, "Guarana showed an antioxidant effect because, even at low concentrations (1.2 microg/ml), it inhibited the process of lipid peroxidation."

The researchers first quantified the **antioxidants present in different types of Guarana extracts.**

They found the following phytochemicals: caffeine, catechin, epicatechin, ent-epicatechin and different procyanidins.

The antioxidant capacity was determined with the diphenylpicrylhydrazyl (DPPH) reduction test.

The following Guarana extracts were tested: water extract, crude extract (with acetone-water) and semi-purified extract. **All extracts showed antioxidant activity.**

In vitro-tests with Streptococcus mutans showed that the guarana extracts could be used to prevent bacterial dental plaque.

So not only will you **finally lose weight quickly and easily**, you'll be helping to look after your arteries too! WOW. You must be impressed. It is **clear that our unique formulation of Zotrim and Inulin can help you reach your weight loss goals.**

Cut Your Calories And Lose Weight The Easy Way - Proven

Weight loss is all about calories. Calorie consumption, calorie counting, calorie restriction. If you want to lose weight, you have to either:

- Reduce the amount of calories you are consuming
- Increase the amount of calories you are burning

Of course, you can do both and that would lead to much faster weight loss.

But you don’t really want to spend your day calorie counting, do you? It would be much simpler if you could find a convenient way to help you eat less, every day.

If it was something you could quickly and easily incorporate into your daily routine, you would virtually be guaranteeing your success, right?

Well that’s exactly the principle behind Fibretrim. Just drink one serving before breakfast and if you really want to boost your weight loss, take another serving before lunch or later in the day.

This is all the participants in our study did . . . and they consumed less calories at lunch, felt significantly less hungry and cut down on their high fat sweet foods!

Simply put, if you want to lose weight then Fibretrim is for you.

The British Study (Liverpool University) Results Are Available...

In a study led by Dr Jason Halford of University of Liverpool, 58 young women took the Fibretrim formulation or a placebo control before a set breakfast and again before lunch. Their food intake was carefully monitored.

When taking the Fibretrim formulation they ate less at lunch and, using well validated hunger assessment, they felt significantly less hungry.

The Fibretrim ingredients resulted in:

- 200 fewer calories consumed at lunch
- Significant reduction in pre-lunch hunger and ‘desire to eat’
- 50% reduction in consumption of high fat sweet items

With a significant reduction in pre-lunch hunger AND a reduction in eating fat/sweet foods, you will be making a big difference, on a daily basis, to your calorie consumption.
You'll obviously be reducing the amount of calories you are consuming. The results were THAT GOOD that they were also featured at the Obesity conference in Stockholm in 2010.

Aim to lose around 1-2 pounds per week

Remember too that the medical profession as a whole suggests you should aim to lose around 1-2 pounds per week, as it’s not healthy to lose weight any faster.

If you try and lose more than that, you are more likely to suffer hunger pangs and feel tired and sluggish as your body fights to stay as it is. But regular losses of around 1-2 pounds per week will soon add up and with the help of Fibretrim, much easier to stick to.

Just imagine how you’ll feel as week after week you see yourself in the mirror, getting slimmer. No more self consciousness, or hating having your photo taken. Read about the prebiotic benefits of Fibretrim too!

Your clothes will start to feel baggy, your belt will need new holes as it gets looser and family and friends will start commenting on your rapidly changing look.

It feels great and you'll long for more. In fact it's when this starts happening that you'll feel extra motivated.

You can also easily speed the weight loss up by not only reducing your calories, but by burning more calories. And it’s really easy to increase the amount of calories you burn too.

Simply add some exercise to your daily routine. Use the stairs instead of the lift, walk the short journeys you would usually do in your car.

You don't have to run a daily marathon or spend 8 hours a day in the gym. It's the small changes that add up quickly. Remember that it's about burning more calories and small changes every day that really count.

Our Unique Formula Is Proven To Help You Lose Weight Quickly

Remember that Fibretrim is based on the Zotrim formula but with the addition of Inulin And Zotrim has been proven to be a cut above the rest.

Made from a unique formulation of 3 natural plant extracts, Yerba Mate, Guarana and Damiana (YGD) – Zotrim is the only non-medical proven weight loss product on the market to be confirmed as a “weight loss aid with sound scientific proof.”

Since its launch in 2001, Zotrim has successfully undergone 9 clinical studies and has made appearances:

- ★ At the 15th European Congress on Obesity,
- ★ In the British Food Journal
- ★ And in the Journal of Human Nutrition and Dietetics.
- ★ Obesity Conference 2010 in Stockholm

We want you to feel confident in the true, proven benefits of our supplement and we feel our studies can offer you that reassurance.

You can waste your money, time and effort on other weight loss products, or you can order Fibretrim, which is based on the exact same formula as Zotrim, which was quoted as:

Cost effective, 100% natural and the only natural diet pill to provide clinical evidence of weight loss on BBC2’s Professor Regan’s Diet Clinic (16th April 2009).

When compared to other products on the market Professor Regan stated that Zotrim is the more superior dietary supplement as many of its competitors do not provide sound evidence of actual weight loss.

In Professor Regan’s BBC2 programme, she stated that Zotrim’s research showed "a clear link to
weight loss" and the "difference in weight loss between the group taking Zotrim and the group taking the placebo was significantly different."

Fibretrim uses the same powerful, proven formula but has added Inulin, which has many benefits on its own. You can read more about our ingredients.

Basically, it not only makes you feel fuller, but it also feeds the friendly bacteria in your digestive system, which have such a positive impact on your health. So Fibretrim is not JUST an effective weight loss solution. It has many benefits for your overall health too.

If you're serious about losing weight, choose a solution that you know will work. Get it right first time and remember, ordering is easy - click here to order Fibretrim TODAY.
Microscopic Bacteria . . .
Massive Benefits To Your Health

The unique thing about Fibretrim is that it won’t just help you lose weight quickly and easily, it also contains Inulin, which is a prebiotic. Prebiotics feed the good bacteria (Probiotics) in your digestive system and colon.

Good bacteria? Is there such a thing?

Yes there is . . . they are called Probiotics and they are incredibly important to your health. So to understand the wonder of the prebiotics, we need to know a little about probiotics.

If you are currently taking a weight loss aid and also a prebiotic or probiotic drink then you can STOP. You can get proven weight loss (Liverpool University Study) and prebiotic benefits in one product, Fibretrim.

New to the market but NOT a new formula. Use our proven formula to help you lose weight AND enjoy the prebiotic benefits too! Our unique combination of ingredients make this possible for you.

Probiotics are live microbial food ingredients that benefit your health!

Many probiotics come under a group of organisms known as lactic acid producing bacteria, which we usually eat in yogurt, fermented milks or other fermented foods.

When you are born your gastrointestinal tract is sterile and cannot digest food. But within hours, the bacteria ingested while being born quickly colonize your gut with 100 trillion bacteria, which weigh around three pounds, in fact more than there are cells in your body!

At the turn of the 20th century Noble Prize winning Russian scientist Elie Metchnikoff suggested that the long, healthy life of Bulgarian peasants resulted from their consumption of fermented milk products.

Metchnikoff believed that the fermenting Lactobacillus in the milk products, such as yogurt, positively influenced the microflora of the colon, which decreased toxic microbial activities.
Fibretrim is the only weight loss aid with prebiotic benefits.

**Help with lactose intolerance! Decrease your sensitivity to dairy products**

People who are lactose intolerant have reported that long term use of probiotics have actually decreased their sensitivity to dairy products. And people with chronic irritable bowel syndrome have reported a lessening of symptoms.

Probiotics also help your body to absorb the food you eat along with the nutrients from your food, like calcium and magnesium.

The term Prebiotics was coined in 1995, so they really are fairly new.

A prebiotic is a type of soluble fibre, used by the good bacteria in your digestive system as a fuel. Then the good bacteria produce substances that help to acidify your colon, which is very beneficial, and become an excellent source of nutrition for the good bacteria.

And prebiotics have a number of other benefits:

- They increase the growth of probiotics by acting as ‘fertilizer’ for them.
- Increased growth of bifidobacteria and lactobacillus, which are the protective colon bacteria.
- They improve bowel regularity and encourage softer stools.
- Help to enhance the immune system in the colon.
- Help to reduce allergies and asthma, particularly in children.
- Help with appetite control and weight reduction.
- Decreased growth of bad colon bacteria, including clostridium.
- Decreased offensive gas smell.

Your #1 aim is to lose weight, Fibretrim can help you with that BUT why not enjoy other health benefits too? Order your Fibretrim today and start losing weight quickly.

Fibretrim™ is two products in one... no need to buy your Inulin products separately.

As you can see, Inulin itself has many benefits and is an amazing addition to your diet on its own.

Just look around at all the Inulin based products on the market. Yes, you can actually buy products based just on Inulin! Here’s just a sample of the popular brands you’ll find:

- Now Foods Inulin Prebiotic
- Naturally Vitamins, Inuflora Prebiotic
- Spectrum Essentials Flax Fiber Prebiotic
- Jarrow Formulas - Inulin and FOS Prebiotic Soluble Fiber Powder
- Konsyl Balance Prebiotic Fiber
- pHion Prebiotic Fiber

These products vary from around £5 right up to around £15, but you don’t have to pay that or even buy this amazing nutrient separately.

With Fibretrim it’s included in the formula. And not only will you experience the benefits mentioned above, it also enhances the weight loss effects of the Zotrim formula.
weight loss AND extra colon and digestive health in one product for one incredible price. Click here to place your 100% secure order.

You'll be pleased to hear that the Zotrim® formula (included in Fibretrim™) has tons of proof to back it up!

"Zotrim is the only non-medical proven weight loss product on the market to be confirmed as a weight loss aid with sound scientific proof."

We are extremely proud of the success of Zotrim. It's because of that and the results of one of our studies that we decided to create Fibretrim.

We knew that the Zotrim formulation was proven to be effective and with 10 million customers, we also knew it was popular. But from the results of this study, we knew we could improve the formula.

So we created Fibretrim which is simply the proven Zotrim formula, with the addition of Inulin. Not only does the Inulin make the formula more powerful, it also has a multitude of health benefits on its own. Our formula is unique, you can read more about our ingredients here.

The Zotrim® formula has a massive amount of proof to back up its claims . . .

58 young women who were of normal weight or slightly overweight attended an eating clinic.

They were given either three Zotrim tablets or placebo tablets made of lactose fifteen minutes before a fixed calorie breakfast and again before an ad-libitum lunch consisting of twelve high and low fat savoury and sweet foods. Food intake (gram and calories) and food choice were carefully monitored.

Hunger and desire to eat were monitored by visual analogue scales.

"Robust results which help explain the weight loss results in previous research".

Investigator: Dr Halford
Published: 34th British Feeding and Drinking Group Meeting – 25th March 2010

Placebo-controlled study on weight loss

Conducted over a 45 day period, 47 overweight subjects aged between 20 and 60 were given Zotrim or a placebo to assess the effects Zotrim's formulation had on their weight loss.

Split into groups consisting of those on Zotrim and those taking a placebo capsule containing lactose, they were instructed to take their capsules 3 times a day before every meal.
**Effect on weight maintenance**

Designed to examine Zotrim's ability to help consumers maintain their weight loss, 22 of the 24 subjects who took Zotrim formula in the above study by Torben Andersen, were provided with a 12 month supply of Zotrim. Weighed monthly, they were instructed to take Zotrim if they started to put weight back on:

So no yoyo!!

**Consumer study on weight loss and eating behaviour**

Performed using 50 UK adults who wished to lose weight, they were provided with Zotrim tablets and were instructed to take 2 tablets, 3 times a day before every meal.

Over the course of a month, they had to complete questionnaires based on their progress for the time leading to day 7, 14 and 28.

- 50% reported to have eaten less than usual
- 66% reported to have snacked less between meals

**Gastric emptying rate study**

In order to assess the connection between stomach fullness and gastric emptying, 7 subjects - who had previously fasted prior to the study – were given Zotrim formulation on one occasion and placebo capsules of lactose on another occasion in a double blinded study.

Asked to drink 20ml of apple juice followed 15 minutes later by a further 400ml, their gastric volume was monitored through ultrasound measurement every 10 minutes until their stomachs had emptied.

- Zotrim: average gastric emptying 58 minutes
- Placebo: average gastric emptying 38 minutes

**Time to fullness study**

The time needed to achieve gastric fullness was investigated using 20 subjects who were asked to take 2 tablets of the Zotrim formulation or 2 of the lactose placebo capsules.

Instructed to take them 10-15 minutes before every main meal, whilst they ate they had to monitor the length of time it took for them to feel full. This figure was then compared to their other meals.

- Zotrim: Average combined time to gastric fullness over 3 meals: 35 minutes
- Placebo: Average combined time to gastric fullness over 3 meals: 61 minutes

**Effect of TV Viewing and Zotrim on snacking**

Identified as a key influencing factor behind our eating choices and weight management, the effect of TV viewing and Zotrim on subjects energy intake was explored with the help of 11 healthy adults.

Split into 2 groups, subjects were required to either take 2 Zotrim tablets or 2 placebo tablets in the morning as well as before lunch. Two hours after eating, subjects
were then exposed to a TV video or a blank screen were given the additional option of either reading/studying or having unlimited access to sugary foods.

Their total energy intake during lunch and snacking was then measured.

- Zotrim: energy intake dramatically reduced when watching TV
- Placebo: energy intakes was significantly higher when subjects watched TV than when they chose not to

Investigator: G Baker and AR Leeds, Department of Nutrition & Dietetics
Published: 3rd Health and Nutrition Conference, 2002

Weight Loss Study

During a customer intervention, 61 overweight women took Zotrim for a period of 4 weeks. From here their hunger and eating patterns were recorded, whilst their weight loss and waist measurements were also taken at the beginning of the study, during week 2 and lastly on week 4.

- Subjects consistently felt fuller for longer
- Changes witnessed through Zotrim over these 4 weeks compared favourably with long term weight management therapies

Investigator: C.H.S Ruxton, F Hinton and C.E.L Evans
Published: Nutrition and Food Science, 2005

Study with healthcare professionals

70 healthcare professionals were asked to take Zotrim for 6 weeks during an 'open label' study. In this time they experienced:

- Reported increased satiety after meals
- Reported decreased snacking and hunger between meals
- Reduction in average weight lost

Investigator: C.H.S Ruxton, I. Kirkwood, B. McMillan and C.E.L Evans
Published: British Food Journal, 2007

WOW. All these studies. A spectacular formula. You can see for yourself. The Zotrim formula works and when it is combined with inulin the results are AMAZING. This combination is called Fibretrim and it can be yours, simply click this link and place your order today.

What did the BBC say about Zotrim®?

"The only company which could show a clear link between weight loss and their product was a herbal diet pill, called Zotrim, which makes you feel full. Their research had been published in a reputable journal and conducted with a control group to compare any placebo effect." Professor Lesley Regan

Zotrim is the only non-medical proven weight loss product on the market to be confirmed as a "weight loss aid with sound scientific proof."

Cost effective, 100% natural and the only natural diet pill to provide evidence of weight loss on BBC2’s Professor Regan’s Diet Clinic (16th April 2009).

What did Professor Lesley Regan say about our competitors?

Professor Regan stated that Zotrim is the more superior dietary supplement when compared to other products on the market, many of which do not provide sound evidence of actual weight loss.

The Pink Patch said "no evidence of its effectiveness"
actually exists", while Formoline L112 said they couldn't provide a copy as their research hasn't ever been published.

Lipobind sent research results showing the tablets do bind with fat - but admitted they were yet to investigate whether the pills actually help people lose weight.

In Professor Regan's own assessment of Zotrim she stated that Zotrim's research showed a "clear link to weight loss" with the "difference in weight loss between the group taking Zotrim and the group taking the placebo was significantly different."

Without introducing any changes to their dietary habits or lifestyle, participants were effectively able to reduce their meal sizes, feel fuller faster and experience increases of satiety and energy levels.

No Guess Work . . .

With Our Panel Of Nutrition And Weight Loss Experts You're In Very Safe Hands

When it comes to nutritional products, both effectiveness and safety are obviously essential.

Although generally safe, even vitamins, minerals and herbs can have some side effects when used in the wrong way. Many companies will simply throw a collection of nutrients together, totally oblivious to their safety, or even worse, not caring about it.

We take your health and satisfaction very seriously

You've already seen that we test our product formulas thoroughly and it's reassuring to know that:

"Zotrim is the only non-medical proven weight loss product on the market to be confirmed as a weight loss aid with sound scientific proof."

The reason for this is because we truly believe in what we do, which is . . . improving peoples lives. As you can imagine, helping you realise your weight loss goals, gives us so much satisfaction that it drives us on to create even more effective, safe and natural products.

Hence we have developed Fibretrim™

But you'll be pleased to hear that we take our responsibilities so seriously that we actually have our own panel of experts, who work tirelessly to ensure you are getting the results you expect.

The members of our panel all believe totally in bringing you proven, effective and natural solutions and we're going to introduce them to you right now:

Dr Trevor Jarman, CEO and Biochemist

One of the leading founders of Natures Remedies Ltd, the company behind Zotrim and Fibretrim. Trevor now acts as the company’s Chief Executive and in 2009 appeared on the BBC's Professor Regan’s Diet Clinic.
A trained biochemist by trade, Trevor’s experience has leant itself to many new developments in food, pharmaceutical and healthcare companies, before reaching his position as CEO to Zotrim.

Dr Lasse Hessel, Physician and Inventor

Recognised Danish physician, author and inventor, Lasse was the first to recognise the importance of offering accessible weight loss devices to their customers, and set out in the late 1990’s to find a natural solution.

Working alongside an international team of researchers from the USA and Europe, Lasse to this day continues to improve the potency of the Zotrim formulation through further research studies.

Laura Williams, Personal Trainer

One of the UK’s leading personal trainers, Laura has worked with a selection of A List celebrities and athletes to help them stay in shape and burn fat.

Recognised for her qualifications as a Level 3 Personal trainer in Nutrition and Weight Management, Laura’s core philosophy is to make exercise accessible to everyone so they don’t have to sacrifice the good life.

Jane Griffin, Sports Dietician

A well respected Sports Dietician and media author, Jane was one of the first nutritionists to become an Accredited Sports Dietician in the UK. Currently, Jane works with the London Harlequin rugby team and is a consultant nutritionist to the British Olympic Association.

One of the first steps to weight loss success, is to know your BMI.

If you are ready to end the worry of people, including yourself, judging you on your weight, and let Fibretrim quickly and easily reveal the sexy, slim and healthy you.

The Evidence Behind Zotrim

1. When 58 young women took Zotrim they ate almost 20% fewer calories on average at a meal.
2. When 75 overweight healthcare workers took Zotrim, 70% of them reported not feeling hungry between meals versus just 20% of them prior to taking Zotrim.
3. These and other studies, see below, have shown that taking Zotrim results in weight loss at a healthy rate even without any major changes in diet.

Dr Trevor Jarman  
CEO and Biochemist

At Natures Remedies Ltd we have a strong commitment to understanding how our products work and then demonstrating this to you, the consumer, via scientific and clinical evidence. To achieve this we collaborate with leading international researchers with expertise in nutrition, eating behaviour, pharmacology, biochemistry, molecular biology and genetics.

The results of their studies have been published in leading peer reviewed scientific journals as follows:

Research from Appetite Journal, March 2013

Conclusion: Fewer calories eaten; decreased hunger and desire to eat; low consumption of high fat items.

1. In the double-blind placebo-controlled study at University of Liverpool 58 healthy-to-slightly overweight young women took the Zotrim formulation or a placebo control before a set breakfast and again before lunch. Participants were invited to a buffet style lunch, which meant that their food intake could be carefully monitored.
2. Taking Zotrim resulted in 112 fewer calories being consumed, on average, with the reduction mainly resulting from less high fat sweet and savoury items. Zotrim demonstrated clear effects on meal satiation (feeling of fullness) and on meal duration (data from the study showed that subjects stopped eating 3 minutes earlier after taking Zotrim).
3. The effect of the prebiotic dietary fibre inulin, used in combination with Zotrim in the drink 'Fibretrim' was also investigated. Inulin was found to significantly enhance the effect of Zotrim resulting in:
   - 200 fewer calories (26.7%) consumed at lunch
   - A significant reduction in hunger and 'desire to eat'
   - The largest reduction in consumption of high fat sweet and savoury items

Research from the Journal of Human Nutrition and Dietetics, June 2001

Conclusion: Proven weight loss as a result of the stomach remaining fuller for longer.

Conducted over a 45 day period, 47 overweight subjects aged between 20 and 60 were given Zotrim to assess the effects Zotrim's formulation had on their weight loss. Split into groups consisting of those on Zotrim and those taking a placebo capsule containing lactose, they were instructed to take capsules 3 times a day before every meal. They were not given any special instructions on diet or exercise. The weight lost on Zotrim was ten times greater than that on the placebo capsule.

In order to investigate the reasons for the weight loss, 7 subjects - who had previously fasted prior to the study - were given Zotrim formulation on one occasion and placebo capsules on another occasion in a double blinded study. Asked to drink 20ml of apple juice followed 15 minutes later by a further 400ml, their gastric volume was monitored through ultrasound measurement every 10 minutes until their stomachs had emptied.

After Zotrim the average gastric emptying took 58 minutes compared to 38 minutes for...
placebo illustrating that the stomach stays fuller for longer when taking Zotrim.

Study from British Food Journal, 2007

70 overweight healthcare professionals were asked to take Zotrim for 6 weeks during an 'open label' study. Their reported weight, waist circumference and hip circumference reduced significantly with 22% achieving a clinically significant weight loss. Reported between-meal hunger and consumption of snacks reduced. Reported satiety after meals increased and subjects claimed to be more in control of snacking, emotional eating and portion sizes.

Research (on Yerba Maté) from Obesity (2009) and Plant Foods for Human Nutrition (2012)

Extracts of yerba maté, a major component of Zotrim has been shown to cause weight loss in fat mice; to inhibit adipogenesis (the formation of new fat cells) and to normalise gene expression levels in obese mice. The researchers concluded "our data shows that yerba mate extract has potent anti-obesity activity in vivo."

FAQs

At Zotrim we understand the importance of acquiring a greater knowledge about our dietary supplement. By knowing how our tablet works, what it does and how long you can take it for, you can ensure that you are making the right decision in choosing us.

Below we have listed our most popularly asked questions, to give you the reassurance you deserve.

**Zotrim FAQs**

1. **How does Zotrim work?**
   
   Zotrim is designed to help take control of your eating habits and thus enable you to reduce your food intake. By making you feel fuller more quickly and keeping your appetite satisfied for longer, this will help you to eat less during meals and resist the temptation to snack.

   Alongside our supplements ability to promote natural weight loss, our 3 plant extracts are well known for their invigorating properties, increasing your energy levels and helping you to burn more calories.

   [Back to top](#)

2. **Can I still drink alcohol whilst taking Zotrim?**
   
   Yes, you can in moderation, though we do recommend that as alcohol is a source of calories devoid in nutrients, that you limit your intake. Drink too much, and not only will this contribute to weight gain, it'll also lower your inhibitions around eating and food choices.

   [Back to top](#)

3. **How long can I take Zotrim for?**
   
   Zotrim is made from 100% natural ingredients with no side effects, meaning no matter your weight loss goals you can continue to take Zotrim for as long as you need. A healthy and sustainable rate of weight loss is considered to be 1-2lbs per week, depending on your calorie intake and how active you are.

   Once you have reached this goal you can safely continue taking Zotrim to help maintain your weight loss or alternatively you can stop. Should you find that you begin to put on weight though you can start taking Zotrim again until you are confident you are back in control.

   [Back to top](#)

4. **How long before meals should I take Zotrim?**
   
   Through experience we have found the best time to take our dietary supplement is 15 minutes prior to your meal. If you do forget to do this, don't worry. Simply take our supplement with a glass of water right before your meal or whilst you are eating it.

   Similarly, if you do not normally have a breakfast we recommend that you take just one dose of Zotrim in the morning followed by a further 2 doses with your main meals.

   [Back to top](#)
Will my weight loss be affected if I miss a day, or a dose or two?

To achieve the best results from Zotrim we recommend that you take the full recommended dose. Designed to offer increased satiety, missing the odd dose could slow down your rate of weight loss.

What additional advice can you give me?

With Zotrim we can help you to manage how much you eat, but what you eat and how much you eat is very important. You need to take control of your calorie intake and ensure you are not eating too much fat in your diet. To help you make the right food choices, try using the following tips:

- Substitute high fat foods, such as full milk, cream, butter, cheese, fried food, crisps and nuts for their low fat alternatives: skimmed milk, low fat spreads and cheese, boiled or baked potatoes.
- Grill and boil rather than fry and roast.
- Read labels on all pre-prepared foods. If it is high in fat, look for a low fat option.
- Begin your day with a good breakfast and try not to miss meals. Meal skipping has been proven to increase the likelihood of snacking and overeating at subsequent mealtimes.
- Remember: alcoholic drinks contain calories so monitor your consumption.

What about exercise?

While you do not have to do exercise to see results with Zotrim, exercise has been proven to assist with long term weight loss. Exercise is an important part of any weight loss programme as it helps to increase metabolism and burn more calories over the course of a day.

Exercise is also essential for helping to prevent life threatening illness like diabetes and heart disease.

By making even the simplest of adjustments to your daily lifestyle you can increase your energy consumption and burn more calories. Try taking the stairs instead of a lift; leave your car at home and walk to the shops, or incorporate a 30 minute walk into your lunch break.

Try to make time in your week to include structured sessions too, such as swimming with the family at the weekend; trying a new exercise class with a friend or hiring a bike with your other half.

Can Zotrim be taken by vegetarians or vegans?

Zotrim is made from 100% organic plant extracts, making it free from all animal matter and fats.

Precautions and Side-effects

1. **Who should not take Zotrim?**
2. **Does Zotrim have any side effects?**
3. **I can see that Zotrim contains a little natural caffeine. How much?**
4. **Does Zotrim interact with medicines?**
5. **Can Zotrim be used by diabetics?**
6. **Can I take Zotrim whilst on Thyroxin?**
7. **Does Zotrim interfere with oral contraceptives?**
8. **Can I take Zotrim if I am pregnant or breastfeeding?**
9. **If I do ask my doctor’s advice about taking Zotrim, if he/she doesn't know anything about it what should I tell him/her?**

Who should not take Zotrim?

Although Zotrim is formulated from 100% natural plant extracts, we recommend that you do not take Zotrim if:

- You are under 18 years old
- You are pregnant or breastfeeding
Your are sensitive to caffeine

To our knowledge Zotrim does not react adversely to any medications. If you are currently on medication though or you have doubts about taking Zotrim, we recommend you consult with your doctor.

Similarly, should you feel ill at any time whilst taking Zotrim; we suggest that you stop taking our supplement until you are well again.

Does Zotrim have any side effects?

As a food supplement containing 3 natural plant extracts, Zotrim has a strong safety record with no known side effects reported in its principal trials. Very occasionally some of our customers have complained of nausea when starting Zotrim. For this reason we advise that if you do have any health problems that you consult with your doctor first before taking Zotrim.

One of our key ingredients Guarana does contain a little natural caffeine. So if you are sensitive to caffeine or suffer adverse reactions from it we suggest you do not take Zotrim as one day’s supply of Zotrim contains the equivalent of one cup of coffee.

In the unlikely event that whilst taking Zotrim you do feel ill or suffer from an adverse effect (which may or may not be associated with taking Zotrim) you should stop taking your tablets immediately. Similarly if your symptoms are serious or persist, consult your doctor.

I can see that Zotrim contains a little natural caffeine. How much?

One day's supply of Zotrim contains the equivalent of one cup of coffee. For this reason, if you are sensitive to caffeine, you should not take Zotrim.

Does Zotrim interact with medicines?

To our knowledge, Zotrim does not interact with any medicines.

Can Zotrim be used by diabetics?

There is no reason why people with diabetes cannot take Zotrim. However we do advise that anyone that has diabetes consult with their doctor before trying Zotrim.

Can I take Zotrim whilst on Thyroxin?

There is no evidence suggesting Zotrim can not be taken alongside Thyroxin, however we do advise anyone taking medication to consult with their doctor first before taking our Zotrim supplements.

Does Zotrim interfere with oral contraceptives?

As a natural food supplement, Zotrim can safely be taken with oral contraceptives without interfering with their effectiveness.

Can I take Zotrim if I am pregnant or breastfeeding?

We recommend that you refrain from taking Zotrim whilst you are pregnant or breastfeeding. However, Zotrim can effectively help you to take back control following birth and breastfeeding.

If I do ask my doctor's advice about taking Zotrim, if he/she doesn't know anything about it what should I tell him/her?

We suggest you take a leaflet of Zotrim along with you when you go visit your doctor. This contains all the essential information about our product and how it works. For more comprehensive information, please refer them to our website where they can contact us directly.

How To Lose Weight Quickly

…and keep it off with the FULLfast Weight Loss Range

If you’re looking for fast and safe weight loss then using our clinically proven appetite suppressant Gum, Spray and Metabolico range could be exactly what you’ve been looking for! FULLfast is scientifically proven to control your appetite by making you feel full whilst increasing your metabolism to help produce a more balanced body weight. By combining these weight loss solutions with a proper nutritional diet you can lose weight quickly and easily without feeling like you’re dieting!

FULLfast will help you avoid hunger pangs by controlling your appetite.

The real ‘secret’ to losing weight isn’t by following fad diets - these diets generally only work in the short term. To lose excess weight eating right is key but the problem most people face is the hunger pangs they get when they first start. Most people can ‘suffer’ for a few days or even a week or two and normally achieve good weight loss results during this time. As they progress, they find that they fall back into their old eating habits and the weight is put back on. When you use FULLfast, you’re not just finding another way on how to lose weight quickly but also a way to control your hunger pangs and keep the weight off!

Want short term weight loss? Click here to lose 7 pounds in a week!

Use the FULLfast Weight Loss Analyser to determine the best programme for you:

What is the FULLfast Weight Loss Analyser?

We have developed a simple calculator which works out the best monthly programme for your weight loss needs based on your specific body information combined with the weight loss goals you are targeting.

Losing weight quickly is easy with FULLfast!

By eating healthily and controlling your hunger pangs with FULLfast, you can not only achieve the fast initial weight loss but feel full for longer, helping you to continue to eat right so that you can keep the weight off. We’ll also give you a complimentary first week fast start eating plan complete with a shopping list, as well as a list of ‘ideal foods’ to help you continue to eat right. The Fast Start eating plan is designed for busy people without time to spend 2 hours each day preparing food.
How quickly can I start with FULLfast?
FULLfast is safe, effective and clinically proven to control your appetite. We recommend that anyone following a weight loss program for more than 3 weeks should consult a Doctor first. So it’s no longer a question of ‘how to lose weight quickly’ but how quickly can I start with FULLfast and not only achieve my weight loss goals but maintain my new weight! Get started today by ordering our most popular package complete with the Fast Start extras! Get started now and we’ll automatically send you the extras by email.
**What is FULLfast?**

FULLfast is a complete range of innovative weight loss products with a unique patent-pending formula, developed to make you feel fuller, even whilst dieting. The range consists of a unique product which comes in the form of a chewing gum & spray, both enabling rapid absorption of FULLfast's active ingredients to help you stick more rigorously to a low-calorie diet by reducing your appetite. The Metabolico tablet is designed to help control body weight in conjunction with a low-calorie diet. So if you're looking for support to stay on track and reach your weight loss goals faster than ever, use the FULLfast appetite control range.

**Scientific Proof**

In a double-blind, placebo-controlled clinical study, published in the International Journal of Obesity*, FULLfast appetite control spray & chewing gum were shown to reduce hunger and give a significantly greater feeling of fullness in female study participants than the placebo group. The placebo group took a product that looked similar, but did not contain the active FULLfast formula. The test showed that in the FULLfast group, the feeling of hunger was reduced after just a few days of use (5 days). After 21 days, the FULLfast group in general no longer suffered from hunger cravings.

How to use the FULLfast products
- Chew the gum for 10-15 minutes, 4 pieces per day in between meals
- Take the metabolico tablet twice a day, 1 in the morning and 1 in the afternoon or evening. Make sure to do this away from meals.
- FULLfast appetite control spray comes in a convenient spray format
- Pump 3 sprays under the tongue a few seconds apart, 5 times a day and at least 30 minutes before or after meals. For example: twice in the morning, twice in the afternoon and once in the evening before or after dinner
- FULLfast appetite control spray should be used regularly. The best results are achieved with continuous use, for 4-8 weeks. The same applies for the chewing gum which has exactly the same ingredients. The metabolico should be taken for 4-12 weeks to see the best results.

*(2009. 33, p.1174 – 1182)*

**FULLfast** is a range of weight loss products that helps you to lose weight quickly by reducing excessive feelings of hunger, and increasing feelings of fullness to help you eat less.
Benefits

FULLfast appetite control spray is the perfect way to support your weight loss aspirations. It is inexpensive, totally natural and easy to use. It comes in a portable spray you can take with you wherever you go, so you can really put yourself in the driving seat.

FULLfast will give your weight loss goals a helping hand.
We'd love to say that you can use FULLfast and then sit back, relax and watch the pounds drop off. Unfortunately it's not quite as easy as that! But if you're determined to lose weight, and following a well-balanced, low-calorie diet, then our appetite control spray will help you with your weight loss goals. So if you think your diet could do with a bit of support, why not give FULLfast a try.

FULLfast will banish your hunger pangs.
Hunger pangs can be caused by a number of factors- taste, smell, sight and emotion, which are not necessarily signs that your body needs an energy boost. So signals can be sent to the brain when there is no actual nutritional requirement. Which is a bit of a pain! By using FULLfast, you can make yourself feel full, fast. And make hunger pangs a thing of the past.

FULLfast will let you eat the foods you enjoy.
We all enjoy food and the occasional splurge. And we'd be lying if we said otherwise! But it is sometimes too easy to get carried away. Being attuned to the feeling of hunger is one thing, but recognising the fact that you're full is another thing altogether. FULLfast appetite control spray is specially designed to help you feel fuller, faster, so you can stay on the right track with your diet and are free to enjoy the finer things in life.

FULLfast is a range of weight loss products that helps you to lose weight quickly by reducing excessive feelings of hunger, and increasing feelings of fullness to help you eat less.
Testimonials

The Doctor's view

“The published evidence suggests FULLfast appetite control spray is a safe and effective aid to weight loss in conjunction with a calorie controlled diet. Tests show it can reduce feelings of hunger and is more effective than dieting alone in reducing BMI.”

Dr A Hudson MBBCh FCEM

Dieting Diaries

Everyone knows that controlling hunger and cravings is essential to losing weight, but too often the battle against excessive hunger undermines our willpower and impulsive snacking takes over. FULLfast helps naturally reduce appetite to help with dieting programmes and inch-loss goals - and all it takes is 3 sprays, 5 times a day.

Still curious? Check out the diaries of other people who have provided their own FULLfast testimonials for us...

Vicky, 24 from London

“I have tried lots of diets in the past but always find controlling how much I eat to be the most difficult part. I hope FULLfast will help me with this & solve my portion control problem.”

Meliha, 26 from London

“I love to eat middle eastern foods and I tend to graze on unhealthy snacks while at work. Really need help to stay on track with my diet and maintain my healthy eating. FULLfast needs to cure my snacking habits!”

Bhav, 27 from London

“I’ve tried various diets in the past but I tend to get bored with them & cheat. I needed to find a weight loss assistance package which helps with all aspects of dieting. FULLfast seemed the most credible to achieve my dieting goals”

Leila, 33 from New York

“I have a crazy schedule as I work in the City whilst also bringing up my 2 year old girl. I need some assistance in cutting down on snacking habits as I don’t always have healthy lunches and can’t find the time for the gym during the week. I need FULLfast to do the hard work for me!”

Ed, 34 from London

“I love fine food & wine and tend to overeat a little, especially now I don’t smoke anymore. I’m hoping that
FULLfast is a range of weight loss products that helps you to lose weight quickly by reducing excessive feelings of hunger, and increasing feelings of fullness to help you eat less.

Ola, 30 from London
 “I wanted to get slimmer and fitter for Spring and lose my Winter weight in preparation for my holiday.”

Jackie, 35 from London
 “I’ve tried various diets in the past, none work, I’m wary of slimming products. FULLfast is the first one which seems genuine to me. I’m planning to use FULLfast to get down to a size 8 for the summertime parties!”

Jenny, 33 from London
 “I’ve tried all sorts of diets & other slimming aids, none have worked. I wish I could control my hunger cravings and wear my favourite dresses. I hope FULLfast will help me shed the lbs I find so difficult to lose.”

Joanna, 26 from London
 “I don’t tend to stick to fitness regimes or diets but this sounded like a good easy way to help me lose those few pounds before I go away on my summer holiday.”

†In a double-blind, placebo-controlled clinical study published in the International Journal of Obesity, Sept. 2009, female study participants following a weight-loss program, used 3 full sprays of FULLfast under the tongue 5 times a day. Within 5 days, they started to feel less hungry and experienced “significantly greater feelings of fullness” than the placebo group over the full 8-week trial period.
Garcinia Ultra — What Is It?

Native to Indonesia, but available worldwide, the small pumpkin shaped fruit has been used for centuries by many cultures worldwide for the treatment of weight loss, but has recently become readily available to those of us in the West.

Garcinia Ultra Tablets has made waves in countries all over the world for centuries due to its ability to make one have feelings of “fullness” for longer periods of time once ingested.
Garcinia Ultra As The Super Powerful Weight Loss Agent!

Garcinia Ultra Tablets was formulated SPECIFICALLY TO MEET DR. OZ'S RECOMMENDATIONS. Nothing more, nothing less. That's how it stands alone from the many other products on the market today.

You have a lot of options when looking for a Garcinia product. So what makes Garcinia Ultra Tablets different? Well, in looking at dozens of products that are currently on the market we found that very very few contain ONLY the recommended ingredients from Dr. Oz, and even fewer of those contained the recommended dosage. Garcinia Ultra Tablets gives you both!
Get Yourself Ready To Start This Weight Loss Journey!

Are you ready to step up and take control of your life? Time to make changes for the better? Act now, since there has never been a better time to take advantage on this powerful, proven weight loss supplement.

Testimonials:

“I have been on Miracle Raspberry for about a month now and have lost between 8-10 lbs. ~ Samanta Cinniti, TX

“I would just say that this works very well. ~ Miles H., AZ

“No side effects noted either, will definitely be ordering some more.” ~ Jenny Miller, IL

“I am using Garcinia Ultra with just a simple diet and it’s working very well.” ~ Sam B., NJ

How much MG should I take daily?

According to a top doctor, to achieve the best results, you should take a minimum of 800mg daily. We recommend taking 1 tablet containing 400mg of green coffee extract twice daily, 30 minutes before a meal.

SUGGESTED USE:

As a dietary supplement, adults take two (2) capsules daily preferably with a meal.

KEEP OUT OF REACH OF CHILDREN. NOT FOR USE BY INDIVIDUALS UNDER THE AGE OF 18 YEARS. DO NOT USE IF YOU ARE PREGNANT OR NURSING.

STORE PRODUCT AT ROOM TEMPERATURE. DO NOT EXPOSE TO EXCESSIVE HEAT OR MOISTURE.

100% ALL NATURAL Garcinia ULTRA

### Excellent for Pre-Beach Trip!

★ ★ ★ ★ ★ jcostes1986 · 10 months ago

I received this product as a free sample being on the MuscleTech test team I used it to tone up before my reunion/vacation. My family noticed a big difference in my muscle definition and I received several comments. With a good diet and exercise program, take as directed on the label and it will get you ripped!

I received this product as a free trail and I had a good experience. I used this product for 6 weeks and saw some good results. I am currently at 10% body fat, therefore, my b% didn't go down, however, I did see myself lean out in my mid section. I had great energy and my workouts work great. Would recommend!

I received a free bottle of this and so far I really live the product. I've been trying to find a pill that will give me a lot of energy without that jittery feeling. So far these have done the trick. I take it 30 minutes before each large meal and I'm staying fuller for longer than I did before adding this to my diet. I'm excited to see the results after the month supply is up.

**INGREDIENTS**

**LIDA REGULAR VERSION**

Lida Active Ingredients and functions in brief

The main ingredient in Lida is extract of Bitter Orange. Scientists have discovered that these fruits contain a compound called Synephrine which is proven to be a powerful Thermogenic - Fat/Calorie Burner and Appetite Suppressant.

People should avoid taking bitter orange if they have a heart condition or high blood pressure, or if they are taking medications (such as MAO inhibitors), caffeine, or other herbs/supplements that speed up the heart rate. Due to lack of evidence, pregnant women should avoid products that contain bitter orange.

Mulberry Leaf Extract

Mulberry tree grows in Asia, and its leaves are said to aid weight loss. The extract from mulberry leaves called Zuccarin block’s the way your body absorbs carbohydrates.

Cassia Seed

Cassia seed extract removes intense heat from the liver, improve acuity of sight and loosen the bowels to relieve constipation. There is also evidence that it helps to reduce blood pressure.

Job’s-tears

The fiber contained in Job’s tears decreases fat and cholesterol which the body absorbs.

**Lida Lite Version**

Black Truffle Extract, jobsteerseeds, Cassia Seed, mulberryleaf, bitter orange. 500mg one gel capsule.

Extract of Black Truffle

No thirst, no dizziness

Does not suppress appetite

Oil visible draining

**Usage:** 1. Take one capsule per time after a heavy meal

2. Oil draining within three hours.

**Specification:** 500mg*30capsules

**Storage:** Store in cool, dry and dark conditions.

TESTIMONIALS

Hi! Myself Preeti Vora, I am from bangalore. Was always over weight and nothing seemed to help, then a friend suggested lida, I lost 7.5 kgs in the 1st month itself, it is amazing a real miracle pill

- Preeti Vora , Bangalore

Hello I am Hayzel from Goa, Lida was recommended by my Aunt and it chngd my life upside down, its my soulmate now, I got everybody's attention back, friends who were ignoring me now have started approaching, thnx to lida I have my confidence back

- Hayzel , Goa

Hi, Shagufta from mumbai, I had put on weight post delivery and try as I might could not lose this excess wt, then came across lida, after starting with lida within 10 days itself I cud see visible results,thnx to lida I now fit in my old jeans once again.

- Shagufta , Mumbai

Hello guys, I am Priyanka from Kolkatta, I m a pcod patient and was despertely trying to lose wt from past 5 years but in vain, then 1 day while surfing thru the internet came across lida herbal slimming pill and just took a chance by ordering them and am so glad that I did. It worked wonders and for the 1st time in 5 years I have my confidence back, all thanks to Lida

- Priyanka , Kolkatta
FAQ's

LIDA Regular FAQ'S

Hi! I have already tried Lida Capsules for 30 days and I have to say that the results are amazing! Shall I gain weight after discontinuing Lida? I also take contraceptive pills.

It is recommended that every user should use one extra box of Lida (a 30 day course) after desired results are achieved, and should discontinue the Capsules as follows.

In the first week one capsule a day, and from second week one capsule alternate days.

If the product is discontinued in this manner, recurrence of fat reserves will be prevented. The users, who use Lida Capsule in accordance with the instructions of the manufacturer's regarding use and discontinuation, recurrence of lost weight within the first year is not observed.

Pls note :-Do not use other medicines while taking LIDA

I have been taking the pills for about five days now, the first day I was very thirsty and also could not sleep but I felt energetic, the second day I was feeling a bit dizzy or light headed. Have you heard of anyone else having all these symptoms? I have lost 2 kg in 5 days. what do you suggest?

It's very normal to feel thirsty at the beginning, because the increase of Nor epinephrine will reduce the function of acetylcholine, and reduce the excretion of saliva. So, if not provided with abundant water, it will lead to excessive thirst, then difficulty in bowel movement. Also, satiety caused by the functional herbs reduces appetite, which might lead to constipation. It is highly recommended to drink more water, and eat more fruits & vegetables.

Hello Lida !!! I hope all is well. I understand that I am not suppose to take any other medications while taking Lida?? Should I stop my present medications several days before I begin taking Lida? I have used other Ayurvedic weight loss supplements, but they never informed to stop other medications. Then why its so with lida?

We strongly recommend, use Lida or any other slimming products only if you are perfectly healthy. But it also depends on what kind of medications have been recommended to you and for what reasons. Generally we suggest a gap of 6-8 hours between your medicines and lida but as mentioned earlier this mainly depends on the medicines and reasons for which you have been prescribed the medications, for more details please speak to our customer care nos. LIDA is a herbal medicine and its ingredients are 100% natural extracts. Some herbal ingredients may react with your prescribed or over the counter medicines. So as a precaution please consult with our customer care executives.

While a women is using Lida, will she be able to conceive? Does this medicine effect the sperm count of men?
You can prepare for pregnancy 2-3 months after stopping the pills. It will not affect men's sperm count. Many lida users are parents of healthy kids now.

LIDA LITE FAQ’S

Do I need to eat certain food or restrict what I eat?
No you do not have to restrict what you eat. The amazing thing about LIDA lite is they block fat from entering the body from the food you eat, and work to eliminate stored fat.

Do I have to exercise?
Exercise is not required to lose weight when taking LIDA lite. Exercise is beneficial for many reasons, but you will still lose weight if you are not currently exercising.

Will I have constant bowel movements?
No, you will not have constant bowel movements. Your movements will be easier and you will see oil/grease in the toilet.

Can everyone take LIDA lite?
No, they are not suitable for pregnant, breastfeeding women, children, elderly. People with any medical condition should consult your doctor prior to use.
1. Daidaihua (Bitter orange)
Daidaihua is employed in herbal medicine as a stimulant and appetite suppressant, due to its active ingredient, synephrine. The extract of bitter orange has been marketed as dietary supplement purported to act as a weight-loss aid and appetite suppressant. Bitter orange contains the tyramine metabolites. It is claimed that bitter orange is an effective aid to weight loss and a safe alternative to ephedra.

2. India lotus leaf
Lotus leaf has traditionally been a sacred plant to the Buddhists and Hindus; the flower symbolizes divinity, beauty and purity. In Hinduism the sacred lotus is associated with mother goddesses as a symbol of fertility. When the test subjects were given a lotus leaf extract prepared with hot water and taurine, their overall absorption of fat and carbohydrates decreased, and they burned existing fat at a faster rate.

3. Cassia Seed
Cassia seeds are bitter, sweet and salty in flavor. Cassia seed extract is beneficial in problems related to intestine, liver, large intestine and vision. The seed extract is also used as an alternative to coffee. The seed is slightly cold in nature and hence works better on liver and large intestine. Cassia seed helps improve vision, removes intensive heat from the liver and provides nourishment to large intestine and also smoothes the bowel movement. It helps in improving the vision and cures blurred vision, redness, itchiness, congestion or light sensitivity caused by hot wind conditions. cassia seed pillow can tremendously improve sleep quality by removing heat and soothing the nerves; furthermore, it can be used as a laxative to relax bowel and treat constipation; finally, it can also make herbal slimming tea that really work thanks to its purging activity, which can interfere with the absorption of fats and carbohydrates.

4. Rhizoma alismatis
Rhizoma alismatis is also known as Alisma. The sweet, bland and cold herb has been used in TCM as anti-pyretic, anti-bacterial, hypoglycemic, hypotensive, anti tumor, anti-allergic, etc., as it eliminates water, clear Heat, diuretic, etc., by enchaining the functions of bladder and kidney channels. Researchers at the Tsinghua University, indicated that the three basic approaches, including excretory function enhancement, cardiovascular system improvement, and tonic effect reinforcement, are emerging among TCM formulas for the treatment of hyperlipidemia.

SUCCESSFUL STORIES (95% user successfully reduce weight goal)

One of my friend recommend lida daidahua weight loss capsules to me. i have used one month. i have lost 7 kgs. it's amazing!

I have used the lida daidalhua weight loss capsules for 2 months. i have lost 30 lbs. it really works great. I am satisfied! thanks!
This formula is made from Chinese herb - "daidaihua", which have been used for thousands of years to promote beauty and weight loss. It takes effect right away to help suppress your appetite and burn your excess body fat.

**Whose function theory is as follows:**

1. **Boosting fat metabolism and blocking the non-fat material converting into fat.**
   The functional ingredients will maintain the balance of body calories intake and consumption, control the intake of extra calories, block non-fat material converting into fat and boost fat metabolism and burn the fat continuously. Hence, the volume and content of the fat cells in vivo can be maintained and continually reduced. The unique mechanism of maintaining can both block the fat source and accelerate the fat metabolism.

2. **Pure herbal essence, promoting satiety and controlling the fat intake effectively**
   The raw materials are extracts of daidaihua, cassia seed etc. The glucomannan in the product can absorb water. A viscose solution will quickly form after intake of the product, which attaches to stomach lining and stimulates it to restrain appetite, promote satiety and control the fat intake.

3. **Smoothing the intestines to relax the bowels and cleaning the intestines system**
   The Cassia Seed is effective in promoting diuresis and relaxing the bowels, which can discharge the metabolism outcome and the unabsorbed extra fat as well as toxin, clean the intestines system and prevent constipation effectively at the same time.
About Product
Q: What is the dosage?
A: Take one capsule before breakfast, 1 time a day.

Q: How much weight can I expect to lose using Lida Daidaihua? And when can I get the effect?
A: That depends entirely upon you. When following the dosage, you can experience spectacular results in a short period of time. Usually it takes 5-30 days to see the results. 95% of our customers can get good effects in a month.

Q: When can I stop taking this product? Will I get rebound if I stop taking them?
A: When getting the target that you need, you can stop taking the product and there is no rebound.

Q: Can men take Lida Daidaihua with the same result?
A: Yes. Men can get the same effects as women can. Based also from our male clients, they have experienced the same benefits from our product.

Q: Who are those not allowed to take Lida Daidaihua?
A: Below 18 years old, over 60 years old, pregnant women, lactating mothers, people with heart attack, high blood pressure, sugar diabetes and nephropathy, cancer, metabolic disorder and allergies must not take this product.

As a trusted company with high reputation, we are focusing on providing the best products and service for our customers. We have been selling the genuine product for years already and proud to say that we have help a lot of overweight people worldwide.

About Shipping
Q: Which express company do you use to send the orders? How long will I receive this product?
A: All the United States orders will be sent by USPS; Orders in other countries and areas will be sent by EMS. Orders in those areas that EMS can't reach will be sent by Hong Kong Post.

Normally all the orders will be sent out within 24 hours, and the tracking number will be supplied within 48 hours. It usually takes 3-7 days for delivery by EMS and USPS. But it will take 10-30 days by Hong Kong Post.

If you want other express companies, for example, DHL/ UPS/ FedEx/ TNT - please contact us: service@hohodeal.com

We have a full-time colleague to monitor the delivery of the package and ensure the goods reach the buyer's hand safely and successfully.

Q: What is your shipping cost?
A: Our shipping cost is as follows.
   By USPS and EMS: 15usd for 1-2 boxes;
   10usd for 3-5 boxes;
   Free shipping for 6+ boxes.

If you prefer DHL/ UPS/ FedEx/ TNT - please contact us for price.

About Customs & Import Tax
Q: What is the Customs and Import Tax?
A: Customs is a government agency responsible for regulating shipments entering a country or region. All shipments being sent to and from a country or region must clear customs first. It's always buyer's responsibilities to clear customs and pay the relevant custom duties.

We don't add taxes, VAT, or other hidden charges. You pay us exactly the price we marked on website. i.e. goods subtotal + shipping cost.

In most countries, however, you have to pay taxes or duties on imported goods. Sometimes goods under a certain value, or in certain categories, do not incur taxes.

The rules are different in every country. Unfortunately there is no way for us to know the rules, regulations, customs, traditions, practices, loopholes, schemes, systems, paperwork, codes, laws, or rulings of every single country. Therefore, we cannot, and will not, offer advice about taxes in your country. As the buyer, it is your responsibility to find out...
that information before you order. If you have to pay import taxes and/or additional duties and sales taxes, then you would have to pay that to the courier upon receipt of the package(s). We can't calculate this for you and there is no way to pre-pay it. If you are drop-shipping or sending a gift item to someone, please make sure they are aware of the possibility of having to pay taxes when receiving the goods.

Please find out as much as you can about your import taxes in your own country before completing your order. If you find out information about the import tax situation in your country, and you believe there are ways to minimize the taxes you have to pay (or eliminate the taxes altogether), just tell us what you need by putting instructions (regarding labeling, packing, declarations, invoices, etc.) in the comments field during checkout. We are more than happy to follow your instructions.

Q: If the packages are detained by customs, who is responsible for clearance of the items?
A: If the items are detained by Customs after the ship left the seller's country, then the buyer is responsible for clearance of the detained items.

Q: If custom duties incurred, who is responsible?
A: It is the buyer's responsibility for any custom duty fee that might be charged from delivery. How the import duty will be charged depends on each country's custom policies.

About After-sale Service

Q: What's your exchange and return policy?
A: We have developed the following 7 days exchange and return policy for customer service purposes. We sincerely hope that you are happy with your selection.
If, in any of the unlikely event, you are unhappy with your purchase or the performance of the product, if the product and the package are kept intact with all the accessories complete as they were before sale, simply return it within 7 days for a full refund of the product purchase price (excluding shipping & handling charges).

Exchanges
Please contact us within 7 days after you receive the products. Please ensure that the products are in the original conditions, furthermore, the labels should be integral and the package should be complete, otherwise we will deduct depreciation fees accordingly. If you want to exchange for some different products, we will refund you any over-payment or require a supplemental payment for any deficiency according to the actual prices of the products.

Returns
If you want to return your products, please notify us by email or live chat firstly stating the reason and the order number for the return within 7 days of receipt. Your feedback is very important to us. Any items must be sent back completely with the original package. All packages should be sent via a trackable method. We are not responsible for packages lost in transit. Please pay attention to that the original shipping charges are non-refundable. Make sure to verify your shipping address. If your order is shipped to a wrong address that was provided by you, you may be 100% liable for the cost of the product as well as shipping and cost of any new product shipped to you because of such errors. So please contact us with all your questions and concerns before placing your order.
In general the benefits of a weight loss have been proven, among them there is the great benefit of the prevention of the emergence of certain conditions that are very debilitating and harmful for health such as diabetes, heart diseases, obesity, and weight loss provides a quality of life to the individual.

Obesity and overweight at severe levels shorten life expectation of patients and the increments on weight produce negative repercussions for health that is without mentioning the psychological problems caused by overweight: social relation problems, low self-esteem, rejection and job discrimination among others. Considering economic costs, overweight and diseases related to it can reach an amount of money of about two billions of Euros. The treatment for obesity is very difficult to apply; additionally the results on long terms are scarce with a recovery of the weight that has been lost in most of the cases.

In any case, regardless the difficulties that a weight loss program represents, a person should not give up in the search of a healthier lifestyle. Obesity and overweight are becoming an epidemic on developed countries.

Who should be considering a weight loss program

It is easy to say that every person would be better with some pounds less, but the fact is that keeping the right weight is not that simple given the differences between the organisms from one person to another. For the same reason different methods can be used given the characteristics of the person. A complete exploration must be done with relation to details like habits, surrounding, and the clinical history of the patient.

The most valuable criteria to define the overweight degree of a person, is the BMI (Body mass index: weight in kg/height in squared meters). Measures to be taken according to the calculation of BMI are the following:

- A BMI value less than 25 kg/m²: in these cases is not justified in general terms the adoption of a weight loss treatment.
- Overweight of first degree (BMI value in the interval of twenty five and twenty seven kilograms per squared meters): from the medical point of view what should be done in this case is to control alimentation, having an exercise routine, and periodic clinical controls, the adoption of those measures will be enough to maintain a regular weight.
- Pre-obesity or overweight of second degree (BMI value in the interval comprised by the values of twenty seven and thirty kilograms per squared meters): the first measure is to have a doctor’s appointment to have a health evaluation, if weight is stable then the distribution of fat will be uniform and homogeneous and there shouldn’t be factors of risk associated, the adoption of a weight loss program would be optional. If any of those conditions is not met, the patient must be treated in order to achieve a weight loss of five to ten percent of body weight and after that it is very important to keep the weight stable.

The following groups have implicit the condition of having a doctor’s appointment and medical treatment for weight loss through every mean that is available: physical activity, diet, modification of life habits, and pharmacologic treatment:

- Obesity of first degree (BMI value in the interval of thirty and thirty five kilograms per squared meters): it is advisable the stable diminution of ten percent of body weight in about six months.
- Obesity of second degree (BMI value between thirty five and forty kilograms per squared meters): the loss of ten
percent of body weight is the minimum goal that has to be achieved.

- Obesity of third and fourth degree (BMI value over forty kilograms per squared meters): in these cases the loss of ten percent of body weight always difficult to achieve would represent a remarkable improvement, but insufficient.

**What can do for you some weight loss?**

Considering the complications gathered if weight is not controlled on time, it would be wise to search for medical advice at the moment that a person finds is gaining more weight than the desired. The benefits of losing weight are many.

The risks for heart diseases are higher in people affected by overweight and obesity. Besides, high blood pressure or hypertension is twice more common on obese adults than in those people that maintain a healthy weight. Obesity is also associated to a high percentage of fat in blood and reduced “good” cholesterol. If a person loses between five and fifteen percent of body weight reduces the chances of developing heart diseases and suffering a heart attack, of course to know when to lose weight it is advisable to take as a reference the BMI value. The loss of weight can also enhance blood pressure, levels of cholesterol and triglycerides.

A gain of weight of about five to fifteen percent of weight increases the risk of developing diabetes of type two as twice than those who have and maintain a healthy weight. There is a direct link between overweight and diabetes: more than eighty percent of people with diabetes are also affected by obesity and overweight. This additional weight can be decreased by the adoption of an exercise routine, changes on diet and the incorporation of Lipobind treatment.

Investigations have also shown that obesity and overweight are associated to the increment on the risk of the emergence of certain types of cancer; these include endometrial cancer, colon cancer, prostate cancer, and kidneys cancer. In the same way women that develop overweight increase their risk of being affected by postmenopausal breast cancer compared with women who haven’t gain additional weight.

**Lipobind: an excellent option to lose weight**

Lipobind is a very effective formula designed to help in a healthy weight loss, it is habitually used for weight loss treatment on most of the cases, and it helps on weight loss by means of the blockage of the absorption of fats that are included on meals and foods. Now it is available in a totally new, improved and effective formula.
Enemies of diets

A lawyer became so happy when his wife of thirty eight years of age told him that she has decided to have a dietetic regime for weight loss under the surveillance of a doctor. The lady was 1.63 meters of height and a weight of ninety six kilograms and was very affected by an alarming high blood pressure.

The lady lost about thirty five kilograms in the period of ten months, so she became into a slender and attractive woman, her husband was very delighted so he took her to an elegant store to buy a new fur coat for her. Unfortunately the seller that was attending the couple got also impressed with the figure of the lady, so each time he helped the lady to try a coat he touched her shoulders. The lawyer got irritated very deeply to see how admired and coveted his wife was and insisted her to leave the diet.

“You have lost enough weight” told her, and started to invite her to costly restaurants and to give her sweet chocolates and other candies, he made all the required efforts to make her gain extra weight again, in short the lady got to pass the ninety kilograms of weight again.

Doctors on regulation of weight have baptized such type of husbands (and any family member that behaves in the same way) with the nick of “saboteurs family”, and these doctors claim that these kind of family member are the worst obstacle on the recovery of the normal weight for the patient.

Obesity according to doctors is very often accompanied by heart diseases, hypertension (high blood pressure), diabetes and chronic breathing disorders. However a lot of people voluntarily or involuntarily sabotage the diets of those that they say to “cherish the most” which can be the spouse or the kid. From 236 specialists on weight loss that were involved on a survey, 213 informed that their patients have been victim of a close family member or of a friend because of the attitudes against weight loss diet.

In the case of the emergence of such attitude on a spouse, the main source usually is jealousy, the spouse feels insecure and fear of losing his or her partner, those feelings were enough motive for the lawyer of the story mentioned at the beginning that pushed him to sabotage the weight loss program of his wife. For some people over weight has become the new version of chastity belt, according to the opinion of some health professionals. The sabotage can also be a result of hostility from one spouse to another given some frustrations and dissatisfactions on the marital relationship.

The male sexual preference for overweight women can also become a cause for the sabotage of weight loss diets. Specialists give some advises on this matter to counteract the negative influence of family members that want to sabotage the weight loss diet, try to have a conversation with the other person in order to identify the motives.
Health Care

Losing weight can provide a lot of healthy benefits, like the prevention of diseases associated to obesity and overweight and it can also enhance the quality of life of the individual. It is very well known that the expectative of life can be shortened by the excess of weight.

The control of intake of calories is essential to lose weight, the inner stores of fat of the organism will start to decrease and finally they will reach their normal levels. There are a variety of products for weight loss that claim that they prevent the assimilation of fat which leads to the expulsion of fats from the body.

There is a special element known as Litramine which is a compound based on fibers obtained from cactus and according to the manufacturers it has been clinically proven to be an excellent fat binder. It means that all molecules of fiber attract molecules of fat and help the body on the elimination of these fat particles permitting less accumulation of the fat that is responsible for overweight. There is one product that is already using this compound as an active principle; the name of the product is Lipobind.

The manufacturers of Lipobind claim that it works as a vacuum inside the body attracting fat particles to it to prevent their absorption through the digestive system. Litramine has been put to the test to show that it inhibits the impulses of eating more. This process sends impulses to the brain telling it the stomach is fully satisfied and therefore there is no need for eating more.

Lipobind is also very beneficial for health and works as a supplement. This product has nutritional elements like A vitamin and D vitamin which are very important for health. A vitamin which is also known with the name of Retinol, it is considered from the point of view of its solubility as liposoluble, it performs a very important role inside the organism given its inherent properties.

Among benefits provided by A Vitamin we can find:

- It maintains tissues in a healthy state.
- It permits to have better eyesight on darkness.
- It helps on the development of skin keeping it healthy.
- It gets involved on the formation of the mucous membranes of the body.
- It helps on the development and maintenance of teeth, soft tissue and bones.
- The beta carotenes which are the precursors of A Vitamin act as antioxidants reducing the formation of free radicals; therefore preventing the emergence of degenerative diseases.

The properties listed above make the A Vitamin indispensable for the good functioning of organism. D Vitamin is another liposoluble vitamin; it means that it is able of solving fats. The main function of D Vitamin is the regulation of the metabolism of phosphorous / calcium. This vitamin makes possible the absorption of calcium and phosphates through small intestine; it also fixes the calcium phosphate on bones and favors a good dental development and growth in general.
Instructions

It has been put at the reach of anyone who wants to lose weight the enhanced formula of Lipobind, with the original benefits provided by Lipobind with the addition of vitamins. This product for weight loss has been clinically tested. The idea behind the formulation of this product is that it is required to compensate all the nutrients that body may have lost as a consequence of the action of Lipobind. As its name indicates, Lipobind has a binding of vitamins that are of main importance for the body, that is the case for the A vitamin, D vitamin, E vitamin. Therefore, with Lipobind you are able to lose weight without putting in danger your overall health.

In other words, this product blocks fat so it cannot be absorbed by the body, Lipobind “binds” to the fat as soon as it gets in contact with the molecules of the product, forming a complex element of fat. In this way that element cannot be absorbed by the organism and therefore it is not assimilated. This fat then is eliminated from the organism through the intestines in the natural process of bowel movement.

Lipobind supplies with vitamins the organism, while at the same time it decreases appetite, helping to control the ingestion of fat and sugars that have great incidence on the increment of weight. It also helps to control the intake of foods through the reduction of the speed of gastric emptying. Therefore, after you eat you can feel satisfied for long periods of time. It means that you will feel less hungry and will not desire to eat as much as you used to.

This product is not restricted only to the loss of weight but it offers additional benefits for your overall health. The intake of the vitamins contained on the formula of Lipobind gives as a result the reduction of the levels of cholesterol in the organism. This is due to the union of the active principle of the pill with bile acids that are involved on the digestion of fat. As a result the liver finds itself in the need of using the excess of cholesterol in the body in order to produce more bile. It will help to reduce your levels of cholesterol.

Besides, there is the fact that the formula of Lipobind having a lot of vitamins keeps your immune system strong and healthy as the rest of your organism. In order to make sure of losing weight with this product, you should take from one to three pills after each meal; however make sure of do not taking more than six pills every day. To obtain better results you should also increase the ingestion of water every day, a person should take at least two liters of water per day, it helps on an internal cleansing and in a better digestive process. You should also make sure of having a diet with very low levels of fat; thus you will get faster results.
Losing weight healthy

Reaching and maintaining the ideal weight is a daily task for a lot of people around the world, a goal that with frequency cannot be reached just by having the diet that was used by a friend, or found on the web and which promises making you lose a lot of pounds. However how many times has happened to you that all the weight that you have lost was recovered after a while, or there are also people who have lost weight and have become thin people but with flaccid tissues without toned muscles. An important waste of money can be noticed on these cases without considering health risks, for women the sudden changes of weight become noxious for the beauty of their breasts.

Losing weight healthy is the path that you should follow

You can see a nutritionist in order to get some advises of how to lose weight in a healthy way, and you should see a doctor in order to identify the possible source of your overweight, there are hormonal and metabolic problems that favor the gain of additional weight and require medical treatment. Once the doctor has determined the source of your excess of weight, the nutritionist will be able to formulate a special dietetic regime to control the intake of calories. For this matter, the nutritionist will collect information such as your height, weight, age, physical activity, alimentary diets, and lifestyle to determine your individual nutritional needs.

The nutritionist will give you a dietary plan which will teach you how to choose properly the foods that you need to cover your nutritional and energy needs. This is enough for you to lose weight gradually and in a safety way. In numeric terms the loss of weight can go from half a pound to one pound per week.

The diet may include:

- Most of the groups of foods but in the amount and proportion that you need (cereals, beans, grains, tubers, seeds, all the types of meat with low content of fat, oils and vegetable fat, fruits and legumes).
- Natural liquids without sugar (juices of fresh fruits, water, infusions of fresh fruit, seeds or herbs).
- Variety on each group of foods and on preparation.
- Schedule for food which can have from three to six times depending on your needs.
- Enough quantity of food so you will not get starved.

The diet may exclude or limit:

- Fast food
- Alcoholic drinks in excess
- Spices and artificial flavorings
- Salt in excess
- Saturated fats
- Fries
- Candies, processed snacks or candies, soda, and energizing drinks
- Preparations that concentrate too much calories (condensed milk, white sauces, and milk cream among others).

D Vitamins benefits on weight loss

D Vitamin promotes the absorption and metabolism of calcium and phosphorus, and a recent study has revealed that overweight people that are in a program of weight loss have more success and better results if their levels of D Vitamin are increased.
Losing weight will enhance your sexual life

A small loss of weight can make wonders on your sexual life, according to the opinion of some experts. Doctor Martin Binks claims that this result can be achieved since the person gets to feel much better with his or her body. Everyone can obtain a lot of benefits of a moderated weight loss of about ten percent; these are wonderful news since at that point a person can start having a healthier and happier life.

A study has been made over the emotional problems that can be the source for obesity and over weight and that can be related to sexuality, among them physical problems like hormonal imbalance or the impotence. “There have not been made enough researches on this area” is the opinion of a doctor that works on obesity research. Improving sexual life quality can become a very good incentive to lose weight if you are obese.

One hundred and one women and twenty six men were submitted to this study, they had as an average age forty five years, and as an average BMI (body mass index) of about forty at the beginning of the study. People with a BMI over thirty are considered obese. All of these people were inscribed in a weight loss program, and after losing about twelve percent of their weight the quality of their sexual life has been considerably improved.

It has been found also that over weight and diabetes (which usually is a consequence of the accumulation of additional weight) are responsible for problems on kidneys and sexual performance on men. To decrease the incidence of these diseases on the sexual performance, all that has to be done is to change lifestyle habits. If you have diabetes of type II and you are overweight, to lose weight can help you to enhance a lot of things starting from your sexual life. There are treatments in general for weight loss, but if you are in the pursuit of an effective and safe product, the Lipobind is recommended for you. There are other treatments that can be more expensive and take too much time in showing results, what Lipobind offers you are the effectiveness of a weight loss program in a shorter amount of time and without having to get worried by annoying side effects.

It turns out to be that Lipobind works also as a nutritional supplement while it is working on helping you to lose weight. Adopting healthier life habits can help on the achievement of your goals. Decreasing the intake of calories has positive effects on the urinary tract; it can be achieved by replacing usual foods with high levels of carbohydrates with foods with low levels of fats and reducing the intake of calories per day in about six hundred calories.

Obesity is an epidemic that is affecting a lot of people and that is the source for critical health problems and concerns, however if it can be controlled in time with Lipobind.
Safety Information

It is alarming to see how many people are being affected by obesity and overweight, many health conditions can emerge as a result of overweight and if they are not controlled in time, they can become lethal for the patient. On the other hand is the aesthetic problem, given the excess of weight people affected by this condition find very hard to relate with other persons or to get involved on social activities, depending on the degree of overweight or obesity that is affecting the person excess of weight can also become a impediment for the normal development of daily activities.

People affected by overweight and obesity tend to develop diseases such as high blood pressure or diabetes, tendency to having heart diseases and given the cholesterol levels of the person it can lead to a heart attack. Hence the importance of controlling overweight before the problem gets worse.

There are many ways that are useful for the control of weight like diets and exercise routines, although most of the people are in pursuit of something faster and effective. This is the reason why diet pills are becoming more and more popular each day; therefore a team of health professionals of health have worked hard to develop the best formula used for the loss of weight, and this is Lipobind.

Lipobind is one of the best products for losing weight that is available these days on the market. It is becoming very popular in the media and among consumers given its great effectiveness and the benefits it provides for overall health. The intake of this product combined with an exercise routine and a healthy diet can provide healthier and faster results on the weight loss treatment.

Lipobind as its name suggests binds to fat particles to prevent the assimilation of up to twenty-five percent of the fat that can be found on foods. The fat that is not assimilated is dispatched through bowel movements. The method used by Lipobind is the most secure and healthier for weight loss.

The responsible for the formulation of Lipobind claim that the product is not only effective for weight loss but for gaining energy for daily activities and in the reduction of acne since each capsule content is the powerful combination of anti-oxidants and vitamins. They can make you feel and look much younger in just a few days of treatment. The method used by Lipobind is the most secure and healthier for weight loss.

Lipobind has an active ingredient known as Litramine responsible of the effectiveness of the products this is the part of the pill that helps on the elimination of about twenty-seven percent of fat (percentage can vary between persons).
Erin went from a size 12 to a size 3!

"I first ordered Lipofuze after I had tried to shed the 70 pounds I gained from my pregnancy on my own with no success. I had tried several over the counter diet pills as well as spending the majority of my time exercising. I started taking Lipofuze in October 2009 when I was a size 12. After Lipofuze I was back to my size 8 that I was before pregnancy.

I didn’t expect to lose anymore, but now in May 2010, I am wearing a size 5 and I am in the best shape I’ve been in since I was 12! At 29 I feel better than I felt at 18. I do go to the gym daily, but now it’s fun and easy. Lipofuze gives me extra energy, and I am actually sculpting my body now... something I never thought would be possible. This is the only diet pill that I’ve ever had such effortless results. With a healthy diet and exercise I am on top of the world, and will never go back to that other me. I would recommend this pill to anyone."

- Erin Warwick
Elijah went from **336 POUNDS Down to 232 POUNDS!**

"I've used lipofuze during the year 1/08-6/08 and during that time I went from 336lbs to my current weight right now at 232 lbs. Never in my wildest dreams would I picture myself fitting into a size 34 jeans where my first year in college I was squeezing into a 46!!! Lipofuze has changed my life in more words than I could describe, instead of watching life past me by I'm out there grabbing it by the reins and enjoying it!"

- Elijah Johnson

Heather has lost **40 POUNDS!**

"My name is Heather and for me, Lipofuze was a dream! I have never been fully satisfied with the way my body looked, I have a large rib cage and have been a swimmer all of my life, so my body structure has always been on the big side. When I stopped swimming, my body seemed to grow bigger by the day and it's hard to really notice when you are consumed with other responsibilities; however, one day I looked at myself in the mirror and was very unhappy with what I saw. I decided to go in search of some help. I read a bunch of reviews online and decided to go with Lipofuze.

With the first bottle of taking it I dropped around 20 pounds, and not just on the scale, people noticed...big time! My body looked like it never did before, even when I was around the same weight while swimming; it was really as if I was shrinking! Of course the first month was the simplest, but keeping with it, I changed my eating habits and exercised daily, I am now down about 40 pounds after not even a year!

I do not need to starve myself, if I feel like a cheesesteak, I will have one....but you have to know your limits. I will continue using Lipofuze for as long as it's out there, it has changed my physical appearance tremendously and I could not be happier! If you have any doubts, a picture is worth a thousand words, and I think mine are worth much more than that!"

- Heather Schnepp

Amy went from a size 14 to a **SIZE 6!**

"My name is Amy, I am 35 yrs. old. I started my struggle with weight loss at age 30. I was 25lbs over weight. I have tried every diet and exercise plan I could find but nothing seem to work for me. I did a little research on diet pills and found Lipofuze. I was amazed at the results. After receiving my first bottle of Lipofuze I had lost the 25 lbs. that had been bothering me. I have been taking lipofuze for 6 months. I have lost a total of 38lbs. I used to wear a size 12-14 but I am proud to say I am now wearing size 4-6. Thank you Lipofuze!!! I could not have done it without you."

- Amy Hildebrant

*Results in Testimonials are atypical and individual results may vary.

**Lipofuze vs Other Diet Pills**

There are so many fat burners on the market. How do you know which fat burners actually work? SIMPLE. Look at the science. By combining 5 clinically proven ingredients, Lipofuze presents the perfect formula to help you with one thing only: **LOSE WEIGHT!** This revolutionary thermogenic compound is the best fat burner on the market today. And Guess What? **IT'S BACKED BY SCIENCE!**
THE SCIENCE OF LOSING WEIGHT & BURNING FAT: I know you have heard over and over that eating less and exercising more is the only way you will lose weight the right way. BUT, THIS IS ACTUALLY NOT TRUE. Traditional weight loss usually happens in the form of losing water weight and muscle mass. This means you may have shaved pounds off of your scale, but you do not look like you lost any weight.

Of course, with regular exercise and a healthy diet, you are creating a healthier body and you may initially see the fat burner benefits. But, after the initial surge, most people hit a wall. EVEN WITH INCREASED EXERCISE AND LESS EATING, you will actually see a decrease in metabolic rate and energy levels. This is because your brain starts to work against you and decreases your fat burning process as it forces your body into survival mode.

Only by incinerating fat and increasing lean muscle, you get the right results. The good news is that LipoFuze has come up with the perfect way to do this. LipoFuze increases the metabolic mechanism in your body, increases essential fat burning enzymes, and suppresses your appetite to help you sculpt your body into perfect form as the best fat burner and muscle builder available. So how is this possible?

90 Day Money Back Guarantee!

LipoFuze is guaranteed to deliver weight loss success! If for ANY reason you are unsatisfied, return your order for a full refund (less shipping). The guarantee is good for one used and all remaining unopened bottles. Contact customer support to get started on your refund.
Green Coffee Bean Extract 50% Chlorogenic Acid - There’s been a lot of buzz about this ingredient since Dr. Oz featured it on his show. The active ingredient in Green Coffee Extract is chlorogenic acid. It boosts metabolism while inhibiting the release of glucose. Its effectiveness was recently confirmed in a human trial.

Subjects supplementing green coffee extract lost 10.5% of their bodyweight in just 22 weeks.

You can’t get these benefits of green coffee from a brewed cup of coffee. Roasting the beans removes the chlorogenic acid. Lipofuze contains a potent extract containing 50% chlorogenic acid.

Irvingia Gabonensis (7% albumins) - This proven weight loss ingredient is a rare extract that works by decreasing your appetite and increasing your body’s ability to burn fat. Several clinical trials have concluded that Irvingia Gabonensis significantly decreases body fat. In one study, the average subject lost 28.1 pounds!

Green Select Phytosome (Green Tea Extract) - This ultra-potent form of Green Tea targets stubborn fat cells throughout your body. In one clinical trial, 50 subjects lost an average of 30.52 pounds by taking Green Select Phytosome alone.
Co-EnZyme Q-10 - Co-EnZyme Q-10 plays an important role in metabolism. As you age, levels of Co-EnZyme Q-10 decrease. By replenishing your body with Co-EnZyme Q-10, you can increase your metabolic rate and increase your overall calorie burn.

Caffeine Anhydrous is known for boosting energy, alertness and focus. Many can't start a day without it. What you may not know is that caffeine helps increase energy expenditure (calorie and fat burning). As a matter of fact, in one clinical trial at the University of Denmark, subjects supplementing caffeine increased energy expenditure by 6%. While it's not nearly as impressive as the other ingredients in Lipofuze, it will help you reach your weight loss goals faster.

Q: Because Lipofuze is one of the top fat burners, can I lose weight too quickly with Lipofuze?
A: If you find yourself losing more than 1 pound per day decrease the dosage. Many customers in the past have had issues with losing too much weight with Lipofuze and we do not recommend trying to lose weight too fast. It’s not healthy to lose weight too fast and we suggest careful attention to how much weight you lose with Lipofuze.

Q: Do I have to Exercise and Diet to see results?
A: Even as a top fat burner, Lipofuze works best when used in conjunction with a healthy diet and regular exercise. Although Lipofuze can help you lose weight quickly, the best way to keep it off permanently is through proper diet and exercise. Note: Some users lose weight without changing their diets or exercising, but exercise and healthy eating are recommended for optimal results.

Q: How Long does each bottle last?
A: Each bottle of Lipofuze is a month's supply.

Q: Does Lipofuze Offer A Money Back Guarantee?
A: Yes! Each order comes with an iron-clad 90 day money back guarantee. In the rare case that Lipofuze doesn’t help you shed pounds of body fat, you can return your order of 1 used bottle and all other bottles unopened, in resealable condition for a FULL REFUND (less S/H). There are no hoops to jump through and no BS re-stocking fees. Simply contact our amazing customer support to get started on your refund.

Q: Does Lipofuze Work for Everyone?
A: No. About 1% of users generally do not feel completely satisfied with their results. Although a great majority of people lose weight, some feel that they have not lost enough weight or believe Lipofuze did not meet their expectations as one of the top fat burners. However, almost everyone immediate feels Lipofuze working and sees results right away. The best way to see if this product will work for you is to TRY IT TODAY! The best part is that if you try it and you do not feel you are getting your money’s worth, feel to free to request a refund and get 100% of the purchase price refunded. NO QUESTIONS ASKED!

Q: How Long Does Shipping Take?
A: To ensure prompt delivery, we ship each order within one business day. Domestic orders are shipped via FedEx Home Delivery (1-5 days), FedEx 2 Day Air, FedEx Standard Overnight, USPS First Class (2-5 days) and USPS Priority (2-3 days). International orders are shipped via FedEx International Mail (10-14 days) and FedEx International Priority (3-5 days, highly recommended).

Q: How Much is Lipofuze?
A: Lipofuze normally retails for 99.95, but through this limited time introductory offer you can buy Lipofuze for 49.95. That is over 50% off the retail price.
Lose weight without changing your lifestyle!
Effortless weight loss with America's #1 Diet Pill

- You can still eat your favorite foods.
- No change in exercise required
- Clinically proven to help you lose weight!

Success Stories

"It really does work, I lost 85 pounds in less than 12 months. Went from a size 16 to a size 2. A lot of people don't even recognize me anymore. I'm healthier and happier than I've ever been."
- Misty W.

"I've had 2 children in 2 years, and was feeling really ashamed of my body. I bought lipozene because I've used it years ago and it had worked wonders. So far I've one bottle in (5 days) and I've lost 11 pounds. IN FIVE DAYS! I haven't exercised, not even once. I hate drinking water and drink maybe 2 bottles a day, I'm amazed. I never get jitters or nausea from Lipozene, like with other diet pills. I literally just take it, never feel hungry, and I'm shrinking. Thank you Lipozene!"
- Elizabeth P.

"I've lost 40 pounds on the Lipozene program! I'm at the weight I was in my 20's and I'm 52 years old! I've recently gave the product to a friend at work because I have maintained the weight loss for 6 months now!"
- Sharon

SEE RESULTS LIKE THIS FOR YOURSELF!
I have been taking this product for about 3 months and have lost almost 2 pant sizes. I take it 30 minutes before I eat and move all throughout the day. I absolutely love this product. It is by far the best product out there for a mother of 7 who doesn’t have time to go to the gym.”

- Katherine

I started about 10 months ago and it is amazing!!! I eat one meal a day and maybe a snack. I have not only dropped 27 lbs but my stomach is almost completely gone. I am so thankful for this product. I have dropped 3 pant sizes, 3 shirt sizes and 2 underclothes sizes. Even my gloves are loose now!*

- Judith

I highly recommend this product to any one that’s trying so desperately to lose weight I’ve lost a great amount of weight in the past year. 2 thumbs up to the creator. Thanks Lipozene!!!!!!!*

Q: How does Lipozene work?
A: Lipozene creates a natural dietary fiber gel that makes you feel full, so you eat less, thus reducing caloric intake while adding healthy fiber to your diet.

Q: How do I take Lipozene?
A: Simply take 2 capsules, 3 times a day 30-60 minutes prior to each meal, for a total daily maximum dosage of 6 capsules. Make sure to take with at least 8 oz of water. It’s just that easy!

Q: What’s in Lipozene?
A: Lipozene contains Glucomannan, a 100% natural fiber derived from the Konjac root. It has been used for years to aid in weight and fat reduction, and to treat constipation, obesity, high cholesterol and type 2 diabetes.

Q: Are there any side effects to Lipozene?
A: There are no known side effects to Lipozene when taken as directed. This product have been proven safe and effective.

Q: How much weight will I lose?
A: Weight loss varies depending on each individual and their lifestyle, but Lipozene guarantees you will lose weight and body fat, or your money back! So there’s nothing to lose but those unwanted pounds.

Q: What is the weight loss Guarantee & Return Policy?
A: All products shipped by Lipozene have a 30-day money back guarantee! If you are not satisfied with your weight loss for ANY reason, simply call our customer service department at 1-888-220-8907 and we will issue you an RMA to return your purchase for a refund – NO QUESTIONS ASKED!

Q: What were Lipozene's clinical Study results?
A: In a double-blind placebo controlled clinical study, not only did participants lose weight, but 78% of each pound lost was pure body fat. What’s even more amazing is that participants were not asked to change their daily lives. In addition, the active ingredient, Glucomannan, has many studies documenting its myriad of health benefits separate from Lipozene.

Q: How does MetaboUp PLUS work?
A: MetaboUp PLUS contains green tea, which is proven to increase your metabolism safely so you burn more calories plus it contains added vitamins for a natural energy boost.

Q: What's in MetaboUp PLUS?
A: MetaboUp PLUS contains green tea, Kola nut and Vitamins B6 and B12 for sustained energy and a metabolism boost.

Q: Are there any side effects to MetaboUp PLUS?
A: There are no known side effects to MetaboUp PLUS when taken as directed. This product has been proven safe and effective.

Q: Are Lipozene and MetaboUp PLUS dietary supplements natural?
A: Yes! Lipozene and MetaboUp PLUS are natural and made with the highest quality ingredients so you can feel good about what you are putting into your body.

Q: Can you take Lipozene and MetaboUp PLUS with medications?
A: Lipozene and MetaboUp PLUS are natural; however, we recommend you consult your health care provider before taking any weight loss supplement, including Lipozene and MetaboUp PLUS.

Q: Where is Lipozene and MetaboUp PLUS made?
A: Both products are made in the USA with quality imported and domestic materials to give you the most effective product at the best possible price.

Meratol Can Enhance Every Aspect Of Your Weight Loss!

In Just ONE Supplement

Watch the video above to see “The Only Way Is Essex” star Lauren Goodger talk about how Meratol™ has helped her keep her sexy figure.

If you’re finding it difficult to stay focused when trying to losing weight, Meratol™ can help thanks to:

- Increased metabolism
- Increased energy
- Increased attention and alertness
- Reduced fatigue

Which is probably just what you want to hear ... because trying to keep up with today’s hectic lifestyle, while ensuring you’re looking and feeling great, is a difficult task.

So many things to juggle successfully ... like your job, social life, relationships, family, kids, hobbies, the list goes on . . . then of course you are supposed to find time to exercise too.

It makes you tired just thinking about it, right?

I would recommend

I now have a great relationship and attitude toward food and exercise. I will be able to teach my
daughter that a healthy diet and exercise not only help you feel great physically, but mentally as well. I would recommend the Meratol™ to anyone who is serious about his or her weight loss.

B. Bellham

So you try and take the right steps. For instance, we all know eating a good, balanced diet and exercising regularly improves our health and fitness, makes weight management easier and reduces our risk of getting cancer, diabetes and heart disease.

But in today’s fast paced environment fitting everything in can be so difficult. Where do you find the time? How do you juggle so many balls?

Imagine a diet without any restrictions... every other day

As a leading Professor of Medicine Dr Alfred has developed a reputation for his vast medical knowledge, clinical expertise and dedication to helping individuals maximize their health.

His most recent research has been on how the body responds to alternative-day calorie restriction by triggering the SIRT1 gene, otherwise known as the ‘rescue gene’. Based on his scientific research on alternative-day calorie restriction this has led him to the conclusion that this lifestyle change can offer many benefits, such as weight loss, increased lifespan and lowered risk of disease.

Today with your order you will receive Dr. Alfred's Fast Track Formula that will teach you how to make these lifestyle changes so that you can lose weight and enjoy the many other health benefits, ABSOLUTELY FREE!

Also along with this Fast Track Formula you will also receive information from Dr. Alfred and his team giving you weight loss tips and advice. You will also be able to contact his team for any help and advice you may need!
Some of the benefits of Dr. Alfred’s Fast Track Formula are:

- Lose excess weight
- Enjoy the foods you would like... without the guilt!
- Gain energy
- Increase endurance
- Sharpen your mind
- Sleep better

Order Now And Receive The Fast Track Formula ABSOLUTELY FREE!

Meratol™ Your Helping Hand...

Meratol™ is a food supplement designed to be taken as part of a healthy diet and exercise regime. It’s not designed to replace a good diet and exercise, it’s designed to help and enhance it.

And remember... life shouldn’t be about how big you are, it should be about how energetic and confident you feel! But as Meratol™ is a food supplement you take with a normal balanced diet, it can help with both.

In fact taking it may just be the motivation you need to stay on track and reach your goals!

Meratol™ contains capsicum (chilli), prickly pear, brown algae and caffeine. Which means it can help increase attention and alertness, support performance and capacity, exercise endurance and can help increase metabolism.

Meratol is a lifesaver

Now I have been using Meratol™ for 11 weeks and I have to say: it really works. I have not only lost 32 lbs. but I also haven’t seen any sign of side effects. Meratol™ is a lifesaver. I have already recommended it to many of my friends.

T.Patrick

ALL of which are extremely useful when you are trying to achieve a goal!
Yes, when you purchase Meratol™, you’ll be in good company.

**Lauren Goodger from The Only Way Is Essex is a fan.**

When you’re on TV you need to look your very best and we all know . . . the camera has a nasty habit of catching you out.

The tabloids and glossy mags are full of celebrity body ‘mishaps’, so life in the spotlight means celebs have a full time task looking good.

By taking Meratol™ along with following a healthy eating and exercise regime, you can soon feel more like a celebrity yourself!

Life’s all about how you feel and it’s easy to improve how you feel about yourself, if you stick to a few simple principles:

- Eat well
- Exercise regularly
- Aim for a balanced diet
- Stay focused
- Look at yourself with confidence

Don’t forget, if you’re finding it difficult to stay focused when trying to losing weight, Meratol™ can help you.

**From a size 12 to a size perfect size 8**

_I have now lost 2 stone and I have gone from a size 12 to a size perfect size 8._

_A.Walker_

It can help increase metabolism, energy, attention and alertness, and of course reduce fatigue.

All very important for so many aspects of your life.

And Meratol™ may also reduce calorie intake, block carbohydrate intake, burn calories and reduce food cravings.

So you are obviously ready now to make a start, set your goals and stick to them, right?

**Let Meratol™ help you, starting right now, TODAY.**
Don't put it off, because the sooner you get started towards your goals, the faster you could achieve them. **How good will that feel?**

And remember ... the more Meratol™ you buy, the more planning ahead you’ve done and **the more likely you are to stick to your goals** ... so we have some great offers for you.

**Order Meratol™ right now and take advantage of our incredible special offers.**

**In just 2 weeks I lost 7 lbs**

Weight was never an issue for me as much as it was a preference. I can’t say I have ever been overweight however I have always had the urge to lose just a few extra pounds. I have looked into several weight loss pills which scared me away. I wasn’t prepared to gamble with side-effects especially since my weight loss needs weren’t exactly urgent. Meratol™ was the only food supplement pill I could find that was completely side effect free and actually good for my health. In just 2 weeks I lost 7 lbs. and felt a big improvement in my overall health. I would recommend Meratol™ as both a weight loss pill and as a good dietary supplement.

J.Graham
Meratol’s Ingredients Are Backed Up By Clinical Studies …

There are many nutrient based supplements available these days. As science catches up with nature we find new powerful properties in the natural things all around us.

In fact foods and nutrients have been used across the globe for healing and self improvement purposes for thousands of years. Many people and indeed entire civilisations have relied on them exclusively.

And the good thing is that supplements based on natural ingredients don’t need a prescription and are usually side effect free.

When you buy a food supplement to help you reach your goals, it’s always good to see some clinical studies on the ingredients, to show they are effective.

Below you’ll find links to 3 clinical studies regarding the ingredients of Meratol™.

You can read the brief summary below and click on the image to read the full report.

---

CLINICAL STUDY 1: Evaluation Of Cacti-Nea™’s Diuretic Effect In Women Showing Water Retention.

- Very positive results on a normal population (BMI between 20 & 25):
  - Progressive induction of body water mass loss (linked to the diuretic effect already highlighted in the in vivo rat study)
  - Limitation of fat mass gain
  - Help for weight control / moderate weight loss
  - No side effect on blood pressure
Preserved mineral balance

Conclusions
A particularly receptive population confirms the WEIGHT MANAGEMENT & WELL-BEING potential of the ingredient Cacti-Nea™

These results suggest that Cacti-Nea™ could have a beneficial effect on some kind of cellulite (adipose, aqueous or mixed cellulite)...

For example, the significant effect of Cacti-Nea™ observed on ankle circumference reduction is to be linked with aqueous cellulite.

CLINICAL STUDY 2: Evaluation Of ID-Alg™s Weight-Management Effect On Overweight Women.

This is the first clinical study designed to evaluate the weight management properties of ID-alG™ (a brown seaweed extract) on human.

The preliminary results on rats were already very positive: they highlighted that ID-alG™ was able to reduce the negative effect of a hypercaloric diet on body weight and body fat gain.

This clinical study was designed to confirm these results on human. Being a first clinical study, the inclusion criteria allowed a wide range of BMI: from 28 to 39.

As a conclusion, we can say that this study was successful and allows to confirm the full range of weight-management properties of ID-alG™: weight-control, reduction of fat storage/body fat mass, caloric intake control without frustration nor lifestyle modification...

Moreover, no side effect and no adverse event were reported, which represents an essential advantage for ID-alG™ as an efficient weight-management ingredient.
CLINICAL STUDY 3: Capsaicinoids and Red Pepper Human Studies Review

Carbohydrate oxidation was significantly higher and lipid oxidation significantly lower in the red hot pepper diet than in the control diet.

The addition of red pepper significantly increased lipid oxidation in the HF meal while the same significantly decreased the carbohydrate oxidation in the HC meals. The above findings have shown that red pepper increases both diet induced thermogenesis and lipid oxidation.

As You Can See The Ingredients In Meratol™ Have Positive Outcomes In These Clinical Trials

Meratol™ is a legitimate product, has been featured in the press, on TV and has a celebrity following.

Because Meratol™ contains the all natural ingredients capsicum (chilli), prickly pear, brown algae and caffeine, it can help increase attention and alertness. It can also support athletic performance, increase exercise endurance and speed up metabolism.

So Don't Delay, Order Your Very Own Helping Hand, Meratol™ Right Now.
See What Some Of Our Excited Customers Have To Say About Meratol™ ...

As you can imagine, we love hearing about how our product has helped people feel better about themselves. How Meratol™ actually did what they thought it would do and made a positive difference in their life.

Most people have experienced let downs when it comes to so called food supplements, but you’ll be pleased to hear that Meratol™ works.

It can make a real difference to how great you feel about yourself, by helping you to reach your dieting goals, while supporting your body and providing an increase in energy.

Remember ... Meratol™ is not just one supplement but a combination of 3 powerful products in ONE.

So to let you see what other customers are saying about Meratol™, here’s a small selection of thanks we’ve received ...

**The results have been fantastic**

"I have been using Meratol™ for just over a month and the results have been fantastic - I have lost a stone, but feel like I haven’t had to deprive myself from eating anything that I wanted to. It’s especially useful for helping to cut down your portion sizes if you’re like me and have little self control when it comes to your favourite foods, but after using Meratol™ for a month I didn’t even have to struggle to eat less as my stomach capacity seems to have reduced by itself"

J. Chambers

**I would recommend**

"I now have a great relationship and attitude toward food and exercise. I will be able to teach my daughter that a healthy diet and exercise not only help you feel great physically, but mentally as well. I would recommend the Meratol™ to anyone who is serious about his or her weight loss."

B. Bellham
From a size 12 to a size perfect size 8

"I have now lost 2 stone and I have gone from a size 12 to a size perfect size 8."
A. Walker

My partner thinks I look great too!!!

"I have just bought a dress for my brothers wedding and when I looked in the mirror I felt fantastic. My partner thinks I look great too!!!"
J. Kidd

Eating habits have totally changed

"I have more energy and my eating habits have totally changed."
L. McLaughlin

In just 2 weeks I lost 7 lbs

Weight was never an issue for me as much as it was a preference. I can't say I have ever been overweight however I have always had the urge to lose just a few extra pounds. I have looked into several weight loss pills which scared me away. I wasn't prepared to gamble with side-effects especially since my weight loss needs weren't exactly urgent. Meratol™ was the only food supplement pill I could find that was completely side effect free and actually good for my health. In just 2 weeks I lost 7 lbs. and felt a big improvement in my overall health. I would recommend Meratol™ as both a weight loss pill and as a good dietary supplement.
J. Graham

Powerful weight loss pill exists without any side effects

When I first heard about Meratol™ I was a bit sceptical. It was hard to believe that such a powerful weight loss pill exists without any side effects. As my situation got more and more desperate I decided to throw caution to the wind and order my 6 month supply of Meratol™.
S. Hood
Meratol™ is a lifesaver

Now I have been using Meratol™ for 11 weeks and I have to say: it really works. I have not only lost 32 lbs. but I also haven't seen any sign of side effects. Meratol™ is a lifesaver, I have already recommended it to many of my friends.

T. Patrick

I actually lost 25 lbs. in 3 months

I battled my weight for over 8 years before I heard about Meratol™. During this time I tried every kind of diet you can imagine. Some diets worked a bit, other didn't work at all, but in the end I always gained back what I had lost. My motivation was drained and I accepted the fact that I was going to be overweight for the rest of my life. Meratol™ changed all of this around for me in a single pill. I couldn't believe it but I actually lost 25 lbs. in 3 months. Meratol™ is simply the best food supplement for losing weight.

R. O'Neil

We're Proud To Say, There Are Some Very Happy Meratol™ Customers Out There!

Meratol™ is a legitimate product, has been featured in the press, on TV and has a celebrity following.

You can read the clinical trials on the site regarding the all natural ingredients in Meratol™, for your peace of mind.

'Losing a stone has made me more confident': TOWIE's Lauren Goodger shows results of 'no carbs before Marbs' in bikini

By JURY RULLET
Last updated at 12:18 PM on 20th March 2011

Lauren Goodger shows off her bikini body.

Her new-look will be on show at the TOWIE launch event on Monday.

The Made in Chelsea star has lost nearly a stone since January, and her weight loss has been attributed to her 'Marbs' diet.

The 25-year-old has been following a 'no carbs before Marbs' diet, which she said was inspired by Paloma Faith's Pitchshifter hit, because she is trying to lose weight in time for her bikini launch in Chelsea.

In the past, Lauren has been open about her struggles with weight loss, and has revealed that she has been on a strict diet for several years.

Her new-look was revealed on Monday night at the TOWIE launch event in London, where she looked stunning in a black and white bikini.

Lauren Goodger is a member of the cast of the reality TV show Made in Chelsea, and is known for her outspoken personality and her weight loss journey.

The show follows a group of young women as they navigate the world of fashion, beauty and social events in London.

Lauren Goodger is a former contestant on the reality TV show The Only Way Is Essex (TOWIE), and has also appeared on Celebrity Big Brother.

She has been open about her weight loss journey and has been:self-esteem and confidence.

‘LOOKING FAT ON TV MADE ME DIET’

Lauren Goodger, 24
Height: 5’3"
Starting weight: 14st 6lb
Weight now: 11st 8lb

Wearing a grey tracksuit and with wickers
in her hair, The Only Way Is Essex star Lauren Goodger clings to her cup of tea as though her life depends on it. She’s feeling a little fragile after attending the wrap party for the second series.

And what an ending, pushing favourite Mark Wright into a role after yet another row.

Stiffing for years, Lauren seems rather uncharacteristic of her desperation to know what’s on earth happened next.

‘I don’t think I was ever this last time we got it all over me, he said. ‘I’ve been on the fence and sitting with my head in my hair, in the end I had to go home. I had to think about it and make a decision.

But surely the fact that Mark threatened to leave her if she got fat had something to do with it?

‘He was never one to talk about his life, she said. ‘We’ve been together on and off for over 10 years and even when he’s been with me, he’s been with weight and fitness. He’s got much more to offer if I take that he’s fat. I couldn’t be that, it would drive me mad.”

However, that’s not to say that Lauren hasn’t tried the odd diet or two over the years. And not all of them entirely sensible.

“I lost 1st in just ONE MONTH’

NURATRIM’S UNIQUE FORMULA PROVIDES COMPLETE WEIGHT LOSS SUPPORT

Reduce appetite
Help increase metabolism
Help increase your energy levels
Help lower calorie absorption
Drug Free
Experience Results within a few days

Nuratrim formula works by helping boost energy levels, digestion and metabolism.

With higher energy levels it makes it much easier to find the motivation to exercise and burn additional calories. At the same time Nuratrim improves digestive regularity, which lowers the amount of calories your body absorbs from the food you eat. It is aimed at reducing your appetite and increasing your energy levels for maximum body mass loss.
Glucomannan
Glucomannan is a water-soluble dietary fiber that is derived from konjac root (Amorphophallus konjac). A variety of studies show that Glucomannan reduces appetite and food cravings.

Licorice Extract
Results of a clinical study published in a journal called Obesity Research and Clinical Practice show that Licorice taken as a supplement could help speed up metabolism among people who take it in conjunction with a regimen of diet and exercise. Researchers observed 84 participants who were moderately overweight and were made to consume the same calorie count. Some were given placebo pills. They found that people who took 200mg of licorice extract daily for 8 weeks experienced significant decreases in body fat, body weight, body mass index, and LDL cholesterol levels.

Green Coffee
An independent, double-blind, 4-week clinical study was undertaken on 62 healthy volunteers, which compared volunteers using green coffee extract supplement and a placebo. The results concluded that overall, the average weight loss in those participants taking green coffee was 3lbs. Specifically, the study revealed that 75% of the volunteers lost on average 3.5lbs over 2 weeks, and 80% of the volunteers lost on average 4.5lbs over 4 weeks.

Capsicum Extract
"Nuratrim contains a proprietary blend of capsicum extract (from hot peppers), caffeine, piperine (from black pepper) and niacin (vitamin B3). In a clinical study conducted at the University of Oklahoma, Nuratrim was shown to help participants burn an average of 278 more calories before, during and after exercising on a treadmill for one hour. This is because Nuratrim's blend works to increase resting metabolic rate and energy expenditure, as well as burn carbohydrates and fat.

IMPORTANT FACTS ABOUT NURATRIM

Q: Are you experiencing it harder to shift excess weight from certain areas?
A: Nuratrim is scientifically designed to help remove excess weight.

Q: Are you finding it harder to enjoy indoor and outdoor activities?
A: Being overweight makes it hard to enjoy even basic activities. Nuratrim helps support your goals and allows you to keep doing the things you love.

Q: Is your body getting the long term support it needs?
A: As we age our bodies naturally slow down, decreased metabolism means it is harder to burn off those extra calories from the food we love. Nuratrim is a natural metabolism booster and will help your body reduce body mass as much as possible.
OUR 60 DAY GUARANTEE

Purchase any Nuratrim product with confidence, knowing that it’s backed with no risk, no hassle 60-day money back guarantee.

If you want to take advantage of our Special Savings by ordering multiple containers you can still try the product absolutely RISK-FREE for 67 days!

This guarantee includes all Nuratrim products including the meal replacement shakes.

- Reduce your cravings

Clinically Tested Ingredients, Clinically Proven Results

Green Tea

- Studies show that green tea can increase your metabolic rate safely and without side effects. In other words, it can help you raise your metabolism and burn fat ... without exercise! Green tea also contains Theanine, a naturally occurring amino acid that helps you relax and promotes a sense of well being by boosting GABA levels (another “feel good” neurotransmitter) in the body.

Among the studies concerning green tea’s effect on weight loss were these recent Japanese studies:

- **Study #1** - Ingestion of green tea leads to a reduction in body fat and malondialdehyde-modified LDL in men. In the study, 38 healthy Japanese men were divided into two groups and fed the same diet. One group consumed a bottle of tea containing 690 mg catechin antioxidants per day. After 12 weeks, body weight, BMI, waist circumference, body fat mass and subcutaneous fat area were significantly lower in the green tea extract group than in the control group. [5]

- **Study #2** - A green tea extract high in catechins reduces body fat and cardiovascular risks in humans. In the study, Japanese women and men with visceral fat-type obesity were recruited for the trial. After a 2-week diet run-in period, a 12-week double-blind parallel multicenter trial was performed, in which the subjects ingested green tea containing 583 mg of catechins (catechin group) or 96 mg of catechins (control group) per day. Decreases in body weight, body mass index, body fat ratio, body fat mass, waist circumference, hip circumference, visceral fat area, and subcutaneous fat area were found to be greater in the catechin group than in the control group. [6]

- **Study #3** - In a small study of 10 healthy young males green tea extract was found to cause a 4% increase in thermogenesis, with an overall energy expenditure increase of 4.5%. [7]

Guarana

- which is a creeping shrub native to Venezuela and northern Brazil in the Amazon rain forest, is one of the world’s richest sources of caffeine. Guarana seeds are also rich in tannins and xanthine alkaloids theobromine.

Damiana

- is found in Mexico, Central America, The West Indies and South America. It is renowned as a male and female sexual stimulant as well as a weight loss supplement. It helps raise your body’s metabolism and it increases your energy level. On top of all that, Damiana works as a laxative which will help remove toxic waste from your system.
When combined with Yerba Mate and Guarana, we’ll tell you more about this unique combination in a minute, Damiana has been scientifically proven to produce weight loss results by making you feel more full than you are.

**Yerba Mate**

- is a tree native to the rainforests of South America. It is known to promote weight loss and to boost heart health. It can also be used as a pain and headache reliever and energy booster.

When combined, Guarana, Damiana and Yerba Mate produce some incredible weight loss benefits as evidenced by these studies:

- In a 2001 study conducted by Dr. Torben Andersen at Charlottenlund Medical Centre in Denmark, 47 healthy overweight patients used an herbal combination of guarana, yerba mate and Damiana for 45 days. They ended up losing an average of 11 pounds (5 kilograms). The difference was significant when compared to the placebo group, which lost only an average of about 1 pound (0.45 kg). Also noteworthy, the herbal combination delayed gastric emptying by 20 minutes, which means a longer feeling of fullness after eating a meal. [9]

**Resveratrol**

- is an antioxidant found in red wine, grapes and grape juice that is believed to help boost endurance, prevent weight gain and improve energy.

Among the studies conducted on resveratrol are:

- In one study, resveratrol was shown to kick start the SIRT1 gene, which is thought to aid in fat burning. SIRT1 is believed to halt the formation of immature fat cells which can grow into dangerous abdominal fat. [12]

- Resveratrol has been shown to halt the formation of baby fat cells, thus providing an effective tool for the millions of people looking for a natural weight loss aide. In a 2006 study, scientists found that overfed mice stopped gaining weight when given resveratrol. The mice also became more fit, healthier and slowed down their aging process. [13]

**Siberian Ginseng**

- has been widely used for centuries in Eastern countries such as China and Russia to prevent colds and flu and to increase energy, longevity, and vitality as well as to help the body better cope with stress. New studies are also showing that it is highly effective for weight loss and diabetes control.
Among the studies conducted on Siberian Ginseng are:

- One study published in the Phytotherapy Research Journal showed that ginseng effectively inhibits differentiation in the cells that store energy as fat, making the cells less able to complete the fat storage process.[14]

### Pomegranate Extract

- derived from the pomegranate shrub, or tree, this powerful nutrient has been shown to clear dangerous triglycerides (blood fats) before they are converted to a form of fat which can be stored in our fat cells.

This is important because lowered triglycerides have been shown to reduce the risk for heart disease and death from a heart attack.

Among the studies conducted on pomegranate:

- In a study performed at the University of Edinburgh and reported by the Daily Mail consumption of pomegranate for 30 days was found to sufficiently lower a person’s risk of developing fatty cells around the abdomen. [15]

I am pleased to have a product such as Nutres that I can recommend as a treatment for my patients who suffer from being overweight and weight-related medical conditions.

I am a mum for two and have a wonderfully rewarding career that both keep me busy through the day. My doctor can tell me I should exercise more, but honestly when would I find the bloody time? Nutres allows me to feel healthier, it helps me lose weight while still focusing on what matters most to me. Thanks to Nutres!
Rosemary C. Lost 25 pounds in 1 month!* 
I weighed so much that I was embarrassed to be seen at the gym. That means there is no way to work the weight off. I was stuck, too self-conscious to go the gym but still too fat. Nutres put paid to that, it gave me the boost I needed to lose weight. Now I do go to the gym three times a week, not because I have to anymore, but because I bloody well love going!*

Steven K. Lost 41.5 pounds in 5 weeks!* 
It is not as if I shove everything I want in my mouth. I just have one particular

Real Science ... Real Weight-loss!
It is not as if I shove everything I want in my mouth, I just have one particular weakness I crave a few times a week, Toad-in-the-Hole. I knew I was gaining weight but why would I have to give up my favorite food in the whole world just cause it makes me a fat git? Thanks to Nutres I do not have to worry.

We were cleaning up the attic one day when I came across boxes upon boxes of clothes. Those were all the clothes I had moved up there over the years because they no longer fit me. I decided to stop faffing about and I went out that day and purchased Nutres for the first time. I flogged me fat clothes and decided wear the old clothes!

Quitting smoking was one of the hardest things I've ever done in my life. I am quite chuffed I haven't once regressed and picked up another cig. But instead of my fags, I found I was reaching for cookies, crackers, whatever was around to settle me down. It wasn't long till I felt big as a house. Nutres keeps me from eatin' the damn house!
Kate T. Lost 23 pounds in 1 month!*

My doctor had said that if I went through menopause one of the side effects for most women is weight gain. He told me that there was little to nothing I could do about it, it is a simple physical reaction to the hormones in your body, I still hear him saying that. Not blooming likely my doctor ever heard of Nutres though.*

Anne R. Lost 29 pounds in 1 month!*

When me and my husband were going on Holiday I did not like the way I looked in a bathing suit at all. Nutres promised results that would not take months to see, I figured I’d be barmy not to try it! After seeing the results it had on me, I
still use it this very day because of what it done for me. *

My husband and I met very early on at university and we have not been apart since. As I got into my late 20s and early 30s I started to gain weight as I suppose is normal for a woman who becomes older. It was an inconvenience and frustrating because I had to get some of my clothes tailored a bit round the waist, but I was not too worried about the weight I had gained.

I was feeling quite self-conscious about my weight one night though and for some reason while laying in bed I asked my husband if he thought I still looked as fit as when we met. What I was after obviously was some confirmation. But when he hesitated I was quite taken back, my husband, usually would bite your arm off to give me some kind words. At first I thought he was taking a mickey, but I could see he was choosing his words! I was brassed off.

That is when I knew I wanted to change the way I looked. I came across an ad for Nutres while browsing online one day and decided to look into it cause I had bugger all to lose. When I looked at the ingredients it contained it sounded top, I already knew green tea is supposed to help a person feel better and be loaded with antioxidants.

After taking Nutres for a little more than a month I felt fantastic. I had lost quite a bit of weight and I felt like I had years before that. I am well pleased with the results and it is one of the best feelings knowing that now I can go out with my husband and he will be proud of me, her certainly has been snogging me quite a bit more! *
Mary S. Lost 56 pounds in 6 weeks!

I have always been a bit bigger. I was bigger than the other girls were in my class. When I was bigger, I found comfort in food, which lead to more weight gain, which coincidently led to more eating to feel better about myself. I felt like a bloat but kept eating anyway. I would turn to a packet of crisps to feel better, but it only lasted a moment. Don’t want to winge but it is hard.

I tried several crash diets; I have tried Trimspa, the Atkins diet and even that bloody awful juice diet that made me run to the loo more than I care to recall. Every time after I had lost the weight it made its way right back, sometimes if I would lose ten pound, gain twelve, it was enough to drive me nutty.

Honestly I would just like to shop at the mediums or petites, I always found the clothing for the larger women was never as colourful, I especially found this to be true when it comes to clothes for summer. I had finally had enough and I decided if nothing would work, I might have to get surgery to get my stomach with one of them bands. Before I did, I said sod it, lets give Nutres a go.

Bloody hell am I happy I did too! Thanks to Nutres I was losing weight in the first two weeks, and the difference all the previous product, the weight kept off. It promised I could eat and would not have to work out; it delivered on all those promises. Now when I am shopping I can look for the clothes that I like, I can finally wear a smaller size. Nutres made me feel drop in my appetite I have notice that. I feel great about myself again. I think I look fab!

Steven T. Lost 38.5 pounds in just 6 weeks!

When I was younger, I actually played quite a bit of football twice a week and of course practice once a week. As a winger, I would be all over the pitch and a few pints after the game or during the week did not make a difference. It
seemed that my metabolism could handle anything. My mom always had a bit of a laugh with me that if I ever stopped playing football I would balloon. I laughed it off at the time, but after I had two serious ankle injuries in my 30s I stopped playing. When I stopped playing it turns out my mum had been right, I almost immediately started gaining weight. It is hard to give up certain foods if you never have had to do so before. Before if I wanted a second helping I would just get it, now with me being unable to play football anymore, it seemed those days were over. I gave it a welly at first but decided I was just a lazy sod.

When I saw an ad for Nutres, it promised to allow me to lose weight without having to change diet and exercising. Because I was unable to exercise anymore and never once thought I would have to change my diet, I did jump at the opportunity, though a bit sceptical at first at the promised results.

This product was different from the other weight loss supplements on the market; they promised all-natural ingredients, which is important to me because I do not want to mess about with chemical. After the first week I had started to feel like my pants were getting a bit loose around my waist and my thighs, three weeks later I had to go out and buy new pants because my old ones were too big. I don’t have to give up getting a pint with me mates, and still lose the weight...brill.

In my teens, I used to be quite fit. But, as I grew older I focused more on my career rather than what I looked like. I sat at the office and instead of running somewhere for some healthy grub I’d rather go round the corner and get a kebab or some chips instead, and back to the work.

If you do not exercise and simply sat at your desk all day, you gain quite a bit of weight I learned. The problem was that at first I never noticed it, if you look at yourself every day you do not notice the gradual weight gain. After a while, I stopped wearing a belt, and still did not pay attention to the fact I was becoming a blob. When I finally needed my tuxedo pants for a posh gala, I noticed how well fat I had gotten.

My tuxedo pants did not fit at all, I laid on the bed holding my breath nothing was working, I felt gutted cause I knew there was simply no way they were going on that day. That is when I realized something had to change and I had to lose weight.

Eating healthy is difficult when you are at the office all day, and after a long day at work I certainly do not feel like heading to the gym and working out, I am knackered enough from work without having to go sweat on some bloody exercise bike. A mate of mine told me about Nutres and how it was different from Cyclotrim or Slim Bomb.

My experience with Nutres has been a positive one. I found Nutres to become indispensible for my lifestyle as it has no known problems (all natural, no headaches, nothing like that) after a week of taking this all-natural product I already knew it was working.*
My whole family has always been large, my mum was too fat, my dad was too fat and both my two brothers were too fat from a very early age! You might say it is an excuse but fact is I never learned what I should be eating, me diet was piss poor.

I have tried a few diets before, I’ve tried me most of the fads people went on about such as South Beach and whatnot, tried a few diet pills but none of them worked for me. If I do not eat, all I end up with is a headache from wanting certain foods and I feel lightheaded and cheesed off at the world. It is bloody hard to stay motivated when you feel a right mess. I can’t be fagged to stick to any sort of diet because I cannot and will deprive meself of some of my favourite foods.

I never thought I would ever lose the weight, matter of fact my doctor had told me that I would have eventual problems with my knees because I was too fat to carry about. When I heard of Nutres I sensed it sounded a bit dodgy to me to be honest. I’d only ever heard that dropping fat was not supposed to be that easy.

Well that is nothing but a load of bollocks! I took Nutres and I felt like I was getting a crank on the inside that turned up the steamer. I did not have any side effects I had experienced with a few others, caffeine pills for example, those made me hands shake and made me feel sick in me stomach, Nutres only made me feel better. The weight went away like that, you wanna lose weight? Take Nutres and Bob’s your uncle!*

Matthew C. Lost 61 pounds in 9 weeks!*
I tried just about every diet pill ever on the market with varying results. Nutres is the first supplement though that combines all the benefits I need in one. I feel less hungry, I can feel my metabolism going strong, I am full of beans! Nutres combines all the benefits in one which means I only have to take that instead of all sorts of other pills.*

Was this review helpful? YES NO

I am pleased to have a product such as Nutres that I can recommend as a treatment for my patients who suffer from being overweight and weight-related medical conditions.

Product Information:

What is Nutres?
Nutres is a revolutionary weight loss product consisting of 9 all-natural ingredients - each of which has been scientifically proven to help you lose weight.

How Does Nutres work?
Nutres's potent ingredients have clinically-proven characteristics which work internally with your body to speed your weight loss, curb your cravings, make you burn more energy, and make you feel full. To learn more about how Nutres works - click here.

Is Nutres fit for all types of people?
Yes, Nutres is recommended for both men and women of all ages and of all ethnic backgrounds. Unlike other diet pills, which are designed for specific groups (like obese teenagers or bodybuilding men) Nutres is fit for all types of people, of all ages and backgrounds. To see Nutres results - click here.

How many capsules do I take each day?
Take 2 easy to swallow Nutres capsules a day, one in the morning and one in the evening. You may take them with or without meals.

What are the risks and restrictions associated with Nutres?
In general, Nutres is safe for use as all ingredients are 100% natural and found in various foods we eat. Please follow our guidelines below:

- **Taking Nutres while on medication or antibiotics:** No interaction between the components of the formula with medicines has been reported to date. However, if you have any known sensitivity to the ingredients of Nutres, we recommend you consult with your physician before taking this or any dietary supplement.

- **Taking Nutres while pregnant:** Since Nutres is made of ingredients found in foods eaten, and does not contain any chemicals; there is no foreseeable risk in taking Nutres while pregnant. However, although it is a rarity, if you have any sensitivity to the ingredients of Nutres, we recommend you consult with your physician before taking this or any dietary supplement.

- **Nutres for Diabetics:** Nutres is safe for diabetics and contains ingredients (Ginseng) which have been shown to help reduce blood sugar and help support normal blood sugar levels. (Read More about this in the ingredients section)

- **Possible Allergic Reactions:** As with any edible product, a small number of people may experience allergic reactions to certain herbs. If you are one of the very rare people that may have sensitivity to any of the 9 ingredients in Nutres, you will need to consult your physician before taking Nutres.

- **Dosage:** Only take as directed. Do not take more than the recommended dose of 2 capsules per day.

Where is Nutres made?
Nutres is made in the UK.
Payment and Delivery Information:

What payment methods do you accept?
We accept Visa and MasterCard, both debit and credit cards.

Lose Weight Faster & Easier Than Ever Before!

Phentemine375

✔ Ultimate weight loss diet pills!
✔ Manufactured in FDA registered facility!
✔ Pharmacy quality, currently no prescription required!
✔ Maximum appetite suppression!
✔ Supercharges metabolism!
✔ Supercharges energy levels!
✔ Averaging 3 to 5 pounds per week weight-loss!
✔ Turns you into a 24hr fat burning machine!

Imagine yourself using Phen375 to effortlessly become slimmer super-fast. Any doctor or nutritionists will tell you that in order to lose weight, you have to eat less to burn more calories. Losing the extra pounds will not only make you feel better, but you will also look better.

Phentemine375 can make this process much easier and faster for you.

Consuming excessive calories without burning it off normally results in fat. Phen375 helps you by controlling your appetite; allowing you to make sensible dietary choices. While using Phen375, you will consume fewer calories and lose the weight quickly, safely, and with confidence.

Phentemine 375 is a unique diet pill that burns fat and suppresses the appetite. Manufactured in a USA approved lab (certificate), Phen375 has proven in users an average weight loss of 25lbs in just 6 weeks.
Liposuction surgery only removes 4 to 6 lbs. The average cost for a liposuction surgery ranges from $4000 to $6000. That is about $1000 per pound. **Phen375 costs much less and with no horrible side effects!**

**Try Phen375 Fat Burner Today! Click here now!**

Phentemine375 Weight Loss

Buy Phen375 and start Losing Weight today!

Phentemine 375 (Phen375) is the result of an ongoing research venture into the global best-selling Phentemine diet pills. These amazing pills have been long recognized as the most powerful suppressant and fat burner to ever exist.

Phentemine 375 consists of every property that has made Phentermine so effective in promoting weight loss. Yet, Phen375 has alleviated every negative side effect associated with the original diet pills, the Phentermine drug, which is currently banned due to regulations.

Released in 2009, Phen375 is a 100% legal weight loss diet pill that contains some of the most powerful fat burning ingredients ever developed. These ingredients not only work to supercharge the metabolism, suppress the appetite, and breakdown fatty tissue, but, more importantly, they work to decrease the body’s ability to store fat.

Phentemine 375 was developed to stop cravings that normally cause diets to fail before they even get started. In fact, with Phentemine 375, a strong willpower is not necessary. Its powerful appetite suppression means that your cravings are kept under control. While using Phen375, you will benefit from a much easier weight loss experience.

By taking Phen375 you will experience:

- Weight loss of 3lbs-5lbs per week (on average)
- Increase your body’s fat burning ability
- Increased metabolism
- Suppressed appetite

Phentemine 375 incorporates a powerful combination of five ingredients. Each of these ingredients are highly refined and produced in a pharmaceutical environment. This guarantees to deliver the strongest and purest product humanly possible to produce.

These pharmaceutical grade compounds start to work instantly to burn away large amounts of body fat; forcing your body into high gear, even when it wants to slow down.

Our Phentemine 375 is produced in FDA pharmaceutical registered labs. This assures high standards and guarantees that your Phen375 is manufactured using quality ingredients, only. The reality is that the newly formulated Phentemine 375 provides you consistent and effortless weight loss results.
L-Carnitine mimics the Human Chorionic Gonadotropin (HCG) that transport fatty acids through to your metabolism. HCG aids in the release of stored body fat, into the bloodstream for energy; making your body burn existing fat easier.

Because it is easier to burn fat, your body does not need to burn away muscle therefore eliminating the problem of muscle deterioration often suffered by dieters.

Sympathomimetic Amine (Citrus Aurantium) is a natural stimulant that helps you constantly burn fat by increasing your metabolism. This is how we super charge your metabolism.

1, 3, 7-Trimethylxanthine (Caffeine) helps to trick your brain in to believing you are full which means your body has to burn more fat to get the energy it needs. Also, by reducing hunger you eat less, allowing you to easily reduce your food intake.

Capsaicin-1.12 is included at a powerful 12 to 1 concentration which helps ensure the other active ingredients are carried throughout your body by increasing blood flow in smaller or restricted flow vessels very common in fatty tissue.

Capsaicin also increases your body's temperature allowing you to burn up to 270 calories more per day than you normally would, this process is called thermogenic burn as the body increases temperature it requires more energy to burn thus eliminating fat effortlessly.

The last of the pieces in this fat-burning puzzle is diet and exercise. Essentially, combining phen375 with diet and exercise increases the body's natural production of Norepinephrine which aids in increasing fat mobilization and metabolic rates.

Starting from 13th of November 2013 the new Improved formula for USA is:

Phen375 Appetite Suppression and Fat Burner

Phentemine 375 has been designed to help suppress appetite as well as increase the body's metabolic rate. The most common reason that dieting is not successful is the inability to control the appetite and maintaining a slow metabolic rate.

Phen375 helps you by implementing several ingredients. The inability to control appetite causes the over consumption of food. The consumption of excessive calories turns into stored fat. If the body's metabolic rate is slow, then, burning fat is difficult. Then, gaining unwanted weight is made easier.

It is important to understand all that is required to attain successful weight loss. Phen375 helps you to achieve your weight loss goals through the following steps:

- Burning more energy than you consume
- Increasing metabolism
- Effective appetite control
- Appropriate diet plan provided
- Increasing thirst, clearing toxins through increased water intake
- Creating muscle mass, increasing muscle tissue
- Physical exercise/home exercise videos provided
- Metabolism increasing meal plans provided

Burning fat is a simple math problem. If your body needs 1500 calories to maintain, yet you consume 2500 calories, then you will gain weight. On the other hand, if you consume 1200 calories and your body needs 1500 calories to maintain, then you will gradually lose weight. Your body will access the stored fat to accommodate the difference, thus burning fat.

Another way to help increase metabolism in the body is to increase intervals of food consumptions for amplified muscle mass. All of these factors combined will enable you to burn fat at a rapid rate as the result of the body’s boosted metabolic rate. Phen375 uses a compound LJTA 50:1 to help with the process.

Appetite control is essential to long term weight loss. Meals should never be skipped! While presenting as the ideal option to reduce calories, skipping meals actually forces your body to go into a starvation mode. It slows down the metabolic rate to preserve itself and makes the fat boring process harder. The ideal dies would be to reduce calories, while also increasing meals. Phen375 significantly aids you in controlling your appetite, which makes the process easier to accomplish.

Rapid weight loss is accomplished or occurs when your body requires calories that are not present in the body. The body has to first break down fat into practical energy. This process takes place in the liver. Fat is assimilated in the liver and converted into useable calories to
be transmitted for bodily functions. Yet, another issue is toxins. Fat is where the body stores toxin. Once the fat burning process begins, it also releases toxins. It is extremely important to consume liquids- as pure water is preferred. Phen375 naturally makes you desire more water to help with the overall process. We recommend that you consume at least one glass of water per hour. This will keep your body flushed of toxins and will help the liver to maintain the maximum fat assimilation efficiency.

By using Phen375, you are attacking weight loss from every angle. Appetite suppression is a big part of the puzzle, but you need the complete package to get maximum results:

Phen375’s active ingredients accomplish the following for you.

- Suppressed appetite, reducing hunger
- Increasing metabolic rate, burning calories
- Making fat harder to store and easier to burn
- Muscle tissue growth hormone enhancer added
- HCG hormone enhancer added
- Body’s fat burning ability increased
- Fat burning dietary plans provided
- Weight loss of 3lbs-5lbs per week (on average)

As you can see, Phen375 is more than just a pill! It is a weight loss success program that employs every possible angle to help you lose weight fast. You will burn unwanted fat away quickly and easily. We provide you with the necessary tools, to include, but not limited to appetite suppression.

You have nothing to lose but weight; it’s time to get started using the best overall weight loss product on the market.

1. Helps you eat fewer calories no more feeling starved & hungry!
2. Encourages your body to metabolize or burn fat off easier!
3. Forces your body to burn its own stored fat for energy!
4. Stimulates muscle tissue, preventing muscle loss while you are dieting!
5. Supercharge your body, burn more calories, get energized!
6. The thermogenic properties burn up to 270 Calories more effortlessly!

Phentemine 375 will not only reduce your daily calorie intake, it will help turn your body into a 24-hour fat-burning machine!

Be sure to order now to take advantage of the free diet plan and cellulite reduction report limited time offers.
Benefits of Weight Loss

Phen375 Testimonials and Success Stories
Phen 375: The best Fat Burner in the world

Here is a small selection of letters of thanks received from customers who have used Phen375 since the product launched in February 2009.

I weighed 200lbs when I started and I now weigh 154lbs.
Phen375 changed my life!

After the birth of my son I weighed in at 222, on a 5’3” frame you can imagine how horrible I felt and looked. I started dieting and exercising it took me 6 months to lose 22lbs, my weight then stalled there for another 6 months.

Stuck at 200 I was miserable and really down on myself all the time.
I had zero energy and I avoided most social activities. I then started to look for something to help me on my journey.

I came across Phen375 while surfing the web and I decided to order a month’s supply.
After 2 weeks the results were nothing less than a miracle, I had already dropped 11 pounds.
so I instantly jumped on the computer and ordered again.

I had so much energy and the best part is it completely suppressed my appetite.

The thing I love about Phen375 is it isn’t just a pill, they offer you a complete diet plan, it takes the total guess work out of the diet and the best part is it actually WORKS!!

"I weighed 200 lbs when I started and I now weigh 154 lbs that's 46 lbs GONE for good. From a size 16 to a size 8, saying that actually makes me tear up."

I think a big questions everyone has is "Will I gain it all back once I stop?" All I can say is I think the only person who can answer that question is yourself.

When choosing any diet to follow you can’t just return back to your old habits when your finished and expect to keep the weight off, this is a lifestyle change.
Phen 375 taught me to eat healthy and I still
have the occasional treat but now I know that moderation is key. I finished my pills on April 27th, 2012 and it's May 1st, 2012 and I've managed to lose another 1.5 lbs I couldn't be happier. I'd like to thank everyone at Phen375 for such an amazing product, I would recommend it to anyone who wishes to lose weight and change their life, you have nothing to lose except for the lbs and inches that have been burdening you.

Danielle, Canada, May 2012

I lost 55 lbs in 6 months and feel great

In late June I ordered a month’s worth of diet pills from Phen375. I told myself, if I'm going to spend $140 a month on this I'm going to follow their diet plan and get back to at least a size 10-12; I'm going to succeed.

The first month I lost 18 lbs and I when realized their product worked I stayed with it for the next five months, I have lost about 55 pounds in six months and I feel so much better!

Now I understand diet control and the importance of drinking water (not the carbonated kind). I also really just wanted to get myself back at least close to the old me.
My kids tell me that they really like the way I look now! We've also started exercising as a family I can actually play with them, I'm not a soccer player but we have fun. I even put on a bathing suit, no more love handles! I did the work and Phen375 helped me and made all the difference.

Isabella, Miami, January 2010

The results are spectacular!

I think the results are spectacular but I want to lose additional 10 kg. Thank you.

Marina, France, January 2014

I have gone from 154 pounds to 139 pounds
I have struggled for over a year to lose the 50 pounds I gained with my pregnancy. I had tried almost ever single diet pill the drug stores had to offer. They all made me jittery and just plain didn't work.

After hours of doing internet searches for the best appetite suppressant, I came across the Phen375 website. I was really skeptical at first because I could not find one bad review about the pill. So, I decided to try it. It couldn't hurt, right? I ordered a month supply and was surprised when it got to my house within two business days! 20 minutes after taking the first pill, I had to force myself to eat my breakfast because I just wasn't hungry. It also gave me boost of energy without any jittery side effects.

Within one month, I have gone from 154 pounds to 139 pounds without following any special diet or exercise routine!

This product is amazing and I will continue to purchase it until I reach my pre pregnancy weight of 125. Thank you Phen375 for giving me my body back!

Katherine, USA, December 2013

My heaviest was 206lbs. I am currently 172lbs with the goal to reach 150lbs.

I am Anavel. I am 22, still young and you would think I would have all the energy of the world but I didn't. I was miserable, overweight with no energy! My heaviest was 206lbs, as many
people, I've tried so many diets, I have always been a thick girl but it never got out of hand! All my diets ended in failure and crashing. It was disappointment after every diet. Nothing gave me results and that's what I needed to see in order to motivate me.

I came across Phen375 online and decided to order a bottle with the hope of getting SOME result. As soon as I started, I felt the energy, my cravings had disappeared! I felt great! In my first 2 weeks I dropped 8 lbs. I was ecstatic! I felt more motivated than ever! I am currently 172 lbs with the goal to reach 150 lbs. I know it is possible with Phen375. Nothing has given me more results than this! I recommend it to anyone who is at their breaking point and WANTS to see results! No one said it was going to be easy but its definitely going to be WORTH it!

Anavel, 22, USA, August 2013

Highly recommend this to anyone looking to loose weight!

Hi guys, my names Tristan and this is my weightless story. Most of the time i have been around 235 lbs and pretty built but I had surgery on my legs about 2 years ago. Waiting for surgery and the recovery time paid a tole on my body where i gained quite a bit of weight. I would try to get back in shape but it seemed impossible because i was already so heavy.

My wife and I just had a baby in march and I am the stay at home parent. Its gets tricky trying to lose weight by just walking with a stroller. Than I get a phone call in the beginning of June from my mother saying my father is in the hospital awaiting a quadruple bypass.

When i saw him in the recovery room right than and there is where i realized i needed to change my life around so i don't end up in the same hospital bed as my father especially now that have a son of my own. Not only that but something had to be done because all of my XXXL clothes wouldn't fit anymore. I came home and began to research diet pills and appetite suppressants online. Phen375 seemed to me the number one pill that had the best results.

I started taking Phen375 June 30th, 2012. and instantly i noticed i had more energy. I followed the non active diet plan about 75% but the other time i would make up my own meals. I worked out in my basement, with no weights, maybe 2 times a week. but i went for about a 3 km walk with my son in his stroller most days. The weight just pored off of me! i couldn't even believe it. Even the days i did no physical activities what so ever lost weight.

June 30th, 2012 I weighed in at 324.7 lbs the heaviest I have ever been! As of August 23rd, 2012. I weighed in at 276.4 lbs. Within that time i also didn't take the pills for a whole week because visiting my parents I forgot them! While on or even off the pills i didn't suffer any side affects or gain any weight back when i wasn't taking them. i stayed the exact same. I still have 12 more days to go and would highly recommend this to anyone looking to loose weight! The only downfall to the whole diet was having to pee extra because your drinking lots
of water. That really doesn't matter though because you get to eat 6 meals a day :D! Thanks Phen375!!
Tristan, USA, August 2012

Start Losing Weight Today! Click Here to Order Now!

I have successfully lost 21 pounds so far! I have been completely astonished at how well Phen375 has worked! I have tried many other diet pills, but none have controlled my appetite like this one.
I have successfully lost 21 pounds so far! I still have another 5 to lose, but by using this product, I know that it is possible! :)
Sincerely,
A very thrilled customer!
P.S. I tell everyone about it!
Morgan, USA, August 2013

THANK YOU phen375!
Phen375 is the best thing in my life that helped me lose weight, change my lifestyle to the better, and boost my confidence and get rid of depression.
I lead an active lifestyle, enjoy life and go out much more than before, and feel good about myself, and wear whatever I want! :) 

THANK YOU phen375 and I will continue using it until I reach my target shape/weight :) 

Jassim, October 2013

---

**Managed to loose 6.5 stone**

At first I was put off by the price of Phen375 but when I had a spare bit of cash I decided to give it a try and was highly impressed with the results, unlike other products it doesn’t claim to work miracles of weight loss just to help it along and it does just that.

Combining Phen375 with a healthy diet and physical exercise I have managed to lose 6.5 stone going from 20 stone to my current 13.5.

Overall I am very happy with the product and even though it is expensive the reason for this is because it works.

UK, September 2013

---

**My Phen375 success story**

I’ve attached 2 before and after photos. Thank you.
I went from 165 to 153 pounds in 15 days
I went from 165 to 153 pounds in 15 days using Phen375.

Brandon, USA, January 2012

I lost about 8 lbs WITHOUT exercising

I decided to take PHEN375 approximately a month and a half ago. I was very hesitant to take a diet pill since I’ve always believed in exercising and a good diet. However, after having my child (3 years ago), I found it extremely difficult to get back in shape no matter how hard I tried.

I needed to lose approx. 15-18 lbs, and after losing barely 5 lbs of those 10, it just felt impossible to accomplish that goal. I became frustrated. I exercised but it was not the same as before. Having a new routine and limited time to work out as new a mom is very challenging, especially with lack of sleep.

PHEN375 is the first diet/appetite reducer pill I've ever taken. I have to admit I was convinced it would not work but after doing research on the internet and reading all the testimonials, it deserved a try.

The very first day I started taking PHEN375 my appetite was almost gone. I also followed the advice of drinking a glass of water almost every hour of the day. I was amazed how little I was eating. By 6:30pm (usually the time I get really hungry for dinner) I was not hungry! I would eat some fruit and that would do it. I felt no side effects either - which was my greatest concern. Another really good thing about this diet pill is that it makes you drink a lot of water which is great. I’ve only had water since I started taking PHEN375 and I don’t feel like having any juice or even vitamin water. It’s really unbelievable.

I took PHEN375 for 1.5 months and I lost about 8 lbs WITHOUT exercising. I still need to lose another 7-8 lbs to be at my ideal weight but the supply I got was only for that length of time. I wish I would've purchased the 90-day supply. It's a better deal overall. I will try it again but this time I'm going to complement it with exercising. My plan is to lose 8 lbs more in 4 weeks with exercising which is a realistic goal.

I would recommend PHEN375 to anyone who needs to lose 10-35 lbs or so. I consider PHEN375 safe for steady and gradual weight loss. This is not going to work if you want to lose excessive weight in just 'weeks'. It would not be safe doing it that way anyway. I'd get the 90 day supply and try to add some exercising. You WILL see results!

CS, California, May 2011
I have lost 12 lbs

I received my order of Phen375 on March 15th 2012, and finished up my order by April 15th 2012. Within this time I have lost 12 lbs going from 197 to 185 and am now maintaining my weight at around the 185 mark.

When I first was going to buy Phen375 I was a little skeptical as I have tried so many different fat burners out on the market with outrageous claims to get you ripped. However none of them are like Phen375 and within the first few days I could tell the product was working as it was such a powerful appetite suppressor and fat burner.

I love this product and will continue to keep using it and recommending it to anyone trying to get in shape. Thank you Phen375 for making the best fat burner on the market!

Karsten, USA, April 2012

I have lost 26lbs in 10 weeks, now I can fit into Medium sized clothes again

My name is Dean I live in Australia and I have always struggled with weight.

I do 10-12 hour days with my job and the last thing I think of when I get home is exercising. But now since I have been on Phen 375 I have alot of energy and exercise almost every day when I get home.

Starting weight 207 lbs on 14/01/10 - Clothes size Xtra Large
In the first week I lost 8 lbs. I have now lost 26 lbs in 10 weeks. I can now buy Medium size clothes.

I am also eating a better diet and enjoying it drinking plenty of water and doing exercise most days. I am a bit naughty with food on the weekends but the weight is still falling off me.

Thank you so much Phen 375 you are a life saver.

Kind regards

Dean, Australia, March 2011

I'm finally comfortable in my own skin

I have struggled with weight all of my life, especially after high. As I moved around, away from friends and my family, the lack of stability and friendship had me eating my way into further depression.

As my weight went up and down for several years, I realized this was no longer healthy for me or my daughters well being. All my searching kept bringing me to unhealthy and unrealistic quick fixes, till I came across phen375.com.
As soon as I read that you could lose 3-5lbs a week on this amazing FAT BURNING product I was sold! Reading the testimonials and seeing the pre-planned menus only gave me further confirmation that this was going to be it...the day I finally conquered my weight issues and said goodbye to the double digit jeans.

Using phen375 along with their "super fast fat burning diet menu" I've lost several dress sizes just in only 8 WEEKS. Now I'm at a healthier weight and I'm finally comfortable in my own skin. Give your weight-loss goals one more shot and invest in phen375, you won't be disappointed when the results will speak for themselves!

Before and after pics are attached!!

I have lost a total of 36lbs in almost 3 1/2 months

Just want to send in my pictures to show what phen375 has done for me. I will be the first to admit that I had my doubts on the product's effectiveness. I researched all over the internet for negative comments on the products results, but didn’t find any. That was what lead me to purchase phen375.
I started out weighing 257 lbs early January, and I am currently 221 as of April 28, 2011. I have never bragged about a product or ever even written in to give my opinion on the internet but I have to say the product works wonderfully. I **have lost a total of 36 lbs in almost 3 1/2 months.** I will admit that I wasn’t able to stick to the strict diet of eating healthy but I do try to go to the gym and eat healthier than before, especially now that everyone who knows me is shocked on my weight loss.

I want to thank phen375 for the chance to share my results with others and will continue to use their product and recommend it to anyone who wishes to lose some weight. Phen375 works very well, and has given me no side effects except for a slimmer body and a lot more confidence. Thanks for your time.

*Frank, Texas, April 2011*

---

**I lost 9 lbs in 11 days** and my target weight loss is **20 lbs**

It's not a joke: look at me. If I can do it, you can too. Watch my video.
Dustin, Atlanta, April 2010

I have lost 12 lbs in 5 weeks. Thanks, this is my 3rd bottle. I feel healthier than ever. I've lost 20lbs in 5 weeks. Will do 20 more to be where I should be. Absolutely NO side effects seen. This is the best product I've ever tried.

Sent from my iPhone

Gina, USA, May 2012

"thanks for the tablets and the diet plan"

Just a quick note to say thanks for the tablets and the diet plan. I started my diet two weeks ago at a weigh in 112.4 KG and I am now 104.4kg in just 13 days. Looking forward to getting below 100KG and then on to the low 90s.

Allan, USA, June 2012

In the first 3 days I lost 5lbs. In 52 days I lost 21lbs.

I've taken almost everything. Hydroxycut Hardcore, Xenadrine, Animal Cuts, Lipo 6 Black, you name it, I've probably tried it.

So of course, I was skeptical. I have no problems saying this: Phen375 is ABSOLUTELY THE BEST FAT BURNER I'VE EVER TRIED. The first 3 days, I lost 5lbs. I started mid-January and total, in just 52 days, I have lost 21lbs.
I changed my diet, during the week and I cheated a little on the weekends, but I STILL lost weight! It was worth every dollar spent. Thanks!

Ivan, California, March 2010

Video: Marcy lost 40 lbs in 8 weeks

I do not normally send videos to companies, but I am so pleasantly surprised at losing 40 lbs that I just had to let you know.

Marcy, Illinois, May 2010

Start Losing Weight Today! Click Here to Order Now!

I’m very happy with your product, from January I lost 30 lbs. and another 10 lbs to go. Thank you for your offer I still have 3 bottles. You guys doing great job.

Thank you again

Svetlana, Canada, June 2012

Thanks for the reminder, I just placed a new order... Fabulous results from the first 4 weeks, from the first order... a 10 kilo drop (20 lbs I think in the U.S.)... Been “cheating” a bit since
then, but I am keeping my 10 kilo loss...
Now I will go for another 10 kilo... No more than that, otherwise/since there will be no more left of me... ;-)  

Pekka, Spain, June 2012

Hello, May I take this opportunity to thank you for a very easy, fast, efficient service. I am really impressed with the easiness to order, and the quick response. I wish all order lines were as good as you.  
Thanks so much  
Moira M., Scotland, September 2011

I have been using Phen375 and it seems to be amazing! I am already down 15 lbs in just under three weeks! Just wanting to thank you guys since there are so many scam websites out there! Also appreciate the fact that you don't have any type of auto pay on my credit card monthly. I hate hidden fees. Thanks Phen . . . 
Mark, United Kingdom, August 2010

Could this shipment be rushed asap? I purchased the single bottle and it works! Yeeeeaa lost 7 lbs, I am getting married in three months and need to lose another 25-30 lbs before then so the sooner I receive this shipment, the sooner I can begin my dietary/exercise plan.  
Raquel, Texas, September 2010

Great support, great product and best of all it really worked for me. I was very surprised how I did not feel hungry like I normally do and the weight just dropped off. I have lost 12lbs and like the new me. I should also tell you, that I have more energy than I have had for years. Thank you very much for your service.  
Michael M, New York, June 2009

First week I lost 6 lbs and was very surprised! After three weeks I've lost 12 lbs! This is so great!  
Stacy, 29, November 2009

I met my weight loss goal in time for my wedding day. Thanks Phen375 for making my special day, one to remember. I did everything in the program. I was trying to lose 20 lbs in 10 weeks. I lost 23lbs and fit into my wedding dress with room to spare. Thank you so much.  
Elizabeth, Colorado, March 2009

In expectation of this being another wonder or miracle product that does not work I thought I would be sending it back via your guarantee. I was amazed just how well this worked, I will definitely recommend your product and the customer service girl that helped me was very pleasant, making a change from the service I am used to receiving.  
Joseph, West Virginia, May 2009

I just had a baby and I wanted to lose the baby weight. Although I was originally skeptical, your product worked great and I lost all those extra baby pounds  
Caroline, Texas, February 2009
We had a bet at work on who could lose more weight. I won, but cheated. Nobody knew I was using Phen375. When I let on, now a number of my office colleagues are on the program and losing a lot of weight. Great product man.

Matt, Iowa, May 2009

Please could you get it to me by the 13th of this month as I am going on holiday and only have 10 days left from the first order and I am loving it.. I have lost 20 lbs or so and don't want to slip up while away. Thanking you in advance.

Debbie, United Kingdom, July 2010

Start Losing Weight Today! Click Here to Order Now Phen375!

Please note that I am wearing jeans and an undergarment in an effort to see specific target areas of actual weight loss. I began taking Phen 375 Friday July 16th; therefore, I will be nearing the end of the first bottle next Friday 7/30/10. I have lost 4 pounds in one week. I have to admit that I wasn't aware of the "diet plan" until today, and just assumed a low calorie diet & exercise plan were recommended with phen375. I will be sure to follow the exact diet starting with my lunch today, as recommended.

Background: I have a 15 month-old and 2 month-old, so as you can see I have been pregnant for nearly 2 years. I gained 46 pounds with my last pregnancy, and the weight isn't as easy to shed when you are pregnant consecutively for two years. I have recently become very active again with fitness programs and just staying active with the kids, so I know Phen375 program & supplement will assist in increasing my metabolism and help me regain healthier eating habits and portion control.

Thanks again!!! I can't wait to submit my results picture!!

Cindy, United States, August 2010

I personally want to say this product is amazing. I got my order on August 28, 2010 and at the time I weighed in at 180 lbs. Now on September 2nd I weigh 174 lbs.

Sharina, United States, September 2010

I am a regular customer of yours and love your product. I really have lost a lot of weight on this.

Sharika, United Kingdom (Great Britain), January 2011

I started taking Phen375 last Monday and I am loving the results.

Sarah, Canada, February 2010

Hi. I was impressed with my results.

David, United Kingdom (Great Britain), December 2010

I have been trying to track my parcel again!! I have run out of my first lot of tablets which were excellent and have ordered my second package.

Shelley, United Kingdom (Great Britain), October 2010
Thanks so very much. In a week I've lost 4-5 pounds. It gives me more energy. I'm 68 years old, if that matters. I'm very active. Thanks again.

Mary, United States, March 2011

Hello There! I just wanted to say your product worked great for me!!! I have seen quick results in combination with exercise and good nutrition. Phen375 allowed me to break through my plateau! Thanks a million!

Chelsea, United States, August 2011

Thank you for info - have now lost over 28-lbs and am almost at my correct weight of 112lbs. Another 14-lbs to go. Couldn't have done it without help!

Joan, United Kingdom, June 2012

What's The Secret to Weight Loss?

Through years of study and breakthroughs in modern science, we’ve discovered the key to long term weight loss success. And you can only find this compound inside of PHENPHEDRINE, weight loss solution.

» The "Why"

The reason you are overweight is because there is a YIN-YANG battle going on deep within your brain, inside the satiety center of your hypothalamus. The battle is, CART vs. NPY... or Good vs. Evil.

» Good vs Evil

CART is the “Good Guy”... and if you're trying to lose weight it's your Guardian Angel! The C stands for cocaine and the A for amphetamine because these drugs put this chemical into overdrive. When CART is stimulated it increases your metabolism, reduces your appetite, and increases insulin to deliver energy to your muscles rather than be stored as body fat.

NPY is the Villain. It's a stress hormone that drives the eating chemicals into overdrive. When stimulated it will decrease your metabolism, cause your body temperature to drop, and increase your appetite.

PHENPHEDRINE was designed to stimulate CART and inhibit NPY, thus helping you win the battle of the bulge. (note: We found alternatives to cocaine and amphetamine to activate CART)
How is Phenphedrine So Powerful?

Phenphedrine contains 8 C-A-R-T Activators:

**C-A-R-T Activators:**

- **Chromax** -- This breakthrough ingredient helps reduce cravings and hunger. In one clinical study, subjects consumed 365 less calories per day with Chromax. Subjects also reduced hunger levels by 24%. Researchers think Chromax works by optimizing insulin function.

- **DiCaffeine Malate** -- When Coca-Cola first came out it actually contained Cocaine (true fact), and when cocaine was made illegal after World War I they scrambled to find an alternative to that would stimulate the mind and body and have similar effects. The ingredient they found was caffeine. But we didn’t just use any old caffeine as our alternative to cocaine. We use an ultra potent multi-dimensional ingredient that combines all natural Caffeine with Malic Acid into an ionic bonded compound optimizing energy, stimulating thermogenesis, and promoting mental focus.¹² You haven’t experienced the full effects of caffeine until you’ve tried DiCaffeine Malate.

- **Caffeine Anhydrous** -- Caffeine use provides a long list of benefits. In one clinical trial, the average subject increased thermogenic response by 6%. Caffeine also increases energy levels, improves endurance and enhances focus.

- **Phenylethylamine**
  - **Phenylethylamine (PEA)** -- PEA is an amphetamine-like substance that shares relations with the naturally occurring catecholamine neurotransmitters and their amino acid precursors, tyrosine and phenylalanine. It may be one of the chemicals in the brain that promotes pleasure and euphoria. Some call PEA “the Love Drug” and it is extracted from chocolate and is responsible for the aphrodisiac-like reaction people have while consuming chocolate.¹⁰¹¹
Does Phenphedrine Really Work?

See what others just like yourself have to say!

"I have lost 80lbs in 5 months!"

I have lost 80lbs in 5 months!! I researched for the best diet pill and chose Phenphedrine. I have so much energy, and motivation. I cant believe how much weight I've lost! I haven't dieted either! I no longer have cravings for bad food like I use to. And when I do eat "junk" food I don't enjoy it at all. This is the miracle pill!

- Victoria Underwood
October 2
I am a 21 year old college student that has always been over weight. No lie, always. At the age of 14 I toppled at a whopping 240 and by the end of my sophomore in college I weighed in at 324. I don't know what it was but after steadily doing my research I finally decided to try out Phenphedrine. From the beginning I was in love. I have just now purchased 2 more boxes and can not wait to receive them. Two boxes later I went from 324 to 249. Constantly working towards my goal but I couldn't have done it without you. Thank you so much!!!!

- Jasmine Lockhart
July 17

I Had a baby last september, shes almost a year old. I gained sixty pounds during the pregnancy and I had the hardest time afterwards losing it, when I ordered phenphedrine and I was skeptical but I ended up working out harder because of it I ate way less and I lost 33 pounds, it was so great now I'm only twenty away from the weight I was before I had my daughter!

- Alyssa Evans
June 30
Phenphedrine Frequently Asked Questions:

Q. Is Phenphedrine guaranteed to work?
A. Each order comes with a 90 day money back guarantee. In the rare event that you're unsatisfied with your results, you have 90 days to return 1 used box and all other unopened boxes for a refund of purchase price. There are no BS restocking fees. If you want to return your order, simply contact our amazing customer support to get started.

Q. How long should each box of Phenphedrine last?
A. Each box of Phenphedrine contains 60 weight loss capsules and lasts 30 days. We recommend that you take 1 capsule 30 minutes before breakfast and lunch. Phenphedrine is powerful enough, do not increase the suggested dose.

Q. How old do I have to be to use Phenphedrine?
A. You must be at least 18 years or older to order Phenphedrine.

Q. Is Phenphedrine safe?
A. Don't let the medical CART terminology lead you to believe that Phenphedrine is dangerous. No adverse effects have been reported when Phenphedrine is taken as directed. You should not take Phenphedrine if you are sensitive to caffeine or stimulants.

Q. How much is Phenphedrine?
A. Each box of Phenphedrine retails for $97.00. However, through our limited time special offer, you can buy it today for greatly discounted prices, depending on the quantity you order.

Q. How long does shipping take?
A. All orders ship within one business day. Shipping time varies by location and method. For domestic orders, we offer FedEx Home Delivery (1-5 days), FedEx 2 Day Air, FedEx Overnight, USPS First Class (2-5 days), and USPS Priority (2-3 days). International orders are shipped FedEx International Mail (10-14 days) and FedEx International Priority (3-5 days, fully trackable).

Q. Do you offer a money back guarantee?
A. In the rare event that you're unsatisfied with your results, you have 90 days to return your order for a refund of purchase price. There are no BS restocking fees. The money back guarantee is good for one used box and all others in unopened and in resellable condition, less shipping costs. Simply contact our amazing customer support to get started.

I am 19 and with very stubborn belly fat that just won't go away. I am signing on to the Air Force but because I am shorter I must lose 30 pounds and sadly I am struggling. I turned to this as a last hope. I am 212 and must get down to 181. This stubborn belly fat has stuck with me from wrestling and training. I have never been able to get below 200 but with this I might get that edge I need. Please support me if you can.

Ncsorg

I've lost 7 lbs in 9 days!!!!! I love this product, can't wait to keep using it to lose more.

Deja

LOVE IT, I HAVE LOST 9LBS IN 11 DAYS AND IT IS EASY. I HAVE NOT CHANGED WHAT I EAT. THE PILLS HELP ME EAT LESS, NOT AS HUNGRY. THANK YOU I'LL BE BACK IN A WEEK TO LET YOU KNOW HOW IT IS GOING.

ANGIE

I received my bottle yesterday, only ordered one to start to see if I have any adverse effects. I only have 15-20 lbs to lose but they are the most stubborn. Anywho have tried many before. Hope it works. Will keep everyone abreast of the weight loss and side effects. Today is 4-5-11.

Anne

Best diet product you will find. Trust me I have tried many. You get what you pay for. This product is worth every penny. This is the only product I have lost more than 10 pounds with. I am up to 23 pounds lost in 6 weeks. The difference in how I look is incredible. Much more energy and liveliness.

Marco . . New York

This was recommended to me by a friend who lost 35 pounds pretty quick. This product works beautifully. It gives me great energy and a great vibe all day long. And I have lost 15 pounds in about 3 weeks. I will post again after I finish two months.

Michelle

Hello, I am a mother of 3 lovely children. Before I had my children I was a mere 135 pounds. After each child was born I put on 25 pounds and was able to work really hard to get the weight back off. I struggled for several years in between
each child to stay in shape by working out and eating right. As time has moved on I became exhausted and gained 45 pounds in just one years time. I started using Phenterex three months ago and I am now back down to 140 pounds! That is an astonishing change. I wish I knew about this product five years ago. I have recommended you to many others who have also had fast results in short amount of time. Thank you and God bless.

Lisa, M

🌟🌟🌟🌟

I love this product. FINALLY!!! a diet pill that works. This is all that it claims to be and even more. I lost 25 pounds in just one month. Truly amazed as to how good this works. I have told every person I know about Phenterex.

Natasha . New York

Frequently Asked Questions

If you're like most people who are interested in Phenterex, you have lots of questions about the product itself, about getting support, and about weight loss in general. Here is a collection of answers to some of the most common questions we're asked.

What is the difference between Phenterex and prescription weight-loss medications?
Unlike prescription weight-loss medications, Phenterex is a non prescription all natural product which consists of the finest ingredients found around the world. The ingredients in Phenterex are prescription strength with no added synthetics which create side effects.

Can I take Phenterex with other medications?
Discuss with your doctor all medications you are currently taking (including over-the-counter medicines and herbal products you can get without a prescription) to determine if Phenterex can be taken along with these medications.

How long should I use Phenterex?
Most people have the best results using Phenterex for a minimum of a three month period. You can stop using Phenterex when you have reached your desired size. The use of Phenterex for more than 2 years has not been studied.

I see prescription diet pills online to purchase. Is this legal and are they real?
We advise you to use extreme caution if you are trying to purchase prescription products online. There are companies that do sell legal versions of prescription products, but the majority of online retailers offer generic or fake products that are made overseas which contain bogus ingredients. If they do not ask for a prescription from your doctor before you purchase the product, it is fake.

If I take Phenterex, can I eat whatever I want?
The Phenterex dietary guidelines do not place any particular food out of bounds. Your eating habits will change as far as how much you eat and how often. It is recommended that Phenterex be used as part of a total weight loss program including a healthy diet and exercise.

What happens if I miss a dose or take more than the recommended dose?
If you miss a dose, you simply may experience a stronger appetite that day. Simply continue your daily regimen the following day.

How soon after starting Phenterex should I expect to notice weight loss?
Typically, people begin losing weight within 2 weeks of starting Phenterex, and may continue to lose weight for 6 to 12 months, at which point weight loss usually begins to level off - even if you’re still taking Phenterex. This doesn't mean that Phenterex is not working. People who continue to take Phenterex are better able to maintain their weight loss.
How much weight should I expect to lose?
Because everyone's body chemistry, diet and eating habits are different, it is difficult to predict how much weight one can expect to lose. Although, it would not be unusual for an overweight person to lose five to eight pounds per week. Results will also depend on your compliance with the directed daily regimen.

Do I need a prescription from my doctor to order Phenterex online today?
Although the ingredients in Phenterex can be considered pharmaceutical grade, Phenterex is a non prescription treatment for weight loss. You will not need a prescription to order.

Are there any side effects?
In general, Phenterex is well-tolerated. Most people do not experience any side effects or mild side effects occur during the first stages of the first month's supply. To better help you, we have compiled a list of possible mild side effects. [headache, upset stomach, dizziness, drowsiness, flushing, jittery, nausea, abdominal gas, heartburn]
Study: Subjects Lost Over 1 Inch of Belly Fat in 28 Days

Research: In a recent study published in the *International Journal of Obesity*, volunteers received either Phosphacore’s active ingredient or a placebo for four weeks, and did not make any other changes in their diet and lifestyle during the study.

Results: The people taking Phosphacore’s active ingredient had a significant decrease in abdominal diameter—a full 1-inch reduction of belly fat within 28 days without changes to their diets.

"I Lost 21 lbs and 4 Inches of Belly Fat in 14 Days!"

I was disgusted with my fat “beer belly” and frustrated that I could not fit into any of my jeans. Instead of buying all new jeans, I decided to see how much belly fat I could lose in 2 weeks.
I began a plan of healthy eating, no alcohol, regular exercise, and Phosphacore supplementation.

Phosphacore was the only supplement I took. After only 2 weeks, I was able to lose 21 pounds and 4 inches of stubborn belly fat. I’m proud of myself that I was able to lose that much belly fat, and I credit Phosphacore for helping me achieve my goal!

—David K., Columbia, MO

Phosphacore vs. Other Diet Pills

There are hundreds, if not thousands, of diet pills on the market. How do you know which ones actually work?

SIMPLE. Look at the science.

Unlike other products backed by nothing but marketing hype, Phosphacore is backed by university research. In a recent study published in the International Journal of Obesity, subjects taking the active ingredient in Phosphacore lost an average of over 1 full inch from their waistlines in just 28 days.

A separate study published in the American Journal of Clinical Nutrition found that subjects supplementing with Phosphacore’s active ingredient lost an average of 900% more bodyfat per week compared to placebo.

Clinically Proven Fat-Loss Results

Phosphacore is different from other weight-loss products because it works by treating the cause of belly fat gain and not merely the symptoms. It does this by safely reducing both the size and number of unhealthy fat cells.

Just check out this published scientific evidence...

» Fights Abdominal Fat: In a recent study from Uppsala University in Sweden, 25 women and men using this herb experienced a full 1-inch reduction of belly fat within 28 days without changes to their diets.

» Replaces Fat with Muscle: In another new study from Medstat Hospital in Lillestrom, Norway, people taking Phosphacore lost over a fifth of their fat (21.3%) within mere weeks of use.
Firms Your "Problem Areas": A new study published in the *American Journal of Clinical Nutrition* shows that 118 people taking this herb lost an average of 5.6% more body fat than people taking a placebo. Women lost fat and cellulite from their legs and stomach, with men losing fat from their belly.

100% Safe and Natural: A new 2-year study published in the *Journal of Nutrition* concludes that the active ingredients in Phosphacore cause rapid fat loss and are both well-tolerated and safe.

**Tested Total Body Fat-Burning Ingredients**

**Pharmaceutical-Grade Conjugated Linoleic Acid:** This naturally based metabolic intermediate has been clinically proven to reduce body fat up to 10% while maintaining lean body mass, and preventing fat regain.

Whether you're trying to target those hard-to-tone areas, drop those last 5 pounds, lose a size or two in clothing, or simply maintain your fitness and health, the pharmaceutical-grade Conjugated Linoleic Acid found in Phosphacore can help you achieve your fitness goal.

**Pharmaceutical-Grade Phosphatidylserine (PS):** Research shows this naturally occurring phospholipid is extremely effective at blunting your body's fat-storing hormone cortisol, which in turn facilitates fat loss and helps prevent future fat gain. Studies show PS supplementation promotes a desirable hormonal balance for promoting and achieving total-body fat loss.

**Pharmaceutical-Grade Ascorbic Acid (Vitamin C):** Too little Vitamin C in the blood stream has been found to correlate with increased body fat and waist measurements. Nutrition researchers from Arizona State University report that the amount of vitamin C in the blood stream is directly related to fat oxidation – the body's ability to use fat as a fuel source – during both exercise and at rest.
Frequently Asked Questions

How do I use Phosphacore?

It's simple! Just take 1 rapid-release capsule 15 minutes before breakfast and another capsule 15 minutes before lunch.

Is it safe?

Yes. Unlike other diet pills, Phosphacore does not contain any natural or artificial stimulants. Clinical studies have shown this nutrient to be both safe and well-tolerated. It's easy on your system and helps you lose bodyfat naturally by treating the cause of excess fat accumulation, not just the symptoms. It's a smart supplement choice for better overall health.

Do I have to diet and exercise in order to see results?

No. Research studies show the active ingredient in Phosphacore helps people lose weight and belly fat without changes to their eating and exercise habits. However, you may enjoy even better results faster by getting more active and eating healthy foods like fruits, vegetables, and whole grains.

After I've lost my unwanted belly fat, do I have to continue taking it?

No. Your fat-loss results will be permanent so long as you do not increase your current calorie intake or reduce your current level of physical activity.

Try Phosphacore 100% RISK FREE!

Phosphacore is 100% Guaranteed to deliver fat loss success! If for ANY reason you are not thrilled with your results, simply return your order for 100% of your Money Back (less shipping). You really do have nothing to lose but your unwanted inches. Try Phosphacore Today!

Why Choose Proactol XS?

Clinically Proven Weight Loss Solution

- Do you want to lose weight?
- Do you want to avoid putting extra pounds on?
- Do you want a slimmer, healthier, new you?

Whatever your goals, achieve them with Proactol XS.

Everyone knows that to lose weight, you need to reduce your fat intake. But it’s not always as simple as that, is it? And it’s certainly no fun eating rabbit food. And let’s face it, most things that aren’t rabbit food are going to contain fat.

**Reduce Your Fat Intake with Proactol XS**

Proactol XS is a very powerful fat binder. Its active ingredients attach themselves to the fat molecules within your food, and binds them together into larger molecules too big for your body to absorb.

What happens when your body can’t absorb the fat from your food?
You lose weight! What could be easier than that?
(And don’t worry about all that unabsorbed fat; you’ll pass that naturally without even noticing).

**Unbeatable, Clinically Proven, Fat-Binding Power**

Now that you know just what a fat binder actually is, we can dazzle you with the fact that Proactol XS can bind up to **a whopping 800 times its own weight** in fat!

That’s 33% more efficient than any other fat binder.

And in a double bonus for you, Proactol XS’s binding capacities are so strong, it even works on cholesterol too!

**Lose weight and lower your cholesterol** at the same time; it’s a win-win situation for you.

Imagine being able to eat guilt free while Proactol is busy fighting the fat for you.

Say goodbye to rabbit food — now you can enjoy your meals while you lose weight.

😊 **UNBEATABLE FAT-BINDING CAPACITY: UP TO 800 TIMES ITS OWN WEIGHT IN FAT IN VITRO (PASS/FAIL TEST)**
Why Choose Proactol XS?

- Quick, Safe & Effective Weight Loss
- Fast acting – Gets to Work Within 10 Minutes
- Lowers Cholesterol
- Clinically Proven
- Vegetarian, Vegan, Kosher, Halal
- Money Back Guarantee
- Lose Weight, Feel Great

Lose weight quickly, safely and effectively with Proactol XS, the clinically proven weight loss supplement.

How does Proactol XS work?

We’ve made the science bit simple!
Proactol XS’s main ingredient is Chitosan, a natural source of fibres. Chitosan is a very effective lipid binder.

What’s a lipid? It’s ‘fat’ that doesn’t dissolve in water. Fats, oils, waxes and cholesterol are all lipids. And Chitosan has very strong lipid binding capacities. Which means that it helps reduce the calories you consume from fatty foods by lowering the fat intake from them.

When you take Proactol XS before your main meals, Chitosan gets to work straight away and forms a gel-like substance in your stomach.

When your food mixes with this substance, fats and cholesterol are caught and bound together into molecules too big for your stomach to absorb.

The bound fats pass naturally through your system when you visit the toilet, and you won’t even know it.

Just think of Proactol XS as like a little net in your stomach that catches fat and cholesterol from your food.

Reduce your fat intake and lose weight with Proactol XS!

Take The Proactol XS Challenge!

How Much Weight Will You Lose with Our 10, 30, 60 or 90 Day Challenge?

Fed up with dieting, exercising and support groups that never seem to work?

Let Proactol XS help you succeed with our range of weight loss challenges. We guarantee you'll be slimmed down and smiling by the end of it!

Whether your goal is to lose just a few pounds or a whole lot more, choose your challenge below and let Proactol XS help you achieve it.

Choose Your Challenge:

**CHALLENGE 1**
- 3-4lbs to lose - 10 Day -
  - mostly limited access
  - £24.95

**CHALLENGE 2**
- 9-12lbs to lose - 30 Day -
  - limited access
  - £46.95

**CHALLENGE 3**
- 18-24lbs to lose - 60 Day -
  - most access
  - £84.95

**CHALLENGE 4**
- 27+ to lose - 90 Day -
  - full access
  - £124.95

Get The Following Free When You Take The Proactol XS Challenge:

**Standard Diet Plan**

Free with every challenge, our standard diet plan gives you all the eating Do’s and Don’ts that you need to know to lose weight quickly and easily.

Good nutrition is vital to your successful weight loss. Using Proactol XS combined with your free diet plan can help you lose an average of 2.2 lbs per week.

**Online Progress Tracker**

With our personalised online progress tracker you can track your progress and see yourself moving closer and closer towards your goal.

And with the option to add pictures to your profile, you’ll literally be able to see the new, slimmer, healthier you taking shape before your very eyes!
*Available with 30, 60 and 90 day challenges

**Personalized Diet Plan***

Everyone is different. Your weight, body shape and goals are all unique to you and what works for someone else won’t necessarily be what works for you.

That’s why we offer a free, personalised diet plan packed full of simple, tasty and nutritional meal ideas for all 60 and 90 day challenges.

We’ll tailor a plan exclusively for you, based on your body, lifestyle, your needs and your goals.

*Available with 30, 60 and 90 day challenges

**Personal Slimming Mentor***

A healthy support system is crucial in improving your chances of weight loss success. Studies have shown that people with the right support lose more weight than those who ‘go it alone’.

You won’t be alone when you take the Proactol XS challenge. You’ll be teamed up with a personal mentor who will provide you with encouragement, tips and advice on achieving your goals. From fat blasting exercises and healthy recipes, to keeping you on the right track with support, guidance and motivation, your mentor will be there for you whenever you need them.

*Available with 30, 60 and 90 day challenges. Email mentor@proactolxs.com with your order number to get in touch

**Free Essential Multivitamins***

Healthy weight loss means cutting calories, not nutrients.

If you’re following your free diet plan then you’ll be getting all the essential vitamins and nutrients that you need for healthy weight loss.

However, studies suggest that taking a multivitamin supplement may help you better achieve your weight loss goals, so we’re giving away a free bottle of A-Z Multi-Vits & Minerals worth £24.95 by Bauer Nutrition with every 90 day Challenge!

*Available with 90 day challenge only.

**Money Back Guarantee**

Take the Proactol XS Challenge risk free.

We’re so confident that you’ll successfully lose weight with the Proactol XS Challenge that we’ll give you your money back if you are not happy with your results.

**Want to see a slimmer, healthier new you in just 10, 30, 60 or 90 days?**

WHAT MAKES REDUCUT DIET PILLS ACTUALLY WORK?
What makes ReduxCut diet pills actually work?

ReduxCut is one of the safest diet pills THAT WORK because it is developed using the MOST POWERFUL APPETITE SUPPRESSANTS and METABOLISM BOOSTERS to provide the keys to losing weight. Tested weight loss formula in ReduxCut will help you look and feel different in just 30 days, START TO FEEL IT FROM THE FIRST CAPSULE!

The drug works to SUPPRESS APPETITE via SEROTONIN and NOREPINEPHRINE RE- UPTAKE INHIBITION. Serotonin is a chemical released in the brain after you have eaten a meal, WHICH MAKES YOU FEEL FULL.

HOW IT WORKS?

1) When a nerve impulse reaches the end of the nerve (the nerve terminal), the impulse causes the release of chemicals, called neurotransmitters.

2) The neurotransmitters are released in the space between the two adjacent neurons, this region is called the synaptic cleft.

3) Usually once the neurotransmitters have bound to their receptors (the neurotransmitter and the receptor fit like a lock and a key) on the adjacent nerve, transport proteins work to reabsorb the extra neurotransmitter back into the nerve terminal so that they can be reused.

SEROTONIN is normally REMOVED FROM THE SYNAPSE by reuptake sites on the PRESYNAPTIC NEURON.

SSRIs block the SEROTONIN REUPTAKE SIDES, allowing serotonin to remain ACTIVE in the synapse longer.

HOW IT WORKS?

1) When a nerve impulse reaches the end of the nerve (the nerve terminal), the impulse causes the release of chemicals, called neurotransmitters.

2) The neurotransmitters are released in the space between the two adjacent neurons, this region is called the synaptic cleft.

3) Usually once the neurotransmitters have bound to their receptors (the neurotransmitter and the receptor fit like a lock and a key) on the adjacent nerve, transport proteins work to reabsorb the extra neurotransmitter back into the nerve terminal so that they can be reused.

SUPERCHARGED ACTIVE INGREDIENTS:

- **Rhodiola rosea extract**
  - Rhodiola has an impact on your body’s ability to breakdown fat into usable energy. Specifically, rhodiola rosea helps make it easier for your liver to extract fatty acids from fat cells in your body and convert them into ATP.
  - By providing your body with more ATP, you have much more energy, especially during exercise.

- **Trimethylxantine**
  - Caffeine is a drug that stimulates the central nervous system. Caffeine makes people more alert, less drowsy, and improves coordination.

- **Chlorogenic Acid**
  - This compound, known as an antioxidant, may also slow the release of glucose into the bloodstream after a meal.

- **Geranium Extract**
  - Geranium extract is the number one ingredient you will find in most of today’s top selling pre workouts or fat burners. This is due to its diverse properties including its ability to provide the user with massive amounts of clean energy without the jitters or anxiety caused by caffeine. It also effects serotonin levels and can lead to increased well being and focus.
ReduxCut will reduce your cravings for high calorie carbohydrates

“YOUR BRAIN TRIGGERS CARBOHYDRATE CRAVINGS because carbohydrates boost levels of serotonin in the brain. Therefore, when your brain is running low on the serotonin your brain triggers the cravings for carbohydrates. ReduxCut keeps serotonin levels elevated, short-circuiting these mentally fuelled cravings for carbohydrates while boosting adrenaline levels.”

THE POWERFUL, ACTIVE INGREDIENTS MAKE REDUXCUT ONE OF THE GREAT DIET PILLS THAT WORK.

HOW DO I USE REDUXCUT?
Using these ReduxCut pills has never been easier. To see DRAMATIC WEIGHT LOSS RESULTS, simply take 1 CAPSULE in the morning before breakfast with 8 to 16 ounces of water it keeps you going for the whole day without any need to consume more food than you need, so you will get results faster than ever expected. Do not exceed taking 1 capsule of ReduxCut during the day. ReduxCut was developed to enhance healthy, balanced diet and regular physical activity. While some individuals may lose weight without changing their diet or exercise routine, the best way to reach your weight loss goals is to use ReduxCut as directed.

Recommended dosage:
One tablet with 8-16 ounces of water 20 min before breakfast. Do not take later than eight hours before bed. It is recommended that this product will be used in conjunction with proper nutrition habits and exercise program. Do not increase your dose.

Side effects:
Some people may experience side effects as dry mouth, sleeplessness or irritability. These side effects are usually short term and cease as the body adjusts to the product.

Precautions:
Do not exceed the recommended dose. This product is not intended for pregnant or nursing mothers, children under age of 18, or individuals taking prescription drugs. Discontinue immediately if sleeplessness or nausea occur. Do not take this product if you have a known medical condition including high blood pressure, diabetes, any cardiovascular disorder, heart disease, hyperthyroidism or you are taking antidepressant medications. This product contains stimulants such as caffeine and should not be used by individuals wishing to eliminate this product from their diet.

Missed Dose:
If you miss a dose of this product do not double the next dose. Instead, skip the missed dose and resume your usual dosage schedule.

When used as directed, each bottle of ReduxCut will last approximately 30-40 days depending on how fast you want to lose weight. Each bottle contains 30 capsules.

Relacore®
The Ultimate Super Fat Burning Belly Bulge System®
In a remarkable turn of events, arguably one of the strangest in the history of dietary supplements, men and women around the country are taking an herbal "belly fat" pill called Relacore® to help reduce the signs of aging. And if consumer sales are any indication of a product’s effectiveness, Relacore is nothing short of an "anti-aging" miracle. People are buying so much of this stuff that finding a bottle of Relacore at your local Wal-Mart has become almost impossible. Is everyone going crazy? A "belly fat" pill that makes you look and feel younger? Well...they may not be as crazy as you think.

Anti-Aging Breakthrough or Dumb Luck?
Relacore has quite a history. Originally designed as an all-natural, stress-reducing "feel good pill", its popularity as "America’s Number One Belly Fat Pill" soared in the fall of 2001 as the link between stress and belly fat became the focus of media attention around the globe.

"Frankly, we were happy with the sales of Relacore when it was simply known as an all-natural, stress-reducing, 'feel good' pill," says Gina Daines, spokesperson for The Carter-Reed Company,™ maker of Relacore. "But as the press started talking more and more about the connection between stress and belly fat retention, sales skyrocketed and in less than one year, Relacore became (and still is) America’s number one selling 'Belly Fat Pill'... you could truly say Relacore’s success as a 'Belly Fat' phenomenon was just dumb luck. But with all this breaking news about 'anti-aging'... Even we couldn't have predicted this kind of overwhelming demand for Relacore."

Dumb Luck Strikes Again!
So why are some people calling Relacore the new "anti-aging breakthrough"? Well, as dumb luck would have it, a recent 2009 study published in the scientific journal Hormones underscored the association between stress, belly fat, and accelerated aging. It has long been observed that people who are stressed over prolonged periods tend to look prematurely aged and haggard. (And we’re not just talking about extreme stress, we’re talking about "normal" everyday stress.) But now the scientific correlation has become clearer due to the results of several extraordinary published scientific papers. "Research has demonstrated that there is a link between stress and belly fat retention," explains Amy Heaton, PhD, a research scientist at The Carter-Reed Company. "But is there really a connection between stress and aging? Well it turns out that there is, and it has to do with something called 'accelerated telomere (pronounced TEL-oh-mere) shortening.'"

Why Are They Calling This Belly-Fat Pill An Anti-Aging Breakthrough?

So What Are Telomeres, And How Do They Keep Your Cells Young?
Stick with me for a minute, the science is really interesting. A full set of DNA is contained in all the cells of our bodies (except for a few specialized cell types). DNA is packaged at certain times in structures called chromosomes, which...
are capped by complexes called telomeres that improve the stability of our essential DNA and basically prevent them from unraveling (similar to the tips of your shoelaces). However, as we age and our cells divide into new cells (a process called DNA “copying”), the telomeres cannot be fully replicated due to limitations in the natural copying process.

This leads to telomere shortening with every replication, and new research suggests that telomere shortening is the process by which people grow "old" biologically. In very simplified terms, the faster your telomeres shorten, the faster you age... biologically speaking. So how much influence can stress have on cellular aging? In a landmark research study published in the Proceedings of the National Academies of Sciences, researchers found that the cells of healthy women who were considered "high stress" appeared† to be about 13 years older, on average, than the cells of healthy women considered "low stress." What does this mean in plain English? If you reduce your stress, or even your perception of stress, you may actually be able to stay "younger" longer.

Relacore: A Natural Way To Fight Stress-Related Aging.

"It makes sense that Relacore is becoming a popular 'anti-aging' pill," explains Dr. Heaton. "Stress, and the shortened telomere length associated with elevated levels of stress, has been shown in multiple studies to have dramatic effects on all aspects of life, from obesity to sexual health, even wrinkles. It’s logical that a formulation that helps reduce stress and thus preserves telomere length might have a positive impact on the detrimental effects that stress can produce." So if you see someone taking a "Belly Fat Pill" to stay younger, don't think they've gone off the deep end... they just might be a little bit smarter than you think.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease. Use in conjunction with any sensible diet and exercise program. Individual results will vary.

Call for more information 1.800.505.4554
Stress. That’s right... stress! As it turns out, the same diet that’s helping you lose weight might actually be causing you to retain figure-destroying belly fat. That’s because dieting is stressful. You worry about what to eat... when to eat... how much to eat. All that worry leads to “diet stress.”

And, as we all know by now, even ordinary, everyday stress can cause your body to increase or retain belly fat. That’s why you can go on a diet, lose weight, but still look thick around the middle.

So what are we to do? Millions of women are turning to weight-control “adjuncts” or “add-ons.” These groundbreaking compounds are not really diet pills in the true sense of the word. Instead, they help traditional diet and exercise programs reduce tummy bulge by controlling diet-related stress and anxiety... the same stress and anxiety that can lead to stubborn belly fat retention (not to mention that all-time diet killer “Nervous Binge Eating”).

Over the past five years, the most popular “Belly Fat” pill has been Relacore® (from the Carter-Reed Company™). Relacore has sold more than 12.7 million bottles worldwide and is affectionately called “America’s #1 Selling ‘Belly Fat’ Pill.” Relacore has a great track record... and it wouldn’t be America’s #1 selling “Belly Fat” pill five years running if people didn’t love it. Let’s face it, you not only want to lose weight, you want to look good... and looking good means a thinner waist and flatter tummy.

So if you’re ready to go on a diet, or if you’re already losing weight and having a hard time getting rid of your stubborn stress-related belly bulge, try this exceptional tummy flattening feel good pill.* America’s most popular weight-control “adjunct,” Relacore.
Our 100% satisfaction guarantee: Because no product or program will work for everyone, Relacore is backed by our 100% money-back guarantee. Simply stated, if you are not satisfied with your Relacore just return it to the place of purchase within 30 days.

The Original Marine Thermogenic*

Introducing Sea-Thin™, the original, patent-pending marine thermogenic, containing natural fucoxanthin from edible brown marine vegetables. This unique marine vegetable extract is combined with pomegranate seed oil high in health-promoting punicic acid in a patent-pending combination. Sea-Thin can be taken any time of day because unlike other thermogenics, Sea-Thin is non-stimulant and will not cause jitters.

PATENT PENDING FORMULA

Sea-Thin™ is a thermogenic unlike any other. A patent-pending combination of concentrated fucoxanthin from specially cultivated and extracted edible brown seaweed and cold-pressed pomegranate seed oil.

All marine extracts are not alike. The cultivation and extraction process required to create Sea-Thin's high natural fucoxanthin concentration was the result of seven years of research and development by leading marine scientists.

The combination of proprietary cultivation methods and a proprietary extraction method creates an all-natural concentrate with levels of fucoxanthin that are 250%-500% higher than wild harvested seaweed, along with other beneficial marine carotenoids and marine omega-3 essential fatty acids.

How Sea-Thin™ Works

- Scientific studies suggest fucoxanthin from Undaria pinnatifida and Laminaria japonica possesses stimulates the energy expenditure rate and possesses strong thermogenic properties, with implications for body weight reduction. Fucoxanthin shows an anti-obesity effect through UCP1 expression in white adipose tissues (WAT). WAT is the type of fat found around the belly and in the liver. Uncoupling proteins (UCPs) are mitochondrial transporters present in each cell's inner membrane. Fucoxanthin upregulates the expression of UCP1 in WAT, which creates heat (thermogenisis) thus contributing to reduced WAT weight, by oxidation of fatty acids and heat production in WAT mitochondria. This stimulated oxidation reduces WAT in mammals. This is the first observation of thermogenics, anti-obesity effect through UCP1 expression in WAT from a natural food constituent.

- Japanese and Russian scientists recently discovered that fucoxanthin, a natural carotenoid found in marine vegetables, possesses strong thermogenic and visceral fat reducing properties that may stimulate general metabolic rate and contribute to dietary weight reduction and healthy weight management.

- Metabolically, fucoxanthin promotes the induction of UCP1-mitochondrial uncoupling protein 1 genes. Fucoxanthin upregulates the expression of UCP1 gene in white adipose tissue which stimulates general metabolic rate, thus contributing to reduced white adipose tissue weight.

- By stimulating the expression of the UPC-1 gene in fat cells, fucoxanthin promotes thermogenesis (fat burning) in white fat cells. White fat cells are those that accumulate in the liver and around the belly as a result of overweight or obesity.

- Preliminary results from a double-blind, randomized, placebo-controlled clinical trial of Sea-Thin™ on 140 obese female subjects after 16 weeks show a significant reduction in liver fat, visceral fat and body weight.

- Sea-Thin™ provides the studied amount of fucoxanthin, blended in a patent-pending ratio with cold-pressed pomegranate seed oil standardized to punicic acid. Punicic acid is triple-conjugated linolenic acid, a fatty acid specific to pomegranate.

- Fucoxanthin through induction of UCP proteins protects the mitochondria from free radicals damage (anti-aging effect). Mitochondria are the cell's organelle that produces energy.
Sea-Thin™ reduces liver fat, which can be a major limiting factor in weight loss.

1 Along with a calorie conscious diet.
The Sea-Thin™ Difference

Sea-Thin™ is cultivated from a proprietary process of unique, proprietary strains of Undaria (Wakame) and Laminaria (Kombu) grown in the unpolluted waters off the Canary Islands. The Wakame and Kombu are grown in tanks with circulating filtered deep sea water in rectangular photobioreactors that allow the brown sea vegetables to increase the levels of fucoxanthin. Careful manipulation of the cultivation conditions allows for modification of the pigment content required to optimize the production of the components in Sea-Thin, such as the levels of fucoxanthin, neoxanthin, violaxanthin and marine omega-3 oils. This proprietary cultivation process harvests the seaweed at an early life stage and varies light intensity to maximize the levels of fucoxanthin so it remains pharmacologically active and retains its health promoting properties. The health promoting sea-actives unique phytocompounds only become bioavailable for humans after their extraction using a proprietary supercritical CO2 extraction process.

Sea-Thin is different from all other thermogenic products in several important ways:

Simultaneously targeted multiple action formula:
- Produces healthy thermogenesis without overstimulation*
- Increases general energy expenditure rates*
- Promotes liver and belly fat metabolism at the cellular level*

Significant Results: In human clinical trials to date, subjects lost an average of 14±5 pounds over 16 weeks, of which 11.5±5.5 pounds were fat loss compared with the placebo group.

The only marine thermogenic: The only food source nutrient with observed healthy thermogenic and anti-obesity effect through UCP1 genes expression in white fat cells.

Non-stimulant: No jitters or lost sleep.

Compelling benefits: Fat metabolism and cellular protection from powerful destructive oxidative metabolites - those free radicals and molecules that are formed in our body constantly and accelerate the aging processes, particularly in mitochondria. Fucoxanthin had suppressive effects on adiposite differentiation that may reduce the deposition of fat in adipose tissue and/or the formation of new white adipose tissue.

Strong science: Evidence of health-promoting effects of fucoxanthin is promising, with additional studies underway.

Safe: Extracts of food that have been part of traditional Oriental and Russian diets for centuries.
**Proprietary processing:** Made under a protected process in the Canary Islands and Zanzibar Island, and extracted using proprietary nanotechnology process for guaranteed potency and consistency.

**Authentic material:** Sea-Thin™ is the authentic, studied material used in human clinical trials, which is up to 500% higher in fucoxanthin than wild seaweed due to proprietary cultivation and extraction processes. Beware of imitations and knock-offs, since wild crafted seaweed contains only trace levels of fucoxanthin and has no clinical support or likely efficacy.

**Exclusive source of supply:** Sea-Thin™ is the only marine fucoxanthin extract researched and validated by National Bioscience Corporation and manufactured in the Canary Islands by Polinat, S.L.

**All natural food source:** Both edible marine vegetables and pomegranate have a long history of safe use in the food supply.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.*
Marine vegetables, traditionally known as seaweeds, are considered some of the most nutritious vegetation on earth. Brown marine vegetables are the most numerous and found in the cold water regions of the northern hemisphere. This subgroup of algae contains a brown carotenoid pigment called fucoxanthin that masks the green of the chlorophyll. These brown marine vegetables, Undaria and Laminaria are popularly known as Wakame and Kombu. The photosynthesizing pigment of this type of seaweed is fucoxanthin.

Brown marine vegetables have long been used in the Japanese and Chinese diet since ancient times. Epidemiological studies strongly suggest that the high consumption of marine vegetables may be a contributing factor in their well-established, lower incidence of health problems in Japanese as compared to American populations.

Recent research suggests that natural compounds in marine vegetables can significantly affect fat metabolism and that fucoxanthin is one of these key ingredients that, along with diet and exercise, has helped to minimize weight issues among Asian populations where it is consumed the most.

Sea-Thin™ is cultivated from a proprietary process of unique, proprietary strains of Undaria (Wakame) and Laminaria (Kombu) grown in unpolluted waters. The Wakame and Kombu are grown in tanks with circulating filtered deep sea water in rectangular photobioreactors that allow the brown sea vegetables to increase the levels of fucoxanthin. Careful manipulation of the cultivation conditions allows for modification of the pigment content required to optimize the production of the components in Sea-Thin, such as the levels of fucoxanthin, neoxanthin, violaxanthin and marine omega-3 oils. This proprietary cultivation process harvests the seaweed at an early life stage and varies light intensity to maximize the levels of fucoxanthin so it remains pharmacologically active and retains its health promoting properties. The health promoting sea-actives unique phytocompounds only become bioavailable for humans after their extraction using a proprietary supercritical CO2 extraction process.

Frequently Asked Questions

Click a question below to see the answer:

- **What is fucoxanthin?**
- **Are there any stimulants in Sea-Thin™?**
- **Are there any other potential health benefits from taking Sea-Thin™?**
- **Where is the seaweed harvested?**
- **What is the recommended dosage for Sea-Thin™?**
- **Do I need to do anything else to lose weight?**
- **Are there any contraindications or warnings for Sea-Thin™?**
- **Can I take Sea-Thin™ while taking medication?**

---

**What is fucoxanthin?**
Fucoxanthin is a member of the carotenoid family which includes beta carotene, lutein and lycopene. It is commonly found in brown seaweed and is the brown pigment that gives brown seaweed its characteristic color.

[Back to top](#)

**Are there any stimulants in Sea-Thin™?**
Absolutely not! Sea-Thin™ contains no stimulants or other potentially harmful diet aids such as Ephedrine and PPA (phenylpropanolamine). Sea-Thin™ can be used at night, and will not cause jitters or loss of sleep.

[Back to top](#)

**Are there any other potential health benefits from taking Sea-Thin™?**
The high consumption of marine vegetables in Asian diets may be a contributing factor in their well-established, low incidence of health problems in Japan as compared to Americans.

Fucoxanthin is also an antioxidant which is important in neutralizing potentially harmful substances in the body.

[Back to top](#)

**Where is the seaweed harvested?**
The growing and cultivation of the brown seaweed takes place under closely controlled conditions in the pristine waters off the coast of the Canary Islands and off the coast of Europe.

[Back to top](#)
What is the recommended usage for Sea-Thin™?
600 mg daily, in divided servings (One 200 mg soft gels taken 3 times daily in the morning, noon and dinner time). Sea-Thin™ should be taken with a meal.

Do I need to do anything else to lose weight?
Yes. Despite what many diet products would lead you to believe, the only way to lose weight and keep it off without damaging your health is by adopting a healthy lifestyle that includes a moderate exercise program and a calorie conscious diet. The research on Sea-Thin™ was done in conjunction with a calorie conscious diet.

Are there any contraindications or warnings for Sea-Thin™?
Clinical studies and a long history of the use of brown sea vegetables as food show no significant adverse effects. However, as with any dietary supplement consult your healthcare practitioner before using this product, especially if you are pregnant, nursing or under medical supervision. Not intended for children. Sea-Thin™ is manufactured on equipment that may process soy, wheat and/or fish (anchovy/sardine).

Can I take Sea-Thin™ while taking medication?
As with any dietary supplement, we recommend you consult your physician especially if you are under medical supervision or taking prescription medication.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

1. Along with a calorie conscious diet and exercise.
2. Subjects lost an average of 14.5 pounds of body weight versus 3.0 pounds in the placebo group.
Slim 10™ is the first and only pill to combine these ten effective weight loss ingredients that have all been patented and clinically proven. In addition to these ten unsurpassed ingredients, each serving of Slim 10™ contains 200mg of Real South African Hoodia concentrated 20 times for maximum potency. This is scientifically advanced weight loss...and of course anyone intending to lose weight needs to incorporate a healthy diet and some regular exercise into their routine.

Slim 10’s revolutionary formula contains: Advantra Z®, Super Citrimax®, Tonalin®, Phase 2®, 7-Keto®, NeOpuntia®, ForsLean®, Slimaluma®, ChromeMate® and CarniPure®. These ingredients are of the highest quality available and have been proven in clinical trials to produce results. If you are going to lose weight with the help of weight loss ingredients, your chances with Slim 10® are as favorable as you can get. We want you to have a no-lose situation in trying this advanced formula, so Slim 10™ comes with a 90-Day money back guarantee. If you don’t lose weight, we do not want your money.
Before: 292  
After: 180  
Lost: 112 Pounds  
Results not typical.

Each of the Slim 10® ingredients has a US Patent for their standardized process for manufacturing the raw materials into the finished product. It is important to note that in order to get their patents each company must prove and ensure that their ingredient formulation is always the exact same every time they produce it. This means you can always count on what you are taking. Most products that use natural ingredients vary from batch to batch in strength and potency because the ingredients are not ‘standardized’. Each ingredient also has at least one clinical study (and most have multiple) proving their effectiveness. In today’s world of weight loss, verified clinical studies are the primary thing the consumers can count on. In addition to these 10 Patented Ingredients, Slim 10™ also contains 200mg of Certified Real South African Hoodia in every serving. This special form of Hoodia is concentrated 20 times for pure appetite suppression. Slim 10™ is weight loss at its finest….when combined with a sensible diet and exercise of course!

Before: 217  
After: 136  
Lost: 81 Pounds  
Results not typical.

Hoodia is the most exciting and talked about natural appetite suppressant available. It contains an active component called “P57,” which is a molecule that research suggests may tell your brain it feels full. The P57 molecule is estimated to be up to 10,000 times as active as glucose in sending the signal to the brain that tells your body it is NOT hungry. The Hoodia in Slim 10™ contains the most potent concentration available: “20X Strength.”

60 Minutes Correspondent  
Lesley Stahl reports: “Hoodia doesn’t stimulate at all. Scientists say it fools the brain by making you think you’re full, even if you’ve eaten just a morsel.”
So how did it work? Stahl says she had no after effects – no funny taste in her mouth, no queasy stomach, and no racing heart. She also wasn’t hungry all day, even around mealtime. And, she also had no desire to eat or drink the entire day. “I’d have to say it did work!” says Stahl.

If you are looking for a cheap diet product filled with generic ingredients so you can save some money, Slim 10™ is NOT for you. This is one of the most expensive diet pills to produce available. Each of the ten patented ingredients cost up to 20-50 times the amount of money as cheap materials found in most weight loss products. With Slim 10™ – you are paying for the one of the best weight loss pills that can be produced.
If you are taking your weight loss seriously and you want results – treat yourself to the Ferrari of diet pills. Most diet pills do NOT work for most people. Why waste time using something that isn’t proven? Try Slim 10™ today because your chances of success with these 10 clinically proven ingredients are as good as they are going to get. Friends – on your weight loss journey, you need to eat sensibly and get some exercise!

For Detailed Information About The Slim 10® Patented Ingredients Please Read Below...

Advantra Z®

Advantra-Z® (U.S. Patent 6,224,873) is Clinically Proven to Burn to assist in increasing the metabolism to burn up to hundreds of more Calories per Day. Advantra-Z® contains the active ingredient “Synephrine,” which is part of the Ephedra/MaHuang family. Advantra-Z® comes in four different standardized Synephrine potencies: 5%, 6%, 10% and 30%. Slim 10™ contains the “Extra-Strength” 30% version of the herb which is the most potent. Advantra-Z® is metabolism boosting at its finest...

Advantra-Z® is proven to boost the metabolism as effectively as ephedra when taken properly. It has been proven to not increase the heart rate and has no negative side effects on the cardiovascular or central nervous systems. Advantra-Z® patents include:

- Increasing the metabolism to burn more calories per day
- Enhancing weight loss
- Increasing lean muscle mass
- The “Thermic Response” (metabolizing of calories) to a meal is 4% greater. You will burn the calories you eat 4% faster
- Improving athletic performance
- Suppressing appetite

There are a lot of generic Synephrine products available, but Advantra-Z® is by far superior. The graph below shows the Advantra-Z® difference:
Tonalin® (U.S. Patent No. 5,554,646), is the most concentrated and potent form of CLA (Conjugated Linoleic Acid) available. CLA has been shown to assist in decreasing the amount of fat stored by the body after eating, increasing the speed at which stored fat is broken down, increasing fat metabolism rates and decreasing the total number of fat cells in the body. It has been shown in a clinical study to assist in reducing body fat by up to 21%!

CLA inhibits lipoprotein lipase, an enzyme that stores fat in the body. By suppressing this enzyme, CLA helps reduce the amount of fat that is deposited and stored. Research on CLA has been ongoing for almost 30 years, starting with its discovery in 1978 by Dr. Michael Pariza. Since then, over 600 studies have been performed and during a three-month clinical it was proven that Tonalin® will assist in reducing body fat percent by an average of 21%.

Super Citrimax:
Super Citrimax® (U.S. Patent No. 6,875,891) has been shown to assist in curbing the appetite, burning fat, reducing Body Mass Index, increasing serotonin levels and enhancing weight loss with no negative side effects. It is an enhanced version of the inferior Citrimax®, which contains a special blend of Hydroxycitric Acid (HCA). The raw materials are found in an evergreen tree native to India known as Garcinia Cambogia. While there are several extract-based versions of HCA on the market today, Super Citrimax® has been proven to increase absorption in the body by up to 20% over other forms of HCA. This means that more of this unique ingredient will make it into the bloodstream, thus making more effective by a great margin.

The Georgetown University Medical Center in Washington, D.C., and Andhra University in Visakhapatnam, India, completed studies on Super Citrimax® that both showed positive benefits of this ingredient. In addition to assisting in curbing the appetite and burning fat, Super Citrimax® also increases serotonin levels in the body. This neurotransmitter aids in decreasing hunger while improving mood and sleep habits. Super Citrimax® helps to alleviate some of the mood-related issues obese individuals suffer from, like binge eating. But the benefits do not stop there -- Super Citrimax® also helps lower LDL levels (the “bad” cholesterol) while enhancing HDL levels (the “good” cholesterol).
Phase 2® (U.S. Patent 5,027,806) has been clinically proven to assist in the blocking of carbs and starches from being absorbed by the body which can help people to lose weight. This preventative technique is accomplished by utilizing the active ingredient Phaseolamin which is derived from White Kidney Bean.

White Kidney Bean Extract has been used for years to encourage weight loss, but Phase 2® contains the most potent form of the active ingredient available.

Your body breaks-down carbohydrates with alpha amylase, an enzyme that is produced in the pancreas. Phase 2® "neutralizes" the digestive enzyme alpha amylase before it can convert starch into glucose and then fat. This is how Phase 2® helps to prevent many of the starches found in breads, pasta, rice, corn and crackers from being digested and absorbed in the body. When starches enter the body, they are converted into sugar for use as energy. However, most people don’t burn enough calories throughout the day to use all the energy available from the typical high-starch meals we eat. This means that the sugars are then transferred into fat cells for long-term storage. By helping to block these starches in the first place, Phase 2® helps keep your food from turning into stored fat in the body. Phase 2® is the first nutritional ingredient to be clinically and scientifically proven to have this effect. It is a non-stimulant and all-natural ingredient as well, making it safe for consumers.

7-Keto
7-Keto™ (U.S. Patent 5,296,481) is a unique ingredient that aids in enhancing the metabolism naturally and avoids the negative side effects associated with stimulants. 7-Keto™ actually holds five different patents for its positive benefits in promoting thermogenesis (increasing the body's metabolism to burn more calories).

Our bodies need the hormone DHEA (often referred to as a “fountain of youth”) to help keep our metabolisms burning calories efficiently. However, this hormone drops in production dramatically after the age of 20, resulting in a slowing metabolism, reduced immune response, some memory loss and a lack of energy. You cannot give yourself direct DHEA safely – in fact this is what a lot of steroids are derived from. SO – the organization Humanetics began a 14-year research program to develop an ingredient that provided the same benefits of DHEA without any harmful side effects. This is where 7-Keto™ came to life, offering a non-toxic, side-effect-free version of this hormone that will not accumulate in the body over time and will not affect hormone levels. The actions of this unique ingredient are increased metabolism, increased thermogenesis and increased burning of stored fat in the body. 7-Keto™ helps to provide the same effects of DHEA without the negative side effects.

In graph #1 below – in a double blind eight week clinical trial, one group of participants were given 7-Keto and the other a placebo. The 7-Keto group lost a significant amount of bodyweight compared to the placebo group. In fact, the 7-Keto group lost three times more fat than the placebo group.

In graph number 2 below – you will see that the Resting Metabolic Rate (the amount of calories you burn while not doing any activity) of those who take 7-Keto is more than double that of the placebo group. This means that 7-Keto helps you burn more calories per day.
Carnipure

CarniPure™ (U.S. Patent 5,073,376), the only patented form of L-Carnitine, helps break down fat because it is an essential part of helping the body turn fast cells into energy, thus increasing the rate at which the metabolism burns calories and helps it from letting fatty acids become stored fat.

Fatty acids are one of the primary energy sources for the body. β-oxidation is the process by which fatty acids are broken down for the ultimate production of energy. If these fatty acids are not broken down efficiently, they easily turn into stored fat causing people to gain weight. Although fatty acids need to enter the mitochondria (the 'furnace' of the cell) for β-oxidation, they are unable to penetrate the mitochondria on their own. This is where real L-Carnitine is essential because it transports fatty acids into the mitochondrial for fat breakdown and energy production.

The Lonza Corporation, the manufacturer of CarniPure™, is currently the only L-Carnitine manufacturer capable of producing L-Carnitine in the same way as nature. This patented ingredient is simply the purest form of L-Carnitine available, deriving its contents from a special fermentation method that mimics the body's own method of forming L-Carnitine. This makes this product safe for consumers rather than obtaining the amino acid through generic replicated forms that your body may not absorb.

Slimaluma®

Slimaluma® (U.S. Patent 7,060,308), is clinically proven to help suppress the appetite. When you’re hungry, the hypothalamus tells the brain that food is needed. And when the stomach is full, the hypothalamus tells the brain to stop eating. More than one double-blind clinical studies have shown that when you start to eat, Slimaluma® essentially sends a signal to the hypothalamus telling the brain that your stomach is full.

Gencor Pacific, Inc., the makers of Slimaluma®, are the only makers of this ingredient which is derived from the succulent plant Caralluma Fimbriata. This plant has been long used in India during times of famine and drought in order to stop hunger. Through the standardization and highly concentrated extract of the plant on eco-friendly farms in India, Caralluma has been brought into the modern world in order to calm hunger and it is only available in patented Slimaluma®.

Gencor’s Caralluma extract has been certified non-toxic through clinical trials and has no negative side effects making it a safe appetite suppressant.

NeOpuntia®

NeOpuntia® (International Patent PCT / FR 02 / 01254) is clinically proven to attract fat and bind with it. When it enters the body, the fiber in NeOpuntia® literally soaks up the fat you eat in foods and helps it to keep
from turning into fatty acids, which can become stored fat cells if not burned off. This neutralized fat contained in NeOpuntia® then passes through the body without being absorbed and encourages weight loss results.

NeOpuntia® is an extract made from Opuntia ficus indica (prickly pear cactus). With a unique extraction process, this new ingredient maintains a 100% natural, organic and vegetarian status—a rarity in the diet market. This 100% green and natural high quality ingredient inspires a healthy and safe weight loss while letting people still eat some of the foods they love...in moderation of course!

NeOpuntia® goes through a rigorous growing, harvesting and testing process to ensure absolute quality. In fact, every batch of NeOpuntia® undergoes in-vitro fat binding testing to make sure that the product meets the company’s standards of effectiveness and absorbs fat effectively. The result is a standardized excellent product consumers can count on.

A double blind clinical study showed that the quantity of fat excreted out of the body compared to the quantity ingested with food intake increased on average by 27.4%, when taken NeOpuntia® compared to placebo. This means that NeOpuntia® can cut out 27.4% of the fat you eat and helps to keep it from turning into stored fat.

ForsLean® (U.S. Patent 5,804,596) is a patented and standardized extract taken from the Coleus Forskohlii plant. Winner of Best New Product of 2001, ForsLean® uses the unique chemical found in this mint-family plant to encourage lean body mass because it causes chemical reactions that instigate fat cells to release their energy and burn off. In fact, these chemical reactions are very similar to the reactions that ephedrine causes. What makes ForsLean so much safer than ephedrine is that it does not increase the heart rate or blood pressure.

ForsLean® stimulates the thyroid in order to boost mood and metabolism. By increasing metabolism, the body breaks down more stored fat in order to produce more energy. With several clinical studies to support its actions, ForsLean® has proven itself as an indispensable part of the diet market.

In a double blind clinical trial – on average the subjects using ForsLean® lost 9.9 pounds of bodyfat and significantly improved lean body composition compared to the placebo group.

ChromeMate® (U.S. Patent 4,923,855) has created a unique compound that is now known as the safest and most potent form of chromium available on the market today. Chromium is a common ingredient in weight management products because of its ability to help the body turn sugar into energy. Chromium has long been used to assist in managing blood sugar levels, but until recently, only mildly effective compounds of this ingredient were available. By combining Chromium with niacin, ChromeMate®‘s effective version of Chromium helps balance blood sugar by making it more available for energy. Of course, if sugar is more easily burned off as energy, the chances of it becoming stored fat are much less.

ChromeMate® also improves insulin function, resulting in healthy blood sugar levels, healthier
cholesterol levels, more energy and a promotion of better body weight levels. In fact, a lack of chromium can result in type II diabetes, obesity and heart disease.

As the only niacin-bound chromium supplement with clinical studies to support its biological activity, ChromeMate® is the most effective form of Chromium available and the best way to help transform your sugar intake into energy.

**Pure 20X Strength South African Hoodia**

In addition to the 10 award-winning ingredients listed above, Slim 10® also contains 200mg of Real South African Hoodia per serving. With the rise of Hoodia’s popularity, the plant has been harder to come by and more expensive. Most manufacturers have turned to other kinds of Hoodia grown in other countries like China and Mexico in order to save money. Unfortunately these forms of Hoodia are nowhere near as effective as South African Hoodia. The Hoodia used in Slim 10® is certified to be from South Africa.

If you are not yet familiar with Hoodia, it is the much talked about and exciting natural appetite suppressant. It contains a compound called "P57," which is a molecule that makes you feel full. The P57 molecule is estimated to be up to 10,000 times as potent as glucose in sending the signal to the brain that tells your body it is NOT hungry. The Hoodia in Slim 10® contains the most potent concentration available: "20X Strength." If any form of hoodia is going to suppress your appetite, it is this one.

**Order Slim 10® Today** – If you are not 100% satisfied, we ask you to please take advantage of our 90-Day Money Back Guarantee. We want you to have nothing to lose by trying this awesome weight loss system. Any order can be returned for a 100% refund within 90 days from the date you place your order. No questions asked.

***As with any dietary supplement, Slim 10™may not be for everyone. Please consult your healthcare professional before starting any diet or exercise program. These statements have not been evaluated by the Food and Drug Administration. This product is not intended to treat, cure, or prevent any disease.***

Product Information
What is Slim 10®?
Slim 10® is the first and only pill to combine the ten most effective weight loss ingredients that have all been patented and clinically proven. In addition to these 10 Patented Ingredients, Slim 10® also contains 200mg of Certified Real South African Hoodia in every serving. This special form of Hoodia is concentrated 20 times for pure appetite suppression. Slim 10® is weight loss at its...
What are the ingredients of Slim 10®?
Slim 10®’s revolutionary formula contains: Advantra Z®, Super Citrimax®, Tonalin®, Phase 2®, 7-Keto®, NeOpuntia®, ForsLean®, Slimaluma®, ChromeMate® and CarniPure®. It also contains Real South African Hoodia.

Other ingredients: Sodium (as capsule), magnesium stearate, silica.

How much comes in each box of Slim 10®?
Each box is a one month supply. Each box contains 30 individual packets with 3 capsules each. A one month supply contains 90 capsules in total.

How do I take Slim 10®?
We recommend taking two capsules in the morning before breakfast and the third capsule about an hour or so after lunch.

Do I have to diet and exercise while taking Slim 10®?
We recommend a sensible diet and an exercise program to everyone wanting to lose weight.

How much does Slim 10® cost?
Slim 10® starts at $89.99 for a one month supply – but you can order in larger quantities and the price drops. We typically recommend ordering larger quantities because most customers get hooked and take it for 2-6 months until they reach their weight loss goals. Additionally, if you decided Slim 10® was not for you, you can return it for a full refund – we offer a full 90-day money guarantee. So you are better off getting a bigger order initially because you will save money right away per box and you have nothing to lose if you decide to return it.

Our Pricing Model is as follows:

- 1 Boxes = $89.99
- 2 Boxes = $140 (a $40 savings)
- 3 Boxes = $195 (a $75 savings)
- 4 Boxes = $240 (a $120 savings + Free Expedited Shipping)
- 5 Boxes = $275 (a $175 savings + Free Expedited Shipping)
- 6 Bottles = $300 (a $240 savings + Free Expedited Shipping)

Is Slim 10® safe?
Slim 10® is extremely safe and there has never been a health issue in the history of the product. However, we must state the following:

Do not use if you are pregnant or nursing. Consult a health care professional before using this product if you have heart disease, thyroid disease, diabetes, high blood pressure, depression or other psychiatric condition, seizure disorder, or if you are using any prescription drug.

Do you have a trial size available?
No, we do not have a trial size. However, we have an outstanding product guarantee. If for any reason you do not like Slim 10®, simply contact us with 90 days of the day you placed your order, and arrange to send your order back for a full refund less shipping and handling.
Autoship Program

What is the Slim Shot® Autoship Program?
You have the option to join our autoship program if you prefer. You are not obligated to join it when purchasing, it is strictly for those customers that would like to have their Slim 10® shipped to them on a regular basis so they do not run out of their supply. You will be offered this option AFTER you order. You have to intentionally join this program; it is not something you need to opt-out of – there are no hidden terms. A lot of customers take advantage of our complimentary "Auto-Ship" Service because your shipments are timed perfectly to arrive at your door just a few days before you run out of your current supply. This means you'll never miss a single important dosage. The Auto-Ship Service does not cost anything extra and you will receive complimentary insurance on every shipment. If for any reason you do not receive your order, we will replace it free of charge.

If you do decide to join the autoship program, the following would apply:
If you ordered a one month supply, we would send you a one month supply every month at the same time until you inform us to stop. We will bill your credit card the exact same fee as your initial order. If you ordered a three month supply, we would send you a three month supply every three months and you would be billed the three box price every three months and you would be billed the three box price every time. So on and so on…..

Can I order without being on an Autoship Program?
Of course you can. No one is automatically signed up for the autoship service. You have to intentionally sign up for the autoship service after you place your order. This service is strictly for those customers that would like to have their Slim 10® shipped to them on a regular basis so they do not run out of their supply.

Can I change the date of my Autoship?
Absolutely! Any time you need to change your ship date, call or write Customer Service.
Our professional Customer Service Representatives are available 7:30am-4pm PST Monday-Friday.

Email: info@antiagingproducts.com
Phone Toll Free US: (800) 215-2304
Phone International: (424) 354-1308
Fax Toll Free US: (424) 354-1309

What if I want to skip a shipment?
No problem at all…any time you need to skip a month, just call or write Customer Service.
Our professional Customer Service Representatives are available 7:30am-4pm PST Monday-Friday.

Email: info@antiagingproducts.com
Phone Toll Free US: (800) 215-2304
Phone International: (424) 354-1308
Fax Toll Free US: (424) 354-1309

How do I cancel the Autoship Program?
You can discontinue the Autoship Service before we process your next order. Once an Autoship order has been sent – it is not refundable.

Our professional Customer Service Representatives are available 7:30am-4pm PST Monday-Friday.

Can I order using a money order?
Sorry -- Due to high demand we only accept web orders.

What name will I see on my Credit Card Statement?
You will see a charge from ‘Slim10’ on your credit card statement.

Shipping Information, United States

How soon will you ship my order?
When you order before 5:00 pm, Pacific Standard Time, your order will normally ship the next business day. Orders placed after 5:00 pm PST, or on Saturday and Sunday, will normally ship within two business days.

How long before my order arrives?
The following are approximate delivery times from the ship date:
- First Class Mail – 3 to 8 business days
- Priority Mail – 2 to 4 business days
- Express Mail – 1 to 2 business days

What do you charge for shipping and handling?
- First Class Mail – $8.95
- Priority Mail – $16.95
- Express Mail – $39.95

Is the package discreet?
Yes. Your order is delivered in a plain package, with our name, Slim10, and your name and address.

Shipping Information – International:

Do you ship internationally?
Yes, we ship to most countries. If your country is listed on the order page, we will ship to you.

What do you charge for shipping and handling?
For regular parcel post, the shipping and handling fee is $29.95 (US).

How long before my order arrives?
Most international orders are delivered in 10 days. Please note: Customs clearance may delay the delivery of your order by up to an additional two weeks depending on your country.

What happens if my order does not clear customs?
If you provide us with the appropriate documentation from your Customs Department, we will refund your purchase, less a restocking fee of $20.00 plus any expedited shipping services, if any. Or, at your request, we will re-ship your order, but we must charge shipping and handling again. If we re-ship your order and it again does not clear customs, we will refund your purchase less the restocking fee as described above. Sorry, but we cannot ship a third time.

Will I be charged a customs fee or tax?
Most countries today charge their citizens an import duty or tax. We are unable to determine this in advance, and you will be responsible for this cost.
Is the package discreet?
Yes. Your order is delivered in a plain package, with our name, Slim 10, and your name and address.

Security and Privacy

Is your website secure?
Absolutely. Ordering on our site is safe and 100% guaranteed. We utilize the industry standard, state-of-the-art SECURE SOCKET LAYER CHECK-OUT system that is necessary to make shopping online perfectly safe. Your order information is delivered directly to us via a secure-session encryption process. Your information is scrambled before it is even sent to us, making it impossible for unauthorized individuals to access it.

What information do you collect?
We collect only the required information to process your order, such as your name, address, phone number (we will not call you unless there is a problem with your order), and credit card number.

Real People With Real Results
I have already began to see results. My clothes are starting to fit me better. Even more, I no longer am stress eating. Meals aren't as frantic as they used to be, and I only eat a normal sized portion, and feel full afterwards.

I really love this one Slim Xtreme Pill a day. It really gets my day started and I think it is the best on the market for years and I hope they never go away. The first bottle I took I lost 15 lbs in one Month. and they are still keeping my weight down. Will take forever because I don't like taking more than 1 diet pill per day.

**INGREDIENTS**

*Slim Xtreme gold diet Pills* with a completely smooth weight loss process to help you safely and effectively control your impulses. It is a proprietary blend of natural ingredients to lose weight fast and strongly increase your energy.

**Mechanism:**

1. Multiple vegetable proteins, blocking the ingestion of fat, commanding weight effectively.
2. Supplying diet fiber, restraining appetite, reducing the ingestion of calorie, stimulating bowels evacuation and protecting cardiovascular efficiency, losing weight healthily.
3. Hastening fat metabolism, increasing the strength of muscle, reducing fat storage and building nice figure.

**Specification:** 30 capsules per bottle.

**Usage:** For best results take 1 (one) capsule with a glass of water in the morning before or after breakfast.

**Shelf Life:** Two years.
F.A.Q

1. How can I find an item?
Our products are organized by categories. Please select a category from the top menu, or you can also search by product name in the Search Bar located on top of each page.

2. What forms of payment do you accept?
We currently accept Visa Credit Card, Western Union for all orders.

3. Is it safe to use my credit card on your website?
Yes! We understand that the safety of your personal information is extremely important to you. We use a wide array of electronic and physical security measures and devices to protect your personal data and credit card information from unauthorized access. Please don't worry.

4. Do you accept cash/check or Telephone order?
Sorry, No.

5. Do you accept international credit cards?
Currently, we just can accept Visa credit card. Orders placed with Visa Credit Card may take up to 24-48 hours to finalize prior to shipping. We apologize for any inconvenience this may cause. You can contact us by Email or via Live Support for real-time payment status checking. Goods placed at weekend or holiday may be delayed to ship out till the next working days, please understand.

6. How can I place the order?
You can finish your order online on our website directly with your Visa credit card according to the following steps:

1. Choose the product you like, select the quantity and click "Add this to my cart"
2. Click "Go to checkout"
3. Log in your account or register a new account in our site.
4. Click "continue checkout"
5. Click "confirm the order"
6. Enter your card info and confirm the shipping address then click "confirm payment"

Your payment process was protected by the bank, we do not know any information of your credit card, please do not worry to place an order.

If you don't have Visa Credit card, Western Union is suggested, please inform us E-mail product and how many you like so that we can provide you more information.

7. Which express company do you use to send the orders? How long will I receive this product?
All the United States orders will be sent by USPS; Orders in other countries and areas will be sent by EMS. Orders in those areas that EMS can't reach will be sent by Hong Kong Post.

Normally, all the orders will be sent out within 24 hours, and the tracking number will be supplied within 48 hours. It usually takes 3-7 days for delivery by EMS and USPS and 15-30 days by Hong Kong Post. Please check our shipping section for more information.

8. What is the Customs and Import Tax?
We will ship your product as "Gift" with a low price value, there will be no tax caused.

9. Can I take this product if I have High blood Pressure or any other Medical Condition?
Usually, we don't suggest you to take this product if you are taking other medicine or have any medical condition. The box has some health warning on the side, we cannot be 100% sure of your illness, so we cannot say if you should take the product or not. That judgment is up to you and your doctor.

10. Can I take this product if I am nursing? Can children take these diet pills?
We DO NOT recommend this product for women who are pregnant or nursing. Also, we do not recommend this product for people below 18 years old.

11. Would you please inform me your store in my location?
Sorry that we don't have store at your side, you can place the order online directly, we will send the goods to you as soon as possible.

12. What's your exchange and return policy?
Returns and Exchanges are granted only if the product is returned in its original form and packaging within 30 days of purchase. All returns and exchanges must be pre-approved.

Lost 50 pounds (**Slim EXPERT**)

“I was 50 pounds overweight just two months ago. I am amazed with results! Today I weigh 130 pounds and I feel wonderful. I lost so much fat on the lower part of my body mainly on my hips and thighs - this is what exactly was trying to achieve many years. I have more energy and feel great. Unlike other weight loss products I have tried in the past, it’s the best over the counter diet pills I have ever tried. Finally natural product that work fast on the sources that create overweight. Thank you, Slim EXPERT.”

ORDER NOW!

As advertised on:
msn, CNN, NBC, USA TODAY

SCIENTIFICALLY RESEARCHED & PROVEN WEIGHT LOSS SYSTEM!

Slim Weight Patch #1 Advanced Weight Loss System

Slim Weight Patch contains a variety of proven fat burning and weight loss aiding nutrients including Zinc Pyruvate, Lecithin, 5-HTP, Yerba Mate, Guarana, Flax Seed oil, and L-Caritine.

Unlike with tablets and capsules, up to 95% of the ingredients are absorbed. The problem with tablets and capsules is the fact that due to various differences in our digestive systems, along with how digestion works, you may only be absorbing a small fraction of the nutrients in them.

That's why health experts from around the world are calling trans-dermal patches: "the delivery system of the future"

How Does Our 2 Step System Work?

Step 1: Slim Weight Patch really couldn't be easier to use, as all you do is stick one to your skin like a plaster and get on with your day. After 24 hours, remove the patch and apply a new Slim
Weight Patch to a slightly different area to allow the skin to breathe on the previous area.

**Step 2:** FREE Lifetime Membership to the Slimming+ weight loss platform and diet app. We recognise that successful weight loss cannot be dependent on slimming aids or supplementation alone and through our advanced diet systems, weight loss plans, diet trackers and tools we will help you to make the transition to a permanent healthy lifestyle.

**SCULPT A TIGHT BODY WITH SLIM WEIGHT PATCH PLUS**

- **Tighter Abs**
  Improve your health while improving your body.

- **Firmer Bum**
  Detoxify your body and allow for body sculpting.

- **Thinner Legs**
  Fit into those skinny jeans and look your best again!

**Slim Weight Patch Plus In The Media!**

**SCIENTIFICALLY PROVEN INGREDIENTS TO BURN FAT**

- **Fucus Vesiculosus**
  A natural sea plant that has been used for hundreds of years by traditional healers worldwide to aide varying ailments. More recently it has been used by both herbalists and conventional practitioners to help in weight control.

- **5-HTP**
  Low serotonin and tryptophan levels in obese patients have been associated with carbohydrate cravings and resultant binge eating. 5-HTP can help prevent this dieting-associated decline in serotonin, thus enhancing weight loss. Three clinical trials in obese patients have demonstrated decreased food intake and subsequent weight loss with 5-HTP supplementation.

- **Guarana**
  A part of the Guarana plant, which was original used by Amazonian Indians as a stimulant and a treatment for stress. It’s also reputed to be a stimulant and to be able to increase mental alertness, fight fatigue, and physical endurance. Evidence indicates that guarana may also suppress your appetite and boost fat burning and because of this, is an important ingredient in many types of weight loss pills.

**HELPING YOU TO GET THIN THIS NEW YEAR!**

**Slimming+ A Key Step Towards Your Goals**

Slimming+ you now have access to advanced weight loss tools, diet guides, workout videos and nutritional trackers.

This will allow you to achieve your weight loss, fitness goals and get the body you desire faster than ever!
Yerba Mate
Yerba Mate is a member of the holly family and grows wild across Argentina, Chile, Peru, and Brazil, but is most abundant in Paraguay, where it is cultivated. In 1964 one group of investigators from the Pasteur Institute and the Paris Scientific Society concluded that Yerba Mate contains nearly all of the vitamins necessary to sustain life.

Fat Burning RX Blend
The patches also include the following proven fat burning ingredients: Zinc Pyruvate, Flaxseed Oil, Lecithin, L-Carnitine and Zinc Citrate.

The Perfect Combination
Slim Weight Patch Plus is a proven and powerful system. Using both Slim Weight Patch and Slimming+ is the perfect combination to help you get what you want! With a better physical appearance, increased fitness levels and a boosted confidence there will be nothing stopping you from getting out there and enjoying the life you deserve! These two fantastic products, when coupled together, create the perfect combination for weight loss and improved fitness. Slim Weight Patch gives you all the powerful nutrients you need to enhance your body’s fat burning performance, reduce cravings and increase energy levels. Slimming+ gives you all the nutritional advice, diet tools, exercises and techniques to make it help you achieve your weight loss goals on a permanent basis!

MELT AWAY FAT! JUST LIKE OUR CUSTOMERS!

Lost 14 kg
I didn't have to stick to a strict food plan and most importantly I didn't have to do a rigid or intense workout routine. Just small changes and the patch! I'm so much happier and confident.

Lost 11 kg
I've had to replace my clothes! My pants became loose after I lost that muffin bulge across my waist. I feel so much more at ease with my body now.

Lost 18 kg
I have a 10 year old daughter and I'm so much more active now. We go to the park and on bike rides. I get so many positive comments now, people can't believe I'm the same person.

Melt Away Fat!
Lose weight automatically without having to think about it!

We provide products that promote health and wellness without adverse side effects. We strive in every way to make sure your experience with our company and our products is a positive one.

Weight Loss Supplement!

We stand behind our products. In fact, we believe the Slym Magic 2G dietary supplement is the best, most effective all natural diet supplement on the market today. All of us at SlymMagicDietPills.com have personally used it and yes, it really does work.

Eat and Still Lose Weight!

Slym Magic 2G is helping countless people lose weight and never feel hungry. They continue to eat all their favorite foods and still lose weight.

Magic Slim is not Slym Magic!

Slim Magic or Magic Slim is often confused with Slym Magic 2G. It is not the same product. Magic Slim comes from China. Slym Magic 2G is made in the USA. Slym Magic 2G is safe. And, Slym Magic 2G has been proven to help reduce weight.

Slym Magic 2G Is The latest In Scientific Breakthrough for Energy and Weight Loss!

No one needs to tell you that weight control and obesity is a national problem plaguing most of North America. In the U.S. alone, some 200 million people have a weight problem. And an ever expanding number of children are experiencing great difficulty managing a normal weight.

Excess weight has also reached epidemic proportions globally, with more than one billion adults being either overweight or obese. Increases have been observed across all age groups. It is estimated that the risk of death increases by 20 to 40 percent among overweight people.

Now, slymmagicdietpills.com is bringing Slym Magic 2G, the finest weight-loss product in the last ten years, to the marketplace.

Please take a moment and read about these amazing and magical ingredients that make up the incredible Slym Magic 2G:
WEIGHT LOSS

As much as 64% of United States adult population is considered overweight or obese, and this percentage has increased over the last four decades. Excess weight has reached epidemic proportions globally, with more than one billion adults being either overweight or obese. Increases have been observed across all age groups. It is estimated that the risk of death increases by 20 to 40 percent among overweight people and studies have found that being overweight at age 40 may reduce life expectancy by several years. Being overweight has been identified as a cause of cancer and is expected to overtake smoking as the primary cause of cancer in developing countries.

At Slym Magic Diet Pills.com we are take the overweight epidemic very seriously and are proud to offer what we believe to be the best all natural weight loss products available.

Description

Carina O. | ⭐⭐⭐⭐⭐
03/06/2014
I took slym magic last summer and dropped 8 lbs in 6 weeks. 3 weeks ago I started taking the new slym magic along with regular exercise, and it is not the same nor are there improved results. Not worth the price. Please bring back the last formula.

SBee | ⭐⭐⭐⭐⭐
03/06/2014
It works but rather have the old formula back!

Stacy | ⭐⭐⭐⭐⭐
03/06/2014
BRING BACK THE OLD FORMULA! I lost 62 lbs with the old formula in 2013 and gained 10 lbs back in the last 7 mos. I haven't been successful getting those lbs off so I wanted to try what worked in the past for me. I was shocked when I saw the entire product is different (not to mention, more expensive!!). After taking them for a month NO weight loss. These don't suppress my appetite at all like the old formula. I'm so disappointed.....why change it if it isn't broken?????

Tami | ⭐⭐⭐⭐⭐
28/03/2014
I started taking slym magic while my husband was deployed, with a strict diet and working out 5 days a week, I saw results FAST. Then again, I started taking it again after our 3rd child and saw results FAST...but the next time I went to order, the formulas changed and I'm not satisfied with the 2G. It does nothing for me. Bring back the old product!!!!

Stephanie | ⭐⭐⭐⭐⭐
31/05/2013
I just started taking Slym Magic on Monday (it's Wednesday), I've already lost 5 pounds! I'm so psyched with the results! My goal is to lose 15 pounds. I'm a 43 yo delivery driver so I eat fast food everyday. I have modified my diet and started back at the gym. I hope this continues. I'm grateful to the gal that works at my gym that suggested it!

Slym Magic 2G is the only diet supplement on the market today that contains all three fat burner/blockers recommended by Dr. Oz.

Studies have shown that when raspberry ketone, garcinia cambogia and green coffee bean are combined they are more effective than any one of them individually.

Weight control and obesity is a national problem plaguing most of North America. In the U.S. alone, some 200 million people have a weight problem. And an ever expanding number of children are experiencing great difficulty managing a normal weight. If you are one of the 200 million, (since you are here you probably are) I can honestly say that if you try Slym Magic 2G, you won’t be disappointed.

The Secret Is Out......................Slym Magic 2G is helping countless people lose weight! They continue to eat all of their favorite foods and still lose weight. Not only do they lose weight, they improve their overall health Dramatically.

No Expensive Shots / No Crash Dieting!
Losing Weight Has Never Been So Easy Or So Much Fun!

Slym Magic 2G is an extremely effective weight loss product that helps burns fat. Slym Magic 2G works and it doesn't leave you with the jitters as so many other weight loss supplements do. You can feel good about taking Slym Magic2G because it is made from only the finest natural products.

As good as Slym Magic 2G is, for lasting results we still recommand you follow these simple lifestyle habits.

1) Walk briskly for 20-30 minutes 4-6 days a week to boost metabolism.
2) Avoid “stuffing yourself” and binging at snack and meal time.
3) Replace high-fat, low fiber foods (such as greasy meats and full-fat dairy products) with low-fat high-fiber foods (such as fruits and vegetables, skim or low-fat dairy products and lean meats and fish).
4) Keep sodium (salt) to a minimum.
5) Drink 4-6 glasses of water daily.
6) Continue to eat what you like, just eat a bit less.

This program combined with Slym Magic 2G will absolutely help:

- Lower blood pressure
- Balance the digestive tract
- Stabilize blood sugars
- Lower cholesterol (LDL)
- Improve circulation
- Reduce arthritic pain
- Improve skin appearance
- Remove dangerous toxins from the digestive system and body organs
- End constipation and hemorrhoids

**Magic Slim is not Slym Magic!**

*Slym Magic 2G* is sometimes misspelled as *Slim Magic* or confused with *Magic Slim*. They are not the same. *Slym Magic 2G* is made in the USA. *Slym Magic 2G* is a safe, natural weight loss supplement. *Magic Slim* on the other hand, comes from China.

**Slym Magic 2G is the latest in scientific breakthrough for energy and weight loss!**

Now, slymmagicdietpills.com is bringing *Slym Magic 2G*, the finest weight-loss product in the last ten years, to the marketplace. An extremely effective product that burns fat! It stops the ability for fat to be broken down by inhibiting the action of pancreatic lipase. Fat is excreted rather than absorbed. If fat is not absorbed then fat will not be stored in the body.

Please take a moment and read about these amazing and magical ingredients that make up the incredible *Slym Magic 2G*.

**Slym Magic 2G Ingredients:**

**Raspberry Ketone (99% extract) 200mg**

Raspberry ketone is the primary aroma compound of red raspberries. This compound regulates adiponectin, a protein used by the body to regulate metabolism. Raspberry ketone causes the fat within your cells to get broken up more effectively, helping your body burn fat faster. According to researchers, raspberry ketone helps decrease the amount of fat in the liver and visceral adipose (abdominal fat). Since it comes from a natural source, raspberry ketone is safe and has no known negative side effects. In fact the FDA has placed this ingredient in the “generally recognized as safe” category.

Raspberry ketone has been shown to work well in fat burning and weight loss but its effectiveness is hastened and enhanced when combined with other natural ingredients including green coffee bean, garcinia cambogia and green tea extract. The primary ingredients of Slym Magic 2G.

**Raspberry Ketone**, was recommended by Dr. Oz as one of the three most affective fat blockers helping to reduce weight.

**Garcinia Cambogia (50% extract) 100mg**

The Garcinia Cambogia is a yellow fruit, sometimes also known as the tamarind, originating in Indonesia and now found across Southeast Asia, India, and central Africa. The fruit’s rinds and extracts are frequently found in the ancient art of India’s Ayurveda medicine. Shaped similarly to a pumpkin, the fruit has a thin rind, which is often dried and cured for extraction and storage. The extract, derived from the rinds of the plant, contains Hydroxycitric Acid (HCA) – an acid that blocks fats and sugar, while simultaneously suppressing the appetite. It acts as a great weight loss agent by reducing appetite and preventing or decreasing the formation of fat cells within the body – precisely the reason the Doctor Oz show has touted this as a miracle supplement.

**How does the extract work?**

Pure Garcinia Cambogia extract works as a fat blocker and appetite suppressant that also helps the user control cravings, curb emotional or stress eating, stabilize cortisol levels, and in turn, decrease fat.....

Clinical research concluded the Garcinia Cambogia extract serves these primary functions:

1. It prevents formation of fat cells that result from the liver converting sugar into fat.
2. It increases serotonin levels, improving mood and making it easier for people to control their eating habits and urges to binge.
3. It helps remove bad cholesterol from the blood stream.
4. It contains flavonoids that reduce triglycerides, phospholipids, and free fatty acids.

**Green Coffee Bean (800mg)**

Coffee beans are actually green seeds inside a bright red berry. Roasting them turns the seeds brown and creates the characteristic aroma and flavor coffee lovers crave. To create green coffee bean...
extract, the seeds are left unroasted. Instead they’re soaked and then concentrated to create the extract.

Green coffee bean extract contains caffeine, a stimulant linked to weight loss. It also boasts high levels of chlorogenic acid, a polyphenol antioxidant that researchers speculate may promote weight loss by reducing the absorption of fat and glucose in the gut, and lowering insulin levels to improve metabolic function.

When coffee seeds or “beans” are roasted, their antioxidant levels increase, but one natural substance called chlorogenic acid decreases. This chemical is thought to block fat accumulation, boost weight loss, curb carb absorption, and help regulate post-meal blood sugar levels. In addition, green coffee extract does not taste or smell like coffee, a supposed benefit for those who don’t enjoy java. The chlorogenic acid in green coffee is thought to have health benefits for heart disease, diabetes, weight loss and others.

Green coffee became popular for weight loss after it was mentioned on the Dr. Oz show in 2012. The Dr. Oz show referred to it as “The green coffee bean that burns fat fast” and claims that no exercise or diet is needed.

**Green Tea Extract** *(98% polyphenols, 70% catechins, EGCG 45% and 6% caffeine)* 100mg

Green tea extract is a herbal derivative from green tea leaves *(Camellia sinensis)*. Containing antioxidant ingredients – mainly green tea catechins (GTC) – green tea and its derivatives are sought-after amongst people who pursue good health. Green tea extracts exhibit stronger antioxidant protection for human body than vitamin C and vitamin E. Scavenging effect of lipid free-radicals (one antioxidant property) of polyphenols in green tea extracts can be clearly observed in experiments. The ability of GTP in green tea extracts to eliminate lipid-derived free radicals is noticeably stronger (almost 50 times) than that of ginkgo biloba extracts. Further investigations indicate that the boosting level of superoxide dismutase (SOD) and glutathione dismutase (GSHPx) may account for the inhibitory effect of GTC against lipid oxidation (rancidification). It should be mentioned that from the antioxidant perspective, green tea extracts are, generally speaking, more effective than black tea extracts due to the better preservation of catechins.

Moreover, the anticarcinogenic property make the green tea extracts a hotspot in recent scientific researches. In many experiments, green tea extracts show inhibitory effects on cancer cells. In vitro assays, catechin and caffeine, which are main components in green tea extracts, block the cell cycle of cancer cells (cytotoxicity) and induce programmed cell death; in vivo, green tea extracts also inhibit prostatic carcinoma transplanted in nude mice.

In addition, green tea extracts also contain a wide-ranged anti-inflammatory characteristics, so it may be helpful in treating chronic inflammatory states. The bactericidal activity against S.mutans is conspicuous in Japanese green tea extracts, and the maltose level in mouth is consistently lower after drinking tea. Therefore, green tea extracts may be effective in oral hygiene maintenance.

**These natural ingredients are what make Slym Magic 2G so affective as a weight loss supplement or diet pill and why it is a best buy.**

We believe **Slym Magic 2G** is the best all natural weight loss supplement that you can buy. It is often called a diet pill but it is actually a weight loss supplement or dietary supplement that comes in a capsule.
Struggling to lose those stubborn excess pounds?

The Answer.... 4 of the Strongest Superfruits in 1 Formula. We guarantee Superfruit Slim works or your money-back!

What's in SuperFruit Slim?

By combining the best and most potent Superfruits available in one capsule, SuperFruit Slim is the strongest and most effective superfruit diet pill on the market.

Each capsule contains the hottest antioxidants and potent ingredients available today. All the ingredients have been clinically proven to promote significant weight loss, which means you could soon enjoy a slimmer and more attractive you!

By using 4:1 extracts the right amount of each ingredient is delivered to work; no small quantities and fillers are used. This means you get the maximum amount of these potent, incredibly effective ingredients!

Each serving of 2 capsules contains the 7 ingredients listed below and the following inactive ingredients; Gelatin, Calcium Carbonate and Magnesium Stearate.

SuperFruit Slim 100% Natural Ingredients

Acai Berry 4:1 Extract (1,600mg)

Acai (pronounced ah-sigh-EE) created an incredible storm when first arriving on the supplement market, kick-starting what is now the "superfruit" supplement.

Containing lots of antioxidants and healthy fats (monounsaturated), Acai berry is said to promote cardiovascular and digestive health, alongside having positive benefits for weight loss and possessing potent antioxidant properties.¹
Superfruit Slim uses a 4:1 Acai berry Extract to give you **4 times the strength** seen in many diet supplements, a **whopping 1,600mg in each serving!**

**African Mango 4:1 Extract (1,200mg)**

African Mango extract (Irvingia Gabonensis) also known as 'wild mango' or 'bush mango'. Studies have shown African Mango to delay stomach emptying, which increases the absorption of dietary sugars and helps to reduce blood sugar levels after eating. Research has also revealed significant decreases in cholesterol levels.

Weight loss results with African Mango have been impressive to say the least! One study has shown the test group to **lose 28lbs over 10 weeks** when taking 300mg of African Mango extract \(^2\), which helped them to **lose 3.2% of their body fat** and **lose 2 inches off their waist!**

Superfruit Slim contains more than enough (in fact 4 times the amount) of African Mango extract.

**Raspberry Ketones (200mg)**

The hottest superfruit at the moment, Raspberry Ketone is responsible for aroma and colour in red raspberries. A recent study has shown the ketones to have potent lipolytic activity, which causes the **increased breakdown of fat in both the liver and visceral adipose (abdominal fat)** \(^3\)

The correct daily dosage of Raspberry Ketones is 200mg, there has been a surge of these diet pills recently that contain much more. Be wary though, as higher dosages though "could pose a danger for those with underlying health conditions" (The Institute of Optimum Nutrition).

Superfruit Slim contains the **exact, safe amount of Raspberry Ketone to work!**

**Green Tea Extract 4:1 Extract / 90% polyphenols (500mg)**

Green Tea has a long history throughout China and Japan encouraging the habit of tea drinking as a remedy and traditional medicine.

Rich in potent polyphenols in the form of catechin polyphenols, Green Tea has been extensively studied and shown to have **fantastic thermogenic and anti-oxidant properties**, which in the right amounts can increase fat burning aiding weight loss \(^4\).

Superfruit Slim uses a 4:1 Green Tea extract so you get **4 times the strength** in one capsule!

**Guarana Seed (75mg)**

Guarana seed comes from the berries of the guarana plant, which is native to South America. Shown to have **2.5 times the concentration of caffeine**, making it more potent than your everyday coffee beans.

Unlike your normal caffeine, Guarana Seed is not so readily absorbed meaning that it is released slowly into the body - so no rush of energy followed by a crash!

Make no mistake, Guarana Seed is an **effective stimulant** \(^5\)!
L-Carnitine (40mg)

L-Carnitine is an amino acid that's essential for the transport of fatty acids from the cytosol (liquid found inside cells) into the mitochondria during the breakdown of lipids (fats) for the generation of metabolic energy.

Very popular with people engaged in sport and exercise, as L-Carnitine has been proven in the right amounts to reduce the severity of physical and mental fatigue, along with increasing cognitive ability [6].

1,3,7-Trimethyxanthine (60mg)

The technical name for caffeine, regularly consumed by millions of people around the world in their favourite beverage. Plenty of studies agree that caffeine increases alertness, promotes a raised metabolism, can increase exercise performance and reduce response times [7].

We have included enough to boost alertness without triggering any unwanted jittery side effect found in many other dieting supplements.

2. Lipids in Health and Disease 2009, 8:7 A novel seed extract of the West African plant Irvingia gabonensis, significantly reduces body weight and improves metabolic parameters in overweight humans in a randomized double-blind placebo controlled investigation. Frequently Asked Questions

We're sure that SuperFruit Slim can really help you, but we want to make sure all your questions are answered and you are in no doubt this product is for you.

The majority of the answers are available on the pages of this site, but for your convenience we have put them here in one place.

If you do have a question not answered here, then get in touch with us using our simple online contact form.

Why should I buy SuperFruit Slim?

By combining the best and clinically proven benefits of Acai Berry, African Mango Extract, Raspberry Ketone and Green Tea Extract together you get the best and strongest superfruit diet pill on the market. These superfruits have shown to promote significant weight loss and could help you to lose those extra excess pounds!

We only use clinically proven ingredients in SuperFruit Slim that are backed by scientific studies proving they work.

Many diet supplements contain too few ingredients to actually work. SuperFruit Slim ensures you get the right ingredients in the right amounts to promote weight loss, without experiencing any negative side effects. Find out more about SuperFruit Slim's ingredients.

How much weight can I lose?

This really depends on how much excess body fat you have to start with.

Unlike some diet pills though, we don't make ridiculous weight loss claims of losing 10lbs in one week!

How do I take SuperFruit Slim?

You take two capsules daily with water just before eating breakfast, no later than 10am. Each bottle contains 60 capsules enough for one full month.

Do not exceed two capsules in a 24 hour period.
Do I have to change my diet or exercise routine?
You can lose weight without any changes to your current routine but for best results we would suggest eating a healthy diet and to keep active.

Will SuperFruit Slim disturb my sleeping pattern?
No. There is a small amount of caffeine in each capsule but less than one cup of coffee.

Will I have any side effects?
There are no negative side effects through taking SuperFruit Slim. All the ingredients in SuperFruit Slim are 100% natural and have been manufactured in a Good Manufacturing Practise (GMP) laboratory.

Who shouldn't take SuperFruit Slim?
If you are pregnant, breastfeeding mother, have a body mass index (BMI) of less than 18.5, or under 18 years of age you should avoiding taking this supplement.

If you are taking any prescription medication or have any pre-existing medical condition you are advised to consult your medical health professional before taking.

Is SuperFruit Slim suitable for vegetarians and vegans?
No, as there is gelatin in the capsule gel.

Does SuperFruit Slim have a guarantee?
Yes. Every order is backed by our 30-day money-back guarantee from purchase date. If you are unhappy with your purchase then simply get in touch with us and we will refund you the full cost minus shipping costs.

How long will it take for SuperFruit Slim to arrive?
We dispatch orders daily from Monday to Friday and so if you place your order before mid-day we will ship same day. Delivery takes between 1 - 3 working days for UK and US orders, other countries may take slightly longer up to 10 days and up to 14 days to Australia/New Zealand.

Do you offer free shipping?
Yes we do. All UK orders are shipped free of charge. All International orders of 2 bottles or more come with FREE SHIPPING.

I am concerned about ordering online, is it safe and secure?
Yes, 100% safe and 100% secure. We use 128-bit security encryption to ensure ALL your orders are securely processed by us.

Is delivery discreet?
Yes. Your order is delivered using plain packaging.

Are my personal details disclosed to other companies?
Absolutely not. We never disclose your details to 3rd party companies, they are ONLY USED for processing orders.

Discreet shipping and 128-bit security on every order for your protection!

With the revolutionary Tropical Green Coffee bean extract!

✓ Lose weight fast with an all-natural extract!
✓ Packed with healthy nutrients and CGA, a powerful fat-burning agent
✓ Eliminates free radicals and fights aging!

Slim Down for Summer
Get Rid of Belly, Buttocks & Thigh Fat!

What is Tropical Green Coffee CGA?

Green coffee beans are the raw form of regular coffee beans, only the green bean is packed with fresh and active ingredients that help you lose weight and increase the rate of your metabolism.

Using a concentrated extract of the green coffee bean, Tropical Green Coffee CGA offers powerful chlorogenic compounds (the CGA part) that work to melt away body fat, while slowing down the rate at which sugar is dissolved in your body (preventing fat from being formed).

These powerful weight loss attributes can only come from the unprocessed green coffee bean - regular coffee beans used for drinking have lost these powers in the roasting process.

Tropical Green Coffee CGA is the best natural, fastest-acting & safest weight loss diet currently on the market!

SEE HOW IT WORKS

It is scientifically proven!

Why more than 5 MILLION men and women are taking Green Coffee extract on a daily basis?

✓ Helps to lose weight & keep it off for years
✓ Stimulates metabolism and fights fatigue

Risk free, no obligations!

As featured in (green coffee extract):

How Tropical Green Coffee CGA Works?

CGA or chlorogenic acid is the active ingredient in green coffee beans, helping to:

- Double weight loss rate when compared to Acai berry and African mango
- Melt away fat deposits - lose as much as 18 pounds in 12 weeks**!
- Increase metabolic rate and boost digestion
- Promote cardiovascular health
- Balance blood sugar levels
- Fight fatigue

A recent study*** has shown that a group of adults taking green coffee extract during a 12-week period have lost an average of 10.5% of their body weight, more than 16% of their body fat, and said goodbye to an average of 17 pounds! No side-effects!

-start losing weight!

100% natural & safe formula

*** Published in the Diabetes, Metabolic Syndrome and Obesity Journal - Randomized, double-blind, placebo-controlled, linear dose, crossover study to evaluate the efficacy and safety of a green coffee bean extract in overweight subjects.

I tried the acai berry diet and didn’t really see any weight loss - what a fraud. Just a week after taking the coffee bean supplement I noticed my clothes started to become loose

--July H. from Buffalo, NY

I always thought this was a fab diet that worked more by the placebo effect, but I have to swallow my pride and admit that I’m now down two sizes after just 4 weeks!

--Mike L. from Long Beach, FL

Each Tropical Green Coffee CGA pill includes 800mg of green coffee bean extract with zero fillers or additives!

What you get with every order:
The Tropical Green Coffee CGA is the ONLY diet that delivers:

- Twice the weight loss speed
- Instant fat-burning action, zero side effects
- Enhanced metabolism for long-lasting weight loss
- 100% natural formula, no fillers or additives!

You are 1 click away from getting the body of your dreams!

ULTRA 90
Daytime & Nighttime Formula
NOW WITH CLA

- Featuring Marine Collagen & Tonalin CLA
- Promotes Fat Loss
- Maintains Lean Muscle Mass
- CLA Prevents Fat Cells from Refilling

ORDER ULTRA 90 FORMULA
ULTRA 90 with Tonalin® CLA is a collagen protein formula often used as a fat and inch loss product. Just what is Tonalin® CLA? Conjugated linoleic acid (CLA) is a conjugated polyunsaturated fatty acid and a natural part of our diets. CLA is found mainly in dairy and ruminant animal meat products, but as our eating patterns have changed to lower fat foods, our daily dietary intake of CLA has declined. Today, to obtain the equivalent recommended 3.2 grams of dietary CLA. You would have to consume more than four gallons of ice cream, seven pounds of beef, or four gallons of milk...every day!

CLA is a fatty acid known for promoting good health. Not all CLA's are the same! Tonalin® CLA is the leading CLA brand and consumers #1 choice and for good reason. Tonalin® CLA is the highest quality and most researched CLA available. It's the brand proven effective at providing health and diet benefits by safely reducing body fat. CLA is also a potent antioxidant and has been known to enhance the immune system.

The TONALIN® CLA difference:

TONALIN® CLA, the leading brand of CLA, can help achieve your diet goals and enhance your healthy lifestyle three ways:

- **Losing weight and keeping the weight off is a struggle for millions of Americans. More than 50 percent of Americans are overweight and nearly one in five are obese! Try Ultra 90®. Its special formulation could assist you in achieving your weight loss goals.**

- **Reduces body fat** by decreasing the amount of fat your body stores.

- **Maintains lean muscle** by helping your body burn calories more efficiently.

- **May prevent fat cells from refilling** with fat, so you maintain your leaner look.

Decades of research indicate that CLA (Conjugated linoleic acid) actually changes body composition by reducing body fat and increasing or preserving lean muscle mass - giving you a leaner, healthier appearance. Derived from natural safflower oil, CLA inhibits lipoprotein lipase, an enzyme that breaks down fat from our diets. Once fat is broken down, it is stored in the body. By suppressing this enzyme, CLA helps reduce the amount of fat that is broken down and, therefore, the amount of fat that is deposited and stored.

For those who carry around excess fat, the support of lean muscle assists the body in utilizing sugars and fats more efficiently, this allows our body into burning more calories. For those who are underweight or in good physical condition, ULTRA 90 can encourage stamina and vitality.

The collagen hydrolysate nutrients in ULTRA 90 are extracted from marine life. The product is inspected for purity by private laboratory analysis. The formulation is designed to provide an efficient assimilation of the nutrients. Twenty four percent of the dry protein weight of the human body is collagen. The Primary Amino Acid in marine collagen is L-Hydroxyproline, a non-essential amino acid. Non-essential does not mean...
that the human body does not require it for good health. A healthy body, with good digestion and an adequate supply of essential amino acids, can manufacture the required non-essential amino acids.

**L-HYDROXYPROLINE**

Hydroxyproline plays a major role in the manufacture of marine collagen, connective tissue, skin, ligaments, tendons, bones and cartilage. Hydroxyproline is necessary in Vitamin D assimilation, which is essential in proper calcium absorption. The integrity of the other amino acids and nutrients has been maintained in the ULTRA 90 formula to provide a food which feeds and nourishes the connective tissues.

As muscle, tendon, ligament, and connective tissue (which hold together all organs and component parts) are nourished, we tend to see an increase in lean muscle tissue and a decrease in adipose tissue (fat). This simple and unique delivery system provides a fuel at the body's prime time for healing and repair.

**Directions for Use:**

**NIGHTTIME FORMULA:** Stop eating or drinking (other than water) 3 hrs. prior to bedtime, let your stomach digest. Take 3 gel caps with a glass of water and go to bed. Must be taken alone! **INGREDIENTS:**

Hydrolyzed Fish Collagen Protein, Safflower Oil, Aloe Vera, Vitamin C, Tonalin CLA, Gelatin, Glycerin, Water, Bees Wax, Lecithin.

**DAYTIME FORMULA:** If you're a person whose stomach is still digesting when you go to bed, then use the AM Formula! Take 3 gel caps when you first wake up with a glass of water, wait one hour before you eat or drink anything else (other than water.) Do NOT go back to bed, take Ultra 90 AM when you are getting up and staying up! Must be taken alone! **INGREDIENTS:** Hydrolyzed Fish Collagen Protein, Aloe Vera, Vitamin C, Safflower Oil, Tonalin CLA, Gelatin, Glycerin, Water, Bees Wax, Lecithin.

**FOR THOSE WHO WORKOUT:**

Take Ultra 90® (3 gel caps) half an hour prior to your workout. This may help your body to break up the lactic acid that's in your muscle tissue, which in turn could also make muscle tissue more agile and assisting you to have a better work out period. You may also notice that you won't feel so stiff, sore and achy the next day! We recommend for people who want to lose 40 pounds or more, to use both the PM and the AM Formula.

*Ultra 90® is not a 30 day program. It's a 90 day program, but you may remain on it for as long as you like, for continued overall health and wellness!*

**Not Recommended for Pregnant or Lactating Women, Nor Prepubescent Children.**

Results may vary.
Testimonials

Tab Allen has lost over 113lbs. in just 1 yr. Just look at his before and after photos below! Not only that, but Tab also underwent serious back surgeries, and had zero exercise, he still kept losing weight, while flat on his back! Tab also reports lower cholesterol and no more high blood pressure problems! Congratulations to Tab!

Tab Allen
Myrtle Beach, SC
Dear Marylin,

I started on Ultra 90 the first week of May at 290 lbs wearing a 42 in the waist. I took Ultra 90 a.m. formula for May and June. July was spent taking both the a.m. and p.m. formulas. I did this and completely changed my eating habits simultaneously. To all the naysayers who say Ultra 90 doesn't work let me say this. Nothing works without making a lifestyle change. I have only drank water since may and that combined with the product and improved eating habits have resulted in 93 lbs lost. Today I weigh 197 lbs and am in a size 32. I could not have done it without the benefits of Ultra 90. Everyone asks me what my secret is and I am happy to give God the glory as well as the benefits of 90 days of Ultra 90. I haven't taken any since August 5 and have actually dropped a little more. I am now at 11% body fat. THANKS Ultra 90.

Marylin,

I started my weight loss journey June 20th 2008. There were three things that happened to get me there. First one of my children told me that I was a fat pig. He was mad at me about something. You know how kids can be I'm sure. Second I work at my daughter's school, (in the lunchroom) and a little girl that was beside my daughter in line ask her why her mama was so fat? Then last but not least I went to the chiropractor for my back pain and he was very honest. He told me that the only thing wrong with my back was that I was overweight. I started that day. I got it in my head that I was going to make it a life style change. A LIFE TIME CHANGE!!!!!!! I want to get to my goal of 120 and show my kids that if you want something bad enough, all you have to do is work hard and you will succeed. I want to be a healthy role model for them. Before the Ultra 90 I lost 25 pounds. I drink lots and lots of water and I exercise on a daily basis. It is well worth it. For me having the ultra 90 was a bonus. Thanks to my mama, (she bought it for me), you and Moby. Ya'll advertised. I have lost 10 more pounds. A total of 35 pounds and lots and lots of inches. I even have my mama taking it too. I started out at 216 pounds and now I weigh 181. I am determined to be a success. I feel like that I have a new lease on life. I use to wear a size 18/20 and now I can wear a size 14. My husband tells me all the time how proud of me he is. I think that if a lunch lady can lose the weight that any one can. Ultra 90 has helped me change my life. I tell everyone I know about it. It really really works. Thanks for helping me get my rear in gear. YEAH BABY!!!!!!!!!!!!!!!! ULTRA 90 ROCKS!!!!!!!!!!!!

Thank you Marilyn for everything,
Denese Culberson
Dear Marilyn:

This medication to me is a miracle drug!! I have had many abdominal surgeries for different health problems and each time, it has created more adhesions. In 2003, I had surgery to lysis adhesions. When I went for my follow-up, the Doctor advised me to take Celebrex for the inflammation in my abdomen. I didn't follow his advice because I don't like taking medication and not knowing what the long term effect could be. I stayed in chronic pain for about six years! Three days into taking Ultra 90, for the first time, my pain is completely gone! It is wonderful waking up every morning now and not feeling like I have been run over by an eighteen-wheeler! I have more energy. I have had bad knees since I was thirteen, but now for the first time, I’m free from pain in my knees! Ultra 90 definitely is a miracle drug. While I know Ultra 90 was developed to help people lose weight, I hope more people who have chronic pain will try Ultra 90!

Sincerely,
Darlene Johnson
Oklahoma

HI MARYLIN

JUST WANTED CONTACT YOU REGARDING YOUR NEWEST PRODUCTS THE EYE SERUM AND FACIAL CREAM. I'VE RECENTLY TRIED THE PRODUCTS AND JUST LOVE THEM!!!! THE EYE SERUM HYDRATES VERY QUICKLY AND DIMISHISHES PUFFINESS AND FINE LINES AND ALSO GET RID OF DARK CIRCLES TOO! THE FACIAL CREAM ALSO PROVIDE A SMOOTH SOFT BASE FOR DAILY ROUTINE. I'M WAS VERY SKEPTICAL OF NEW PRODUCTS BUT SO GLAD THAT I TRIED THEM. I'LL BE A CUSTOMER FOREVER BECAUSE I CAN'T LIVE WITHOUT THESE NEW PRODUCTS. EVERYONE SHOULD DEFINETLY GIVE THESE A TRY.THEY WON'T BE DISAPPOINTED. THANK YOU FOR ALL THE WONDERFUL COLLAGEN PRODUCT YOU SELL.

LINDA
CHICAGO, IL
Hi Marilyn:

Just wanted to let you know how Ultra 90 has brought my husband and I closer after 9 years. Since we got married 12 years ago, stress and eating out has helped put on extra weight. It got increasingly out of hand; so much so that my husband started snoring at night. The snoring got so bad and so loud that I had to go downstairs and sleep on the couch. He also would stop breathing for about 30 seconds and I had to nudge him to get him to take a breath. Needless to say, I was afraid of leaving him for the couch, but I couldn't stand sleeping with him either.

I was getting mad at him for something he couldn't control. I didn't get much sleep at night so I'd take catnaps during the day. We both were a good 50-75 lbs. overweight. Then I heard about Ultra 90 on the radio. I originally took it for my knees that would pop constantly and hurt when I would walk up stairs. Well, within a week of taking Ultra 90, my knees stopped hurting and popping, and I started losing weight. So I asked my husband to try it. The VERY FIRST DAY on Ultra 90 he stopped snoring. I couldn't believe it!!!

We tried everything over the counter to get him to stop, but nothing worked. He no longer stops breathing also. Now, if that isn't a miracle in itself, he also lost 3 pants sizes and went from a 2XL shirt to a large in 4 months!! He wasn't even trying to lose weight! I have lost 45 lbs. so far and feel great. I am trying to Acai Berry now, incorporating that into my daily routine.

I will never stop using Ultra 90. It quite literally has saved our marriage and possibly my husband's life! Thank you for giving us such a wonderful product.

JoAnn Browning
Michigan

Dear Marilyn:

Just to let you know I started taking ultra 90 on July 18, 2008 and as of today I have lost 13 lbs and several inches. My shirt tail actually stays inside my pants now and I can see my belt buckle. I started at 240 lbs and this morning I weighed 227lbs.

I now have 4 friends taking ultra 90 and they too are loving the way they feel. Thanks for a great product that actually works and shows results.

Larry Bessinger
Elberton, GA

Hi Marilyn

I had to email this. I have tried products before that have made me feel terrible and actually gain instead of lose weight. WOW! I have been trying ultra 90 less than 2 weeks and what a difference!! I feel better, have lost a few pounds, have more energy, etc. I had also been diagnosed with IBS and ALL those symptoms are GONE!! Unbelievable. I decided to give ultra 90 a try after hearing the ads on a local radio program, and I am so terribly glad I did. Any one of the benefits I have experienced would make me want to continue taking ultra 90, but the multiple benefits I have experienced have made me want to share my results with you. It feels like ultra 90 has saved my life. I did not have much weight I wanted to lose, but I did want to lose a little and to feel better, especially with summer here.

Thanks from the bottom of my heart,

Mary Waters
Winterville, NC

Dear Marilyn:

In December, 1998, at age 47, I was diagnosed with an ovarian type of uterine cancer. At that time I weighed 135. Following a radical hysterectomy and 7 weeks of High Dose radiation, I started to gain weight. I was told that because of the radiation, my whole system was compromised. Even though I had no real appetite, I was eating a healthy diet on small plates. My weight kept going up little by little and I was told not to worry about it, but I was upset when the scale at the Doctor's said I weighed 190 lbs. I had never weighed that much in my life.

I take a lot of medications, and was told that was the reason I had gained weight, and my metabolism had been compromised. I didn't want to take diet pills. I tried nutrasystem, but only lost 12 lbs. It was very frustrating.

Twelve months ago I heard the commercial for Ultra 90 on WRNS 95.1. I heard it quite a few times before I researched it and found that there was nothing in it that would hurt me or interfere with my meds.

I have been using Ultra 90 AM and PM for almost a year and have lost 45 lbs. I now weigh 145 lbs. and am wearing a size 12. I would like to lose 10 more lbs. but am at a plateau right now, but I know it will happen. I have also found that Ultra 90 helps with my back and joint pain. My back is degenerating quicker than normal because of the radiation, and I am extremely happy that Ultra 90 helps. I am now 57 and cancer free. With the help of Ultra 90, I have lost most of what I gained in weight. I will continue to use Ultra 90 even after I reach my goal weight, so that I can maintain it, and because of my joints and back.

Paula Hemenway
Havelock, NC 28532

Dear Marilyn:
I started taking Ultra 90 am last year in August. My goal was to lose weight and drop at least a dress or pant size. I am 55 years old and have been trying unsuccessfully to do just that for years. But of my age, slowing my metabolism, and thyroid disease it seemed darn near impossible. I could almost starve myself or exercise to exhaustion and still nothing. Because of my thyroid condition I had to be very careful of what I tried to lose the weight. My husband and I were going on a trip to the Virgin Islands in February of 2008 and I did not want to be the fat old lady on the beach. Well it worked!! I dropped from a size twelve to a six or eight! Plus I felt like a million bucks! My hair, nails, and skin all got much better too. But that is not what I wanted to tell you about really. I had rheumatoid arthritis since I was 30 and have taken every type of homeopathic and prescription medication out there and still had to take up to eight hundred milligrams of ibuprofen a day to keep the pain and stiffness and swelling at bay. About two months after being on your product I realized I was relying on less and less ibuprofen. After about six months I wasn't taking any at all! And guess what? When we went to the Virgin Islands I climbed a volcano!! Not walked up, but climbed! But then about a month ago I did a really stupid thing. I stopped taking it and the pain and stiffness is returning. Today I ordered another three month supply and will continue to take it as long as you continue to make it! It is a blessing in a little bottle and I get to stay skinny to boot! I can't tell enough people about your product and have made new customers for you that agree with me. It is the best!

Thanks A Million!

Dear Marilyn,

To start with, I am only 4'10" so every pound is accountable for and very visible on my body. In the spring of 2005, I shattered my right femur. Recovery was ruff! I didn't really gain allot of weight per say. However with loss of muscle and activity, I was out of shape and I had a great deal of scare tissue damage. In fact I had a pocket of tissue that bulged out and was very visible through clothing and through therapy and painful aspirations nothing could seem to get rid of it. Not to mention that my limits of work out where cut to nothing. I am able to use a Gazelle but that is about the limits of my work out. Then I heard about Ultra 90. I heard about the product for sometime before I tried it from a local radio show in Toledo Ohio. Once I started it I was right away impressed with having NO side effects. A plus for sure. The gain of energy was a plus and I swear the pain that I had in my joints in the right femur had been diminished. I of course lost weight but most importantly the scare tissue area that the medical experts couldn't get to go away through aspiration and therapy was and is going away. It is now barely even visible. I own my confidence to Ultra 90 because I will be in shorts this summer. Thank you.

Lisa O
Toledo, OH

Dear Marilyn,

I am writing to tell you of my experience with Ultra 90. I have arthritis in my hands with swelling joints. I also have achy muscles all over. I did not want to take any arthritis drugs because of the side effects. I heard of Ultra 90 on the radio and the other benefits of Ultra 90 other than weight loss.....joint relief. I called right away, I am so glad I did. What a miracle! When the Ultra 90 came in the mail I took it the very next day, by the end if that day I felt a big difference. By the end of that week my swelling was gone and I had NO pain. It is GREAT. If you are in doubt call Ultra 90 and give it a chance. It really works, my friends use Ultra 90 and the only thing I have lost is a few ponds and allot of daily pain. Thank you so much.

Sheryl
Mishawaka, IN

Dear Marilyn,

I am the WAPE Sales Assistant here at the station. I heard about Ultra 90 from Elita and wanted to try it because I was diagnosed with Fibromyalgia a year ago and have steadily been going down hill with pain, stiffness and exhaustion. All the doctors offered me anti-depressants which I did not want to take. I started to take Ultra 90 about the same time your advertising campaign started on WAPE. Since the first day I have seen a vast improvement in my pain levels, energy levels and general feeling of more energy and well being. I cannot tell you how grateful I am to you for this miracle product. I call it that because I have never felt worse in my life BEFORE I started on Ultra 90. Elita even put me on some of the commercials but I have never mentioned Fibromyalgia to anyone but Elita. I went to her this morning to borrow a few until my new order arrives. I take the am formula. Before when I got home at the end of the day of work all I wanted to do was sit on the couch. Now I go home and make dinner for my family. I have put us all on a low fat healthy
Thomaston, GA

are doing too!!! I will keep in touch and send you before and after pics once I get where I want to be!!! Thanks a MILLION!!! for myself!!! I LOVE IT!!! I have started my best friend, my step mom and my sister-in-law on the Ultra 90! I will let you know how they able to MAINTAIN a HEALTHY weight!!! This is the easiest thing that I have ever done!!! And it is the BEST thing that I have ever done pounds!!! I still have a little more to go, but loosing it slowly is the SMART WAY!!! I know that once I get where I want to be, I will be able to see what is going to happen as time goes on!!! I finally got brave enough to get on the scales and I was THRILLED!!! I have lost 26
bones and my collar bones for the first time in 7 years!!! My arms and legs are starting to feel firmer and I am starting to see my waist again!!! The first 30 days all I noticed was a complete change in my skin. My skin feels firmer and softer than it ever has!!!
Marilyn, Hi! I just wanted to say that ultra 90 works for me. I am a 51 year old woman, going through menopause. Who woke up realizing that I had to get this weight off. We are (almost) empty nesters. (my youngest is 19). It's time for my husband and myself to go and enjoy ourselves and I couldn't be more large. I am 4'11". I weighed 219 lbs. I was a size 22 going into a 24. I listen to KKNQ country in OKC. I've heard the commercials for ultra 90. It just sounded right for me. I told my husband about it and we looked it up together and decided it was the way to go. Well, 3 months later I'm on my way losing a total of 30 lbs. I now weigh 180 lbs. and wearing a size 16w. I feel so much better, but I know I still have a long way to go. I just ordered 6 more bottles, to help me get there. People are noticing that I am losing weight. And when they do I brag about this wonderful product. One of my closest friends wanted me to be the guinea pig and try this product and when she saw I was losing weight she ordered ultra 90 too! My friend now has lost 23 lbs herself. What I love about ultra 90 is after taking the nighttime capsules, I don't even realize it is working. I can go a week or two and think I didn't lose anything this week and I get on the scales and I have dropped 2 lbs. My hunger pains are gone and I feel full most of the time. I am trying to eat healthier at my meals. But I can also have an occasional desert and not feel guilty anymore. Marilyn. Not only am I losing weight, everyone notices how good my skin looks too. I just feel like a whole new person. Thank you, Thank you, Thank you, from an x yo-yo dieter!
Cindy Clary
Oklahoma City, OK
Hi Marylin
I have been using Ultra 90 PM formula off and on (mostly on), for over a year (in the morning). I have been an avid body-pump, step aerobics participant most of my adult life, but my workload and a recent hysterectomy has not allowed me the time I need in the gym. I had extra pounds to shed but I know the harm caffeine, ephedrine, stimulants, etc, can have on a person. Since using your wonderful product, I have lost 33 pounds, went from a size 14 to a size 8, my muscle tone is improved (without much needed exercise), the aloe vera helps "irregularity", and it is all with NATURAL, non-harmful ingredients. Since I have lost weight, my genetically high cholesterol issue is resolved....my total reading is 164, and my HDL/LDL levels are perfect. In addition, when my 28-year old daughter and I go anywhere, people think we are sisters even though I'm 20 years older! I tell everyone about your product!
Thank you so much!
Shawn F. Crenshaw
Waverly Hall, GA
Marylin, I am a 37 year old mother of two. I have struggled with my weight all my life!!! I started "dieting" when I was about 14 years old! I have always tried to maintain a healthy figure, but have had to work extremely hard to do so! When I turned 30 seven years ago, my whole body changed!!! All of a sudden, nothing that I did seemed to work anymore! I gained about 70 pounds and was miserable! I decided about 2 years ago that I had to do SOMETHING!!! I started "dieting" and exercising and was able to loose about 30 pounds. Since then, I have still be carrying the last 40 and have not been able to get rid of them no matter what I did!!! I heard about Ultra 90 from Moby on 92.5. I decided to try it. Honestly.....I figured it would be like everything else that I have tried. BUT to my surprise.....it is working!!! I am SO EXCITED!!! The first 30 days all I noticed was a complete change in my skin. My skin feels firmer and softer than it ever has!!! The second 30 days I started noticing that my jeans are getting loose! I have had to take my belt in 2 more holes!!! I can see my cheek bones and my collar bones for the first time in 7 years!!! My arms and legs are starting to feel firmer and I am starting to see my waist again!!! During my third bottle I began to see drastic changes in everything!!! I am getting thinner and thinner, my hair is growing like never before, my fingernails are beautiful..... I could go on and on!!! I am about 1/3 of the way thru my fourth bottle and I am so excited to see what is going to happen as time goes on!!! I finally got brave enough to get on the scales and I was THRILLED!!! I have lost 26 pounds!!! I still have a little more to go, but loosing it slowly is the SMART WAY!!! I know that once I get where I want to be, I will be able to MAINTAIN a HEALTHY weight!!! This is the easiest thing that I have ever done!!! And it is the BEST thing that I have ever done for myself!!! I LOVE IT!!! I have started my best friend, my step mom and my sister-in-law on the Ultra 90! I will let you know how they are doing too!!! I will keep in touch and send you before and after pics once I get where I want to be!!! Thanks a MILLION!!!
Elaine M. Boyt
Thomaston, GA
Marilyn,

I just ordered another 90 day supply of Ultra 90. I have been on Ultra 90 for the past 74 days and have lost 22 pounds, doing no exercise what so ever. I am very pleased with your product, in fact my wife takes Ultra 90 also, she saw how it worked on me so she takes half of my supplies. Thank you for this great product.

Sincerely,

Alan Walker,
Cordova, IL

Marilyn,

I just wanted you to know that I took the Ultra 90 for 3 months and I was on a training program with the local YMCA and in 5 months I lost 30lbs and 8 inches. I plan to continue my weight loss program until I reach my goal of 165lbs. I am currently at 195lbs. Only 30lbs to go. Thanks for your program and I hear your ads at the time on the local radio here in Colorado Springs, Co. Y96.9. Thanks,

Wonda Barker
Colorado Springs, CO

I have taken Ultra 90 AM since June 13 and have presently lost 60 pounds. I have only used the AM formula but have considered taking the PM formula also. I went from a size 18 to a size 10. I noticed results right away. Even when I hadn't lost pounds, I felt firmer. I have recommended Ultra 90 to my mother and mother-in-law and now they both take it.

Julie Russell,
Erie, IL

Thank you, thank you for talking me into trying ultra 90 (and for checking in on my weight loss adventure!). I started in Feb and am now down 23 pounds and 5 inches and I've even started working out on my own for the first time since high school! God bless y'all for helping me get myself on track for a healthier lifestyle.

Your listener,
K Wallace,
Iowa

Hey C.J.!

I promised to give you an update on my ultra 90 progress, so here it is! I'm down a total of 17 lbs and 4 inches so far and feeling great! Thank you for turning me on to this product and for taking the time to talk with me on the phone. I'll give you another update if I lose more. The wolf rocks!

Sharon,
MO

Just would like to let you know I love the ultra 90, I have just finished my fourth bottle and I have lost 30-35 lbs. I don't feel jittery or juiced up actually most days I feel really good and in a good mood. This is the best weight loss pill, you take them and you don't have any side effects as in other weight loss pills it's like you never took any thing except you loose weight. I have a lot of weight to loose so I just ordered a 90 day supply. Since I started taking these I drink so much water, I do have a coke now then, It's a big change for me, before I started ultra 90 I drank coke , sweet tea, hardly no water at all, now it's right the opposite I drink coke and tea hardly ever, even with my meals now I drink water. Just wanted to let you know I love your product and it works for me. Thanks

Sheila,
GA

Dear Marilyn,

I wanted to say “THANK YOU” for such a wonderful product. ULTRA 90 has been a great success for me. It all started about 6 months ago. I listen to the Mobey in the Morning Show every morning on my way to work. For 2 months, I listened to Mobey speak of how his wife (Mary Beth) had lost weight while using your product (Ultra 90) and how wonderful she looked. I started late having children. I am 38 years old and have 2 children, ages 4 and 1. I was in the market for weight loss due to having my second child in June of 2005. I had gained a total of 47 pounds during my second pregnancy and only lost 30 pounds. I still had at least 17 pounds I needed to loose and I couldn't seem loose it. I tried other weight lose programs and nothing worked for me or made me feel good.

Listening to Mobey inspired me to try Ultra 90. I figured I had nothing to loose and everything to gain. I chose the AM Formula due to the fact I don't get home from work until 6 pm, therefore, dinner is served close to 7 pm, then it's bed time at 9 pm. Therefore, the night time formula was not an option for me. I honestly thought I would never be back to my pre-pregnancy weight (125) again. I had almost given up hope when I decided to take the plunge and purchase a 4 month supply of Ultra 90 AM Formula in February 2006. The results have been REMARKABLE.

I lost 10 pounds the first month on the program and after 3 months on the program, I lost a total of 17 pounds and went from a size 10 to a size 6. Today (July 2, 2006), I am in the last 2 weeks of my program and I have lost 1 more pound (total of 18 pounds lost now). I forgot to measure myself (or take pictures) when I started the program so I am not exactly sure how many inches I have lost. But I will say this, I have probably lost more inches than pounds, but that is OK because the elasticity in my skin has bounced back tremendously. All I do is take the pills in the morning, eat sensibly all day, drink about 70 ounces of water a day, and walk 3 miles a day at least 4 to 5 times a week.
My husband tells me everyday I look wonderful and I must say, I feel wonderful. Your product has been such a huge inspiration for me that I want to continue the program. Not only to lose a few more pounds, but also to maintain the healthy skin tone and elasticity I have regained. I will definitely recommend your product to anyone looking for a GOOD change in their life.

Thank you again for such a wonderful product and great results. I feel like a young sexy mom again.

Darla Sanders,
Buckhannon, WV

Good Morning Moby! My name is Melissa Hudlow and I am from Habersham County. First I have to say I love your show- YEAH BABY! I have a question. Does Ultra 90 REALLY work? I have heard you all talk about it so much and I am considering getting it. I've heard you talk about Mary Beth and her results and I would like to lose about 30 to 40 pounds. I am a member of a lady's gym but I just need that extra BOOST! Does Mary Beth take the vitamins too, or just Ultra 90? Does she take it at night, morning, or both? Weight loss is the hardest thing to do and this product sounds really great. Your response will be greatly appreciated!! I just have to say God bless you for standing up for what you believe in!! I teach Kindergarten in Habersham and I just see so much changing throughout the years. I remember praying in school before lunch and my teacher reading devotionals everyday, I think we should keep God and religion in school!! Without Him, we are and have nothing!! You are such an inspiration!! THANKS so much!!

Sincerely,
Melissa Hudlow, GA

Melissa, I just found your email. Sorry I didn't respond earlier. Please give Ultra 90 a try. It really does work, just stick to the program. I use the PM formula. I first noticed that my urge to snack disappeared. Then my clothes got smaller, then I noticed a change on the scale. Make sure you drink your water, and eat a healthy diet. That's it! You already work out so you're ahead of the game!! I know Ultra 90 will be as successful for you as it has been for me.

Mary Beth
a.k.a. Mrs. Moby

Marilyn,

I have been taking Ultra 90 for three months, and in the beginning I was skeptical of what the possible outcome could be. I'm not anymore, I've lost 18 lbs. and ten inches overall with still more to go. I feel healthier than I have in three years. With continued success I hope to meet my weight loss goal with the help of your wonderful product. Thank you Ultra 90.

Sincerely,
Rachael Voss,
Clinton, IA

My name is Rebecca Watts. The reason I am emailing you is, I have been on depression meds for 8yrs when I ordered the Ultra90 and I remembered on the commercials I have heard, the product gives you a ALL ROUND WELL BEING, it is so true!!!!!!!!!! When I started the Ultra90 I stopped taking my depression meds, and Ultra90 works!!!!!!!!! I do not need any of my meds anymore!!!!!!!! Ultra90 is an ALL ROUND WELL BEING!!!!!!! Thank you so much!!!!! I have not felt this great in 8yrs!!!! I do not ever care if I lose any fat, I feel so wonderful!!!!!!! THANK YOU!!!!

Rebecca Sue Watts,
Pawleys Island, SC.

THANK YOU SO MUCH FOR YOUR REMARKABLE PRODUCT. SEVERAL WEEKS AGO I HAD MY PREVIOUSLY PHYSICALLY ACTIVE WORLD BROUGHT TO A SCREECHING HALT BY A DOCTOR TELLING ME I HAD MULTIPLE SCLEROSIS. HE TOLD ME THAT IT WOULD BE MUCH EASIER ON ME IF I WAS TO LOSE SOME WEIGHT. AT THE TIME I WEIGHED 254 LBS AND FELT PRETTY GOOD ABOUT MYSELF. MY GOOD FRIEND LOU KRIEGER AND YOU WERE ALWAYS SINGING THE PRAISES OF ULTRA 90 SO I GAVE IT A TRY. I USED BOTH THE AM AND PM FORMULAS AND AFTER 5 WEEKS HAD LOST SEVERAL INCHES AS WELL AS 24 LBS OF FAT (NO MUSCLE LOSS). NOT ONLY DID THE WEIGHT LOSS THRILL MY DOCTOR BUT IT ALSO AMAZED ME. NO DIET WAS NECESSARY JUST HEALTHY EATING HABITS WHICH THE PRODUCT GUIDELINES DictATE AS WELL INCREASED WATER CONSUMPTION WHICH LEADS TO A FULL FEELING AND KEEPS YOUR SYSTEM CLEAR OF ALL THE BAD STUFF. ANOTHER BENEFIT OF THE INCREASED WATER CONSUMPTION IS THE LESSENING IN SEVERITY OF THE HEADACHES BROUGHT ON BY THE DISEASE. THE MORE WATER YOU CONSUME AT ANYTIME THE BETTER YOU FEEL AND THE LESS ACHES AND PAINS. AS I AM WRITING THIS NOTE, I HAVE TOPPED OUT ON THIS CYCLE AT 30 POUND LOSS OVER 8 WEEKS AND INCREDIBLE AMOUNT OF INCHES AS EVIDENCED BY ALL THE COMMENTS RECEIVED FROM FRIENDS AND CO-WORKERS.

THANKS AGAIN AND GOD BLESS

MIKE ODEA
MURRELLS INLET, SC

I started using Ultra 90 seven months ago. I have lost 30 pounds and have gone from a size 12 to a size 4. I really feel great about myself and my self esteem is a lot better. I am very pleased with the way Ultra 90 has helped me lose the pounds and inches, and it is very easy. I also watch what I eat and do some exercise and drink plenty of water. I have more energy than I have for awhile. I have told a lot of people about Ultra 90 here at work and they seem amazed that I lost that much weight with a pill.

Thanks again

Sue Wilson,
Murrells Inlet, SC

Dear Marilyn:
I am 54 years old and currently going thru menopause, and you know what that can do to a women's body! I am only 5'4" so most of what I needed to lose was around my stomach area. I started Ultra 90 three months ago and have now lost 12 pounds. I started at 132 lbs, but with my height and age, I really felt I needed to lose a couple of pounds. My ideal would be about 3 more lbs, so I decided to stay on Ultra 90 to also try and maintain the weight I reached. I really believe I lost inches first as my clothes began to get big on me....what a wonderful feeling! I also have rheumatoid arthritis and I truly believe Ultra 90 has helped me feel better and I definitely do have more energy. So my excersise consisted on walking 4 miles, 5 days a week. So now as summer approaches, I am feeling the best I have in the last six months.

Thank you.
Joan

Dear Marilyn:

Just a note to let you know I have just re-ordered the ultra90, the ninety day special. I was first introduced to it this time last year. I took it for two rounds of 90days. I want to tell you, within the first wk. my degenerative joint disease started to decrease in symptoms. The pain in my joints was lessening as every day went by. I have had surgery on both my knees, twice(osteoarthritis), have bursitis in my hips, and I'm here to tell, this product has helped my pain level immensely. I was able to go up and down stairs without hesitating. I used to have to literally crawl up the steps. But thanks to Ultra90, my health and arthritis has greatly improved. Not to mention, I lost weight, and dropped two sizes. I have recommended it to a lot of people I know. The ones that have tried it, have had similar results. Unfortunately, there was a period I wasn't able to purchase Ultra90, and my pain, and some of the weight came back. So, today, I purchased myself a Christmas gift. A road to better health by ordering three bottles of the Ultra90. Thanks for sharing such a wonderful product.

Cheryl Wilson, Dover, Tennessee

Dear Marilyn:

I've been taking Ultra 90 for 45 days now and the first month I lost 24 pounds. I'm now down 33 pounds. I haven't change much. I quit taking secon helpings at dinner and lunch table. Nothing after 7pm. If I do it is grapes, bananas, or strawberries. I try to drink at least 6 to 8 glasses of water each day. Other than that I haven't changed anything else. My goal is another 15 pounds. And at this point I can't see why I can't make it. I'm only half way through my 90 day program. It's been easy. I might just go for another 10 and that is what I weighed when I graduated High School.

Thanks for making it so easy.
Brian Chilson
Rapid City, Michigan

Dear Marilyn:

I am 47 years old. I started taking Ultra 90 2 1/2 months ago. My weight has stayed pretty much the same. I have dropped 1inch from my waist and 1/2 inch from around my stomach. I lift weights 3 days a week and I have noticed tremendous muscle gains. Other people are noticing the change. I have always been muscular but over the last 5 years or so I have not been able to build any muscle. I am also an insulin-dependant diabetic of 25 years. I have had bad years. In the last couple of months I have found it much easier to control my blood sugars. I test at least 4 times a day so I know when something has really changed. Since starting on your product I find my blood sugar within the correct range 75% of the time. I was happy before to be in range at least one reading per day. I highly recommend your product to all diabetics as well as people near my age who have lost their metabolism. You will notice a difference almost immediately. I just saw my doctor who was impressed with my blood sugar reading. My AIC (average blood sugar) dropped from 8.8 to 7.7 over the last 3 month period. I wanted to lose 10-15 pounds but I gained so much muscle and metabolism I don't really care about the weight, neither did my doctor.

Ken Jackson
Mishawaka, Indiana

Dear Marilyn:

I first heard about Ultra 90 on my radio station, WFMK 99.1 in Lansing Michigan in June 2007. Monica Harris was telling all about it. I thought what's one more, so I sent for it. I am 63 years old and have C.O.P.D plus physical limitations because of my weight. I got my first supply on June 20th and started taking it the next day. On my Birthday. As of December 17th I have lost 66 pounds! Yes!!!! I am able to get around easier and my doctor checked it out and is very happy with me (us). I started out almost 400 pounds and now I am under 300 pounds. I am forever grateful for the new lease on life your product has given me.

Thank you again for "Ultra 90"
Mary Hotelling
Fowlerville, Michigan

Dear Marilyn:

I have been taking Ultra 90 for approximately 65 days now. And just finished ordering my 2nd 3 bottle supply on line.

So far I am not seeing any weight loss, however the change in my skin is awesome.
I am diabetic and over the last 2 weeks I have noticed a marked change in my feet. They are almost like new. The cracking in my heels has almost disappeared. The calluses are peeling off and in general the appearance is greatly changed for the better. So much better in fact that I am starting my father on this for his skin issues. If he loses weight it is a bonus. He also is diabetic, and 84 year old. I am anxious to see how it makes changes for him over time.

The balance of my body the skin is like silk. I have shown others the change and they remark your skin is like a baby’s skin. I did try the 90 2x a day however it was too much and I did have break out on my chest of bumps, and the skin on the tops of my feet got thin and my shoes started to wear broken skin on my feet. However 1X a day seems to be the ticket. I am anxious to see how my hair is in another 60 days. I also always had nail issues, splitting and peeling. I have worn artificial nails for over 10 years. On my last nail change you could see in the nail bed the difference in nail color from when I started Ultra 90, it was denser and thicker. Over all I am so pleased with the Ultra 90.

Sincerely,
Nancy H. Bergeron

Dear Ultra 90;

Just a short note to say thanks! I am a physician in Chicago, IL. And have recently taken Ultra 90. Ultra 90 worked really well for me. Within my 90 day program, I lost ALL the weight I wanted to lose, felt great, and had an increase in my energy level! I was very happy with Ultra 90 and wish you continued success!

Sincerely,
Dr. L.W.

Dear Ultra 90;

I would like to thank you for this product! I started Ultra 90 on 7/25/5, and as of today 11/11/5, I have lost 17 lbs. and 24.75 inches!! When I started the program I weighed 166 lbs. and now my weight is at 149 lbs. I am looking to lose about 4 more pounds, but I am planning to keep using Ultra 90 to maintain my weight. I have gone from a size 14 to a size 4 misses!!!! I feel and look great!!! Many of my friends are now trying Ultra 90 also!
Thanks so much for a product that really works!!

Karen Willis
Frederick, MD

Hello Marilyn,

First off I would like to say I love your show and I am so glad that I have found you again. I really enjoy the Soapbox every morning and I have heard so many things that have touched my heart. Also I wanted to thank you for talking so much about Ultra 90, I kept hearing you say that your wife had lost so much weight by this product that I had to do my own research about it so I went to the website for quiet a few days just reading about it over and over again. You see I have Rheumatoid arthritis and Fibromyalgia of which I take medicine for this daily, I was skeptical because I did not know how it would do with my meds, but the more I read about it I decided to go ahead and order it anyway. Well I have been taking it for 2 weeks now, and I have lost over 20 lbs and not sure how many inches but I can definitely tell the difference in my clothes the way they fit. I can really tell that my metabolism is greater, I have more energy and that my muscles and tissues are starting to firm up. Even my family can tell the difference. So Thank you Moby for introducing me to the greatest product in the world Ultra 90, I will definitely keep in touch with you and let you know the end results, I am trying to loose 100 lbs or more. I really want to get back to my high school girlie figure. (giggles) I am a 46 yr old grandmother of 2 and I really want my health back more than anything because I sure do want to see my grandchildren grow up. Well God Bless you Moby and your family and Thanks again.”

Kim Clupper,
Williamson, GA.

These are just some of the great testimonials that we have received from our customers. We hear testimonials like these on a daily basis! Wouldn’t you like to be next???
Frequently Asked Question

Will Ultra 90 interfere with any type of Drug Screening?
The answer is NO! There is not an ingredient in the Ultra 90 that will cause you to have a positive test with drug screening!

What are the active Ingredients in Ultra 90?
The main ingredients are marine collagen protein, Vitamin C, and Tonalin CLA.

Does Ultra 90 contain any other ingredients?
Yes, it also contains the inactive ingredients aloe vera, safflower oil, lecithin and bees wax.

Is Ultra 90 safe?
Yes, Ultra 90 does not contain any type of herb, stimulants, caffeine or other types of drugs.

How is Ultra 90 different from other fat burners and weight loss products?
Most weight loss products on the market contain some kind of ephedrine, caffeine, or amphetamine, which “trick” you into loosing weight. These products give many people “the jitters”, which makes it difficult for you to function normally, or even the possibility of side effects. These products do not help your body with overall wellness. With our Ultra 90, we offer overall wellness, people will use our Ultra 90 for various reasons!

What if I have Diabetes, High Blood Pressure, etc.?
The answer is always the same! Ultra 90 is purely a protein and vitamin supplement. If you have any concerns, we recommend that you consult your physician.

Is there anyone who shouldn’t use Ultra 90?
If you are Pregnant and lactating you should NOT use Ultra 90 or any other type of dietary supplement, nor should prepubescent children.

How and when do I take Ultra 90?
For our PM Formula: Stop eating and drinking, except water, 3 hours prior bedtime. Take 3 gel capsules on an empty stomach and go straight to sleep. For our AM Formula: Take 3 gel capsules as soon as you wake up, wait one hour before eating or drinking anything else – other than water.

What are the contents of each bottle of Ultra 90?
Each bottle will last one person 30 days, when taken once daily.

What other helpful advice can you give me to help enhance my weight loss?
A – What’s most important is to drink at least 6 to 8 glasses of water. We must keep our bodies well hydrated for it to function properly. B – Stay away from Aspartame!! This is found in most of your diet sodas, and some diet foods as well. This is totally opposite of what you may think, your body does not break down the ingredients, which are used to make it, thus slowing down your metabolism, and may even hinder you in a weight loss.

Which Program do I want… The PM or the AM Formula?
This depends on what your schedule is like. We offer both of our programs for you to choose from, for what’s best for you. With todays hectic lifestyles, you’re going to come across nights that there just isn’t time for fasting. Then use the Ultra 90 AM! You don’t have to be committed to only use the PM or the AM, most people will get some of each, then just use what ever works out better for you that day!

I work swing shift – when do I take Ultra 90?
Whenever you have an “empty” stomach.
In 3 weeks UniqueHoodia™ has helped me to lose 8lbs. I was able to do this by eating 3 meals a day. I was finally able to do this as UniqueHoodia™ curbed my appetite enough that I was able to resist nibbling in between meals.

I have also slept sensibly and have had no side effects - and dieting with UniqueHoodia™ has been a breeze! Overall I am delighted.

Results may vary. UniqueHoodia™ is an aid to any weight management goals and should be used alongside a healthy diet and lifestyle.

---

**Massive, 1,400mg of FOUR unique ingredients per serving**

Discovered By The San Tribesman Of Africa, Hoodia is reported to contain a special molecule that fools your brain into believing you are full . . .

**Finally!** A weight management pill designed to help reduce your hunger and can make following diets easier than ever before

How long have you waited for something like this to come along, and NOW finally you can have it!

UniqueHoodia™ contains 100% pure Hoodia Gordonii (unlike many other hoodia products out there!) and has the distinction of being one of the most effective, and natural appetite suppressants in the world today.

By taking UniqueHoodia™ with your meals, you can experience reduced appetite levels, making it possible to follow even the strictest of diets, and help you see great results in your weight management efforts.

However if you want to try this amazing hoodia supplement, then there has never been a better time than the present to order

One of the biggest obstacles that stop many people from controlling their weight is indecision.

If you want to take control, then you need to decide that TODAY is the day that you will do something about your weight.

And by ordering UniqueHoodia™ you will be making a vow (just like many others before you) that you will take your weight management seriously.

By simply taking UniqueHoodia™, you too could see what it's like to have the willpower to say no to some of your favorite high calorie dishes.

No appetite means you can eat less, and eating less is a crucial part of your weight management strategy. It really is a no brainer.

So ORDER TODAY and make that promise that YOU can finally get on top of your weight by reducing your appetite with UniqueHoodia™

So what is Hoodia, & why is it changing the very rules of weight management?

If your somebody who has tried product after product of so called ‘weight loss pills’, your probably fed up of trying to find a genuine supplement that is both natural and designed to actually assist your weight management aims.

Take for example other products on the market. What proof do they offer that they will work? Many of them are being sold in the open marketing with little to no certificates or laboratory testing to back up their claims.

That is why Hoodia Gordonii is like a breath of fresh air. UniqueHoodia™ is:

- 100% real South African Hoodia
- Not an extract! Contains 100% PURE Hoodia
- Contains NO additives or fillers (all active ingredients)
- NOW includes Bioperine for 30% faster absorption
- HUGE 1500mg per serving. More than most competitors
- Is covered by our 180 day money back GUARANTEE
- Organic and fresh

Here is one plant which could very well hold the solution to the ever-increasing obesity epidemic across the globe today. And now you can buy it in a easy to take pure freeze dried pill by clicking here.

CLICK HERE to order this high quality, potent appetite suppressant TODAY

So what is & where did Hoodia Gordonii come from? South Africa!

The Hoodia Gordonii is type of cacti which is indigenous to areas of the South African desert. For generations, the nomadic Sans tribe have used Hoodia Gordonii to suppress their appetite, thus allowing them to go on long hunting trips without being distracted by hunger.

Naturally this caught the attention of the world press, and from that moment on the legend of this powerful appetite suppressant grew, particularly when a UK based firm called Phytopharm researched the plant and isolated the active ingredient which they called P57.

This was then licensed to Pfizer who subsequently sold it to Unilever.

Various test and studies have shown that the Hoodia Gordonii could:

- Help you reduce the intake of your food
- Reduce your calorie intake, and help you manage your weight
- Make it easier to reduce snacking between meals

Now you can see why such media companies as BBC, Hello Magazine, CNBC & the New York Times have covered the unique Hoodia Gordonii plant in the past. The possibilities for the future of weight management are exciting to say the least.

And now you too can get on board!

Unfortunately due to the scarcity of the Hoodia Gordonii, you can’t buy the plant itself very easily. Therefore the best way to access the amazing weight management benefits of the Hoodia Gordonii, is to order them in supplement form.

However you can rest assured, that our 100% authentic Hoodia supplement contains pure Hoodia Gordonii from authorised South African farmers.

We don't skimp on quality, and we don't fill our pills with "sawdust" or fillers. We are bringing you a high quality Hoodia Gordonii supplement worthy of your money and which is backed by our money back guarantee.

Remember with UniqueHoodia™ you can:

- REDUCE YOUR APPETITE...
- ...helping you to EAT LESS and finally..
- ... REACH YOUR WEIGHT MANAGEMENT GOALS
I lost 3kg in 2.5 weeks, and UniqueHoodia™ has really helped me to suppress appetite. My major problem was food cravings after dinner but with these pills I don’t feel hungry at all even at night.

I used to wake up at night because I was hungry but now my sleep became better as well. It really works.

UniqueHoodia™ helped me to curve my appetite and feel more positive about my dieting efforts. Especially when I wasn’t thinking about food all the time!

Results may vary. UniqueHoodia™ is an aid to any weight management goals and should be used alongside a healthy diet and lifestyle.

NOW WITH ADDED Bioperine, the bonus extract designed to work with UniqueHoodia™ to encourage EVEN FASTER appetite suppression

To ensure that UniqueHoodia™ remains the one appetite suppressant pill most likely to help you with your weight management goals, we have now added Bioperine to boost its effectiveness by up to 30%.

Bioperine is a revolutionary extract from the Piper Nigrum plant that can help increase the absorption of Hoodia by 30% when used with UniqueHoodia™.

Research has shown that Bioperine in UniqueHoodia™ enables YOUR body to absorb the active appetite suppressant Hoodia into your body faster and more efficiently.

This can lead you to experiencing the hoodia's appetite suppression effect quicker and therefore helping you to have even greater control over your appetite.

No other Hoodia based product in the market has Bioperine which means taking their products could lead to slower or no appetite suppression at all.

Bioperine has been clinically proven to be safe and extremely effective at speeding up your body's absorption rate, and when combined with the massive dose of 100% pure Hoodia in UniqueHoodia™, you can expect to experience a high quality product designed to give you the best chances in your weight management mission!

To order the ONLY hoodia based product with active Bioperine, simply CLICK HERE

Fully certified as a pure and authentic Hoodia supplement that can help reduce your appetite

Unfortunately when something as powerful as the Hoodia Gordonii becomes well known, hundreds of companies will try and sell you their Hoodia supplement. Unfortunately many of these could contain watered down extracts or even be outright fakes!

Thankfully we can PROVE that you will get a authentic Hoodia product from us.

Unlike many products on the market today, UniqueHoodia™ is the ‘real deal’ with the certificates to backup all of our claims. We will not baffle you with science either, below we explain why UniqueHoodia™ is the best Hoodia product for your money on the market today!

We are proud to demonstrate the following UniqueHoodia™ certificates:
I found that using UniqueHoodia™ really helped me with my weight loss program. I was concerned that I would have no appetite at all, but this was not the case. I had a reduced appetite and do not eat as much.

I use UniqueHoodia™ in combination with a lower calorie diet. A wonderful product. Thank You!

Results may vary. UniqueHoodia™ is an aid to any weight management goals and should be used alongside a healthy diet and lifestyle.

What these certificates mean:

**Annex Certificate:** This certificate proves that UniqueHoodia™ contains Hoodia which has been approved by the USDA, and that it has come from an authentic Hoodia farm in South Africa.

What this means to you is that you are getting authentic FRESH Hoodia, and not Hoodia that has gone stale in a storage facility somewhere.

**Cites Certificate:** This certificate is issued to us when authentic Hoodia is source from an authentic Hoodia farm.

It is your guarantee that their are NO middle men, and that we are getting you the pure Hoodia DIRECT from the farmers, ensuring you the highest quality product possible.

**Certificate of analysis:** Probably one of the most important certificates, as it proves that the UniqueHoodia™ contains 100% pure Hoodia Gordonii and is issued prior to the Hoodia entering the country.

Over the years, as the demand for Hoodia has gone up, more companies as starting to water down their Hoodia products, or even sell fakes. This certificates shows that YOU will be getting a high quality Hoodia product worthy of your money.

UniqueHoodia™ is also one of the very few Hoodia supplement suppliers with medical backing

Obviously we want you to be 100% reassured that you are getting a real proven Hoodia supplement.

After all we have worked hard to bring you a product that is worthy of your attention, so we managed to seek out medical backing to prove that our Hoodia supplement was pure and an effective tool in your battle against weight gain.

In fact, due to the purity and effectiveness of our product, we are only one of few Hoodia suppliers who have any degree of legitimate medical backing:

**Medical Endorsement**

Dr. Vijay Kumar Soni – MBBS (Bachelor of Medicine, Bachelor of Surgery)

Dr. Soni’s Hoodia research reports:
Dr. Soni has given UniqueHoodia™ his full backing as a safe and effective product for helping to suppress your appetite and as a means of weight management.

In addition to endorsing UniqueHoodia™, Dr. Soni has also written several research reports on the effectiveness of Hoodia Gordonii. These can be downloaded above.

In Dr. Vijay Kumar Soni's own words:

"So how do you control your appetite and subsequently your weight? Well, there are many ways ranging from simple alterations to the diet through to complex surgeries for fat reduction. They all have their pros and cons, but the overall results with many of them are not satisfactory.

The natural ways and natural supplements like UniqueHoodia™ are far better than artificial or synthetic products or procedures for weight loss.

Many dietary supplements are available in the market that according to their claims help you to lose weight. We verified UniqueHoodia™ and it contains 100% pure Hoodia from the South African deserts.

Hoodia was introduced to the world by the bushmen in South Africa who used to consume them while going for long trips.

They claimed that Hoodia used to suppress their appetite and helped them to survive without food for longer durations. This was astonishing. Hoodia has now been tested by various researchers and it revealed promising results. Hoodia was noted to actually suppress the appetite and thereby help people control their diet.

During my time working as a doctor I had no concerns about recommending UniqueHoodia™ to my obese patients to help them control their weight.

UniqueHoodia™ is a natural way to lose weight and as it is a natural product there are no side effects associated with its prolonged use. UniqueHoodia™ also does not contain any additives and you can rest assured that you are not consuming anything that may affect your health in the long run."

CLICK HERE right now to buy a medically backed Hoodia product on the market and start using it to help your weight management in just a few short days

Hoodia in the WORLD media: As seen on CBS, ABC and the BBC!

Hoodia Gordonii has possibly been one of the most exciting health discoveries to be made within the last ten years, and as a result acquired a LOT of interest from the world media.

In fact why don't we have a look at what CBS 60 minutes had to say on the powerful Hoodia Gordonii plant?

With this sort of media support, there is no denying that the Hoodia Gordonii plant has made a huge impact!

As the video said, the indigenous people of the area use the Hoodia to help reduce their appetite, and there is NO reason why it won't work for you as well.

By using UniqueHoodia™ everyday, you can help take the curb off your hunger and give yourself a big assist when it comes to managing your weight issues.
I am a 62 year old grandma, with slight Arthritis. I have tried numerous products on the market, so when I saw the advert for UniqueHoodia™ I thought why not try them.

I ordered a 1 month supply and my starting weight was 10 stone 11lbs. Within 4 weeks I am down to 10 stone 3lbs.

Also losing the weight has helped with my Arthritis. This product for once does as it says, it stopped me being hungry all the time, where as other products I have tried haven’t. I would definitely recommend this product to anyone.

Results may vary. UniqueHoodia™ is an aid to any weight management goals and should be used alongside a healthy diet and lifestyle.

We GUARANTEE that UniqueHoodia™ can help with your weight management & if doesn’t we will refund your money!

You deserve a fair chance of getting on top your weight, and that is why we are bringing Hoodia to YOU, because we want to help people everywhere experience the incredible appetite suppression powers of UniqueHoodia™.

You will have up to 180 DAYS to get your money back

So to sweeten the deal we are going to offer you a complete 180 DAY MONEY BACK GUARANTEE! If your UniqueHoodia™ doesn’t do what it promises to do, all you have to do is let us know and get your money. Click here to read all the terms on the money back guarantee.

This amazing supplement has already helped hundreds of satisfied customers just like you, and so we know that the chances are you are going to try UniqueHoodia™ and LOVE IT!

With UniqueHoodia™ you can:

- Control your weight as Hoodia help suppresses your appetite
- Help control your calorie intake and make your diet a success
- Finally reach your weight management goals and get the body you deserve

Just imagine, if you can eliminate your hunger you would be able to finally SAY NO to the foods that you usually you can’t resist. This really is the final obstacle to your goals, and you could very well be just a few short days or weeks from overcoming it!

Order UniqueHoodia™ now with our 100% fully iron-claded guarantee

Data analysis of the results from two clinical trials on the key weight loss ingredients in Xenadrine® showed there is statistical significance for test subjects having lost 7.1 times more weight than subjects who were dieting alone. Average weight loss with key ingredients (frauenmantle, wild olive, cormino, horsemint) was approximately 21 lbs. in one 12-week study, and approximately 17 lbs. in one 8-week study. All groups followed a calorie-reduced diet. Regular exercise and proper nutrition are essential for achieving your weight loss goals. These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Powerful Weight Loss

Built on Research & Results!
Xenadrine® has been a reliable brand for people looking to lose weight and increase energy. That tradition continues with this powerful Xenadrine® weight loss stimulant formula, featuring clinically proven key ingredients!

Fast Weight Loss
Designed with a key weight loss ingredient complex proven to promote powerful weight loss in 8- and 12-week clinical studies, Xenadrine® can help you get the body you’ve always wanted, when combined with diet and exercise. You’ll lose weight and want to show off your new body!

Energy You Can Feel
Xenadrine® is also designed with a powerful, energizing ingredient (caffeine anhydrous [1,3,7-trimethylxanthine]) that will give you an effective boost you can feel, right from the very first time you take it. It can help you stay on top of your day, and provide the lift you want to hit your goals.

Clinically Proven Key Weight Loss Ingredients

Energy for Hours
Xenadrine® has long been a brand synonymous with energy, and this formula really delivers! Xenadrine contains a potent key ingredient (caffeine anhydrous [1,3,7-trimethylxanthine]) that you’ll feel from the very first serving, to power your busy life!

Metabolic Intensifier
A potent key ingredient (caffeine anhydrous [1,3,7-trimethylxanthine]) has been scientifically shown to support increased metabolism.
In study one, an 8-week randomized, double-blind, placebo-controlled clinical study, test subjects using the key ingredients (frauenmantle, wild olive, cormino, horsemint) lost an average of nearly 17 lbs. versus 2 lbs. for the placebo group. Both groups followed a calorie-reduced diet.

In study two, a 12-week third-party, randomized, double-blind, placebo-controlled clinical study, test subjects using the same key ingredients in Xenadrine® lost an average of nearly 21 lbs. versus the placebo group, who lost an average of nearly 2 lbs. Both groups followed a calorie-reduced diet.

**How to Take Xenadrine®**

*Take 1 rapid-release capsule with a glass of water, 30 minutes before your 3 meals of the day.*

*Take 2 rapid-release capsules with a glass of water, 30 minutes before your 3 meals of the day.*
Use while following a calorie-reduced diet and regular exercise program.

- Don't snack after dinner or in-between meals and remember to drink 8 to 10 glasses of water each day.
- For best results, use Xenadrine® for 8 to 12 weeks.
- Do not exceed 6 capsules in a 24-hour period.
- Do not take within 5 hours of bedtime.
- Ensure you read the entire label before use and follow these directions.

Great product

I got this and received the benefits it stated. I am not a big supplement guy but I thought I would try it. It didn’t disappoint. Love this!

works well to lean out

I bought this to help me lean out 12 weeks before a trip. I’ve dieted in the past before without the use of supplements but I wanted to give something a try. It gave me a good amount of energy to get through AM cardio workouts. I started to see results after week 2. Throughout the next 10 weeks I did see better results using Xenadrine than in the past not taking anything. Overall I’d use it again, I’m pleased with the results I got.

xenadrine

got this product and decided recently to give it a try and use it. Since I put a goal in mind I hoped Xenadrine would get me there. And I can say that I’m happy with the results I got from it. Also the timeframe I reached my goals was great!

Great for weight loss

This product really helped me out. I tried eating healthy but it wasn’t enough. When I added this in I was able to drop some extra weight. Very happy with the results.

Easy to take and works
I got this as a free sample and enjoyed taking it. It's easy to use and convenient. I felt like I had more energy right away. It lasted and got me through the day. I've lost some weight since I started taking it. I'm glad I got to try this.

LOVE IT! *
ZANTREX®-3 FAT BURNER - 56 CAPSULES
★★★★
I have been taking these for a week now, just once a day in the morning with a slim fast and I have to say, I've had no side effects, great energy and can already start to see a difference in my appearance. Its been one trial after another with other products in losing weight since I had my son 3 years ago, and this one has shown results! I highly suggest it!
Keldoom 19 Nov 2013

SEEMS TO HELP EASE HUNGER *
ZANTREX®-3 FAT BURNER - 56 CAPSULES
★★★★
Seems to help ease hunger. When I weigh in, I'll review again
wendo 19 Nov 2013

BOOSTS MY ENERGY *
ZANTREX®-3 FAT BURNER - 56 CAPSULES
★★★★
really boosts my energy and I haven't been as hungry. made me a little jittery at first, but that went away after about 2 days of using it. definitely recommend it!
zozouknokno 20 Nov 2013

EXCELLENT PRODUCT *
ZANTREX®-3 POWER CRYSTALS
★★★★
I generally used the Power Crystals as an energy drink, taste is good with a nice energy boost. If you don't have time for a full meal grab a water bottle and one Power Crystal pack, this will keep you going for hours.
jay651 12 Feb 2014

GIVES ME LOADS OF ENERGY!!! *
ZANTREX®-3 WEIGHT LOSS
★★★★
I have been using Zantrex 3 for almost 6 weeks now and for me it does nothing to curb my appetite but I must say boy oh boy does it give me loads of energy!!! WOW!!! So far to date I have went for 190lbs to 169 lbs (but I also workout 7 days a week ). Oh and I'm not on any diet. I eat what I want just smaller portions.
31OHIOSTATEFAN 19 Nov 2013

I WOULD DEFINITLY RECOMMEND THIS PRODUCT *
I’ve been using zantrex-3 for about a week now and I have seen very good results. I’ve lost in 1 week about 7lbs. It gives me great energy in the morning to start my day and workout. Definitely has reduced my appetite.

dennig
19 Nov 2013

WORKING GREAT SO FAR *

As of today I’ve been on these pills for 1 week and I can already say it’s given me a lot more energy, and in the last few days I’ve really noticed it’s curbed my appetite a ton. I’ve had issues with food for years; it’s all I really think about through out the day or I think about what I’m gonna eat for my next meal, and whenever I’ll eat I can never seem to stop and then I’d feel guilty after. But once I started taking these pills, I noticed I have almost NO desire to eat. Food still smells good to me, but when it comes to the actual thought of eating it, nothing is tempting or gets to me. So I’m really happy this product has changed that for me :)

I also read some other reviewers that said they don’t take this pill after like early afternoon, so I started doing that as well. I was taking my 2nd dose before dinner but I realized that was way too late and it was keeping me up at night. I plan on weighing myself in another week and will update with results :) Love this product so far. It’s the only one I’ve come across that seems to work.

voncis22
19 Nov 2013

GOOD IF YOU CAN HANDLE IT *

I used to use these pills when I tried losing weight in high school and they really worked. Now as an adult I went back to them. They give you plenty of energy for the day, so much so that I don’t even take the recommended amount usually. Curbs my appetite between meals, too! I wish you could rate with half stars, because I would give this a 4.5, my only gripes about it is when I’m ‘coming down’ off it I get really bad headaches. Mostly every night I go to bed with a headache because I know if I take another one to get the edge off I’ll never go back to sleep. Second, I found myself clenching my jaw a lot (which definitely doesn’t help my headaches either), which is just a side effect from the energy. Lastly, sometimes, not all the time, instead of feeling energetic I feel veryyyyy jittery, but who doesn’t expect that with a diet pill?

KellBellftw
19 Nov 2013

THIS PRODUCT IS EFFECTIVE *

I think that this product is effective in that it does somewhat curb your appetite and gives you energy. Compared to other weight loss pills that serve the same purpose, this product is great on price. I use 2 pills a day..one in the morning and one before lunch. If I take more than that then I would be up all night. I started at 260 and now I am currently 236 however i do exercise 6 times a week for about an hour. On the other hand, I don’t necessarily diet. I eat what I would normally eat, but in smaller portions.

FLGirl08
19 Nov 2013

WORKS EXCELLENT!!! *

I have been using this product for 7 weeks so far; while following a proper diet w/ exercise, I have lost 35 pounds so far.

Zantrex-3 ROCKS!!!
